General Catalog Information

Mississippi College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelors, masters, education specialist degrees, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Mississippi College. The commission is to be contacted only if there is evidence that appears to support the university's significant noncompliance with a requirement or standard. Visit the Mississippi College Home Page on the World Wide Web. http://www.mc.edu

Volume 101 Number 2

Students entering Mississippi College for the 2016-2017 session (effective May, 2016) must meet major and minor requirements as set forth in this edition or as in any agreement made with other institutions, as well as the general degree requirements for graduation contained herein.

A student readmitted after an interruption of more than two years in the course of study at Mississippi College may, at the discretion of the University, be required to fulfill the graduation requirements in the catalog in force at the time of readmission.

This Catalog does not constitute a contract between the University and its students. The University reserves the right to change any of its regulations, charges, rules, and courses without notice and to make such changes applicable thenceforth, not only to new students but also to students already registered.

Mississippi College offers curricula in various professional fields, as well as general or liberal arts education. In the professional fields, curricula generally include both academic and practical or clinical requirements. In some professional fields (such as nursing, teacher education, and others) it is necessary to pass an examination or other requirements of the professional organization in order to be admitted to the profession.

Curricula at Mississippi College are designed to expose students to the skills and knowledge essential to the relevant profession, and the student must successfully complete the requirements of the appropriate curriculum in order to receive a degree. However, Mississippi College cannot guarantee that any student admitted to a given program of study will complete that program successfully. Neither can Mississippi College guarantee that one who completes the degree program will pass the external examination of the professional organization or secure employment in the profession. These factors are not within the control of Mississippi College.

All undergraduate students enrolled at the University are subject to all rules and regulations as specified in the The Tomahawk. Copies of The Tomahawk may be secured from the Office of the Vice President for Enrollment Management and Student Affairs, Nelson Hall, Room 313 or accessed on the Mississippi College website at http://www.mc.edu/student-life/student-handbook/. Failure to read The Tomahawk does not excuse students from the requirements and regulations contained therein.

No commercial solicitation is allowed on Mississippi College property or of Mississippi College students. It is the goal of Mississippi College to assist in the development of good health and clean air. All buildings including areas near entrances and exits on the Mississippi College campus - Academic, Administrative, Athletic, Residential, and the Student Center - are declared to be "smoke free" and all persons associated with the University are expected to adhere to the policy of "No Smoking."

Written Student Complaints: Students who have complaints that they want to have addressed about any aspect of the collegiate experience should submit the complaints in writing to the Vice President for Enrollment Management and Student Affairs, Nelson Hall Room 313 or send to Mississippi College, Box 4007, Clinton, MS 39058; or to the Vice President for Academic Affairs, Mississippi College, Box 4002, Clinton, Mississippi 39058.

About the University

Mission

Mississippi College, governed by a Board of Trustees elected by the Mississippi Baptist Convention, is a private, co-educational, comprehensive university of liberal arts and sciences and professional studies dedicated to the pursuit of academic excellence. Founded in 1826, Mississippi College is the oldest institution of higher learning and the largest private university in the state of Mississippi. As a Christian institution, Mississippi College values the integration of faith and learning throughout the educational process.

Consistent with its Baptist heritage and relationship to the Convention, Mississippi College provides a quality Christian education for its student population. Students select the University because of the quality of its academic programs, Christian environment, and location. The University strives to recruit students who demonstrate excellence in scholarship, leadership, and church/community involvement. The majority of students come from Mississippi and other southeastern states.

Mississippi College stimulates the intellectual development of its students through the liberal arts and sciences and concentrated study in specialized fields, including preprofessional and professional programs. Furthermore, the university environment promotes the spiritual, social, emotional, and physical development of its students and encourages them to utilize their skills, talents, and abilities as they pursue meaningful careers, life-long learning, and service to God and others. The University emphasizes those undergraduate, graduate, and professional programs which offer opportunities for service. Additionally, the University reflects its responsibility of service to the community through a variety of learning opportunities and numerous cultural enrichment experiences.

Mississippi College is committed to excellence and innovation in teaching and learning. The University seeks to employ and retain faculty who are dedicated to teaching/learning and advising students, who support and engage in scholarship and creative activities that advance knowledge, and who seek to continue their own professional development. The University also seeks to employ and retain staff and administrators who are equally dedicated to supporting these efforts. Furthermore, the University selects employees who reflect Christian values and a commitment to service. Mississippi College is an equal opportunity employer in accordance with Title VII and applicable exemptions.

Official mission statement as adopted by the Board of Trustees 1998

Vision

Mississippi College seeks to be known as a university recognized for academic excellence and commitment to the cause of Christ.

Statements of Compliance
Mississippi College is a Christian University affiliated with the Mississippi Baptist Convention. The Mississippi Baptist Convention elects all members of the Board of Trustees of the University.

Mississippi College complies with all applicable federal and state nondiscrimination laws, and does not engage in prohibited discrimination on the basis of race, color, national or ethnic origin, sex, age, genetic information, veteran status, or disability in admissions and employment. As a religiously affiliated university, Mississippi College is exempt from provisions of certain nondiscrimination laws.

Family Education Rights and Privacy Act of 1974, as amended
The Family Educational Rights and Privacy Act of 1974, and subsequent amendments, is a federal law that protects the privacy of student education records. Students have specific, protected rights regarding the release of such records or information contained therein. Mississippi College will release confidential or personally identifiable information only with the student's written consent and will release information defined as "Directory Information" only in the best interest of the student. Students may file a consent form in the Office of the Registrar giving permission for non-directory information to be released to their parent(s) or third parties. If an undergraduate student does not wish to have any information released for any reason, he/she may file a written request to that effect in the Office of the Registrar. A confidential notice will be placed on the student's record and this confidential status will remain on their record permanently until a signed release by the student is filed with the registrar. Graduate students may file a request for confidentiality with the Dean of the Graduate School. Questions or complaints regarding FERPA rights should be directed to the Vice President of Academic Affairs (MC Box 4002, Clinton, MS 39058) or the Vice President of Enrollment Services and Dean of Students (MC Box 4007, Clinton, MS 39058). Complaints regarding alleged failures by Mississippi College to comply with the requirements of FERPA may also be filed with the
Family Policy Compliance Office, U.S. Department of Education 400 Maryland Avenue, SW Washington, DC 20202.

Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990

In accordance with Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act, Mississippi College does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities. If students need special accommodations they should direct their inquiries to Student Counseling and Disability Services, Mississippi College, Alumni Hall, Room 4, Telephone: 601.925.7790.

Title IX

Title IX of the Education Amendments of 1972 states, "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving federal financial assistance . ." Mississippi College does not discriminate on the basis of sex in employment, admissions, student retention, or other educational programs except in those instances which are claimed and exempted on the basis of the religious tenets of the Mississippi Baptist Convention. Inquires and complaints regarding the application of Title IX may be directed to Dr. William Townsend, Vice President of Advancement and Legal Counsel to the President (MC Box 4005, Clinton, MS 39058). Alleged violations of Title IX should be directed to Dr. Debbie Norris, Vice President for Planning and Assessment and Graduate Dean and Title IX Coordinator (MC Box 4029, Clinton, MS 39058).

Accreditation

Accreditation is an important assurance to the university student. Mississippi College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelors, masters, education specialist degrees, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Mississippi College.

Size and Location

Although Mississippi College is the largest private university in the state, it is still small enough to retain a friendly quality. Located in the community of Clinton in the center of the state, the University is ten minutes away from Jackson, the state capital and largest metropolitan area in Mississippi. A wide variety of activities is available to university students living in such a setting.

Mississippi College profits from its ideal location and, in turn, the University contributes to the community. The educational needs of a metropolitan area are changing, and Mississippi College responds to those needs by expanding its instructional programs. About 3,042 students are enrolled for undergraduate studies. The undergraduate program includes 9 degrees. Approximately 1,486 students are enrolled in the Graduate School which offers work leading to 15 graduate degrees. In response to the need for legal education in the area of the state capital, Mississippi College has a School of Law with about 542 students. Both the School of Law and the Graduate School publish their own catalogs which may be secured from their respective Web sites.

Academic Resource Facilities

Mississippi College provides learning resource facilities which enhance the teaching/learning environment on campus. The major facilities are the Leland Speed Library, the Roger Hendrick Learning Resources Center, computer laboratories, and the multimedia language laboratory.

The Library

The Leland Speed Library, constructed in 1958, provides facilities and materials for reference, research and independent study. Speed Library is open 86.25 hours per week during the fall and spring terms with reduced hours during the summer session.

Library holdings include more than 253,818 volumes. The library subscribes to 581 print periodicals and purchases access to more than 29,918 full-text periodicals and journals in electronic form.
The library catalog includes the holdings of Speed Library, the Learning Resources Center, and the Law Library. Access is also provided through the library to many full-text electronic databases including: EBSCOhost, Gale, JStor, Lexis-Nexis, and Project Muse.

The Roger Hendrick Learning Resources Center located on the main floor of the library was constructed in 1975. The LRC provides facilities and multi-media for instructional support, research, and individual study.

The media collection numbers over 12,969 titles and consists of DVDs, video tapes, films, scores, music recordings, slides, and audio tapes. The LRC also houses a fully equipped television production studio.

The collections of the Mississippi Baptist Historical Commission are housed in Speed Library. The Mississippi College Room houses items of historical interest concerning Mississippi College and an over 1,000-volume Alumni author collection.

**Computer Laboratories**

Computer laboratories are available in several locations across the campus. Students have accessibility to learning resources via the World Wide Web. Academic computer laboratories are located in Self Hall and MCC. There are more than 120 state of the art computers with the latest academic software and photo quality color printers. Academic computer laboratories are also equipped with net cameras so lectures can be broadcast live via the internet. Open seven days a week to accommodate student schedules, academic computer laboratories provide online and CLEP tests in addition to other valuable services.

**Faculty**

The institutional goal of academic excellence is achieved through the quality of instruction. Mississippi College's faculty is dedicated to teaching. A high percentage of the faculty holds earned doctorates, and over fifty percent of those who teach undergraduates also teach graduate courses. Mississippi College professors are competent, serious about their work, and interested in their students. Although also engaged in research and other types of professional work outside the classroom, they consider teaching to be their highest priority.

**Organizational Structure of Academic Programs**

Many choices are available to students at Mississippi College when they reach the point of deciding upon a major field of study. The instructional program is divided into one college, made up of three schools, and five additional schools: the College of Arts and Sciences, consisting of the School of Christian Studies and the Arts, the School of Humanities and Social Sciences, and the School of Science and Mathematics; the School of Business, the School of Education, the School of Nursing, the Graduate School, and the School of Law.

Mississippi College is classified as a comprehensive university because of the breadth of programs and degrees. Undergraduate degrees are awarded in 80 fields of study and graduate degrees are awarded in over 25 fields of study. Graduate degrees may be earned in a variety of Master's degree programs. In addition, the Specialist in Education (Ed.S.), the Master of Fine Arts (M.F.A.), the Doctor of Education (Ed.D.), the Doctorate of Professional Counseling (D.P.C.), and the Doctor of Jurisprudence (J.D.) degrees are offered. The undergraduate curriculum is centered on a "university core curriculum" which is comprised of the basic courses required of all undergraduate students. These fundamental courses provide a strong basis upon which to build a more specialized course of study.

For students who wish to prepare for professional school, several pre-professional programs are available at Mississippi College. They include premedical, predental, prepharmacy, prelegal, pretheological, preengineering and pre-physical therapy.
Detailed information on graduate programs is found in the *Graduate Catalog*, and detailed information on the School of Law is found in the *Law School Catalog*.
Admissions

General Policy
Undergraduate admission and readmission decisions are made by the Office of Enrollment Services based on a variety of factors including, but not limited to, academic records, scores on standardized tests (ACT and SAT), an analysis of the application for admission, prior enrollments, lapses in enrollment, relevant character or conduct records, and other criteria as may be relevant. Mississippi College seeks to admit students whose academic preparation and background, personal characteristics, behavior, conduct, and cooperative spirit indicate that they would profit from and contribute positively to the life of a Christian university community. Mississippi College reserves the right to deny admission to any applicant without assigning reason and to reject any applicant, rescind admission, or discontinue a student's continued enrollment if (i) between the date of an application and the start of classes there is a change in the condition or status of any information provided by the applicant that would have been a basis for denying the application when it was reviewed by the Admission Committee or (ii) any information provided by an applicant proves to be untrue at the time of its submission.

Mississippi College complies with all applicable federal and state nondiscrimination laws, and does not engage in prohibited discrimination on the basis of race, color, national or ethnic origin, sex, age, genetic information, veteran status, or disability in admissions and employment. As a religiously affiliated university, Mississippi College is exempt from certain provisions of some nondiscrimination laws. Inquiries and complaints should be directed to the Vice President for Advancement and Legal Counsel to the President (MC Box 4005, Clinton, MS 39058).

All applicants must complete an application online at www.mc.edu/apply. Completed applications should be returned to the Office of Enrollment Services by August 15 for the fall term, between September 15 and January 1 for the spring term, and two weeks prior to registration for each summer term. Early application is encouraged because decisions regarding admission are made on a rolling basis as applications are received.

Applicants must have documented evidence of having had the MMR within the last ten years or evidence of having had two immunizations if they were born on or after January 1, 1957. These must have been given after their first birthday.

Information furnished to Mississippi College must be true and accurate; the withholding of pertinent information or the furnishing of false information may result in denial of admission or in dismissal.

FRESHMEN ADMISSION
In addition to submitting the completed application, prospective freshmen must have satisfactorily completed the graduation requirements of an approved high school. Applicants who have not completed high school will be considered upon achieving passing scores on the General Education Development test (GED). Home schooled applicants must meet the same requirements as other freshmen. Each home schooled applicant must submit a self-reported transcript that demonstrates completion of a high school equivalent curriculum.

All candidates for freshmen admission should submit the following:

2. Transcripts. An official transcript of all high school work completed to date delivered to the Office of Enrollment Services; this transcript must either be mailed from the high school directly or hand delivered by the student in a sealed envelope from the high school. Upon graduation, applicants must
have a final transcript sent to the Office of Enrollment Services, showing date of graduation, signature by the school official and/or an official seal.

3. **Test Scores.** Official ACT or SAT scores for all applicants who graduated from high school within the last five years must be mailed to the Office of Enrollment Services directly from ACT or SAT headquarters or from the student's high school. Score reports brought by the applicant are not acceptable. A minimum composite score of 18 on the American College Test (ACT), or a comparable combined score on the Scholastic Aptitude Test (SAT), is required.

4. **Mumps, Measles, and Rubella (MMR) Immunization Certificate.** Immunization record must verify two MMR shots within the student's lifetime or one within the last 10 years.

5. **Housing.** Students seeking campus housing are required to log in to the online housing portal after they have been accepted. Here they will pay a non-refundable $100 fee and reserve a residence hall room.

**Temporary Permit to Register**
Applicants who decide to attend Mississippi College that have met the required criteria but still have an incomplete admission file will have the opportunity to register for classes under a temporary permit. Required criteria are the conviction question, signature, and Bursar's Office clearance. The applicant must have an overall cumulative GPA of C (2.00) on all work attempted. The applicant will complete the Request for Temporary Permit to Register form in the Office of Enrollment Services. No financial aid will be applied to the student's account until their file has been completed. If the applicant does not complete their file, they will be withdrawn from classes (on the last day to withdraw with 100% refund) and a hold will be placed on their file until the admissions process is completed.

**Early Admission**
Outstanding secondary school students who choose to enter college before graduation will be considered for admission upon completion of the junior year. Application by each student must be supported by a composite ACT score of 24, or a comparable SAT score, a B average on all work attempted, and a recommendation from the high school guidance counselor. A student who has completed seven semesters of high school work with a composite ACT score of 21, or a comparable SAT score, and has a C average and a recommendation from the high school counselor may apply. In addition, Early Admission students are required to meet with the Vice President for Academic Affairs before being accepted to Mississippi College.

**Restricted Admission for Freshmen**
Standard admission to Mississippi College is based upon an ACT score of an 18 or higher (or the SAT equivalent). Students with a 17 ACT (or SAT equivalent) may be admitted on a restricted admission status if high school records indicate an ability to do college work. If admitted, these students will be required to participate in the Developmental Studies Program and will be admitted on restricted admission. The following classes must be completed before restricted admission can be lifted: ENG 100, IDS 111, MAT 100, and IDS 112. At the completion of 24 semester hours, which includes the required developmental studies classes, if the student has not achieved an overall 2.00 or higher GPA, the student will be suspended.

**TRANSFER ADMISSION**
The Office of Enrollment Services will consider community/junior college graduates and transfer students whose transcripts indicate eligibility to return immediately to the school last attended and whose grades show evidence of ability to do college level work. A student is considered a transfer student after 12 semester hours have been successfully completed (2.00 average on a 4.00 system is considered successful) at a regionally accredited institution. Courses must be comparable to courses offered at Mississippi College (See Grades Transferred from Another Institution).
If a transfer student does not have 12 transferable credit hours, they will be subject to freshmen admission standards (ACT score requirements and high school transcript). If a transfer student has less than 12 transferable credit hours and less than a 2.0 GPA, the Director of Admission will evaluate the student's academic history to determine the admission status of the transfer applicant.

**All candidates for transfer admission should submit the following:**

1. **Application.** A completed application - www.mc.edu/apply.
2. **Transcripts.** Official transcripts from all colleges attended to date mailed to the Office of Enrollment Services directly from each college attended. Transcripts can be mailed physically or sent electronically through these approved transcript services: Scrip-Safe, Parchment Exchange, and Credentials Solutions. Student copies are not acceptable.
3. **Mumps, Measles and Rubella (MMR) Immunization Certificate.** Immunization record must verify two MMR shots within the student's lifetime or one within the last 10 years.
4. **Housing.** Students seeking campus housing are required to log on to the online housing portal after they have been accepted. Here they will pay a non-refundable $100 fee and reserve a residence hall room.

**Transfer students should know the following:**

**Credit from Junior/Community College.** Sixty-five hours applied towards graduation from Mississippi College must be earned at a senior college, regardless of the number of semester hours taken at the junior/community college level. This means that the maximum number of semester hours from a junior/community college that can be applied toward a degree at Mississippi College is 65.

**Grades Transferred from Another Institution.** Grades earned on transfer work from other institutions will be shown on the permanent record at Mississippi College but will not be used in calculating the grade point average at Mississippi College.

Mississippi College considers transfer credits earned at regionally-accredited institutions that are comparable to courses offered at the University and in which the student has earned a grade of C or higher. Credit for course work with a grade of C or higher from institutions that are not regionally accredited will be considered for transfer after the student has earned a minimum of 15 semester hours with a 2.0 grade point average at Mississippi College and where such credit represents course work relevant to the degree sought, with course content and level of instruction resulting in student competencies at least equivalent to those of students enrolled at Mississippi College. Grades of D may be transferred if the grades earned on other courses accepted for transfer from that institution pull the average up to C level.

**Dual Enrollment.** Students may not be simultaneously enrolled at Mississippi College and any other institution. Special permission for dual enrollment may be granted only by appeal to the Vice President for Academic Affairs.

**Approval to Take Courses at Other Institutions.** Once enrolled at Mississippi College, a student must have prior approval of any course to be taken elsewhere for credit at Mississippi College. A form for this purpose is available online and in the Office of the Registrar.

**Required Hours Taken at Mississippi College.** The last 33 semester hours must be taken in residence at Mississippi College. A minimum of 12 semester hours must be taken at Mississippi College in the student's major field and 6 hours in the minor; but not more than 45 semester hours may be transferred for credit toward a bachelor's degree on a major in any department. Mississippi College limits academic residency to no more than twenty-five percent of the degree requirements for all undergraduate degrees for active-duty service members. Academic residency can be completed at any time while active-duty service members are enrolled. Reservists and National Guardsmen on active-duty are covered in the same manner.
Transfer Credit
All entering transfer students must provide transcripts of all prior college/university work; these transcripts will be evaluated as promptly as possible by the Office of the Registrar. (See Grades Transferred from Another Institution)
Once enrolled at Mississippi College, a student must have prior approval of any course to be taken elsewhere for credit at Mississippi College. A form for this purpose is available from the Office of the Registrar.

Restricted Admission for Transfer Students
Students who have accumulated a deficit of 15 to 29 grade points from the last institution(s) attended will be considered for admission to Mississippi College on restricted admission. Also, those students who have been suspended from their previous institutions and have sat out of school the required amount of time may be admitted to Mississippi College by the Committee on Enrollment Appeals on a restricted admission status.
Restricted admission students must earn a 2.00 grade point average on their first 15 hours, and the 15 hours may be taken in one semester or over several semesters. Earning a 2.00 grade point average over the first 15 hours will result in the lifting of the restricted admission status; failure to earn a 2.00 grade point average over the first 15 hours will result in suspension from Mississippi College. The Committee on Enrollment Appeals will not address an appeal for a suspended student for a minimum of one year after the student was dismissed.

Readmitted Students
A former Mississippi College student (one who was not registered during the preceding regular semester) must apply for readmission through the Office of Enrollment Services.
2. Transcripts. Transcripts from all colleges attended since the time that the student has been enrolled at Mississippi College must be mailed directly to the Office of Enrollment Services from the colleges attended. Student copies are not acceptable. Students readmitted to Mississippi College after a five-year interval may be required to repeat courses if there have been significant changes in course content.
3. A non-refundable $100 housing fee is required if the applicant desires campus housing.

Readmission on Academic Probation
Students who have previously attended Mississippi College, were suspended, and have been readmitted by the Committee on Enrollment Appeals, will be admitted on academic probation. Students readmitted on academic probation must improve their cumulative grade point average to at least a 2.0 within two full-time semesters or four part-time semesters. At the end of that time frame, if the student has not earned a cumulative 2.0 grade point average, they will not be allowed to continue study at Mississippi College. An appeal will not be heard again for a minimum period of one year. (See Right of Appeal for Academic Suspension section of the Undergraduate Catalog.)
NOTE: If a student is suspended more than two times from Mississippi College, it is highly unlikely that the student will be given another opportunity to study at Mississippi College.

ACCELERATED DEGREE PROGRAM
The Accelerated Degree Program (ADP) is designed for students who wish to complete a degree at night or online in the areas of business, accounting, finance, marketing, communication or sociology. Students wishing to enter the program must be night or online students and be admissible through regular admissions standards. However, a student is considered transfer student in the ADP program after 12 semester hours have been successfully completed (2.00 average on a 4.00 system is considered successful) at a regionally accredited institution. The format of the program is eight week sessions.
NON-DEGREE UNDERGRADUATE ADMISSION

A non-degree student is one who is not working toward a degree. Although credit is given for passing work, the credit is not applied toward a degree. If a non-degree student desires at a later time to pursue a degree, application as a regular student must be made. If the student is admitted as a regular student, the University will determine whether work taken as a non-degree student will be acceptable toward meeting degree requirements.

A non-degree student is expected to abide by the rules and standards of Mississippi College. A non-degree student may be admitted to Mississippi College with an official transcript from the last university attended (if applicable).

Non-degree applicants must provide the following:

1. **Application.** A completed application - www.mc.edu/apply.
2. **Transcripts and ACT.** Freshman applicants must have an official high school transcript mailed directly to the Office of Enrollment Services from the high school attended. Applicants who have not completed high school must have an official high school transcript mailed directly to the Office of Enrollment Services from the high school attended along with an official ACT score and a letter of recommendation from their high school counselor. ACT Score required if Freshman graduated within the last five years.
3. **College Transcript.** Official transcripts from all colleges attended to date mailed to the Office of Enrollment Services directly from each college attended. Transcripts can be mailed physically or sent electronically through these approved transcript services: Scrip-Safe, Parchment Exchange, and Credentials Solutions. Student copies are not acceptable.
4. **Mumps, Measles and Rubella Immunization Certificate.** Immunization record must verify two MMR shots within the student's lifetime or one within the last 10 years.

APPEALS FOR ADMISSION

**Right of Appeal for Academic Suspension**

Undergraduate students placed on Academic Suspension may appeal through an appeals process that originates in the Office for the Vice President for Academic Affairs (VPAA). The VPAA office will determine if the appeal will be reviewed. A successful appeal will return the student to Academic Probation with number of semesters on probation determined by the appeals body. A status of academic probation or academic suspension becomes a part of the student's permanent record. Students who have previously attended MC, were suspended, and have been readmitted by the Committee on Enrollment Appeals, will be admitted on Academic Probation and follow the above process.

**Right of Appeal for Readmission after Academic Suspension**

Any undergraduate student who is suspended for academic reasons has the right of appeal for readmission to the Enrollment Appeals Committee. This committee will consider each case on its merits, taking into account the full academic record, the student's rate of progress in making up deficiencies, and any special circumstances that might reflect on the student's ability and readiness to do acceptable university-level work. One who is readmitted on appeal will be placed on Academic Probation and will have up to two full-time semesters or four part-time semesters to improve his/her cumulative grade point average to 2.00. If the student fails to raise his/her cumulative GPA to 2.0 in the time allowed, the student will be suspended a second time and an appeal will not be heard for at least one year. Inquiries about this policy and appeals process should be directed to the Vice President for Academic Affairs (MC Box 4002, Clinton, MS 39058).
Right of Appeal for Denial of Admission

In the event a student is denied Admission to Mississippi College or has their admission revoked prior to matriculation, the student may appeal the decision through a formal appeal process. Inquiries about this process should be directed to the Office of Enrollment Services (MC Box 4026, Clinton, MS 39058). Applicants denied admission are not eligible to reapply for one calendar year from the date of the unsuccessful application.

International Student Admission

A prospective international student applying for admission as an undergraduate to Mississippi College must provide the following:

1. A fully completed online International Admission Application form (http://www.mc.edu/application).
2. Mississippi College offers three types of admission to international undergraduate: general admission, conditional admission, and Link program.
   - General Admission: Students can apply for admission to an academic program and meet the English proficiency requirements using TOEFL or IELTS scores. If students can submit an original TOEFL IBT score of 69 or an original IELTS score of 5.5, then the requirement to take the institution's English proficiency exam will be waived. Original scores or certified/attested copy must be sent directly to the Office of Global Education at Mississippi College either from the testing service or from a partner agency in order to be considered for general admission.
   - Conditional Admission: Students who want to apply for admission to an academic program without TOEFL or IELTS scores and meet the minimal requirements for academic admission will be 'conditionally' admitted based on the ability to demonstrate English proficiency upon arrival to the university. The student can do this in two ways: 1) make a passing score on the institution's English proficiency exam upon arrival to the university, or 2) enroll and graduate from the institution's Intensive English Program. Once the student demonstrates English proficiency, he or she will be allowed to meet their academic adviser and enroll in their academic course of study.
   - Link Program: This program is a transition between full-time language instruction in IEP and full-time academic classes. International students who qualify for this program are those who have an advanced-high language proficiency level for IEP, but who have not met the general admissions English language proficiency requirement. These students are permitted to take limited academic courses along with pre-selected English language assistance courses. Students will be admitted into the Link program if they can submit an original TOEFL IBT score of 65-68 or an original IELTS score of 5.0 and/or successful completion of previous language instruction, which includes those taken from MC or other acceptable institutions. Conditionally admitted students may also be admitted to the Link based on their performance on the Intensive English Program's Placement Exam.
3. A financial statement indicating ability to finance study during one year at Mississippi College. The applicant must provide evidence of sufficient financial support for personal living expenses such as vacation room and board, educational supplies and transportation. There are approximately sixty days in the calendar year (vacations and semester breaks) for which on campus residential accommodations are not available. Students must decide if they will be in residence halls during these periods. Additional charges for residence halls during vacations and semester break periods will apply. Please contact the Office of Global Education to determine the current amount required.
4. A $40.00 non refundable Application fee is required. The application fee will increase to $60 one month before the deadline. This fee may be paid by bank draft, personal check, or paid by credit/debit card through Peer Transfer.
5. Transcripts of all high school and college grades with literal translations into English. Students attempting to transfer credits received in secondary degrees or courses completed at universities outside the United States must request a Course-by-Course Report from a credential evaluation service. The student must pay for the evaluation. Transcripts from institutions located in the United States must be mailed from these institutions directly to the Office of Global Education at Mississippi College.

International students should visit the Office of Global Education's website (www.mc.edu/international) for details concerning admission requirements before contacting the Office of Global Education.

Students will be required to purchase health insurance each year through the University. The policy will provide medical, medical evacuation, and repatriation coverage with Mississippi College as the trustee beneficiary.

Before arrival at Mississippi College, the applicant must be tested for tuberculosis and immunized against measles/mumps/rubella (MMR).

An international student who holds an F-1 student visa is required to carry a full course of study in the fall and spring semesters. A full-time undergraduate course load is twelve (12) credit hours.

All tuition and fees are expected to be paid at the time of registration. Installment payment privileges are not available.

An international student is required to be enrolled as a full-time student (twelve semester hours) during each semester in order to maintain student (F-1) visa status.
Financial Information

Location of Business Office
The Business Office is located in the foyer of Nelson Hall, Room 106.

Student Expenses
The cost to attend Mississippi College and the refund policies have been approved by the Board of Trustees and are designed to be as fair as possible to both the University and the student. If a student or parent feels the policies have not been administered as written, and in a fair and equitable manner, an appeal may be directed to the Vice President for Academic Affairs, Telephone: 601.925.3202.

Payment Policy
Tuition and fees are due and payable in full by the given deadline each semester unless utilizing the monthly payment plan. Accepted forms of payment are cash, check, money order, MasterCard, VISA, Discover, American Express, and eCheck. Any account balance not paid by the given deadline will be considered past due and will be placed on hold. Students with an account on hold will not be able to register for any upcoming semesters, view grades online, receive transcripts and may result in possible withdrawal from classes. Past due accounts will also be subject to a late payment penalty.
Monthly Payment Plan - The University offers a monthly payment plan, a convenient method for planning and budgeting tuition and fees for the fall or spring semester. Under this plan, costs may be paid in four (4) monthly payments per semester. More detailed information may be obtained by contacting the Business Office at 601.925.3307 or 1.800.738.1287 or by email at bursar@mc.edu or by visiting www.mc.edu/offices/business.

Fees
The total expense of an undergraduate student attending Mississippi College for the nine-month session, excluding books and personal expenses, is approximately $25,110. This is payable by semester. The University reserves the right to revise prices as economic conditions warrant.

**Tuition Refund Policies**

**Refund of Tuition on Courses Dropped**

For courses dropped during Fall and Spring:

- **1st week**: 100%
- **2nd week**: 0%

For courses dropped during Summer Terms:

- **Registration day and the next day**: 100%
- **3rd day of the term**: 0%
Refund on Withdrawal from Mississippi College

- A student desiring to withdraw from the University should initiate the process using the Complete Withdrawal link in the MY MC student portal. It is necessary for the correct procedure to be followed. Failure to process an official withdrawal earns a grade of F in each course. Deadlines for withdrawal are the same as those for dropping courses. Any claims for refunds of tuition will be based on the date on which the student initiates the online withdrawal process.

Refund of Tuition upon Withdrawal

- Note that in counting deadlines (for changes of schedule, refunds, etc.) the first week of the semester is the calendar week in which registration begins. Registration fees are not refundable.

Refund of On-Campus Living Expenses

Should a student withdraw from school or cease to be a resident student, on-campus living expenses will be refunded at 25% the first week of classes and will decrease by 2% each week thereafter. A student withdrawing from Mississippi College will surrender their ID card to the Office of Residence Life at the time the withdrawal papers are processed.

Refund of Other Fees

All registration, special and course fees are not refundable.

Refunds/Return of Title IV Funds

The return of unearned Title IV aid is calculated in accordance with Federal regulations. This calculation applies to any student who meets the following criteria:

1. Withdraws from the university or ceases class attendance prior to the end of the term and
2. Received Federal Title IV aid (Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal Direct Loan, Federal Plus Loan, but not Work Study)

If a student withdraws from the university or ceases class attendance prior to the end of the term, the university is required to calculate the amount of aid earned. Any unearned aid must be returned according to the provisions of the Higher Education Amendment of 1998. The withdrawal date is determined when the student initiates the withdrawal process in Banner web. The withdrawal date for unofficial withdrawals is the midpoint of the semester or the last date of attendance that a professor provides to the Financial Aid Office. The calculation of the return of these funds may result in the student owing a balance to the university.

The student is responsible for any balance due on the account after the Title IV funds have been returned. The student's responsibility also includes earned Title IV aid and any tuition and fees due to the institution.

The university is responsible for the return of unearned tuition and fees. To determine the institution's responsibility, multiply the total amount of institutional charges for the semester by the percentage unearned. Compare this result with the amount of Title IV aid unearned, the lesser amount is the unearned Title IV aid the institution is required to return.

Federal regulations require Mississippi College to have a fair and equitable refund policy. If a recipient of Title IV aid withdraws during a period of enrollment, Mississippi College must calculate the amount of Title IV aid the student did not earn. The percentage of aid earned is equal to the percentage of time completed.

Unearned Title IV funds must be returned to the Title IV programs. If a student withdraws on or before the 60% point of enrollment, the percentage of aid earned is equal to the percentage of time completed. If a student remains enrolled beyond the 60% point of enrollment period, 100% of the aid has been earned for that period. The percentage of earned days is calculated by taking the number of days the student attended the university and divide it by the total number of days for the semester. The amount of aid earned is equal to the amount of aid disbursed plus the amount of aid that could have been disbursed multiplied by the percentage of earned aid. The amount of earned aid is subtracted from the total amount disbursed. This is the unearned aid that should be returned.

All unearned Title IV funds must be returned to the Title IV programs. If Title IV aid was used to pay institutional charges first, the University will return unearned Title IV funds up to an amount that is equal to the amount disbursed to the U.S. Department of Education.

Funds are returned in the following order up to the full amount disbursed:

1. Federal Unsubsidized Direct Loan,
2. Federal Subsidized Direct Loan,
3. Federal PLUS Loan,
4. Federal Pell Grants,
5. FSEOG, and/or
6. Other assistance under TITLE IV.

Financial Assistance

All matters concerning financial aid are under the direction of the Committee for Enrollment Appeals, composed of administrators, faculty, staff and students. This committee establishes policies regarding financial aid. The amount of aid awarded a student is based on either scholarship or financial need. Aid is offered under the categories described below. Financial Aid will be disbursed approximately two (2) weeks following the first day of classes for the fall and spring semester. The Bursar's Office will disburse the aid to students' accounts. Summer federal financial aid will be disbursed after July 1st. Undergraduate students must be in at least 6 hours on July 1st to receive their federal aid. Graduate students must be in at least 3 hours on July 1st to receive their federal aid.
Institutional Scholarships
A limited number of institutional scholarships are available for which a student may apply. The scholarships are intended to recognize the student's outstanding academic achievement, service in the community and leadership skills. A complete listing of those scholarships and requirements are listed in the admission packet. The total amount of institutional scholarships from all sources cannot exceed $9,000. Beginning in 2013 a new scholarship matrix will be used for new incoming students. The scholarships are awarded based on a student's ACT score for freshmen and GPA for transfers. New students could possibly get additional aid by completing the Free Application for Federal Student Aid. These awards are based on the student's EFC. A student may not exceed $2000.00. New students may be eligible for stackable scholarships. These scholarships may not exceed $2000.00. Once a new student is awarded, this award will be theirs for the time at Mississippi College. Students must be enrolled full-time in order to receive institutional scholarships. (An exception to this rule is made if the student is in their final semester.) Students receiving tuition remission are not eligible to receive the Early Decision Scholarship. All institutional scholarships will be reduced by 50 percent for students who choose to live at home unless otherwise noted. Students who are under 21 years of age must live in a residence hall or at home with their parents. Students 21 years of age or older may elect to live off campus and not with parents. Those students electing to live off campus will lose all institutional scholarships. Scholarships cannot be used during the summer terms. Should a student have more scholarships and aid than the total of their direct costs, up to $500 will be refunded to the student each semester.

Renewal Requirement for Institutional Scholarships
Students must sign a scholarship acceptance letter. The letter contains the type and amount of scholarship awarded and the condition for scholarship renewal. Scholarships are renewed annually if the student meets the condition as outlined in their letter of acceptance.

Students must maintain a GPA of 3.0 for the following scholarships:

- New Trustee Scholarship
- New Presidential with Distinction

Students must maintain a 2.5 GPA for the following academic scholarships.

- Heritage Scholarship
- Dean's Scholarship
- Presidential Scholarship
- Presidential Scholarship with Distinction
- Trustee Scholarship
- Provine Scholarship
- Transfer Heritage Scholarship
- Transfer Dean's Scholarship
- Transfer Presidential Scholarship
- Phi Theta Kappa Scholarships
- Hampstead Scholarship

Students must maintain a 2.0 GPA for the following scholarships.

- Leadership Scholarship
- Christian Ministry Scholarship
- Christian Ministry Dependent Scholarship
- Financial Need Scholarship
- Baptist Student Union Scholarship
- Institutional Scholarship
- Jazz Band Scholarship
- Music Scholarship
- Hillman Scholarship
- Bible Drill Scholarship
- Church Matching Scholarship
- Academic Competition Scholarship
- Speaker's Tournament Scholarship
- Institutional Need Grant
- Band Scholarship
- Math and Science Scholarship
- Chamber Choir Scholarship

Scholarship recipients who fall below the required GPA will be placed on probation for the next semester enrolled. If after the probationary semester the student's cumulative GPA is not restored to the required level, the student will be placed on scholarship suspension and will lose the scholarship immediately. If after the probationary semester the student's cumulative GPA is not restored to the required level, but the student
makes the required GPA for the probationary semester, then the student will be allowed a second
probationary semester. If after the second probationary semester the cumulative GPA is not restored to the
required level, then the scholarships would be suspended. The scholarship will be re-instated when the
cumulative GPA meets or exceeds the minimum requirement. Notification of all actions will be sent to the
student in writing.
Institutional scholarships recipients are expected to demonstrate good character in all aspects of their lives.
Students who engage in serious misconduct may lose part or all of their scholarship support. The imposition
of disciplinary action sanctioned through the student disciplinary process could also include loss of
scholarship support. Students can receive scholarship for their first undergraduate degree only. Once degree
requirements are met for the first undergraduate degree, the student is no longer eligible to receive
institutional scholarships. Students who choose to enter college before graduation from high school upon
completion of their junior year are not eligible for any institutional scholarships.

State Scholarships and Grants
The following scholarships and grants are available to residents of Mississippi:
Mississippi Tuition Assistance Grant
Mississippi Eminent Scholars Grant
HELP (Higher Education Legislative Plan for Needy Students)
Students pursuing a program of study leading to a "Class A" educator license may apply for the following:
Critical Needs Teacher Loan/Scholarship Program
Nursing Education Loan Scholarship Program (NELS) available to junior, senior and graduate students who
are pursing a baccalaureate or higher degree in nursing.
Application procedure and eligibility information about these programs may be obtained from the Mississippi
Office of State Student Financial Aid at 1.800.327.2980. This information is also available on the State
Financial Aid website at www.ihl.state.ms.us/financialaid/default.asp.

Federal Student Aid
Students wishing to be awarded federal student aid must complete the Free Application for Federal Student
Aid (FAFSA). To receive priority consideration for campus-based federal student aid the application must be
received by the central processor by March 1, with Mississippi College being designated as a recipient of
FAFSA data. Applications received after this date will be given consideration depending on the availability of
funds. Campus-based programs for which a student may be awarded include: Federal Work Study Program
(FWS) and the Federal Supplemental Educational Opportunity Grant (FSEOG).
In addition, awards may include the Federal Pell Grant and the Direct Student Loan. Parents of
undergraduate students may apply for the Parent Loan for Undergraduate Student (PLUS), and TEACH
Grant.
The FAFSA may be obtained from the Mississippi College Office of Enrollment Services or from the high
school guidance counselor. The FAFSA may also be completed on the Internet at www.fafsa.ed.gov.

Student Employment
Students who desire to work on campus should contact the Office of Career Services at (601) 925-3901. Due
to the limited number of jobs on campus, campus employment cannot be guaranteed. If a student is eligible
to receive Federal Work Study, then they are eligible to work up to 8 hours per work during the enrollment
period.
More detailed information about financial aid is available upon request from the Office of Enrollment
Services at (601) 925-3212; toll free: (800) 738-1346.
Receiving and Maintaining Financial Assistance

All students that received federal aid must be working toward an eligible degree from Mississippi College. Students must make progress towards a degree in order to maintain being eligible to receive federal aid. Satisfactory Academic progress is evaluated at the end of each semester. This would be at the end of fall, spring and summer terms. The progress is evaluated by using the following standards:

Quantitative - Undergraduate and graduate must successfully complete 67% of all hours attempted during the semester. Attempted hours are those hours that will appear on one's transcript. Successful grades are A, B, C, and D. Unsuccessful grades W, F, or I.

Qualitative - Undergraduates must maintain a GPA of 2.0 to remain in good standing with the university. Graduate students must maintain a GPA of 2.75 - 3.25 to remain in good standing. The required GPA's depend on the degree the graduate is pursuing.

Maximum Hours - If an undergraduate student exceeds 190 hours, they are placed on financial aid suspension. If a graduate student exceeds 150% of the published required hours, they are placed on suspension.

Once Satisfactory Academic progress is evaluated, students who fail to meet the standards are first put on financial aid probation. Students on academic probation will be eligible to receive financial assistance for the first semester on probation, and they will be eligible to receive financial assistance for the second semester provided substantial academic progress was made during the first semester of probation. Those students on financial aid probation are eligible to receive their federal aid during their time of probation. If a student is on financial aid probation for 2 consecutive semesters, then the student is placed on financial aid suspension. The student will be ineligible to receive federal aid, but they will be eligible to attend the university. Students that are placed on academic suspension are automatically placed on financial aid suspension.

Students who are denied financial assistance due to unsatisfactory academic progress have the right to appeal the denial. Students should place in writing the request to appeal to the Committee for Enrollment Appeals. (Contact the Director of Financial Aid, Telephone: 601.925.3212.) The full satisfactory academic progress policy can be found in The Tomahawk and in the Mississippi College Policy and Procedure Manual. Once a decision is made concerning the students appeal, the student is notified in writing the decision that was made.
Student Life and Activities

Student Government

Every undergraduate student at Mississippi College has membership in and is represented by the Student Government Association (SGA). Each year the student body elects a president and many other officers of the SGA to represent them. These officers help to promote student welfare, perpetuate university customs and traditions, and to train in the principles of democratic government preparing for distinguished citizenship. They cooperate with the administration in promoting well-ordered conduct among the students and enforcing the regulations of the University, as well as those of the Student Senate. The SGA functions through its executive, legislative, and judicial branches.

Services for Students with Disabilities

Students with disabilities should contact Student Counseling and Disability Services, Alumni Hall, 4th Floor, Telephone: 601.925.7790. For information regarding policy and procedures, see The Tomahawk, Students with Disabilities section.

Emergency Procedures

Recognizing that safety is to a certain extent the responsibility of the entire campus community, the Office of Public Safety lists Emergency Procedures on its website (http://www.mc.edu/offices/safety/procedures/). Any questions may be directed to the Office of Public Safety at 925.3204.

Student Handbook

The Tomahawk, the student handbook, is an official publication of the University and contains rules and regulations with which all students should be familiar. The Tomahawk may also be accessed on the Mississippi College website at http://www.mc.edu/tomahawk.

Student Publications

The Tribesman is the University yearbook published annually by an appointed student staff.

The Mississippi Collegian is published by students, giving the campus news and discussing matters of interest to students and alumni.

The Arrowhead is a magazine published by students. It carries a number of stories, poems, photographs and feature articles written by students, faculty members and alumni.

Student publications play an important part in the extracurricular activity on any university campus. The University newspaper, the literary magazine, and the yearbook are the Mississippi College student publications. They preserve the events and experiences of campus life in the permanency of print for students to read and enjoy.

The Publications Council oversees all matters relating to student publications. The Council interviews and elects editors, assistant editors and business managers of the student publications. The Council has the authority and responsibility to deal with problems concerning student publications.

The maximum amount of credit that one may earn in a semester for working on student publications is 1/2 semester hour.
**Athletics and Intramural Sports**

Mississippi College offers proper balance to its students in physical development opportunities and competitive interest through a first-rate intercollegiate athletic program for men and women. The University participates in seventeen men's and women's sports: baseball, basketball, cross country, football, men's golf, soccer, softball, tennis, indoor and outdoor track, and volleyball. Although a member of the small college category, the University has produced many players and coaches who have gone on to win national recognition. The University is a member of the National Collegiate Athletic Association (NCAA) and the Gulf South Conference (GSC) and participates according to the rules and regulations established by these organizations.

A well-balanced program of intramural sports is provided for Mississippi College's students, faculty and staff. This program provides a means of recreation and physical fitness for the individual who does not participate in varsity athletics. This program is designed to provide persons of all fitness levels the chance to play on a competitive, organized sports team without the time demands of varsity sports. Teams are organized from the residence halls, clubs and various campus groups to compete in sports such as flag football, tennis, ultimate frisbee, basketball, soccer, softball, and outdoor volleyball.

Throughout all levels of physical activity, Mississippi College emphasizes the physical, social and recreational benefits to be gained through active participation. With these educational values in mind, the University fosters a program that encourages as broad a participation as possible. Mississippi College is proud of this active program and the hundreds of students, faculty and staff who participate in it annually. Details can be found at www.mc.edu/student-life/intramurals/.

**Student Organizations**

Student activities and organizations at Mississippi College help to facilitate students in their development academically, socially, emotionally, spiritually, and physically. Mississippi College also offers numerous other opportunities for students to get involved such as: campus ministries, music ensembles, student publications, campus elections and honors, and intramural and varsity athletic programs. All student organizations on the main campus are authorized by and operate under the supervision of the Student Activities and Services Committee according to regulations listed in *The Tomahawk* and the Student Organization Handbook. This committee is made up of members of the administration, faculty, staff, and student body.

**Honor and Recognition Societies**

*Alpha Chi*

The society is composed of a company of students selected for membership because of superior scholastic achievement in all departments. The purposes are: The promotion and recognition of scholarship and of those elements of character which make scholarship effective for good and the stimulation of a spirit of sound scholarship and devotion to the truth wherever such may be found.

*Alpha Epsilon Delta*

The purpose of Alpha Epsilon Delta is to encourage excellence in premedical scholarship and to promote cooperation and contacts between students and educators. *Alpha Lambda Delta*

Alpha Lambda Delta is the national honorary scholastic fraternity for freshman students and is one of the highest academic honors which can be achieved by freshman. Membership is attained by a minimum 3.50 GPA during the first semester of college and high qualities of character, service and leadership.
**Alpha Mu Gamma**

Alpha Mu Gamma (Iota Lambda Delta) is the honorary foreign language society for those students maintaining high grades in the field.

**Alpha Psi Omega**

Alpha Psi Omega seeks to foster an appreciation of theatre and develop technical skills in dramatics.

**Beta Beta Beta**

Beta Beta Beta is a national honor fraternity for students with an interest in the biological sciences.

**Delta Mu Delta**

Delta Mu Delta's purpose is to encourage higher scholarship and to recognize and reward scholastic achievement in business administration programs. A Mississippi College student receiving Delta Mu Delta recognition must be at least a second semester sophomore majoring in business with a GPA of 3.70 or higher. In addition, transfer students must complete one semester as a full-time student to be eligible for recognition.

**Kappa Delta Pi**

Kappa Delta Pi invites to membership such persons as exhibit commendable personal qualities, worthy educational ideals and sound scholarship. It endeavors to maintain a high degree of professional fellowship among its members and to quicken professional growth by honoring achievement in educational work.

**Kappa Pi**

Kappa Pi seeks to form bodies of representative students who will, by their influence and artistic interest, uphold the highest ideals of a liberal education; to provide a means whereby students with artistic commitment meet for the purpose of informal study and communication; to raise the standards of productive artistic work among the students in colleges and universities; to furnish the highest reward for conscientious effort in furthering the best interest of art in the broadest sense of the term, by election to membership in the Fraternity, based upon such meritorious work.

**Mortar Board**

Mortar Board is the senior national honor society dedicated to the principles of scholarship, leadership and service. The membership is limited to 40 and those selected must have a GPA in the top 35 percent of the Junior Class and be recognized leaders on the Mississippi College campus.

**Omicron Delta Kappa**

The purposes of Omicron Delta Kappa are to recognize students of outstanding achievement in collegiate activities and to inspire others along similar lines; to bring together the most representative students of collegiate life, thus creating an organization which will help to mold the sentiment of the institution on various questions; and to bring together faculty and students on a basis of mutual interests and understanding.

**Phi Alpha**

Phi Alpha Honor Society fosters high standards of education for social workers and invites into membership social work students, faculty, and practitioners.
The purpose of Phi Alpha Theta is to promote the study of history through the encouragement of research, good teaching, publication and the exchange of learning and ideas among historians.

*Phi Mu Alpha Sinfonia*

Phi Mu Alpha Sinfonia is a professional music fraternity for men that encourages and actively promotes the highest standards of creativity, performance, education, and research in music in America. It also will develop and encourage loyalty to MC, foster the mutual welfare of students of music, and instill in all people an awareness of music's important role in the enrichment of the human spirit.

*Phi Theta Kappa (Alumni Chapter)*

Phi Theta Kappa (Alumni Chapter) is open to all those students who were members of the Phi Theta Kappa honor society at their community college. The Mississippi College alumni chapter seeks to support the people, programs, and priorities of the Phi Theta Kappa society.

*Pi Gamma Mu*

Pi Gamma Mu seeks to improve scholarship in the social studies and to achieve synthesis therein.

*Pi Kappa Delta*

Pi Kappa Delta is the national honor society recognizing achievement in speech and debate.

*Pi Mu Epsilon*

Pi Mu Epsilon is an honor society for students and faculty interested in mathematics. The purpose of this organization is to promote the mathematical and scholarly development of its members.

*Psi Chi*

The national honor society in psychology seeks to encourage, stimulate, and maintain excellence in scholarship of the individual members in all fields, particularly in psychology and to advance the science of psychology.

*Sigma Alpha Iota*

Sigma Alpha Iota upholds the highest standards of music and furthers the development of music in America and throughout the world; gives inspiration and encouragement to members; and offers cultural experiences to SAI members to contribute to their educational growth; supports ideals and goals of the member's Alma Mater; adheres to the highest standards of citizenship in school, community, and fraternity life.

*Sigma Tau Delta*

Sigma Tau Delta, professional English fellowship, was established for the purpose of promoting written expression, encouraging worthwhile reading, and fostering a spirit of fellowship among students specializing in English. The Mississippi College chapter, Psi Zeta, seeks to further better scholarship in English.

Many departments on campus sponsor clubs for majors and/or minors in the department.

**Social**

A major outlet for social life on Mississippi College's campus is the nine social/ service organizations. There are four Service Clubs for male students and five Social Tribes for female students. These organizations are governed by The Council, which is a board made up of four members from each club or tribe. Although some clubs have ties to national service organizations, these organizations are largely unique to Mississippi
College's campus and have been part of MC history for many years. They seek to encourage social
development, service to the community, and character development among their members.

At the beginning of each fall semester the Council holds General Rush for membership into the social tribes
and service clubs. More specific information about General Rush, rules and regulations, and other
social/service club matters can be obtained from the Office of Student Development.

**Christian Development**

One of the most distinctive aspects of Mississippi College is our long heritage of Christian witness. We are a
Christian college where Christ is worshiped and honored. We understand that not all of our students at
Mississippi College are Christians, but it is our hope that as students become part of our campus community
they will grow in their understanding of the life and teachings of Jesus Christ. We place a great value on "the
integration of faith and learning throughout the educational process" and it is our desire that every member
of our campus have opportunities to acknowledge Jesus as Lord and have the opportunity to grow in their
understanding of Christ. It is also our belief that being a Christian involves service to God and others, we
therefore encourage members of the Mississippi College community to serve and give back to society through
the various ministries and service projects that have been established. The goal of Christian Development at
Mississippi College is to foster respect for, encourage inquiry regarding, and develop participation in the
teachings of Christ and the traditions of the Christian Church.

Under the umbrella of Christian Development there are three unique components: Campus Ministries,
Church Relations, and Faith Engagement. While each one of these areas have been developed to assist in
educating students to a life of faith, Campus Ministries is most directly related to purposes of Student Life.
Students are encouraged to participate in all aspects of Christian Development and to discuss their ideas with
each other and bring any concerns to the Vice President for Christian Development, Dr. Eric Pratt. His office
is located in 212 Nelson Hall, and he can be reached at 601.925.3235 or by e-mail at epratt@mc.edu.

**Campus Ministries**

As a student comes to Mississippi College, he/she will find opportunities for spiritual growth and
enrichment. Many activities are planned for the personal benefit of the student. Each activity is voluntary, and
the student must take the initiative to become involved and thereby profit from it. Besides ministries located
on MC's campus, students are encouraged to participate in the worship and teaching ministries of the
churches in the area.

*Baptist Student Union (BSU)*

The BSU is a campus ministry whose mission is "community among friends...growing in Christ...impacting
the world." The ministry is open to any student who desires to be involved. There are many ways to become
involved in the life of the ministry, and various leaves of commitment from students based on the student's
availability. The BSU is a student-led ministry that is guided and directed by the BSU Directors. The BSU
Directors strive to guide, equip, and develop student leaders to grow in their faith, character, and leadership
through involving students in leadership opportunities that are on-going ministry and/or one-time ministry
opportunities.

Below are some ways that you can get involved in the life of the BSU:

**Vision**

Worship and Community
Mondays at 6:30 P.M.
Activities Building of Clinton's First Baptist Church
Community Missions

90% of residents in apartment complexes are un-churched and not being offered the Gospel of Jesus Christ. We have weekly community mission opportunities ministering to kids in apartment complexes on Wednesdays from 3:30 P.M. to 5:00 P.M. We meet in the BSU office at 3:30 P.M. to carpool to the apartment complex. Also, we have other individual community mission opportunities throughout the school year focused on the Clinton and greater Jackson area.

Discipleship Groups

Each year, we challenge students of the BSU to fulfill the call to make disciples by discipling three to five students who will disciple other students, who will disciple other students and on and on... in discovering God's gift of salvation and Christ's call of following Him. If you are interested in being a part of a discipleship group, please drop by the BSU office or one of our ministry events.

Missions

Missions is a strong component of the BSU! We have Christmas in China, Spring Break Mission Trips, Summer Missions, Hands-On Missions, and even two year mission terms called "Journeymen". Each of these mission opportunities provides a chance for you to fulfill the Acts 1:8 call to share the Gospel all over the world. Will you join us?

Conferences

We have two conferences where students from every college and university in Mississippi come together for worship. The College Student Conference is in the fall and Leadership Conference is in the spring.

MC BSU Winter Retreat

In February, we host a weekend retreat for college students for a time of worship, biblical teaching, fun, and community. For most BSU students, the Winter Retreat is one of the best weekends of their school year.

Connection Information

BSU Office is located beneath the cafeteria of BC Rogers. Drop by and meet the BSU staff. Our office hours are Monday through Friday, 8:00 A.M. until 4:30 P.M.

Catholic Student Association (CSA)

The primary purpose of this organization shall be: to provide fellowship for Catholic full-time and part-time students at Mississippi College, its Graduate School, and its School of Law; to provide opportunities for growth in the Catholic faith; to provide service to the university and the community when possible; to provide opportunities for greater understanding of Catholicism among the faculty, staff and students.

Fellowship of Christian Athletes (FCA)

The FCA Huddle Ministry at Mississippi College offers every athlete and coach, along with anyone influenced by sports, the opportunity to meet together on campus for fellowship, accountability, and discipleship in Jesus Christ. There is no membership requirement and all are welcome. FCA is non-denominational in religious affiliation. Our mission is accomplished through FCA Staff on campus who train MC athletes and
coaches to lead others. FCA offers weekly Huddle Meetings, Bibles Studies, Team Chapels, Retreats, Camps, National and Foreign Mission Trips, and opportunities to serve in local high schools.

Reformed University Fellowship (RUF)
RUF is a ministry of the Presbyterian Church of America on the campus of Mississippi College that is open to all people and all faiths. The organization is affiliated with Reformed University Ministries, the campus ministry program of the Presbyterian Church in America, under the oversight of the Mission to North America Committee. This organization was founded to provide an in-depth ministry to college and university students based upon the authority of the Word of God in every area of life. The purpose of this organization is the glorification of God in all pursuits and endeavors of life and the enjoyment of Him forever.

Wesley Fellowship
The Wesley Fellowship seeks to offer a place of hope, fellowship, and discipleship for students of Mississippi College. At the core of all we do, we ask the question, "does this build the kingdom of God?"

InterVarsity
InterVarsity is leading students to Christ, building mature Christians who live out their faith, and empowering and equipping students to fulfill God's calling their lives through worship, prayer, and the Word. We aim to make sure everyone, regardless of learning style, culture, and denomination, is ministered to. We are here to provide a local place for our students to worship and learn about Christ and living for Him. Some of the ways for students to join us is through our weekly meetings, Lighthouse, small groups, and community outreach.

Special Programs
Throughout the year, a wide variety of special programs provide educational and cultural opportunities to Mississippi College students. Many are open to the local community as well. Outstanding lecturers in literature, science, mathematics, political science, and religion have appeared recently on campus in programs open to the public. Vocal and instrumental performances are also an almost weekly occurrence throughout the university year, and numerous art exhibits are on display during each year, specifically those in the Samuel Marshall Gore Gallery located on the fourth floor of Aven Hall.

Faculty and students of the University from time to time throughout the year offer a variety of programs such as the Shakespeare Festival, dramas, art exhibits, musical performances, and "I Love America Day."

Large student groups from other schools attend special functions such as choral festivals and science and historical conventions on the University campus annually.

Music Ensembles
The Mississippi College Singers
The Mississippi College Singers is a 40-50 voice ensemble that presents a broad spectrum of the choral literature. This choir presents numerous concerts in churches and schools and represents the University in annual tours of the southeastern United States. International tours are projected every three years. Membership is open to all students and scholarships are available for all students. A thorough audition and interview is required. The conductor is Dr. Mark Nabholz.

The Symphonic Winds
The Symphonic Winds presents concerts of classical wind band literature as well as pops/variety repertoire throughout both semesters. Scholarships are available for all members. An audition is required. The conductor is Dr. Craig Young.

The Jazz Band
The Jazz Band presents concerts of big band and jazz charts of many styles for on and off campus events. Scholarships are available for all members. The director is Wayne Linehan.

The Choctaw Pep Band

The Choctaw Pep Band is a fun and energetic ensemble that entertains the crowd at all MC home football games. This fall semester ensemble performs a great deal of music from many different genres during the games and at half time. Scholarships are available for all members. The director is Dr. Craig Young.

The Worship Ensemble

The Worship Ensemble will serve as the primary ensemble credit for students in the Bachelor of Arts in Worship Leadership degree. It is comprised of vocalists and instrumentalists who will perform together and develop skills needed to participate and lead in group settings in contemporary church music. Scholarships are available for all members. An audition is required.

The Choctaw Chorus

The Choctaw Chorus is a non-auditioned, mixed-voice ensemble of Mississippi College, performing primarily in on-campus venues, and off-campus locally as opportunities present. The chorus performs literature from all major musical periods, concentrating on but not limited to sacred literature. The conductor is Dr. Mark Nabholz.

Residence Hall Students

Living on campus adds a wonderful dimension to a student's life and education. It is the desire of each Residence Life professional that the residence halls will truly be a place where students can develop, not only scholastically but socially and spiritually as well. Every effort is made to make living on campus as comfortable and pleasant as it is convenient.

The residence halls are reserved for students enrolled for classes at Mississippi College. Generally, full-time (12 hours) status is required, but exceptions are occasionally made for students with special circumstances.

Special permission is required from the Director of Residence Life for a part-time student (below 12 hours) to live in a residence hall.

There are eleven residence halls for our students. Each residence hall has an Area Coordinator or Assistant Area Coordinator with upper-class students serving as Resident Assistants.

Vehicle Registration

Because of campus safety purposes and because parking space is limited, all vehicles of faculty, staff, and students must be registered with the Office of Public Safety during registration for classes.

An annual vehicle registration fee of $175.00 is charged for campus parking privileges. A decal designating specific parking areas is issued for each vehicle. Anyone driving on the campus is subject to University traffic safety regulations. Violators will be fined, with all fines going into a student scholarship fund. Students accumulating more than five traffic citations may have their parking privileges on the campus cancelled. Designated parking spaces for handicapped students are provided. Rules and regulations are specifically listed in The Tomahawk (http://www.mc.edu/student-life/student-handbook/).

Identification Cards

Every student who does not have an ID Card from a prior semester will obtain an Identification Card during the registration process. The student is expected to have this card in his/her possession at all times. Use of
another student's ID is not allowed. Students will use the card for admission to school-sponsored activities, the use of Alumni Gym, as a voting permit during student body elections, for library privileges, to scan for chapel credit, and for obtaining a copy of the TRIBESMAN at the end of the school year. Resident students will use their ID cards for meals in the Food Court, points in the Library Coffe Shop, 1826, the Smoothie Shop, and Pimento's, as well as to gain entrance through secured doors in residence halls. A student withdrawing from the University should surrender his/her ID card to the Mississippi College Office of Public Safety at the time the withdrawal is initiated.

**Residence Hall Telephone Service**

The University dorm rooms are wired for telephone service, but it is only available upon request. If you desire service, please contact Residence Life for service to be activated. The number will be assigned to the room by the University's Telecommunications Department.

There is no long distance service provided by Mississippi College to resident dorms. Long distance calls may be placed by dialing "9" and then using prepaid calling cards, personal calling cards, or by placing collect calls. All local calls are performed using ten-digit dialing. To complete these calls, one will need to dial "9", then the appropriate area code plus the seven-digit telephone number. All calls made on campus can be placed by dialing the on-campus four-digit number.

Students are not allowed to sign up with communication companies that offer local, voice mail or long distance services over the University's facilities or provided telephone number. These services will result in unauthorized charges being placed on the University's main phone bill. Students signing up for these services will be responsible for paying the University for any charges incurred and cancelling the service.

**Radio Station**

Commercial Radio Station WHJT-FM is owned by Mississippi College and controlled by the Board of Trustees under the direction of the Vice President for Administration and Government Relations. WHJT FM's on-air staff is administered by a manager who makes the day to day operation decisions. Mississippi College radio students have been awarded top honors in programming and production by the Mississippi Association of Broadcasters.

**Campus Mailroom and Print Shop**

The Campus Mailroom is located in the basement of Alumni Hall. Mailboxes are only provided for students living in the residence halls. The Mailroom receives packages and correspondence from the United States Postal Service. (Packages sent from FedEx or UPS are sent to the Physical Plant.) Stamps are sold in the Mailroom and are available by the book (20 stamps - $9.80). They can be purchased by cash or check only. The Mailroom hours are 8 a.m. - 4 p.m., Monday-Friday.

The Campus Print Shop is located in the basement of Alumni Hall just past the Mailroom. The Print Shop has a color copier and a black/white copier. Both are high volume copiers with the capacity to duplex, collate, staple, and three-hole punch. Other services offered by the Print Shop are comb binding, laminating, and folding. The Print Shop hours are 8 a.m. - 4 p.m., Monday-Friday.

**Health Services**

Student health services are provided through the Mississippi Baptist Health Systems, Inc., at the Healthplex, located on the Mississippi College Clinton campus. These services are available to all residence students and full-time students who have paid the student health fee. Because of the existing relationship between Mississippi College and Baptist Health Systems, it is recommended that emergency care be handled through Mississippi Baptist Medical Center Emergency Room. **To assist with the cost of health services, it is recommended**
that the student be retained on the parent’s or spouse’s insurance policy whenever possible. For more information see The Tomahawk.

**Alumni Pool**

The indoor heated pool is located in the east end basement of Alumni Hall next to the Commons. Alumni Pool is used for water exercise and fitness. The pool is 24 feet wide by 24 yards long and slopes to an eight foot depth. Exercise classes are offered on a semester basis and include water aerobics, deep water walking, use of hydrobikes, liquid abs, swimming, water volleyball and certification courses in lifeguard training and water safety instructor through the American Red Cross. Student activities for special use and/or athletics are scheduled through the director. All students, staff and faculty have access to this facility at no charge for water activities, while respecting class times and instructor usage. Pool schedules and other information can be found at the MC website www.mc.edu/alumni-pool or by calling 601-925-3491 or by emailing the director, enoble@mc.edu.

**Bookstore**

The Mississippi College Bookstore is located at 200 Jefferson Street, next to Pimento’s Cafe’ and Market, on the north side of campus. The mission of the store is primarily that of providing textbooks and course materials for sale. Management and personnel strive to provide efficient, courteous, and reliable service at all times. The store stocks a wide range of merchandise including MC imprinted items, computer software, Bibles, reference books, and gift items. The store offers an outstanding line of Mississippi College clothing.

Students have the option to purchase their books in the bookstore or on-line before the semester starts. Students may charge to their account at the beginning of each semester. The store accepts Visa, Master Card, American Express, Discover, and personal checks.

The store's regular hours are 9:00 a.m. until 4:30 p.m. Monday through Friday during the fall and spring semesters. Summer hours are 9:00 a.m. until 4:00 p.m. Monday through Thursday and 9:00 a.m. until 1:00 p.m. on Friday. The store is open until 6:00 p.m., Monday through Thursday, during the first week of registration (fall and spring).

**Food Services**

The main floor of the B.C. Rogers Student Center houses the Food Court. Mississippi College requires all boarding students to participate in the meal program. We offer One Universal meal plan designed to work around the busiest of schedules. The plan comes with 19 weekly board meals (for use in Food Court) and $200 called points. Points can be used in all retail locations on campus (Student Center and Library Coffee Shops, 1826, The HealthPlex Smoothie Shop and Pimentos Cafe in downtown Clinton). The meal plan works as follows:

- Meal plan costs are included in the On Campus Living Charge that covers room and board. Additional points may be purchased from our food service provider.
- The meals are per week (seven days) starting on Friday and ending on Thursday.
- The meal plan allows for one scan per meal time. Additional scans during a mealtime will be charged to points.
- Points equal dollars and can be spent at any of the retail areas, the law school and food court.
- Meals do not carry over from week to week.
- Points do not carry over from Fall to Spring
- Food on campus is prepared by Campus Dining Inc.
**Student Conduct**

It is assumed that every student enrolling in Mississippi College agrees to conduct themselves in a manner conducive to the highest sort of mental and moral development in keeping with the ideals and traditions of the University. Personal misconduct either on or off the campus by anyone connected with Mississippi College detracts from the Christian witness Mississippi College strives to present to the world and hinders full accomplishment of the mission of the University.

As an institution pledged to the Christian principle of concern for others, the University enunciates a definite position on certain matters. Students who elect to attend the University, realizing its position on such matters, are expected to respect and abide by that position. Students who evidence an unwillingness or inability to conduct themselves in accord with University standards and any other rules and regulations of the University not specifically listed here, either on or off the campus, shall be subject to disciplinary action.

The faculty, administration, and Student Government Association cooperate in the student conduct process. Student participation in the conduct process is by allowance and not as a delegation of ultimate authority or responsibility. This procedure, it is hoped, will aid the students of Mississippi College to be judged by their peers, according to and by the rules, regulations, standards, and ideals of this institution, allowing them an opportunity to exercise self-discipline to the fullest extent possible.

In addressing an alleged violation of regulations or conduct deemed inconsistent with the ideals and standards of the institution, the University reserves the right to make any and all necessary investigations including, but not limited to, an on-premises investigation and inspection of any residence or living quarters on University property.

Disciplinary expulsion, suspension and probation may become a part of the permanent record. Parents or guardians may be notified of serious disciplinary action taken concerning their dependents. Rules and regulations are specifically listed in the Mississippi College Student Code of Conduct at www.mc.edu/studentcode.

**Drug-free Environment**

Mississippi College is committed to the establishment of a completely DRUGFREE environment in the lives of each student enrolled for any and all study at the University, or involved in any way in any Mississippi College program.

The use, possession, or distribution of illicit drugs and alcohol by students at Mississippi College is expressly forbidden and the same shall not be tolerated on any property owned or controlled by Mississippi College, nor shall the same be tolerated at or as a part of any activity undertaken at or under the direction or supervision of Mississippi College.

Illicit drugs shall be defined to include any use, possession, distribution, sale, manufacture, or evidence of consumption of narcotics, controlled substances or illegal drugs on or off Mississippi College property, or at a Mississippi College-sponsored events or programs in accordance with federal, state, and local laws.

Any violations of the provisions of this notice, or of any statements of a similar nature published by Mississippi College, relative to illicit drugs, will result in disciplinary action which may include expulsion, suspension, mandatory successful completion of approved rehabilitation programs, and/or probation, any of which may become a part of the permanent record of the person violating or breaching any expression of this statement or similar published University rules and/or regulations.
Additionally, the University expressly reserves the right to refer any person violating this or similar regulations to the appropriate law enforcement officials for prosecution for violation of civil and/or criminal laws, as authorized by The DRUGFREE Schools and Communities Act of 1989.

For details, see the Drug-free Environment statement distributed annually, and the Commitment to Drug Free Environment section of The Tomahawk.
Academic Information

New Student Orientation
Orientation for freshmen and transfer students is held periodically, starting in the spring, continuing during the summer and at the beginning of each semester. Academic and social expectations for students and parents are addressed during each orientation as well as class scheduling and registration. All new students are expected to be in attendance.

In the fall, freshmen participate in "Blue & Gold 101," which focuses on successful integration into university life. Blue & Gold 101 is held during chapel and provides an opportunity for new students to increase in self-awareness and become familiar with the campus, the people, and our Christian mission. In addition to interacting with student leaders, new students are introduced to various activities at the University and participate in small-group discussions related to new student adjustments from academics to community service.

The Office of Career Services provides personalized career coaching to students planning for a future career. The Office of Career Services offers additional resources and job search assistance throughout a student's academic experience, and up to four years after graduation. Visit Career Services on the web at mc.edu/career. Contact the Office of Career Services at career-services@mc.edu or 601-925-3901 to schedule an appointment. Career Services is located in Nelson Hall, Room 314C.

The Office of Student Success offers one-on-one assistance to students struggling academically. The office supports students as they identify and address academic concerns, connecting them to the appropriate campus resources. Visit the Office of Student Success in Speed Library, Room 124, or on the web at mc.edu/success. Contact Student Success at student-success@mc.edu or 601-925-3976.

Advising
Mississippi College provides academic guidance for its students. Freshmen are assigned to faculty advisors for registration. All upperclassmen who have chosen their major fields are assigned to advisors in the department of their choice. Students who have not selected majors are assigned to other members of the faculty, but, upon choice of majors, they should initiate an Undergraduate Major Change process through the MyMC portal so that records can be transferred to advisors in the major fields. Students who are pursuing pre-professional curricula have special advisors whose interests and training enable them to give adequate guidance. All upperclassmen have freedom to change advisors when desired by informing the Office of the Registrar.

University Core Curriculum
The purpose of the General Education Program (University Core Curriculum) at Mississippi College is to prepare students for a lifetime of learning. Inspired by and consistent with our mission as a Christian university, the program is designed to instill basic skills and knowledge deemed necessary for disciplined study, global awareness, and reasoned response to a changing world. This educational experience should assist students as they build academic majors and minors. The General Education Program is divided into learning areas defined by an educational goal and outcome objectives.

Analytical Reasoning and Effective Communication: The ability to think critically and independently, apply scientific and quantitative methods, and communicate effectively should empower students to:

- communicate logically and precisely
- engage in problem solving and in making informed judgments
- conceptualize and solve numerical problems
- study and learn about the natural world
**Personal Values and Attitudes:** An understanding of, Christian ethics, personal wellness, and interpersonal relationships in society should empower students to:
- develop skills for making responsible moral choices based on an understanding of Biblical principles
- enhance physical and psychological well being
- enhance skills for dynamics of relationships

**Social and Cultural Understanding:** An examination of various dimensions of human civilization should empower students to
- acquire perspective into the society and culture of Americans and other peoples
- acquire knowledge of the arts and humanities
- enhance skills for the dynamics of relationships

**University Core Curriculum**
*Students should take these core courses during the first two years at Mississippi College. Other degree requirements are indicated with the appropriate major.*

**English:** (12 Sem Hrs.)
- ENG 101 - English Composition
- ENG 102 - English Composition or
  - ENG 103 - Accelerated Composition
  and two of the following:
  - ENG 211 - World Masterpieces
  - ENG 212 - Survey of British Literature
  - ENG 213 - Survey of American Literature

**History:** (6 Sem. Hrs.)

*Survey of entire Bible required  *
- BIB 110 - Introduction to the Old Testament OR
- BIB 111 - An Intensive Analysis of the Old Testament
- AND
- BIB 120 - Introduction to the New Testament OR
- BIB 121 - An Intensive Analysis of the New Testament

**Social Sciences:** (6 Sem. Hrs.)
*Choose two courses representing two different subject areas.*
- ECO 231 - Economic Principles I
- GBU 151 - Business Skills for Life
- MLG 205 - Cross-Cultural Understanding
• PLS 201 - American National Government
• PSY 201 - Introduction to Psychology (General Psychology)
• SOC 205 - Sociology: An Introduction in Global Context
• Any PHI course Credits, 3 sem. hrs.

Fine Arts: (3 Sem. Hrs.)
• ART 125 - Art Appreciation or
• MUS 125 - Music Appreciation (3 hrs.) or
• THE 125 - Introduction to Theatre

Science: (7 Sem. Hrs.)
Seven hours of science are required, including one lecture with a corresponding lab. Students are encouraged to choose from one of the following lab courses:
• BIO 103 - Human Biology AND
  BIO 104 - Human Biology Laboratory
  ...
• BIO 105 - Plants and People AND
  BIO 106 - Plants and People Laboratory
  ...
• BIO 111 - Biology I
• CHE 112 - Chemistry in American Life II
• CHE 141 - General Chemistry I
• PHY 151 - General Physics I
• PHY 251 - Fundamentals of Physics I
• The remaining course may be 3 or 4 hours from Biology, Chemistry, or Physics. A student may choose one course from each of two disciplines or two courses from the same discipline. However, course combinations not permitted are BIO 101, BIO 103, BIO 111, CHE 141, CHE 124, CHE 111, PHY 151, PHY 251, PHY 104, or PHY 151 - PHY 104. Evening and online students - those taking half or more of their courses in evening classes or online - may substitute a 3-hour non-laboratory course for the 4-hour course.

Mathematics: (3 Sem. Hrs.)
• MAT 101 - College Algebra (or a higher-level course)

Physical Education Activity Courses: (3 Sem. Hrs.)
Recommended courses are KIN 123 - Fitness For Life (2 hours) and KIN 124 - Nutrition for Well-Being (1 hour). For others, and details on absences in activity courses, see Department of Kinesiology, Physical Activity (PED) Courses section of Undergraduate Catalog. Any exception to activity requirements must be approved by the Department of Kinesiology. Three-hour KIN courses will not meet University Core Curriculum requirements.

Students who cannot participate in the regular physical education program because of physical handicaps can fulfill the University Core Curriculum requirements by taking KIN 123 and one of the following: one hour KIN academic courses: KIN 124 - Nutrition for Well-Being or KIN 191 - Drug Education. PED credit can also be awarded for specialized training in the armed forces.

* Students classified as ADP (Accelerated Degree Program) and students enrolled in an on-line degree program are exempt from Physical Education Activity Course requirements.

Other Graduation Requirements
Modern Languages Requirement: (12 Sem. Hrs.)
(B.A. candidates and all English majors)
Students must complete the intermediate or sophomore-level courses in their chosen language. Students with one high school unit may enter course 102 of the same language and thereby waive 3 hours of this requirement; those with two high school units may enter course 201, waiving 6 hours.

**Technology Requirement:**
All departments require training in technology. Some departments will utilize CSC 114 or CSC 115, while other departments offer discipline specific technology training. CONTACT DEPARTMENT FOR REQUIREMENT.

**Writing Proficiency Requirement:**
This requirement is met by earning a passing score on the Writing Proficiency Exam (ENG 099), which will be shown on the permanent records as "CR" for ENG 099, or by earning a grade of "C" or higher in the three-hour course ENG 299 (Composition Skills).

**Chapel Requirement:**

| Freshman (0-23 sem. hrs.) | 4 semesters |
| Sophomore (24-53 sem. hrs.) | 3 semesters |
| Junior (54-83 sem. hrs.) | 2 semesters |
| Senior (84 or more) | 1 semester |

* Students classified as ADP (Accelerated Degree Program) and students enrolled in an on-line degree program are exempt from Chapel requirements.

**Requirements for the Accelerated Undergraduate Program**

Students in the accelerated undergraduate program are not required to complete the physical education activity requirement or the chapel requirement in the core. In addition, students in this program may substitute a 3-hour non-laboratory course for the 4-hour course. A total of 130 hours is required for degree completion. In order to be classified as a student in this program, the student will be non-residential and more than 50 percent of the classes must be taken at night or online in the Accelerated Degree Program format.

**Majors, Minors and Concentrations**

For a bachelor's degree the student must complete an approved major and minor, with the exception that certain comprehensive majors do not require a separate minor. A major is a specified program of study usually containing at least 30 semester hours of courses unique to the field. A comprehensive major, which does not require a minor, may include courses from related fields in its 50-65 required hours. Music, as is common at other institutions, requires more (55-94 hours).

Some majors allow a choice among designated concentrations of courses within the major. A concentration consists of 12-18 hours of related courses, taken along with the basic courses required of all students in that major. Transfer students must complete a minimum of 12 hours of the major at Mississippi College.

A student may earn a second major by completing all requirements specified in that field provided both majors are offered within the same degree; ex. both majors must be offered in the Bachelor of Arts degree. Only one minor is needed if both majors require a minor (See Undergraduate Majors and Degrees Offered).

A minor is a specified program of 18-21 hours in a field separate from the major. Courses counted in the major cannot be counted in the 18-21 hours in a minor. Transfer students must take a minimum of six hours in the minor at Mississippi College. Courses counted in one minor cannot be counted in a second minor.

**Second Bachelor's Degree**

Students may not be awarded two degrees at the same time.

In order to qualify for a second bachelor's degree the student must satisfy all course requirements for the second degree sought and must complete a minimum of 33 semester hours in residence at Mississippi College.
with 66 grade points in addition to the credits used for the first degree. The second bachelor's degree must be completed sequentially to the first degree.

When completing a second bachelor's degree, the minor requirement is waived for the second degree program.

A transfer student with a degree from another institution must fulfill the aforementioned stipulations in seeking a second degree from Mississippi College (a minimum of 33 semester hours in residence at Mississippi College with 66 grade points), including a minimum of twelve hours in the major and six hours in the minor (if declared) at Mississippi College.

**Academic Loads**

**Full Time Students** - An individual qualifies as a full-time student if he/she is registered for a minimum of 12 semester hours of academic work per semester.

**Regular or Normal Load** - The regular or normal load for students is 16 hours per semester. However, upper class students may, on the advice of their faculty advisors, take as many as 18 semester hours of academic work, provided they have a cumulative grade point average of 2.0. See Grade Point Averages section of this Undergraduate Catalog.

**Load for Freshmen** - Freshmen are advised not to take more than 17 semester hours of academic work in one semester. Eighteen semester hours may be taken with advisor's permission.

**Load for Seniors** - Seniors who have a grade point average of 3.5 on work taken at Mississippi College may, during one semester of their senior year-and one semester only-take a maximum of 21 credit hours. Permission for such must be secured from the Vice President for Academic Affairs. Under no circumstances will a student be allowed to enroll in more than 21 hours during a semester.

**Load and Hours Required to Graduate** - All bachelor's degrees require at least 130 semester hours. Therefore, the student who takes only the minimum load of 12 hours per semester will need 11-12 semesters to graduate. By taking the more normal load of 16-17 hours, most students can complete requirements in 8 semesters.

**Load for Summer Session** - In summer session the maximum load is one academic course in the May term, and two academic courses per term (plus a non-academic course if needed), for a total of 17 credit hours for the summer session.

Statements concerning maximum academic load apply whether a student takes all of his/her work at Mississippi College or whether he/she takes work here and elsewhere at the same time. **Note that students must obtain permission from the Vice President for Academic Affairs to take courses elsewhere while they are enrolled at Mississippi College and/or working toward a degree from Mississippi College.** (Form available online and in the Office of the Registrar)

**Course Numbering System, Undergraduate**

100 level-Freshman
200 level-Sophomore
300 level-Junior
400 level-Senior

Specific information about post-baccalaureate graduate courses is found in the *Graduate Catalog* and the *Law School Catalog*.

**Classification of Students**

Classification is based on the student's standing according to earned hours at the beginning of any regular session.

**By Hours**
**Freshman:** (0-23 hours) one working toward a bachelor's degree.

**Sophomore:** (24-53 hours) one working toward a bachelor's degree.

**Junior:** (54-83 hours) one working toward a bachelor's degree.

**Senior:** (84 or more hours) one working toward a bachelor's degree.

**By Degree Status**

Degrees seeking student: one who has made declaration of a specific degree and major and is enrolled in those courses required to attain such degree.

Pre-baccalaureate non-degree student: one who does not have a bachelor's degree and is not working toward a degree at Mississippi College. The student is eligible to take any undergraduate course for which he or she is qualified. The student will be admitted through undergraduate admissions as a non-degree seeking student.

Post-baccalaureate non-degree student: one who already holds a bachelor's degree and is not working toward a degree at Mississippi College. The student is eligible to take any graduate or undergraduate course for which he or she is qualified, as determined by the faculty member or department concerned. The student will be admitted through the Graduate School as a non-degree seeking student.

Graduate student: one enrolled in a master's, education specialist, counseling specialist or doctoral degree program at Mississippi College.

Law student: one enrolled in Mississippi College School of Law.

**Special Ways to Earn Credit**

The normal way to earn degree credit at Mississippi College is by taking regular university classes. However, the University does have several ways of validating prior learning or accepting credit from external sources. All such credit must meet Mississippi College standards and, for enrolled students, must be approved in advance by Mississippi College. The maximum total of such credit in any combination is 30 semester hours.

**Advanced Placement Credit (AP)**

A student may earn credit for university-level Advanced Placement (AP) courses, provided that the score set by Mississippi College is made on the standardized examination. An official copy of the AP College Grade Report is required to award credit.

**College Level Examination Program (CLEP)**

A student may receive credit toward graduation for approved subject examinations through CLEP. No student may receive credit by examination at a lower course level in a subject from which he/she has earned credit at an advanced level. An official copy of the CLEP Transcript is required to award credit. Details are available from Registrar. For more information of CLEP test, please visit MC website at http://www.mc.edu/offices/academic-computing/clep/.

*CLEP credit in English is limited to a total of six (6) semester hours. A student may CLEP only one literature course.

** A single examination covers the foreign language skills usually learned from the end of the first year through the second year of college study.

***CLEP credit in history is limited to a total of six (6) semester hours chosen from the courses listed above. To meet the six (6) hours of history CORE requirement, both courses must be from the same series, i.e. American History or Western Civ.

****Students who have previous credit for PLS 202 will NOT be allowed to receive credit for PLS 201 per the History/Political Science Department.
Correspondence or Extension Credit
Mississippi College does not offer work by correspondence and prefers that its students not take correspondence courses from other institutions except in cases of scheduling difficulties that cannot be resolved in some other way. In such cases the appropriate dean may permit transfer of correspondence credit, but in no case can more than six semester hours of correspondence or extension credit be accepted.

Credit For Service In The Armed Forces
Credit for specialized training in the armed forces may be granted on the basis of recommendations published in *A Guide to the Evaluation of Educational Experience in the Armed Services*, insofar as the recommendations can be applied toward requirements for graduation. An official copy of the Joint Services Transcript is required to award credit. Up to three semester hours of Physical Education credit may be granted for completion of basic training or the equivalent. Students should submit a copy of discharge papers reflecting Honorable Discharge to the Office of the Registrar.

Credit Validated by Examination
In some cases a student may wish to receive university credit for a course taken through a reputable institution not offering university credit or combination of such coursework and other experience. With the approval of the Vice President for Academic Affairs, such credit may be established by the student's passing satisfactorily an examination on a course of comparable content given at Mississippi College. There is a fee for validating credit. See the Office of Academic Affairs for details. 601.925.3202. (See Special Examinations section of this catalog.)

International Baccalaureate (IB) Credit
Students who are interested in obtaining IB credit should contact the Office of the Registrar, Telephone: 601.925.3210.

*A maximum of 30 hours in any combination may be accepted from the sources listed above: Correspondence, or extension courses (no more than 6 hours), advanced placement, CLEP, credit by examination, credit for specialized training in the armed forces, and international baccalaureate.*
Military Officer Programs
Mississippi College offers courses in two military officer programs: U.S. Army ROTC and U.S. Air Force ROTC. Army ROTC courses are offered as Military Science and Leadership (MSL) and Air Force ROTC courses are offered as Aerospace Studies (AOS). Courses not available on campus may be taken through a cooperative program with another local institution. For information about Army ROTC call 601-925-3856 and for Air Force ROTC call 601-979-1620. See course descriptions under Special Programs and Study Opportunities in this catalog.

RN-BSN Completion Students
The validation process of previous nursing knowledge consists of successful completion of:
NUR 386 - Foundations of Nursing
NUR 390 - Maternal/Newborn Nursing & Women's Health
NUR 393 - Pediatrics
NUR 406 - Chronic Health Problems
NUR 484 - Behavioral/Mental Health Nursing
NUR 433 - Unstable Health Problems

Auditing Courses
Briefly stated, auditing a course conveys the normal privileges of the course, but without the responsibility of grades and without credit. The student registers for the course and pays full tuition. Although the work is not graded, the student is expected to participate in at least 75 percent of class meetings and activities in order for the audit to appear on the permanent record.
Any change from audit to credit must be accomplished by the last day for adding a course, and any change from credit to audit must be made by the last day to drop a course. No credit can be given for a class audited, nor is the student permitted an examination for credit. The only way to earn credit is to take the course anew for credit. Audit hours do not count toward eligibility for financial aid. No faculty member is authorized to admit anyone as an auditor to any class unless the auditor is registered as such. A drop/add form must be completed, including obtaining the instructor's signature, before a course can be changed from credit to audit.

Grades
Undergraduate Grading System
The University uses the following grading system:
A is reserved for work which is definitely superior in quality.
B is given for work which is consistently good and which manifests sufficient interest, effort, or originality to lift it above average work.
C is given for average work and shows that basic requirements in class assignments have been met. It is the minimum requirement for graduation.
D earns credit but is below the standard required for graduation.
F indicates failure and naturally carries no credit.
W Withdrawal (does not count in the student's academic standing.)
CR earns credit hour(s) without grade points.
AU refers to audit credit without hours or grade points.
NA No Audit because requirements were not met.
NC No Credit because requirements were not met.
I "Incomplete" may be given to a student who has been unavoidably hindered from completing work required in a course, provided that:
a. semester attendance requirements have been met;
b. the request is made at a point beyond the last date to withdraw from a class;
c. in the opinion of the professor, the student has completed the vast majority of work required for the course and the remaining work can be accomplished independently and without significant oversight by the professor;
d. the student is doing passing work; and
e. the student has made prior arrangements with the faculty member to complete the remaining work.

The grade of I affects the grade point average because it carries no grade points and the course hours are calculated as hours attempted and grade point hours. The grade of I must be removed promptly or it becomes an F; it cannot be removed by repeating the course. The course syllabus outlines the criteria faculty members use in determining a student's final grade in the course.

**Grade Points**

- **A** = 4 grade points per hour
- **B** = 3 grade points per hour
- **C** = 2 grade points per hour
- **D** = 1 grade points per hour
- **F** = 0 grade points per hour
- **I** = 0 grade points per hour
- **CR** = 0 grade points per hour

**Grade Point Hours**

Grade point hours are those hours for which a student registered and received a letter grade (A, B, C, D, F, I). Grades of F and Incomplete are included in grade point hours. No withdrawals or dropped courses are included.

Credits in non-academic courses do not carry grade points. Note information on credit for *Varsity Sports (PED courses)* in the section of this *Undergraduate Catalog*.

**Grade Point Average (GPA)**

One's grade point average is based on grade point hours at Mississippi College. If one repeats a course, both grades enter into calculation of the grade point average. The formula for GPA is number of grade points divided by grade point hours. Any exceptions to calculating GPA by repeating a course are identified in Policy 2.15 of the *Mississippi College Policy and Procedure Manual*.

**Grade Reports**

A record of each student's grades (transcript) is kept in the Office of the Registrar, and a report is available to the student at the close of each semester on the Mississippi College Banner website.

**Mid-Term Grades for Undergraduate Students**

Mid-term grades are calculated for undergraduate students both fall and spring semesters, with special emphasis on freshmen. They are not a part of the student's permanent record. These grades are available to the student on the Mississippi College Banner website.

**Grades in the Permanent Record and Repeated Courses**

A grade on a student's permanent record cannot be changed for reasons external to the course itself. A grade of F remains on the record when the course is repeated, and both grades count in the calculation of grade point average. Courses passed cannot be repeated for credit or used to pull up low grades; with special permission by the Vice President for Academic Affairs an exception can be made in the case of a D grade.
Both grades then count in calculating grade point average, but the credit counts only once. See *Academic Fresh Start and Calculation of Grade Point Averages for Special Purposes when Courses are Repeated* sections of the *Undergraduate Catalog.*

Note: **Successful completion of a course**, regardless of GPA considerations, is based on the grade of the last attempt. (For example, if a student took a course and earned a D and then repeated the course and earned an F, the student would not have successfully completed the course, even though a passing grade had been previously earned.)

**Grade Correction/Appeal**

A student questioning a semester grade must, before the end of the following semester, ask the faculty member of the course to check for possible error. If the student remains unsatisfied, he/she may then appeal to the dean of the school; final appeal is to the Vice President for Academic Affairs, who may seek the advice of the Academic Council in resolving the issue.

When it has been determined that a grade will be changed, the faculty member must acquire and process a Permanent Record Change form from the Office of the Registrar.

**Incomplete Grades**

When a student has an acceptable reason for failing to complete a course on time, his/her record will be marked "Incomplete." The I grade is not to be abused to provide preferential treatment for a student who is unprepared through choice or carelessness. It is given only when circumstances beyond the student's control, such as illness on examination day, make it impossible to complete the course on schedule. The faculty member informs the student of the postponed date for completion of the work, which should be as soon as possible after the emergency that made the delay necessary but no later than the end of the next semester. An I that is not removed by the deadline becomes an F whether the student remains in school or not. (*In extraordinary circumstances the student may petition the Vice President for Academic Affairs for an extension of the deadline.*) To receive an I grade the student fills out a Request for Incomplete Grade form obtained from the Office of the Registrar or the faculty member and pays a fee. Upon completion of course requirements, the faculty member uses the Permanent Record Change form to submit a new grade to the Registrar. The faculty member, not the student, turns the grade in to the Office of the Registrar. An I cannot be removed by repeating the course; if the course is repeated, the I becomes an F and counts among the hours attempted and grade point hours, as does the new grade.

**Calculation of Grade Point Averages for Special Purposes When Courses are Repeated**

The limited use of substituted grades for calculating the grade point average as described in the following paragraph is intended **only to assist students in meeting the general requirements for the bachelor's degree at graduation** and does not affect the manner by which any department or school calculates any student's eligibility for any course of study or program. This policy will only be enacted at the request of the advisor with the approval of the department chair, dean of the school and the Vice President for Academic Affairs.

For a maximum of three repeated courses or maximum of nine semester hours, only the grade earned by the student when repeating the course will be used when calculating grade point average; the grade earned by the student on the first try will be ignored in such calculations. If a student repeats more than three courses, then for each such course in excess of three, the original grade and the subsequent grade(s) will be used when calculating grade point average. The courses for which grades may be substituted under this provision will be determined by the Registrar in order to provide the greatest assistance to the student meeting the general degree requirements. These calculations are for special GPA problems at the time of graduation and are not to be used at any other time, or for any other purpose. Therefore original grades from repeated courses will
not be ignored when determining eligibility for academic honors such as the Dean's List, nor will any indication of academic probation or similar status be expunged from a student's transcript as a consequence of this policy.

**Academic Fresh Start**

A student who has not been enrolled in any post-secondary academic institution for the immediately preceding twenty-four consecutive months may reapply to Vice President for Academic Affairs for admission as an academic fresh start. If admitted in the academic fresh start program, the student may be allowed to begin their course work and grade point calculation anew. All university credits earned at Mississippi College by the student prior to his or her admission in the academic fresh start program will be eliminated from computation of the student's grade point average and may not be used to satisfy requirements for a degree provided that the student's transcripts will continue to reflect his or her complete post-secondary academic record. A student who retakes courses as a consequence of being admitted in the academic fresh start program will not be deemed to be repeating those courses.

If a student is readmitted to Mississippi College as a "fresh start", he/she must complete at least 24 grade point hours with a minimum 2.00 GPA before being allowed to take courses at another institution for transfer to Mississippi College, not withstanding all other requirements for graduation.

**President's and Dean's Lists**

During each semester those full-time undergraduate students (12 semester hours or more of undergraduate grade point hours) whose grade point averages are 4.00 are recognized as being on the President's List and those between 3.50 and 3.99 are recognized as being on the Dean's List. Grade point average is calculated on grade point hours.

**Examinations**

**Final Examinations**

Regular examinations are held at the end of each semester. No examination of a regular class may be held at any other time except that designated by the administration. A student who is deliberately absent from an examination without legitimate reason will be given a grade of F for the course.

In some cases, exceptions can be made; for example, students who have more than two examinations in one day may ask that an exception be made. A legitimate exception to changing a final exam schedule must be approved by the Dean of the school after the student works out arrangements with the faculty member.

**Exemption from Examinations for Graduating Seniors**

Seniors who have a B average in a given course during the term or semester in which they complete requirements for graduation from Mississippi College may be exempted from the final examination in that course at the discretion of the faculty member. Seniors who are exempted from examinations are to meet the class through its last meeting prior to examination.

A student who is deficient in any requirement for graduation will not be eligible for exemption from examinations. **Also, a faculty member has the right to require any senior to take the examination in a given class.** Thus, the student should not assume that he or she will be exempt except when specifically so informed by the faculty member.

A senior who is eligible for exemption may elect to take the examination in order to receive a better grade; in such case, the grade scored on the examination must be used in determining the final grade.

**Special Examinations**

Occasionally a student needs a special examination for credit such as removing an incomplete or validating credit for courses taken at a reputable institution not offering university credit or a combination of such course work and other experiences. With the approval of the Vice President for Academic Affairs, the
student will pay the appropriate fee in the Bursar's Office and present the written permit to the faculty member. It is the student's responsibility to arrange with the faculty member an acceptable time for the examination. *(Credit Validated by Examination of the Undergraduate Catalog)*

**Dead Days**
Monday-Wednesday preceding semester final examinations are known as "Dead Days". These days are designated on the Academic Calendar for each semester. During those designated days, no extra-curricular activities can be scheduled. Class work proceeds as usual, but it is expected that no periodic test will be given at the last meeting of class.

**Study Day**
Thursday before final examinations each semester is known as "Study Day" and is to be used by students to prepare for final examinations. No classes will meet and no extra-curricular activities can be scheduled.

**Change of Schedule: Drop or Add Courses**
After the second full week of classes in a fall or spring semester, students who have been reported by a faculty member to the Registrar's Office will be administratively dropped from those classes for which they are registered but have never attended.

Students register for courses on-line through Banner Web according to schedules published on the Banner website. Consultation with an advisor is a requirement, and the student must understand that if there is any deviation from the schedule agreed upon with the advisor, full responsibility rests on the student. After classes have begun, courses may be added or dropped according to the college calendar published in the on-line catalog and schedule.

**Adding Courses**
Students will not be allowed to enter a course after the first week of a semester or the beginning of the second class period of a summer term unless special permission is granted by the Vice President for Academic Affairs, in consultation with the dean and the department chair.

**Dropping Courses**
The official drop date for each term is published in the college calendar and class schedule. After that official date, a student may not drop a course without receiving an F in the course unless he/she requests and receives special permission from the Vice President for Academic Affairs, in consultation with the dean of the appropriate school.

Dropping a course after the official drop date without receiving an F (receive a W) should be rare. The following conditions must be met:
- Student experiences extenuating circumstance (circumstances beyond the student's control)
- Student must be passing course requirements
- Student has attended class with regularity, and has demonstrated general good faith toward completing the requirements of the course.

For more information regarding changing a course schedule, students should contact the Office of the Registrar, (601.925.3210) and/or consult *University Policy 2.13*.

**Summer Session**
When a student is taking only one course in a summer session and drops it, it is considered a withdrawal from the University. The student should initiate the withdrawal by accessing the Complete Withdrawal link in the MyMC student portal.
Withdrawal from the University

A student desiring to withdraw from the University should initiate the withdrawal by accessing the Complete Withdrawal link in the MyMC student portal. It is necessary for the correct procedure to be followed as discontinuance of class attendance without official withdrawal earns a grade of F in each course. See Refund Policies in this catalog for withdrawal/refund schedule.

Any claims for refunds of tuition will be based on the date on which the student initiates the withdrawal. If students are living on campus, it will be necessary for them to notify the Director of Residence Life regarding their moving out of the residence hall.

Enrollment in Absentia

Enrollment in Absentia is an enrollment term for students who are not in residence at Mississippi College during the semester of their expected graduation. These students may have been given special permission by the Vice President for Academic Affairs to finish final required credit hours at another institution, or they may be students who have a graduation requirement deficiency and plan to correct it during the Enrollment in Absentia term. This enrollment status must be repeated if the student continues in deficiency for a successive or later term. An Enrollment in Absentia fee is assessed for each term to which this category applies.

Attendance/Participation

Class attendance/participation is an essential part of university education, and students are expected to attend/participate regularly and punctually all classes and laboratories for which they are registered. Cumulative absences/nonparticipation may result in a lowered grade or loss of credit for the course.

Tardiness is also subject to penalty, as is any failure to complete required class work on time. Although some specific requirements may vary according to the nature and structure of the course, the following guidelines summarize university policy:

1. Class attendance/participation is required, and accurate records are kept.
2. For online courses, nonparticipation means the failure to login for any group assignments (i.e., chats, etc.), tests, or weekly assignments. Excessive absences are the same as for the classes that meet 1 time per week.
3. Students must not accumulate excessive absences. A student receives a grade of F in a course immediately upon accumulating the following number of absences, whether excused or unexcused:
   - 12 in semester classes meeting 3 times per week
   - 8 in semester classes meeting 2 times per week
   - 4 in semester classes meeting 1 time per week
   - 4 per session in the Accelerated Degree Program (ADP)
   - 6 in summer day classes

   In other classes which meet on different schedules, a student will receive an F in a class immediately when absences, whether excused or unexcused, (including university functions), exceed 25% of the class meetings.

   Absence Appeal. If a student misses more than the number of class periods specified in university policy and believes that there are reasonable explanations for the absences, he/she may appeal the absences to the dean of the school in which the course is being taught. Students may obtain a Student Absence Appeal Form from the office of the appropriate dean.

4. For lesser numbers of absences/non-participation, the student should expect a lowered grade in the course, with the maximum penalty of one letter grade for each week of absences (in a semester) or the equivalent. The calculation of the semester grade, including any penalty for absences, is the responsibility of the faculty member and may vary according to the nature of the course and the grading scale used. In some classes points will be deducted from the semester grade for unexcused
absences; in others, the penalty may be built into the grading scale by means of frequent pop quizzes, grades for class participation, etc.

5. The faculty member will excuse a limited number of absences/non-participation for serious illness, for field trips, for representing the University, and perhaps for other emergency reasons which the faculty member finds justifiable.

6. Whether an absence/non-participation is excused or not, the student who is absent misses some learning that takes place in the class. Naturally, the faculty member is more inclined to assist the student in making up the work if the absence was excused. However, the responsibility for work missed rests entirely with the student.

7. A student registering late will be charged for all absences/non-participation occurring prior to his or her reporting to class, although these may be treated as excused absences.

8. Students are expected to attend class beginning with the first class meeting (or participate in online classes the first week). Students who have not attended class (or participated in an online class) within 14 calendar days of the first day of class for full semester classes or within 7 calendar days of the first day of eight week classes (brick-and-mortar or online) will be administratively dropped from class.

**Chapel Attendance**

Chapel exercises are a significant part of the University's educational program, and attendance is a part of the requirements for graduation. Participation in a given semester is limited, however, by the space available. For the best utilization of present seating capacity, the following requirements have been established.

<table>
<thead>
<tr>
<th>Class</th>
<th>Hours Range</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-23 sem. hrs.</td>
<td>4 semesters</td>
</tr>
<tr>
<td>Sophomore</td>
<td>24-53 sem. hrs.</td>
<td>3 semesters</td>
</tr>
<tr>
<td>Junior</td>
<td>54-83 sem. hrs.</td>
<td>2 semesters</td>
</tr>
<tr>
<td>Senior</td>
<td>84 or more hrs.</td>
<td>1 semester</td>
</tr>
</tbody>
</table>

For junior/community college students transferring more than the 65 hours applicable toward a degree, the Chapel requirement is 2 semesters.

All Freshmen are required to register for Chapel. Freshman Chapel/Blue & Gold 101 is designed for recent high school graduates who are in their first college semester. Freshmen Chapel includes a weekly large group meeting and a weekly Blue & Gold 101 small group meeting. Students who accumulate more than 3 absences in the Blue & Gold 101 small group or more than 3 absences in the large group will not receive credit for Chapel. There are no excused absences from Chapel.

Upperclassman students may choose their semesters to take chapel. A student will not receive credit for Chapel attendance in any semester in which he or she accumulates more than three absences. There are no excused absences from Chapel.

Students in programs that meet only at night or online, of necessity, are exempt from the Chapel requirement.

**Undergraduate Academic Standings**

The following end-of-term academic standings become a part of a student's permanent record. In order to be in *Academic Good Standing*, a student must have an overall grade point average (GPA) of at least 2.00 at the end of each fall, spring or summer semester. A student must be in academic good standing in order to take courses at another college/university for transfer back to Mississippi College. If a student's overall GPA falls below 2.00 at the end of a fall, spring or summer semester, the student is immediately placed on *Academic Probation*. A student placed on academic probation has up to two full-time semesters or four part-time semesters to improve his/her cumulative grade point average to 2.00 and return to *Academic Good Standing*. If the student enrolls in two full-time semesters, four part-time semesters, or a combination of the two and fails to raise his/her cumulative GPA to 2.0, the student will be placed on *Academic Suspension*. 
If a student is suspended from Mississippi College due to unsuccessful academic performance, he/she is ineligible to enroll the following spring or fall semester and may not attend summer school. The student may then reapply and file an appeal for readmission (See Right of Appeal for Academic Suspension section of the Undergraduate Catalog). If a student is readmitted to Mississippi College and does not earn at least a 2.00 cumulative GPA in the time allowed, the student will be suspended a second time and cannot apply for readmission for at least one year.

**Right of Appeal for Academic Suspension**

Students placed on Academic Suspension may appeal through an appeals process that originates in the VPAA office. The VPAA office will determine if the appeal will be reviewed. A successful appeal will return the student to Academic Probation with number of semesters on probation determined by the appeals body. A status of academic probation or academic suspension becomes a part of the student's permanent record. Students who have previously attended MC, were suspended, and have been readmitted by the Committee on Enrollment Appeals, will be admitted on Academic Probation and follow the above process.

**Right of Appeal for Readmission after Academic Suspension**

Any student who is suspended for academic reasons has the right of appeal for readmission to the Enrollment Appeals Committee. This committee will consider each case on its merits, taking into account the full academic record, the student's rate of progress in making up deficiencies, and any special circumstances that might reflect on the student's ability and readiness to do acceptable university-level work. One who is readmitted on appeal will be placed on Academic Probation and will have up to two full-time semesters or four part-time semesters to improve his/her cumulative grade point average to 2.00. If the student fails to raise his/her cumulative GPA to 2.0 in the time allowed, the student will be suspended a second time and an appeal will not be heard for at least one year.

**Honesty**

Mississippi College students are expected to be scrupulously honest. Dishonesty, such as cheating or plagiarism, or furnishing false information, including forgery, alteration or misuse of University documents, records or identification, will be regarded as a serious offense subject to severe penalty, including, but not limited to, loss of credit and possible dismissal. See the Mississippi College Student Handbook or University Policy 2.19 for specific information regarding penalties associated with dishonest behavior at Mississippi College. Copies of the Mississippi College Student Handbook are available in the Office of the Vice President for Enrollment Management and Student Affairs, Nelson 313. Copies of University policies are available on the Mississippi College web site.

**Transcripts**

Requests for official transcripts of credits must be made through the online request system found at http://www.mc.edu/offices/registrar/transcripts/. For each transcript, a fee of $15.00 is charged and must be paid in advance. The certified original copy will be mailed directly to the designated recipient, transmitted electronically to approved receiving schools or designated individual, or given to the student in a sealed envelope. Transcripts of credits will not be issued for those whose accounts have unpaid balances. E-mail, faxed, mailed, and phone requests cannot be accepted.

**General Degree Requirements for Graduation**

The following are general requirements for the bachelor's degree.

**Hours Required** At least 130 semester hours of university credit, at least 120 of which must be in academic courses. A maximum of 30 hours in any combination may be accepted from the following sources: correspondence and/or extension courses (no more than 6 hours), advanced placement, CLEP, credit by
examination, credit for specialized training in the armed forces, and international baccalaureate. Credits are measured in terms of semester hours. A semester hour represents one hour of recitation or lecture, or three hours of laboratory work, per week for one semester of approximately 15 weeks, or the equivalent.

**Residence Hours Required** - The last 33 semester hours must be taken in residence at Mississippi College. Mississippi College limits academic residency to no more than twenty-five percent of the degree requirements for all undergraduate degrees for active-duty servicemembers. Academic residency can be completed at any time while active-duty servicemembers are enrolled. Reservists and National Guardsmen on active-duty are covered in the same manner.

**Major and Minor** - An approved major and minor are required, except for certain comprehensive majors.

**GPA: Overall and Major** - An average 2.00 GPA is required in all academic work attempted at Mississippi College and an average of C or higher is required in courses in the major (2.00 GPA) and any additional courses in the department. Some majors may require a GPA greater than 2.00. For exceptions to the required 2.00 GPA, see *Calculation of Grade Averages for Special Purposes* section of the *Undergraduate Catalog.*

**Courses Included in Calculating GPA in the Major** - All courses required in a major and all other courses taken in the department in which the major is housed are included in calculating a student's GPA in the major. In departments and schools in which there is a comprehensive major, all courses included in the comprehensive major are included in calculating the GPA in the major.

Note: **Successful completion of a course**, regardless of GPA considerations, is based on the grade of the last attempt. (For example, if a student took a course and earned a D and then repeated the course and earned an F, the student would not have successfully completed the course, even though a passing grade had been previously earned.)

**Chapel Credit** - Students will acquire the number of chapel credits as specified in the *University Core Curriculum* section of the *Undergraduate Catalog.*

**Writing Proficiency** - As a prerequisite to graduation, students must demonstrate proficiency in basic English grammar, usage, and writing skills. Students may demonstrate proficiency by earning a passing score on the Writing Proficiency Exam (WPE - ENG 099). Students who fail the WPE may demonstrate proficiency by earning a "C" or higher in ENG 299 - Composition Skills.

The student maintains responsibility for completing the requirement and should be aware of the following policies:

- Students planning to earn credit for ENG 102 at MC must register for the WPE when they register for ENG 102.
- Students transferring credit for ENG 102 from another university should register for and complete the exam at their earliest convenience.
- Students are billed for the WPE at the time of registration. The fee is nonrefundable and nontransferable.
- Students must attempt the WPE at least once before enrolling in ENG 299.
- Students who fail the WPE twice may not take the exam again. Instead, they must demonstrate writing proficiency by earning a "C" or higher in ENG 299.
- The Writing Proficiency Exam is offered once per semester. No student may attempt the exam more than one time per semester.
- Students may not take the Writing Proficiency Examination twice in one day.

Because of the above policies, students who postpone taking the WPE may be ineligible for graduation on their anticipated date. For some students, completing this requirement may take up to three (or more) semesters.
Junior/Senior Level Courses - At least one-third of the academic work which a student takes in meeting requirements for graduation with a bachelor's degree must be in junior-senior level courses (courses numbered 300-400).

Degree Evaluation: CAPP (Curriculum, Advising, and Program Planning) Degree Evaluation is a real-time online system to use in planning degree programs. These evaluations utilize courses completed and those in which the student is currently enrolled to inform students and their advisors of degree completion status at any point in their university career. The results are unofficial until they have been reviewed by the Office of the Registrar. Students should be in consultation with their advisors in utilizing CAPP evaluations. Once the student has applied for graduation, an official review will be completed by the Office of the Registrar.

Application for Degree--See calendar for application deadlines.

To submit an application for degree, students should log into the MyMC portal on the MC website. The application can be found under the navigation column in the Graduation Folder. Clicking on "Apply to Graduate" opens the online form. When the application is completed, the student can submit the application digitally.

Applying by the PRIORITY deadline gives the Registrar's Office time to check degree requirements and to notify students who do not meet those requirements early in the graduation semester when changes can be made to address the deficiencies.

Students who apply after the PARTICIPATION deadline (approximately six weeks before graduation) will not be eligible to participate in the graduation ceremonies, their names may not appear in the commencement program, and they cannot use the online application. They must complete a paper form available in the Registrar's Office to apply for their degrees.

Candidates for degrees are charged a graduation fee at the time their application is processed. An additional late fee will be charged for applications received after the published participation deadline. These fees, together with all balances of any nature, must be paid in full at least three days before the date of graduation in order for the student to be eligible to pick up a cap and gown, receive their diploma, or be issued a transcript.

Honors at Graduation - Baccalaureate degrees at Mississippi College may carry two types of academic honors. These honors are recognized in the commencement ceremony and on the academic transcript.

- Graduation with Latin honors: Students who have completed at least half (65 semester hours, excluding AP, IB, CLEP, or credit by correspondence) of their work at Mississippi College will receive their degrees with special recognition in accordance with the following grade averages:
  - 3.500-3.699 Graduation cum laude
  - 3.700-3.899 Graduation magna cum laude
  - 3.900-4.000 Graduation summa cum laude

- Graduation in the Honors Program: In the Honors Program, juniors and seniors with high academic averages may complete a program of independent research leading to an honors thesis or project. Graduation with Honors requires a satisfactory paper (or project), a cumulative grade point average of 3.25, and a grade point average of 3.5 in the major field; Graduation with High Honors requires a superior paper (or project), a cumulative grade point average of 3.5, and a grade point average of 3.75 in the major field.

Marching Requirements - Students who meet graduation requirements are expected to march. If students have questions about marching, they should contact the Office of the Registrar at 601.925.3210.
Special Programs and Study Opportunities

Special Study Opportunities

Honors Program
The honors program at Mississippi College offers a flexible series of enhancements for self motivated students. For program changes and details, please contact Dr. David G. Miller, Chair of the Honors Council, at dmiller@mc.edu. Freshmen who have a high ACT score (established each year) are invited to participate in a program of study called Freshman Honors Block. It is a group of core curriculum classes, taught together as an interdisciplinary study. Upperclassmen who maintain a high grade point average may also participate in Sophomore and Senior Honors Seminar (IDS 261, IDS 464). Successful completion of the Junior-Senior Honors Program leads to a degree "With Honors" or "With High Honors." For more information see Junior and Senior Honors Program Section of Undergraduate Catalog.

Summer Study
The summer term is divided into a two-week May session, a ten-week session, two five-week sessions and one eight-week Accelerated Degree Program Session. Graduate and undergraduate courses are offered. Some night courses are offered as 10-week courses which run the entire summer session. Check with the Office of the Registrar for maximum hours that can be taken during the summer session.

Edward L. McMillan Program of International Study
Mississippi College offers numerous opportunities for study abroad. One such program is the MC London Semester program, which allows a limited number of students to spend the spring semester studying in Europe (currently in London). The University sponsors a spring break program to England or Europe, a British study summer program in cooperation with the University of Southern Mississippi, a School of Nursing summer mission trip, an Israel study tour between semesters, the Salzburg College program, a Spanish summer program, a semester in Spain and in Costa Rica, a French summer program, a semester to Hong Kong Baptist University, a summer study program in Korea and exchange programs in Germany, Brazil, Korea and France. For more details of any or all of these programs, please contact the Academic Affairs Office, Telephone: 601.925.3202. Inquiries will be referred to the directors and/or coordinators of the specific programs.

Internships and Field Study
A limited number of internships and field study courses are available. These courses are designed to combine formal education with practical experience. For more information see Internships Section of the Undergraduate Catalog.

Continuing Education
The Office of Continuing Education (OCED), established in 1976, primarily serves as a revenue source for the University while also coordinating public service functions through the development and coordination of the following programs and activities:

1. Approves and documents non-traditional (outside of regular semester/summer calendar) for credit courses offered through Mississippi College.
2. Supports and supervises non-academic activities related to summer programming (from May graduation through last week of July).
3. Administers the program of Continuing Education Units (CEU) conforming with the specifics outlined by the Mississippi Department of Education.
4. Schedules and maintains a regular program of test reviews for college and community individuals (currently: ACT, LSAT, GRE, and GMAT).
5. Coordinates programs that are of interest to the University and provides community support (currently: Academic Competition, Student Council Workshop, Senior Adult Education Program, events associated with the Mississippi Baptist Convention, and MC Water Aerobics Program).

**Internships***

The internship program is one of the methods used by Mississippi College to integrate theory with practice. Students may earn a maximum of six (6) semester hours of credit through internships. The following internship courses carry credit in the student's academic major, but the rules of the program and the course descriptions are the same for all participating departments. Students should contact their advisor for information regarding internships in their major. Faculty advisors should contact the Chair of the Internship Committee for internship applications and information, (601.925.3874) or the departmental representative for internships. More information is available at www.mc.edu/academics/internships. Please see the Internship Web site for deadlines and information.

*Students should not expect to earn more than a total of six semester hours through field studies, internships, and other experiential courses.

- 387, 388, 389, and 380 Internship Credit, 1, 2, 3 or 6 sem. hrs.

Through the internship program the student is on the job temporarily in specific public or private professional areas and is under direct supervision of a faculty advisor. A letter grade is assigned for this work experience. Internships may be arranged for 1, 2, or 3 (very rarely for 6) hours of credit in the student's academic major.

**Field Studies***

Students should consult their academic advisors and their major academic departments for detailed information concerning field studies and other field experience. Departments will list their own departmental prefixes for these courses.

- 491, 492, 493 Field Studies Credit, 1, 2, or 3 sem. hrs.

These courses are taught in response to a specific need and request. They may involve non-traditional teaching techniques and will usually combine formal education with practical experience in a career field. (A similar program is available at the graduate level in courses 6591, 6592, and 6593.) Courses 491, 492 and 493 may be repeated as necessary for up to six hours of credit.

*Students should not expect to earn more than a total of six semester hours through field studies, internships, and other experiential courses.*

**Study Skills Courses**

In order to assist students who need to improve their study habits and skills, Mississippi College offers two special courses described below.

- IDS 111 - Study Skills I Credit, 1 sem. hr. (non-academic)
- IDS 112 - Study Skills II Credit, 1 sem. hr. (non-academic)

**Major: Interdisciplinary Studies, B.S.**

The Interdisciplinary Studies Degree (ISD) is a program that allows students to declare a major as soon as they commence study at Mississippi College, even though they may be uncertain of their final area of
concentration. Students who declare an Interdisciplinary Studies major are assigned an ISD advisor and continue on a directed pathway to fulfill the requirements for graduation from the institution.

- CSC 114 - Introduction to Computer Science
- CSC 115 - Foundations of Computer Science

**University Core - Physical Education (3 hours)**

Three hours are required. Recommended courses are listed below:

- KIN 123 - Fitness For Life AND
University Core - Chapel

Students at Mississippi College are required to complete chapel requirements based on the student classification at the time of enrollment as detailed below:

Freshman (0-23 semester hours) 4 semesters
Sophomore (24-53 semester hours) 3 semesters
Junior (54-83 semester hours) 2 semesters
Senior (84 or more semester hours) 1 semester

Students classified as ADP (Accelerated Degree Program) and students enrolled in online degree programs are exempt from chapel requirements.

Major Requirements (54-63 Hours)

Students complete the program coursework in the Interdisciplinary Studies Degree by selecting, in consultation with their advisor, three defined minors from the Mississippi College undergraduate catalog. Interdisciplinary Studies Degree students will identify one of the three minors as a "preferred" or "concentration" area. Because different minors at the University require varying numbers of hours (usually between 18 and 21 hours), different combinations of programs may result in varying numbers of program hours. Coordination by, and communication with, the Interdisciplinary Studies advisor is thus crucial in successfully completing this degree program. To meet graduation requirements, students must maintain a minimum GPA of 2.0 in each of the minor areas, as well as an overall cumulative GPA of 2.0 or higher.

CONCENTRATION AREA (18-21 HOURS)

Students choose one of the minors at the University as a preferred area of study. See the various academic departmental information for available minors.

SUPPLEMENTAL AREA (18-21 HOURS)

Students must choose a second minor program from the available minors at the University. See the various academic departmental information for available minors.

SUPPLEMENTAL AREA (18-21 HOURS)

Students must choose a third minor program from the available minors at the University. See the various academic departmental information for available minors.

General Electives

Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with the advisor. Special attention should be paid to the requirement that "at least one-third of the academic work which a student takes in meeting requirements for graduation with a bachelor’s degree must be in junior-senior level courses (courses numbered 300-400)."
Thus, in a 130-hour program, at least 39 hours must be taken at the 300- or 400-level. See Academic Information, General Degree Requirements for Graduation section of the undergraduate catalog.

TOTAL: 130 SEM. HOURS

Developmental Studies Program
Ashley Krason, Coordinator
This program is designed to help students improve their academic skills and increase their chances of academic success at the university-level. All freshman students who have been granted restricted admission to Mississippi College are required to enroll in the program. It consists of four special courses (8 semester hours) that must be taken and successfully completed during the student’s first and second semesters at the University.

Courses

- ENG 100 - English Fundamentals
- IDS 111 - Study Skills I
- MAT 100 - Developmental Mathematics
- IDS 112 - Study Skills II

Note(s):
Credit is awarded for the Developmental Studies courses, but they count as electives and not toward core requirements, a major, or a minor. For additional information about restricted admission and the Developmental Studies Program contact the Office of Enrollment Services, Telephone: 601.925.3354 or 601.925.3240 or Program Coordinator (601.925.7740).

Honors Program
David G. Miller, Chair of the Honors Council
The Honors Council, composed of faculty representatives from the various academic areas of the University, plans and administers several Honors Programs for students with special academic aptitudes and achievements. The programs are so structured that qualified students may be enrolled in some portion of the honors work during each of their four years of enrollment, or they may be enrolled in any one portion for shorter periods of time. The programs offered are described below.

Freshman Honors Program
Freshmen Honors consists of a block of core curriculum courses offered by invitation to incoming freshmen. Freshmen honors students form a cohort taking three classes together in the fall and spring semesters of their first year. Incoming students with a minimum ACT/SAT receive invitations to apply for the block. Currently the freshmen block consists of writing, literature and history courses, each semester, satisfying core curriculum requirements.

Sophomore Honors Program
An interdisciplinary program in the fall semester of the sophomore year, with the class meeting at regularly scheduled times. It is under the direction of a Sophomore Honors Team, selected and guided by the Honors Council. It is open to sophomores who have attained at least a 3.25 grade point average on at least 12 hours at Mississippi College or whose ACT/SAT score met the requirements for Honors I in their freshman year.
- IDS 261 - Sophomore Honors
Junior and Senior Honors Program
A student in the junior year, who has a cumulative grade point average of 3.25 or higher, and has had at least 12 credit hours at Mississippi College, and who has the approval of the department in which one proposes to do honors work, may be invited to enter an honors program designed to run through three consecutive semesters. This is a program of independent reading and research under the guidance of a faculty director. Six semester hours may be earned in the field in which the student is working.

- **361 Reading and Research for Honors I** Credit, 1 sem. hr.
  
  *Prerequisite: by invitation of the Honors Council*
  
  General reading in a major field, with frequent conferences with the directing faculty member. A bibliography and a statement of purpose will be submitted at the end of the semester to both the directing faculty member and the Honors Council.

- **462 Reading and Research for Honors II** Credit, 2 sem. hrs.
  
  *Prerequisite: Honors I*
  
  Reading within a more specific area within the major field, leading to a selection of an honors topic, and the preparation of a prospectus and bibliography (or its equivalent in particular cases) to be submitted to the directing faculty member and to the Honors Council.

- **463 Reading and Research for Honors III** Credit, 3 sem. hrs.
  
  *Prerequisite: Honors II*
  
  An honors essay (or approved equivalent) will be written and defended before an Honors Examination Committee.

Grading on all three courses will be assigned by the directing faculty member. Whether the honors paper is judged unsatisfactory, satisfactory, or superior will be determined by the Honors Examination Committee. The minimum requirements for graduation with honors are: a satisfactory paper, a cumulative grade point average of 3.25, and an average of 3.50 in the major field. For graduation with high honors the minimum requirements are: a superior paper, a cumulative average of 3.50 and an average of 3.75 in the major field. One who completes the paper but does not maintain the required grade point average may receive credit for the courses but will not be eligible to graduate with honors.

Senior Honors Seminar
An interdisciplinary program in the spring semester of the senior year designed to bring together outstanding academic achievers. It is under the direction of a Senior Honors Team, selected and guided by the Honors Council. Issues of contemporary interest, often involving the work done by the individual students, constitute the subject matter, with the class meeting at regularly scheduled times. It is open to seniors whose grade point average is 3.50 or higher, with a minimum of 30 semester hours from Mississippi College.

- **IDS 464 - Senior Honors** Additional Information:
  
  Additional information concerning the Honors Program may be obtained from the chair of the Honors Council, and a complete description is contained in the Honors Program brochure.

**Preprofessional Programs**

Students planning to enter any of the several professions are strongly advised to complete the requirements for a university degree before entering their professional studies. Under the University’s semester system, by attending regular and summer sessions, a student can complete the regular four-year course in three years. The best schools of law and the other professions expect a minimum amount of specific university work for entrance. They also place a particular emphasis upon the quality of work done, as well as the personality and adaptability of the candidate for admission. Since professional schools differ in their minimal requirements, a student is advised to consult catalogs of the schools being considered.

Since the quality of the academic training and the student's standing in his/her class naturally play important parts in his selection for admission, it is easy to see that the better undergraduate training a student can get,
the better is his/her chance for admission to a first-class professional school and for advancement after admission. Some of the curricula listed below are cooperative programs between Mississippi College and other institutions; others are for advisory purposes only. It is important that a student interested in a professional program work closely with the designated advisor for that program.

**Three-Three Law Degree Program**

The purpose of the Three-Three Program is to give pre-law students with strong academic records and ACT and SAT scores a chance to complete their entire Mississippi College undergraduate and law school programs within a six-year period instead of the traditional seven years. Ordinarily, a 26 ACT or 1180 SAT score will qualify a student for the program. In addition, the student must maintain a 3.25 GPA. Approval for entry into the program is granted by the academic advisor and department chair in the academic unit of choice. Academic units which sponsor the Three-Three Program include the Departments of English, History and Political Science, Psychology, Sociology and Social Work, and the School of Business. See the specific section on these academic units for details. Acceptance into the Three-Three Program, however, does not automatically guarantee admission to the Mississippi College School of Law.

**Pre-Professional Programs Which Do Not Lead to a Degree from Mississippi College**

**Prepharmacy**

*Pre-Professional Health Programs Advisory Committee, Stan Baldwin, Chair*

This curriculum satisfies the course requirements for entry into the first professional year of the University of Mississippi School of Pharmacy. Other schools of pharmacy may differ slightly in their requirements. With careful scheduling the curriculum can be completed in three years, although some students prefer to complete a bachelor’s degree prior to entering pharmacy school.

Pretheological Course
Roger Greene, Advisor
Students preparing for church-related vocations need to develop strong functional skills in a context of broad cultural understanding.
To major or minor in the Department of Christian Studies and Philosophy will offer a distinct foundational advantage for continuing theological studies.
Other suggested majors or minors would include communication, English, history, psychology, sociology, and related areas which would ensure a comprehensive liberal arts background. Because of the demands made upon those who seek to minister in the modern world, courses in communication, computer science, language, and business would be a wise use of electives for the development of skills which will greatly enhance and facilitate ministry.
College of Arts and Sciences

Mission and History
The College of Arts and Sciences consists of three schools: the School of Christian Studies and the Arts, the School of Humanities and Social Sciences, and the School of Science and Mathematics. They offer students a liberal arts education reflecting both academic excellence and Christian concern and commitment. Course offerings in the College of Arts and Sciences provide students with a broad general education as well as in-depth knowledge in particular majors. This combination is designed to equip students not only with career training, but also with an appreciation and understanding of cultural achievements and religious values and with the literacy skills necessary for lifelong learning. Each school provides students with a strong background for post-baccalaureate concentration in graduate school or professional studies.
The academic programs in the College of Arts and Sciences prepare students for such careers as those of pastor, director of religious education, minister of music, artist, journalist, chemist, biologist, physicist, mathematician, computer science specialist, social scientist, historian, social worker, teacher, writer, linguist, mass media specialist, interior designer, graphic designer, paralegal or law enforcement official. In addition, pre-professional training is provided for careers in medicine, dentistry, pharmacy, physical therapy, optometry, medical technology, nursing, law and veterinary medicine. The Department of Christian Studies and Philosophy also gives excellent preparation to many students who will attend our Southern Baptist seminaries.

Objectives
In serving both the general and specific educational needs of students in the university, the College of Arts and Sciences is guided by three major objectives:

1. To provide a broad foundation of learning in the arts, humanities, and sciences and to promote critical thinking, problem solving, written and oral communication and research skills.
2. To provide in-depth knowledge in a wide range of academic disciplines leading directly or indirectly to both career opportunities and enhanced understanding of human society and culture.
3. To provide a sound academic base in the arts and sciences for further study in professional and graduate schools and seminaries.

History
The College of Arts and Sciences has a unique history. It is both the oldest and the newest of the schools that make up Mississippi College. It includes those fields of learning which have traditionally constituted a university education and which were the whole curriculum of Mississippi College until relatively late in its history. By the early twentieth century, as human knowledge became more specialized and skilled professions became more complex, Mississippi College, along with most other colleges and universities, added courses of study directed toward preparation for specific professions, such as teaching or business; it also helped students to tailor their pre-professional studies in the broad areas of liberal learning and in preparation for professional studies in such fields as medicine and law.
In 1969, with the establishment of the School of Nursing, Mississippi College began the systematic development of a university structure. New or existing programs were formed into separate, though related, schools of business, education, law, and graduate studies. In 1982, the restructuring was completed by combining the academic areas of Fine Arts, Humanities, Christian Studies, Social Sciences, and Science and Mathematics into the College of Arts and Sciences.

Schools
The three schools in the College of Arts and Sciences represent twelve departments:

- Art
- Biological Sciences
• Chemistry
• Christian Studies and Philosophy
• Communication
• Engineering, Computer Science and Physics
• English
• Modern Languages
• History and Political Science
• Mathematics
• Music
• Sociology and Social Work.

Graduate Programs
Graduate study is offered in the College of Arts and Sciences leading to the following degrees: Master of Arts, Master of Fine Arts, Master of Science, Master of Social Sciences, Master of Liberal Studies, Master of Combined Sciences, Master of Computer Science, and Master of Music. Students should refer to the Graduate Catalog and the appropriate academic department regarding specific requirements for these degrees.

Honors Program
The College of Arts and Sciences provides an Honors Program for students with a minimum ACT/SAT score established each year. Successful completion of the program allows a student to graduate "With Honors" or "With High Honors." The Honors Council is chaired by Dr. David G. Miller of the Department of English.

Mission
The Mississippi College School of Christian Studies and the Arts offers undergraduate and graduate programs designed to prepare students to use their skills in the pursuit of meaningful careers in the fine arts, communications, and in service to God. These programs express the School’s commitment to the intellectual and spiritual growth of its students. Through a variety of challenging academic programs offered in the Departments of Art, Christian Studies and Philosophy, Communication, and Music, students are encouraged to express their convictions and creativity in the pulpit, classroom, studio, or concert hall.

The School of Christian Studies and the Arts is committed to excellence and innovation in teaching. The School is further committed to offering students in each of its departments the opportunity to participate in activities outside the classroom which enhance and supplement their academic experiences and provide avenues for them to function in the workplace. The School of Christian Studies and the Arts further seeks to hire and retain teachers who are committed to the ideals of the college and who seek to continue their professional development. This excellence in teaching is complemented by numerous opportunities for community service, internships, and artistic performances made available to students.

The School of Christian Studies and the Arts is also committed to enriching the life of the college and community through its varied lectureships, art exhibits, theatrical productions, and musical events. These productions are designed to enhance the growth and development of all members of the campus community.

Program Goals  
The Department supports the mission of Mississippi College by preparing students for life long learning in a Christian environment where Christian ethics and ideals find free exercise as motivating factors in the art experience. Furthermore, it is hope of the Department to acclimate the student to the continuing disciplines and learning processes which are necessary factors in the professions of art and art education. The Department proposes to provide art experiences that are basic to the various applications and directions in the professions of art and art education and provide guidance, instruction, and resources in an effort to bring out the highest potential of each student in his or her chosen area of concentration.  
The Department pursues excellence in teaching and learning through five goals:  
- To inspire a Christ centered Department,  
- To identify a strategic direction for the Department  
- To improve and maintain facilities and equipment  
- To implement a recruitment plan for the Department  
- To increase student involvement in department events and activities.  

Majors  
The student desiring to major in Art may pursue the Bachelor of Arts, the Bachelor of Fine Arts in Studio Art, or the Bachelor of Science in Education, depending upon vocational choice. The balance of art courses needed to complete art major requirements must consist of at least 21 semester hours of art on a junior-senior level. Transfer students must complete a minimum of 21 semester hours of art courses at Mississippi College. It is the policy of the Mississippi College Department of Art to require each student pursuing an interior design Bachelor of Art or Bachelor of Science degree to acquire a laptop computer, hardware, and software for processing required course assignments in the classroom and outside of the classroom. The Department of Art will publish on its website annual guidelines for students’ computer laptop needs.  

Kenneth M. Quinn Art Library  
The Kenneth M. Quinn Art Library, located in Aven Hall 410, contains several hundred books related to artists, art processes, aesthetics, and art history. Students have access to use the library for reading and research. The books were given by numerous donors including Kenneth Quinn, art faculty, friends, and alumni.  

Student Organizations  
A.I.G.A.: The student chapter of the American Institute of Graphic Design (AIGA) is a professional organization that seeks to advance graphic design as a respected craft, profession, and vital cultural force. Membership is open to Graphic Design majors.  
A.S.I.D.: The student chapter of the American Society of Interior Designers (A.S.I.D.) is a pre-professional organization emphasizing the aims and standards of the profession while providing upon graduation the benefit of one year associate membership in the national organization. Membership is open to Interior Design majors.  
Kappa Pi: The Kappa Pi International Honorary Art Fraternity, Delta Beta Chapter, is an honorary fraternity for art majors, faculty, and honorary members. Its purpose is to recognize and honor those who have excelled in the visual arts academically and creatively. Members also are involved with activities which further the goals of achievement in art and purposes of the Art Department and the University.  
Student Chapter NAEA: The student chapter of the National Art Education Association (NAEA) was designed to provide an effective transition from art education preparation to professional practice. Students in this organization pledge to maintain a high standard of quality art education on campus and in the
community. Membership is open to all art education majors. The Student Chapter of NAEA is affiliated with both NAEA and the Mississippi Art Education Association (MAEA).

**Senior Art Exhibit**
All seniors are required to participate in a portfolio art exhibit, ART 499 - Senior Art Exhibit, following the guidelines set forth by the Department of Art.

**Graduate Degrees**
The Art Department offers graduate courses leading to the Master of Education, the Master of Arts and the Master of Fine Arts Degree in Graphic Design or the Master of Fine Arts Degree in Visual Arts, the requirements for which are listed in the *Graduate Catalog*.

**Minors in Art:**
Art minors include studio art, art history, Residential Design in Interior Design, and Graphic Design. Students interested in any of these minors must contact the Chair of the Department of Art prior to registering for classes.

**Honors Courses**
By invitation of the Honors Council; see *Honors Program section of Undergraduate Catalog*.

Program Goals
The Department of Christian Studies and Philosophy seeks to stimulate the development of foundational knowledge, skills, and values of Judeo-Christian heritage. It further seeks to encourage examination of philosophical perspectives significant for personal living and Christian leadership. The department thus offers educational opportunities that pursue exploration of significant aspects of scriptural understanding, philosophical and theological reflection, spiritual formation, and practical ministry. The department emphasizes learning and development of critical thinking and communication skills that foster a sense of well-being and personal competence that nurtures faith. This in turn directs students toward the establishment of meaningful careers in the context of Christian community in a global environment. In
keeping with the stated mission of the University, the department thus seeks to serve all students at the
University through its core and major offerings within the context of a liberal arts education.
In accomplishing its goals, the department proposes to:

1. Provide sound and appropriate instruction in biblical content and interpretation.
2. Provide insights and opportunities for practical exploration of Christian ministry and service.
3. Facilitate philosophical, theological, and ethical reflection and application of Christian principles.
4. Encourage development of analytical thinking and communication skills useful for the pursuit of
   graduate study and/or roles of Christian leadership.

Majors
Students preparing for church-related vocations are encouraged to major or minor in the Department of
Christian Studies and Philosophy. The student majoring in Christian Studies must meet all University Core
Curriculum requirements for the Bachelor of Arts degree, including the foreign language requirement.
Students are reminded that at least one-third of their academic work for the bachelor’s degree must be in
courses numbered 300-400.
Also, students should be aware that most theological seminaries require a working knowledge of one or more
modern languages in addition to Hebrew and Greek as part of the entrance requirements leading to the
Doctor of Philosophy degree. Students should consult the catalog of the seminary they plan to attend for

Program Goals
A major in Communication will provide opportunities to develop a variety of academic, performance and professional competencies. Areas of Communication concentration are designed to help prepare the student to function in such fields as business, law, public relations, the ministry, mass communication, government, education and industry.

Communication Majors
A Communication degree may be a Bachelor of Science or a Bachelor of Arts degree with a 40 hour major. The curriculum consists of a Communication core with a choice among seven concentrations: Concentration (Choose one) 18 sem. hrs.
Interpersonal and Public Communication
Mass Media
Public Relations
Journalism
Sports Media
Generalist (either online or ADP format)
The Department also offers three degrees with the School of Business: Mass Communication and Marketing (B.S.); Sports Media and Marketing (B.S.); Public Relations and Marketing (B.S.).
The Department also offers graduate study leading to the Master of Science in Communication degree.

Suggested Minors
A minor is necessary in order to complete the B.A. or the B.S. degree in Communication. The Department suggests minors in Journalism, Business Administration, Marketing, Political Science, Sociology, and Theatre; however, other minors are acceptable.

Communication Minor
The field of Communication is an excellent complement to majors in other fields. A minor consists of 18 hours in the Communication field. Eighteen hours are chosen in counsel with an advisor in the Department of Communication and approved by the student's major advisor. Defined minors in Theatre and Journalism are offered as well. COM 100, COM 200, COM 300, and COM 400 are not permitted to be applied toward a Communication Minor.

Student Organizations
The Mississippi College Players is the campus drama organization. The purposes of the club are to cultivate a taste for drama, to give as many students as possible a chance to participate in drama as a creative art and to promote cultural values through drama. Members of the Mississippi College Players may earn membership in Alpha Psi Omega, a national dramatics fraternity.

Mississippi College's PRAM (Public Relations Association of Mississippi) is a student group which is a part of the state association. Our membership consists of public relations, graphic design, advertising and marketing majors. PRAM is a source of expertise and inspiration, and a forum for networking with public relations practitioners throughout the state and the region. PRAM membership includes membership in the Southern Public Relations Federation (SPRF), which brings Mississippi public relations practitioner together with others in Alabama, Louisiana, and the Emerald Coast of the Florida Panhandle. (PRAM, 2015)

The Speech and Debate team sponsors oratory, extemporaneous speaking and oral interpretation of literature. Membership is open to anyone who is willing to participate in the activities. An invitation to become a member of Pi Kappa Delta is based upon achievements in speech and debate. After completing 18 hours in communication with a GPA of at least 3.00, students may be invited to join Lambda Pi Eta, the National Communication Association Honor Society.

Departmental Activities for Credit
The Individual Events and Debate Team affords students the opportunity to compete on the national collegiate level in public speaking and individual events.

Theatre Production provides opportunities for students to participate in major dramatic productions.

Radio Broadcasting offers students the opportunity to gain experience through working in broadcast stations.

To receive degree credit for these activities, the student must register for the appropriate course number. These activities are listed under Department Activity Courses.

Honors Courses

Program Goals
The mission of the Department of Music is to provide the opportunity for students to gain the knowledge, understanding, skills and appreciation of music necessary to function at professional levels in their chosen areas. Individual degree programs are specifically designed to provide a foundation for development in those areas and to prepare students for meaningful careers in service to others. Faculty reflect Christian values, commitment to service, and personal concern for students in both classroom and studio, modeling for them the integration of faith and learning in scholarship and performance. The department offers cultural enrichment opportunities to the college community and the public in the form of applied lessons, concerts, recitals, and workshops.

The Music Department of Mississippi College is an institutional member of the National Association of Schools of Music (NASM). The requirements of the department are in accordance with the published standards of that organization.

Admissions, Curricula, and Degrees
An audition before members of the music faculty is required of all students who declare music as a major. The student majoring in music may choose the Bachelor of Arts (B.A.), the Bachelor of Music (B.M.), or the Bachelor of Music Education (B.M.Ed.) degree. The Bachelor of Arts degree with a major in music is a broad program with approximately one-third of the curriculum in music. The Bachelor of Music degree is designed for the student who is interested in music as a profession. The Bachelor of Music Education degree, which is designed to meet the standard educator licensure requirements for teachers of music, is for the student who plans to teach in schools. (Educator licensure requirements will be found in this catalog under School of Education.) The Master of Music (M.M.) is also offered at Mississippi College.

Note Regarding Music Studio Classes
In music studio classes, one semester hour of credit equals thirty minutes of private instruction per week for 14 weeks. In production classes, one semester hour may constitute up to 6 hours per week for 14 weeks. In ensembles, one semester hour equals 2-5 hours per week of rehearsal. Classes that do not carry credit include proficiencies, recital attendance, and ensembles.

Ensembles
In accordance with standards of NASM, students majoring in music are required to register for a music ensemble EACH semester. The ensemble should correspond to the student's performance area; therefore, instrumental majors will choose Band as their ensemble, voice majors will choose Choctaw Chorus or audition for Singers as their ensemble, and keyboard majors may choose from these ensembles. Students pursuing a Bachelor of Arts in Worship Leadership or a Music Minor may choose the Worship Ensemble to fulfill part of their ensemble requirement.

Professional Music Organizations
National Association for Music Education (NAfME)
The student chapter of NAfME was established on the campus of Mississippi College in September of 1959. Membership is open to all students planning to teach music in the public schools. The aim of the organization is to afford students an opportunity for professional orientation and development in the field of public school music while still in school.

American Choral Directors Association (ACDA)
The purposes of this organization shall be those as set forth in the National Constitution of the American Choral Directors Association and shall primarily consist of the fostering and promotion of choral singing that will provide artistic and spirited experiences for the participants.

The membership of this organization shall include students at Mississippi College who, because of their serious interest in the improvement of choral music and the profession of the choral director, have chosen to become members of the student chapter of the American Choral Directors Association.

**Performance Laboratory**

All students majoring in music are required to participate in Performance Laboratory. These may take the form of Solo Hours or Studio Classes.

All music majors must complete eight semesters of Performance Lab attendance. Music minors must complete four semesters of Performance Lab. This is accomplished by registering for MUS 055 and obtaining the required points for each semester by attending both evening and afternoon recitals.

**Recitals**

Realizing the importance of public performance for the applied music student, the Music Department sponsors Performance Laboratories, Degree Recitals, and Faculty/Guest Recitals.

**Degree Recitals for Majors**

These recitals are designed to meet the requirements of the various music curricula and are presented in partial fulfillment of degree requirements.

All applicants for the degree of Bachelor of Music in performance (with the emphasis in organ, piano, or voice) will be required to give recitals as follows: junior recital duration, 30 minutes; senior recital duration, one hour.

Composition majors will give a one-hour senior recital.

The applicant for the Bachelor of Music Education degree in music will be required to give a 30-minute recital in the senior year. This recital may be shared with another student.

Applicants for the Bachelor of Arts degree may present a 30-minute recital in the senior year, although it is not a requirement for degree completion.

**Faculty/Guest Recital**

Each semester several evening recitals will be presented by faculty performers or guest artists.

**Music Handbook**

The Department of Music publishes annually a Handbook which clarifies procedures and policies not contained in the *Undergraduate Catalog*. Handbooks are available on the music Web site (www.music.mc.edu) and policies are discussed at the first Solo Hour of each fall semester. Students should understand that it is their obligation to abide by procedures as outlined in both the *Undergraduate Catalog* and the Music Department Handbook.

**Advanced Standing**

The process of achieving Advanced Standing qualifies a music major to enter upper division music courses and endorses the student's work in the major area within music.

All students majoring in music will be assessed through an Advanced Standing Evaluation as to their potential for success in their chosen program of study. To be eligible for advanced standing, a student must have completed MUS 202, MUS 206, MUS 077 (Aural Skills Proficiency) and four semesters of applied study in the major area with a minimum grade of C. The Advanced Standing Evaluation usually takes place at the end of the sophomore year or in the first year after transferring.

**Applied Area Assessment:** Occurs after the completion of four semesters of applied study. At the fourth applied jury, the student will be assessed by the appropriate applied faculty according to the Advanced Standing processes established by that faculty. Typically, this includes a longer jury which includes one self-prepared piece (see your studio syllabus for the exact process in your area). All music students will prepare and present an oral report related to one of their prepared pieces. The jury will be allowed to question the students and will weigh the effectiveness of the student's oral communication as a part of the jury grade and
worthiness to be granted Advanced Standing. Decisions concerning the eligibility of the students who are auditioning for an invitation into the applied performance programs will be made at this applied jury. The Mississippi College Music Faculty is charged with the appropriate responsibility and reserves the right to make recommendations concerning a student's choice of major. When the student has completed both parts of the process as cited above, the music faculty, in a subsequent meeting, will vote to endorse a student's choice of major or recommend other directions. These endorsements/recommendations will be documented by letter and sent to the student. Following discussion between the student and the advisor a copy of the letter with the recommendations will be placed in the student's permanent file. Furthermore, students who have applied for entrance into the performance or composition areas will be notified in this letter as to their eligibility. The student should realize that these recommendations may involve a schedule change in order to place the student in a curricular track appropriate to their major.

**Aural Skills Proficiency**

All music majors are required to complete the MUS 077 requirement (Aural Skills Proficiency). Students should begin the four-semester Aural Skills sequence (MUS 105-106, 205-206) their first semester at Mississippi College. The student will register for MUS 077 concurrently with MUS 206. Successful completion of MUS 206 with at least a C will constitute fulfillment of the Aural Skills Proficiency requirement.

Transfer students who have completed two years of ear-training courses at other schools will take an Aural Skills Diagnostic during registration in order to satisfy the Aural Skills Proficiency. In the case of an unsuccessful diagnostic, the student will be required to successfully complete MUS 206 with at least a C. Aural Skills Proficiency must be completed before a student can schedule a senior recital.

**Piano Proficiency**

All music majors are required to complete the MUS 066 requirement (Piano Proficiency). Students should begin taking piano their first semester at Mississippi College in preparation for completion of the MUS 066 requirement. The student will register for MUS 066 each semester until the requirements are completed. Every student will be expected to take piano until he or she has completed these requirements. Students may satisfy the piano proficiency in one of two ways:

1. Successfully complete the 4-semester group piano sequence (MUS 126, 127, 226, 227).
2. Successfully complete a piano proficiency examination that is administered once per semester.

No student may take the proficiency or any part of the proficiency during the semester in which he or she graduates. Piano Proficiency must be completed before a student can schedule a senior recital.

**Theory Lab**

MUS 011 Theory Lab is designed to assist students enrolled in MUS 101 Theory I. Music majors and minors are required to enroll in MUS 011 if their progress in MUS 101 is deemed unsatisfactory. Entry into this lab is at the discretion of the instructor of MUS 101.

**Fees**

All applied lessons - voice, piano, instrumental, composition - have a fee* attached. (See Financial Information for current fee schedule)

*(Whether the student earns one or more credit hours, the fee is the same. This fee is in addition to hourly tuition for the course.)

**Bachelor of Music Education (B.M.Ed.)**

The curricula in Music Education are planned to give thorough and practical training in the fields recommended by the Mississippi Department of Education. These plans meet the requirements for licensure of elementary and secondary teachers in the State of Mississippi.

**Honors Courses**

By invitation of the Honors Council: see Honors Program section of Undergraduate Catalog.

Bachelor of Music in Performance: Organ (B.M.)

To enter the four-year course for the Bachelor of Music with an emphasis in organ, the student should have the potential to complete the following studies:

First-Year
The art of organ playing is developed through use of organ literature taken from all periods of music. Exercises and method books are used as needed by the student. Hymn playing and basic service-playing techniques are introduced.

Second-Year
Literature on a more advanced level is studied, including more extended Bach preludes and fugues, chorale preludes by composers, past and present, and intermediate-level organ music by composers to the present.

Third-Year
The study of more extended organ works is expected. Literature includes larger Bach preludes and fugues, 17th and 18th century French organ music, more advanced chorale preludes by composers of all periods of music, and other more advanced literature by composers to the present.

Fourth-Year
The literature to be studied includes several major organ works representing all periods of music. Compositions include trios, preludes and fugues, toccatas, sonatas, organ symphonies, organ concerti, and selections representing the works of composers of the 20th century.

Bachelor of Music in Performance: Piano (B.M.)

Entrance Expectations:
To enter the four-year course of study in the Bachelor of Music in Performance (Piano), preparatory training must be sufficient to permit the student to pursue the following studies:
Major and minor scales in parallel motion (two-octave minimum); technical studies such as Czerny Opus 299; Bach Two-Part Inventions, Suites, Well-Tempered Clavier; easier sonatas of Mozart, Beethoven, and Haydn; intermediate works of Romantic and Modern composers (Mendelssohn, Schubert, Schumann, Chopin, Brahms, Liszt, Debussy, Ravel, Scriabin, Bartók, Prokofiev, Barber, Copland, etc.)
The audition for entrance into the performance area will include at least two pieces in contrasting styles, played from memory.

Exit Expectations:
At the time of the senior recital in Bachelor of Music in Performance (Piano), the student should be able to perform an hour-long recital from memory. The recital should be adequate to serve as an entrance audition for a graduate program audition. The recital program will be comprised of repertoire from the four common-practice periods of music history to include such works as the following:
The Well-Tempered Clavier, Books One and Two, English Suites, French Suites, and Toccatas of J.S. Bach; advanced sonatas of Mozart, Beethoven, Haydn, and D. Scarlatti, advanced Romantic repertoire such as the scherzos and ballades of Chopin, the character works of Brahms and the extended character pieces of Franz Liszt; advanced Impressionistic works of Debussy and Ravel; sonatas and advanced character pieces of modern composers such as Bartók, Prokofiev, Barber, Copland, etc.)

GENERAL ELECTIVES
Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with advisor.

TOTAL: 131 SEM. HOURS
**Bachelor of Music in Performance: Voice (B.M.)**

The student should possess a natural voice quality suitable for advanced training and should be able to sing songs of moderate difficulty.

**Completion of Second-Year Level**

At the end of the second year, the student should have acquired and developed to a high degree the principles of breath management, vocal production, diction, and expressive powers. Repertoire must be sung from memory including literature of the less difficult arias from opera and oratorio plus several standard songs. Two songs from the Italian, German, and French classics should be prepared for public performance.

**Completion of Fourth-Year Level**

The candidate for graduation shall have prepared recitatives and arias from opera and oratorio and selections from art song literature spanning the breadth of the standard repertoire. Through diverse recital literature, the student should display advanced ability in vocal technique, expressive interpretation, and collaborative artistry.

Mission
The School of Humanities and Social Sciences encourages students to appreciate the richness of human experience. Its curriculum seeks to integrate academic excellence with Christian commitment, providing a general education as well as in-depth knowledge in particular majors. The goal of the School's courses is to foster an understanding of human behavior, values, and achievements that will serve students throughout their lives. The insights and skills that come from these courses also prepare students for meaningful careers and for graduate school or professional studies.

Objectives
In serving both the general and specific educational needs of Mississippi College students, the School of Humanities and Social Sciences is guided by four major objectives:

1. To provide a broad foundation of learning in the humanities and social sciences by promoting critical thinking, problem solving, written and oral communication, and research skills.
2. To provide in-depth knowledge of social and political behavior, historical events, linguistic forms, and literary achievement, so that students will better understand others, themselves, their place in a changing world, and the value of disciplined inquiry.
3. To prepare students to excel in professional and graduate schools and ultimately in their careers.
4. To provide a learning and research environment that will enable students and faculty to achieve their fullest potential.
The Department of English stimulates the intellectual development of our students through the production and analysis of diverse texts. The three undergraduate tracks in the department -- Literature, Writing, and
English Secondary Education -- promote close reading, information literacy, effective communication, and critical thinking. The department cultivates students who engage thoughtfully in analysis, interpretation, service, and life-long learning as they pursue their vocations.

**English Majors and Concentrations**
The student electing to major in English may choose from the following options, each of which leads to the Bachelor of Arts Degree: English major with Literature Concentration; English major with Writing Concentration; and English Education major. All degrees require 12 semester hours of a foreign language.

**English Minor Requirements**
The English Department offers two options for minors: the literature minor and the writing minor. Each option requires 18 semester hours of course work. Course requirements for both minors follow.

**Major and Minor Combinations**
English majors concentrating in literature may also complete the writing minor, and English majors concentrating in writing may also complete the literature minor. English Education majors are not required to select an additional minor. Credits earned toward a major cannot be applied toward a minor and vice versa. Students majoring in other disciplines may complete a literature minor, a writing minor, or both.

**Honors Courses**
By invitation of the Honors Council; see Honors Program section of Undergraduate Catalog.

GENERAL ELECTIVES
Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with advisor.
TOTAL: 130 SEM. HOURS
Three-Three Law/English (Literature) Program, B.A.

After the approval of their academic advisors in consultation with the appropriate department chair, freshman pre-law students with an acceptable ACT or SAT score may elect to enter the Three-Three Program. Ordinarily a 26 ACT score or 1180 SAT score will qualify a student for the program. Such students are expected to maintain at least 3.25 GPA in their undergraduate work to remain competitive for early admission to the Mississippi College Law School. Students in this program should plan to take the LSAT as soon as possible after their sophomore year, but no later than the fall of their junior year, as an acceptable LSAT score is required for admission to the Mississippi College Law School. Acceptance into the Three-Three program, however, does not automatically guarantee admission to the Mississippi College Law School.

Program Goals
The basic goals of the Department of Modern Languages are:

1. to acquaint non-language majors with a culture, language and literature other than their own;
2. to provide language majors with the skills and knowledge necessary for effective communication in another language;
3. and to provide adequate training for those who plan to continue their language study in graduate school and for those who plan to enter professional fields that require the mastery of another language.

Those who continue in the same language they studied in high school should consult with the instructor in that language before registration in order to determine their placement. In general, one year of high school work is considered equivalent to one semester of university work.

Students who have taken two years or more of a modern foreign language in high school may take the CLEP test for that language. Depending on the test score, up to 12 semester hours of university credit may be obtained. This proficiency examination must be taken before receiving upper level university credit in that language.
Most graduate schools require their students to have a working knowledge (12 semester hours or the equivalent) of one foreign language for the master's degree or two for the doctorate. Most seminaries require that their candidates for the degree of Doctor of Theology have a working knowledge of two foreign languages in addition to Greek and Hebrew. The catalog of the graduate school or seminary that one expects to attend should be consulted for specific requirements.

**Exchange Programs**

Mississippi College has exchange programs with Johannes Gutenberg University in Mainz, Germany, Federal University of Paraiba in Joao Pessoa, Brazil, and with Montpellier University II in Montpellier, France. Other study abroad opportunities include The Austrian Studies Program at Salzburg College, Austria, the University of Alicante, Spain, Veritus University in Costa Rica, as well as programs in Ching, Japan, and summer programs in France and Spain.

**The Classical Languages**

The courses in the classical languages are designed to acquaint students with the languages utilized in the Hellenistic world of ancient Greece and Rome. The course offerings are designed to develop reading competence in either Koine Greek, Latin, or Biblical Hebrew. Through the window of these languages, the student is exposed to the conceptualization of the ideas and culture of the Greco-Roman world and the influences of that world upon the languages, literature, and life of the modern world.

**Classical Languages Minor Requirements**

Students planning to minor in classical languages should check with the Chair of the Department of Modern Languages.

**The Modern Languages**

The courses in modern languages are designed to meet both cultural and practical needs. Students may expect to learn not only to read in the target language, but also to understand the spoken language and to express themselves in it with some facility. Ordinarily, 36 semester hours are required for a major in the Department of Modern Languages. However, students whose background in a language enables them to begin their course of study beyond the intermediate level will be considered to have satisfied the requirements for a major when they have completed 24 semester hours. Students may elect majors in the Department of Modern Languages as follows:

- **Foreign Language and International Trade (B.A.)**
- **French (B.A.)**
- **International Studies (B.A.)**
- **Modern Languages (B.A.)**
- **Spanish (B.A.)**

1. Students who elect to major in Modern Language and International Trade (F.L.I.T.) must complete 36 semester hours of a modern language or 30 semester hours beyond the elementary level. F.L.I.T. majors may elect to complete 36 semester hours in one language or to complete the 36 semester hours in two languages. In that case, students must complete a minimum of 21 semester hours in one language and a minimum of 15 semester hours in another. However, students whose background in a language enables them to begin their course of study at the intermediate level will have satisfied the requirements for a major when they have completed 30 semester hours in the two languages.
2. Students who elect to major in French must complete 24 semester hours of French courses numbered higher than 202.
3. Students who elect to complete a major in Modern Languages must complete 21 semester hours in one language and 15 semester hours in another.
4. Students who elect to major in Spanish must complete 24 semester hours of Spanish courses numbered higher than 202.
5. Students who elect to major in the Department of Modern Languages must complete a minor as specified in a related department with the approval of their. Education courses required for an
educator license will not satisfy the requirements for a minor in the Department of Modern Languages. A minor in English or TESOL is recommended for students planning to teach.

6. All students majoring in the Department of Modern Languages are strongly encouraged to spend at least one term studying overseas through an approved study-abroad program.

**Modern Languages Minor Requirements**
The Department of Modern Languages offers minors in French, German, Chinese, Japanese, Spanish, and TESOL. Students minoring in a modern language must have 18 semester hours of university credit in that language, with at least 6 of the 18 hours at the 300 level or higher. Students minoring in Chinese or Japanese must take at least 6 hours abroad to fulfill the minor requirements.

**Honors Courses**
By invitation of the Honors Council; see *Honors Program section of Undergraduate Catalog*. 
Bachelor of Arts

Foreign Language and International Trade, B.A.
All F.L.I.T. students are strongly encouraged to spend at least one term studying overseas through an approved study-abroad program.

Should be taken in the Fall or Spring of the student's senior year.
- MLG 470 - Senior Seminar

MINOR REQUIREMENTS (18 HOURS)
A typical minor consists of 18 semester hours; however, some department minors may vary in terms of required semester hours. The minor should be selected in consultation with the student's advisor.

GENERAL ELECTIVES
Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with advisor.

TOTAL: 130 SEM. HOURS

Note(s):
*Ordinarily, 36 semester hours are required for a major in the Department of Modern Languages. However, students whose background in a language enables them to begin their course of study beyond the intermediate level will be considered to have satisfied the requirements for a major when they have completed 24 semester hours.

Students who elect to major in the Department of Modern Languages must complete a minor as specified in a related department with the approval of their advisor. Education courses required for an educator license will not satisfy the requirements for a minor in the Department of Modern Languages. A minor in English or TESOL is recommended for students planning to teach.

All students majoring in the Department of Modern Languages are strongly encouraged to spend at least one term studying overseas through an approved study-abroad program.
International Studies, B.A.

Students electing a major in International Studies must meet Mississippi College's core curriculum requirements for the Bachelor of Arts degree in Modern Languages. Because this is a comprehensive major no additional minor is required.

**Program Goals**

Within the framework of the general aims and objectives of the university, the Department of History and Political Science proposes to achieve these ends: to acquaint the student with the history and progress of civilization, and with the efforts of others to recreate man's past; to acquaint the student with the principles and political philosophies of government; to develop within him/her the capacity for honest, critical inquiry; to inspire him/her to greater curiosity about man and to encourage him/her in the search for knowledge; and to promote the highest development of Christian and democratic ideals, and the courage to put them into practice.

Students in History and Political Science may elect majors as follows:  
History - Bachelor of Arts, Bachelor of Science, and Bachelor of Science with pre-legal emphasis.  
Political Science - Bachelor of Arts, Bachelor of Science, and Bachelor of Science with pre-legal emphasis.  
Social Studies Education with Bachelor of Science in Education
Administration of Justice - A Bachelor of Science, a Bachelor of Science with pre-legal emphasis, a Bachelor of Science in Homeland Security, and a Bachelor of Science in Loss Prevention

Paralegal Studies with Bachelor of Science

Three-Three Pre-Law Program

After the approval of their academic advisors in consultation with the appropriate department chair, freshman pre-law students with an acceptable ACT or SAT score may elect to enter the Three-Three Program. Ordinarily, a 26 ACT score or 1180 SAT score will qualify a student for the program. Such students are expected to maintain at least 3.25 GPA in their undergraduate work to remain competitive for early admission to the Mississippi College Law School. Students in this program should plan to take the LSAT as soon as possible after their sophomore year, but no later than the fall of their junior year, as an acceptable LSAT score is required for admission to the Mississippi College Law School. Acceptance into the Three-Three Program, however, does not automatically guarantee admission to the Mississippi College Law School. The Three-Three Pre-Law Program allows students to count their first year of law school course work (30 hours) toward the 130 hour requirement for an undergraduate degree. Accordingly, students must satisfactorily complete both three years of undergraduate coursework, as specified herein, and their first year of law school coursework in order to obtain the B.S. degree. Students should refer to the history, political science or administration of justice sections for course requirements for the Three-Three Pre-Law Program.

History Major

The student electing to major in History may choose either the Bachelor of Arts, the Bachelor of Science in Education, or the Bachelor of Science in History, or the comprehensive major in History with a pre-legal emphasis, depending on the student's vocational plan. History majors who plan to teach may choose the Bachelor of Arts but must take the prescribed education courses for a standard educator license. No more than 3 semester hours of internship or independent study may be used to satisfy degree requirements of any degree plan in History. A minimum of fifty percent of all coursework applied toward the major must be earned at Mississippi College.

Political Science Major

The student electing to major in Political Science may select the Bachelor of Arts or the Bachelor of Science degree or the comprehensive major in Political Science with Pre-Legal emphasis. A minimum of fifty percent of coursework applied toward the major must be earned at Mississippi College. Students planning to do graduate work in Political Science are advised to select the B.A. degree; those who plan to attend law school are advised to select the B.S. degree.

Administration of Justice Program

Harry Porter, Director

The Bachelor of Science degrees in Administration of Justice and Homeland Security are offered by the Department of History and Political Science to prepare individuals for professional positions in law enforcement and related criminal justice areas. In addition to general curriculum requirements, courses are offered which develop the skills essential to criminal justice practitioners who are currently engaged in law enforcement work.

Mississippi College will give special transfer credit consideration to all students who have completed an administration of justice/law enforcement curriculum at an accredited community/junior college. A maximum of 18 semester hours of community/junior or senior college equivalent courses with grades of C or better in each may count toward the major in Administration of Justice. Additional transfer courses may be counted as general electives.

Administration of Justice with Emphasis in Homeland Security/Certificate in Homeland Security

Students may receive undergraduate credit in Homeland Security by completing a Certificate in Homeland Security (21 hrs.), by completing of a minor (18 hrs.), or by completing a major in Administration of Justice with an emphasis in Homeland Security.
Paralegal Studies Program
Tricia Nelson, Director
This program is designed to train graduates to work under the supervision of attorneys. Since paralegals (also known as legal assistants) are not licensed to practice law, they are prohibited from the Unauthorized Practice of Law, which is a crime under state law.

The major objectives of the paralegal program are the following:
- To increase access to legal services by reducing costs to clients.
- To encourage the growth of the paralegal profession.
- To teach students about legal ethics and to qualify them to work as paralegals in law-related occupations in law offices, government agencies and businesses.

A 27-hour certificate in Paralegal Studies is available to the student who already has a baccalaureate degree. Students need above-average writing skills. All students must pass ENG 099 Writing Proficiency Examination during their first semester. Those who do not pass the Writing Proficiency Examination must take ENG 299 Composition Skills the following semester.

Additional computer classes are highly recommended, as are courses in Business Law, Accounting and Business Communications.

Levels of Specialization:
- A student may major in Paralegal Studies and earn a Bachelor of Science degree.
- A student may earn a paralegal certificate if he or she already has earned a baccalaureate degree.
- A student may earn a minor in Paralegal Studies.

Honors I, II, III
A student who completes all Honors courses, totaling 6 hours, will receive 3 semester hours credit toward the appropriate major - History, Political Science, or Administration of Justice. The other 3 hours count as general elective credit.

Honors Courses
By invitation of the Honors Council; see Honors Program section of Undergraduate Catalog.
Bachelor of Arts

History, B.A.
Students must meet University Core Curriculum requirements and take the major area field examination approved by the department for this degree program during the final semester before graduation.

Department Goals
Recognizing the universality of truth, the department believes its programs are valuable vehicles for discovering truth. The faculty endeavors to aid students' exploration of self, the social environment, and the interaction between individual and community through examination of culture, social organization, and human personality. Realization of these goals is attained through a broad liberal arts curriculum, innovative classroom instruction, departmental research projects, and "real world" experiences obtained in internship placements. A global perspective is infused throughout the department's programs of study. The department assumes and nurtures the dignity of all individuals; is committed to the principles of equality, justice, and freedom; and seeks to stimulate a vital interaction among faith, learning, and lifestyle.

Departmental programs of study are designed to refine the student's communication and analytic skills by providing learning experiences grounded in theoretical analysis, research, and human relations. A student is equipped with marketable skills for a variety of occupations in human relations, as well as for graduate study in Sociology, Social Work, Law, Business, Ministry and other professions.

Two major programs are offered to undergraduate students: Sociology and Social Work. The Social Work program is accredited by the Council on Social Work Education.

Student Organizations
The Department of Sociology and Social Work sponsors, in cooperation with the Department of History and Political Science, Pi Gamma Mu, a national honor society established for the purpose of promoting scholarship in the social sciences.

Students pursuing sociology as a major or minor field of study are invited to join the Sociology Club. The Association of Student Social Workers, an organization which seeks to stimulate scholarship and professional identity, is open to Social Work majors. Phi Alpha Honor Society fosters high standards of education for social workers and invites into membership social work students, faculty, and practitioners.
Honors Courses
By invitation of the Honors Council; see Honors Program section of Undergraduate Catalog.

Three-Three Law/Sociology Program, B.S.

After the approval of their academic advisors in consultation with the appropriate department chair, freshman pre-law students with an acceptable ACT or SAT score may elect to enter the Three-Three Program. Ordinarily, a 26 ACT score or 1180 SAT score will qualify a student for the program. Such students are expected to maintain at least 3.25 GPA in their undergraduate work to remain competitive for early admission to the Mississippi College Law School. Students in this program should plan to take the LSAT as soon as possible after their sophomore year, but no later than the fall of their junior year, as an acceptable LSAT score is required for admission to the Mississippi College Law School. Acceptance into the Three-Three Program, however, does not automatically guarantee admission to the Mississippi College Law School.

Bachelor of Social Work

Social Work, B.S.W.

Social Work is the professional activity of helping individuals, families, groups, organizations or communities improve or recover their ability to function successfully in society. The mission of the Bachelor of Social Work Program is to prepare students for entry-level generalist social work practice with diverse individuals, families, groups, organizations, and communities in a changing global social environment. It also prepares students for the option of continued study at the graduate level. The Bachelor of Social Work Program provides an integrative foundation of social work knowledge, skills, and values and ethics, guiding and engaging students in critical analysis and exploring best practices, building on client strengths and resiliency in helping to improve client systems. The Program promotes advocacy for populations at-risk, social and economic justice, and respect for human diversity. Exploration of self-awareness among each student is part of the Program's strategies, further promoting effective, professional social work practice. The Program's professional curriculum incorporates the ten core competencies of the Council on Social Work Education Educational Policy and Accreditation Standards. In a context of Christian higher education, the Program encourages students to commit to enter a profession of service to others that inspires hope, strengthens lives and promotes positive change.

The goals of the BSW Program are to prepare students:

1. for entry-level generalist social work practice with diverse populations of individuals, families, groups, organizations, and communities in a changing global social environment;
2. to advocate for human well being recognizing the strengths and resiliency of client systems;
3. to understand social problems, formulate, influence, and/or improve social policies and services in diverse political contexts;
4. to utilize critical thinking in understanding and applying appropriate research methodologies, and best practices for implementing and evaluating program services;
5. for professional, empathetic social work practice, guided by the CSWE Educational Policy and Accreditation core competencies and the Social Work Code of Ethics;
6. for graduate education.

The BSW Program incorporates the Educational Policy Accreditation Standards core competencies of social work practice adopted by the Council on Social Work Education. The ten competencies are:

EP 2.1.1-Identify as a professional social worker and conduct oneself accordingly.
EP 2.1.2-Apply social work ethical principles to guide professional practice.
EP 2.1.3-Apply critical thinking to inform and communicate professional judgments.
EP 2.1.4-Engage diversity and difference in practice.
EP 2.1.5-Advance human rights and social and economic justice.
EP 2.1.6-Engage in research-informed practice and practice-informed research.
EP 2.1.7-Apply knowledge of human behavior and the social environment.
EP 2.1.8-Engage in policy practice to advance social and economic well being and to deliver effective social work services.
EP 2.1.9-Respond to contexts that shape practice.
EP 2.1.10(a)-(d)-Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.

The Social Work student is required to complete the following curriculum:

1. Core Curriculum requirements including SOC 205; PSY 201; MAT 101 or higher; BIO 103 and one 4 hour laboratory science;
2. Thirteen courses in Social Work SWK 099, SWK 209, SWK 225, SWK 331, SWK 332, SWK 333, SWK 334, SWK 422, SWK 426, SWK 433, SWK 434, SWK 448 and SWK 450;
3. Four interdisciplinary courses MAT 207 or PSY 301, PLS 201 or PLS 202, PSY 423 and SOC 312,
4. Thirty semester hours of electives selected in consultation with an advisor. Nine of the thirty elective
hours must be taken in Social Work.
5. Social work students transferring from another Council on Social Work Education accredited
program are required to complete the following courses at Mississippi College: SWK 331, SWK 332,
SOC 312, SWK 433, SWK 434, SWK 448, and SWK 450.

**Introduction to Social Work can only be transferred from another institution if a Social
Welfare Programs component is included in the course.**

These courses provide knowledge and experience in social welfare policy and services, human behavior and
the social environment, social work practice, and social work research. The social work sequence culminates
in the completion of a practicum in a local social service agency. The field experience, constituting a
minimum 450 clock hours, offers hands-on practice for social work students in a social work setting. The
practicum is the capstone of the social work major.

There is an admission process into the Social Work program. Students may apply after successfully
completing SWK 225 and SWK 331 (C or above). The program is open to all qualified applicants without
discrimination. Because the Social Work program involves both cognitive and experiential growth through a
practicum, the faculty will meet at least annually with each student to discuss their professional and personal
progress in the program.

**Minimum requirements for admission to the Social Work program:**
1. Completion of at least 75% of core curriculum.
2. Cumulative GPA = 2.5 or higher.
3. Successful completion of SWK 225 and SWK 331 (C or above).
4. Completed application form.
5. Three letters of reference.
6. Admissions interview with Social Work Admissions committee.

The following course sequence is strongly recommended for a beginning freshman. Transfer students and
individuals electing a major in Social Work after previously pursuing a different course of study at Mississippi
College will be advised, upon review of their academic credentials, on an individual basis. Courses marked
with a double asterisk (**) must be taken in the sequence indicated. A grade of C or better is required in all
Social Work and Interdisciplinary courses to continue in the program. Additionally, satisfactory
passage of exit examination during the Spring semester of senior year is required before graduation.

Mission
The School of Science and Mathematics offers students the opportunity to learn and apply the scientific approach to the acquisition of knowledge and to develop problem solving and critical thinking skills. These opportunities are provided through an extensive variety of courses and research experiences in the natural sciences and mathematics and involve both theoretical modeling and experimental investigation.

Objectives
1. The courses and programs offered within the School prepare all students, regardless of major, to understand the role of science and mathematics in today's complex society, to realize their integration with all disciplines, and to become life-long learners and positive contributors to their communities.
2. The School provides curricula at both the undergraduate and graduate levels with the necessary depth and breadth of knowledge for students majoring in a scientific or mathematical discipline to be successful in gaining employment or entrance into graduate or professional school.
3. The faculty of the School, a skilled, cohesive, and cooperative group of Christian men and women, provide expert guidance, time, and assistance in a caring and supportive way that is focused on student development and achievement. Through these and other efforts, they demonstrate to students the consistency of practicing the Christian faith while engaging in the study of science and mathematics.

Program Goals
It is the intent of the Department of Biological Sciences to effectively train students in such a manner that they have a realistic chance of achieving their goals of going to medical school, dental school, a physician's assistant program, graduate school, becoming a teacher, or entering an allied health science program for training to become a physical therapist, occupational therapist, medical technologist, etc. Additionally, it is the intent of the department that some biology majors participate in an undergraduate research project.

Program Objectives
1. Students graduating as biology majors will compare favorably in their knowledge of biology subject matter as compared with students graduating from other colleges and universities in the United States.
2. Students majoring in biology will be satisfied with their academic experience, which includes academic advising and quality of instruction received from faculty members in the department.
3. Students completing the premedical/pre-dental program will be successful in gaining admission to medical school and dental school. Students completing the pre-physical therapy, pre-medical technology, and pre-physician's assistant programs will be successful in gaining admission to the appropriate programs. Students preparing to teach biology will be successful in getting state certification/license to teach. Students preparing for graduate work in biology will be successful in gaining admission to graduate school.
4. Students will have adequate opportunity to engage in research opportunities.

Gulf Coast Research Laboratory
The Mississippi College Department of Biological Sciences is affiliated with the University of Southern Mississippi, Institute of Marine Sciences, Gulf Coast Research Laboratory (GCRL). Through this facility a student may take courses in marine biology. Research and independent study are also available through GCRL. For a description of the courses and additional information on the program, contact the chair of the Department of Biological Sciences. Most courses at GCRL are offered only in the summer.

Bachelor of Science

Biological Sciences, A-Medical Sciences Track, B.S.
For students planning to enter medical or dental school.
UNIVERSITY CORE CURRICULUM (36 HOURS)

University Core - English (12 hours)
  • ENG 099 - Writing Proficiency Exam
  • ENG 101 - English Composition

  • ENG 102 - English Composition
OR
  • ENG 103 - Accelerated Composition

And two of the following Literature classes
  • ENG 211 - World Masterpieces
  • ENG 212 - Survey of British Literature
  • ENG 213 - Survey of American Literature

University Core - History (6 hours)
  • HIS 101 - History of Western Civilization
  • HIS 102 - History of Western Civilization
OR
  • HIS 103 - World Civilization I
  • HIS 104 - World Civilization II
OR
  • HIS 211 - History of the United States
  • HIS 212 - History of the United States

University Core - Bible (6 hours)
  • BIB 110 - Introduction to the Old Testament OR
  • BIB 111 - An Intensive Analysis of the Old Testament

AND

  • BIB 120 - Introduction to the New Testament OR
  • BIB 121 - An Intensive Analysis of the New Testament

University Core - Social Sciences (6 hours)
Choose two courses representing two different subject areas.
  • ECO 231 - Economic Principles I
  • GBU 151 - Business Skills for Life
  • MLG 205 - Cross-Cultural Understanding
  • PLS 201 - American National Government
  • PSY 201 - Introduction to Psychology (General Psychology)
  • SOC 205 - Sociology: An Introduction in Global Context
  • Any PHI course

University Core - Fine Arts (3 hours)
  • ART 125 - Art Appreciation OR
- MUS 125 - Music Appreciation (3 hrs.) OR
- THE 125 - Introduction to Theatre

University Core - Physical Education (3 hours)
Three hours are required. Recommended courses are listed below:
- KIN 123 - Fitness For Life AND
- KIN 124 - Nutrition for Well-Being

University Core - Chapel
Students at Mississippi College are required to complete chapel requirements based on the student classification at the time of enrollment as detailed below:
- Freshman (0-23 semester hours) 4 semesters
- Sophomore (24-53 semester hours) 3 semesters
- Junior (54-83 semester hours) 2 semesters
- Senior (84 or more semester hours) 1 semester
Students classified as ADP (Accelerated Degree Program) and students enrolled in online degree programs are exempt from chapel requirements.

BIOLOGICAL SCIENCES CORE REQUIREMENTS
Thirty-eight semester hours consisting of:
A. Eighteen hours comprise the biology departmental core
   - BIO 111 - Biology I
   - BIO 112 - Biology II
   - BIO 305 - Cell Biology
   - BIO 306 - Genetics
   - BIO 307 - Cell and Genetics Laboratory
   - BIO 431 - Biology Seminar
   - BIO 433 - Biology Capstone
B. Eight semester hours consisting of:
   - CHE 141 - General Chemistry I
   - CHE 142 - General Chemistry II
C. Six semester hours consisting of:
   - MAT 207 - Elementary Statistics
   - MAT 121 - Calculus with Analytic Geometry I
   - MAT 122 - Calculus with Analytic Geometry II
   - MAT 206 - Applied Calculus
D. Three semester hours of a computer science course
   - CSC 114 - Introduction to Computer Science
   OR
   - CSC 115 - Foundations of Computer Science
E. Three semester hours of a communications course
   - COM 203 - Professional Communication Skills
   OR
   - COM 304 - Public Speaking

MEDICAL SCIENCES TRACK (33 hours)
For students planning to enter medical or dental school.
1. At least fifteen semester hours chosen from:
   - BIO 311 - Comparative and Developmental Anatomy
2. Ten semester hours of chemistry courses consisting of:

- CHE 303 - Organic Chemistry I
- CHE 313 - Organic Chemistry Laboratory I

AND

- CHE 304 - Organic Chemistry II
- CHE 314 - Organic Chemistry Laboratory II

3. Eight semester hours chosen from Physics:

- PHY 151 - General Physics I
- PHY 152 - General Physics II

OR

- PHY 251 - Fundamentals of Physics I
- PHY 252 - Fundamentals of Physics II

GENERAL ELECTIVES
Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with advisor.

**TEACHER EDUCATION TRACK (28 hours)**

For students planning to teach in secondary schools. Students following this curriculum will be eligible for an educator license in Biology and General Science. Students should follow the current Secondary Education Biological Sciences Status Sheet when selecting courses.

- PHY 104 - Physics for Today
- CHE 143 - Introduction to Organic and Biochemistry
- BIO 145 - Introduction to Earth Science
- BIO 203 - Human Anatomy and Physiology I
- BIO 204 - Human Anatomy and Physiology II
Note(s):

Students seeking an additional licensing in chemistry should complete a minor in chemistry and drop the CHE 143 requirement.

Students seeking additional licensing in physics should complete a minor in physics and drop the CHE 143 and PHY 104 requirements.

Professional Education, 7-12 (28 hours)

Students may not take EDU 403, EDU 460, EDU 431, 432, 433, 434 or EDU 471, 472, 473, or 474 prior to admittance into the TEP.

- EDU 299 - Pre-Teaching Field Experience
- EDU 300 - Introduction to Education
- EDU 304 - Educational Psychology

Program Goals
The Department of Chemistry and Biochemistry offers courses to meet the needs of three types of students: those who are non-science majors, but who desire the subject for its cultural and educational values, and for meeting the science requirement for graduation (CHE 141 - General Chemistry I and CHE 142 - General Chemistry II or CHE 111 - Chemistry in American Life I and CHE 112 - Chemistry in American Life II will meet this requirement); those who plan to enter the professional schools of medicine, medical technology, nursing, dentistry, pharmacy, or allied health; and those who plan to enter graduate school for further study, or to enter the field of industrial chemistry.

Mission
The Department of Chemistry and Biochemistry is committed to offering the best chemistry education possible by maintaining an active and integrated research program, by using modern laboratory experiences with current instrumentation, and by providing an inclusive, supportive, and professional environment which allows and encourages students to develop to their full potential.

Laboratory Breakage
Students are responsible for equipment broken in the laboratory. Cost of the material broken must be paid for before examinations can be taken.

Senior (84 or more semester hours) 1 semester

Students classified as ADP (Accelerated Degree Program) and students enrolled in online degree programs are exempt from chapel requirements.

MAJOR REQUIREMENTS

ACS Core (59 Hours)
American Chemical Society Certified Options. Required of all ACS majors.
• CHE 141 - General Chemistry I
• CHE 142 - General Chemistry II
• CHE 211 - Investigations in Inorganic Chemistry
• CHE 303 - Organic Chemistry I
• CHE 304 - Organic Chemistry II
• CHE 310 - Quantitative Chemical Analysis
• CHE 313 - Organic Chemistry Laboratory I
• CHE 314 - Organic Chemistry Laboratory II
• CHE 317 - Chemical Dynamics
• CHE 318 - Chemical Energetics
• CHE 410 - Instrumental Analysis
• CHE 411 - Advanced Inorganic Chemistry
• CHE 431 - Chemistry Seminar

• PHY 151 - General Physics I
• PHY 152 - General Physics II

OR
• PHY 251 - Fundamentals of Physics I
• PHY 252 - Fundamentals of Physics II

• MAT 121 - Calculus with Analytic Geometry I AND
• MAT 122 - Calculus with Analytic Geometry II

• CSC 114 - Introduction to Computer Science OR
• CSC 115 - Foundations of Computer Science

• COM 203 - Professional Communication Skills OR
• COM 304 - Public Speaking OR
  Participation in a minimum of three hours of research with an oral presentation at a professional meeting.
Chemistry Courses (7 Hours)

• CHE 418 - Biochemistry: Macromolecules
• CHE 419 - Biochemistry: Metabolism

• CHE 420 - Bioanalytical Chemistry Laboratory or
• CHE 421 - Biophysical Chemistry Laboratory

Biology Courses (11 or 12 Hours)

• BIO 111 - Biology I
• BIO 112 - Biology II

• BIO 305 - Cell Biology or
• BIO 306 - Genetics or
• BIO 414 - General Microbiology

Three semester hours of research in Biochemistry highly recommended.

GENERAL ELECTIVES
Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with advisor.

TOTAL: 130 SEM. HOURS
ACS Chemistry, B.S.
An intensive preparation for the student who desires to pursue graduate work in chemistry, enter the field of industrial chemistry, or study chemical engineering. This program is approved by the Committee on Professional Training of the American Chemical Society.

Mission Statement
This department builds upon the synergy of two dynamic scientific disciplines, one very young and the other very old. On the one hand, the computer is of relatively recent vintage and has revolutionized technology globally. Our Computer Science program equips students with fundamental knowledge about the discipline of computer science and how it is changing the way we live. The learning approach combines both the theoretical and the practical, with the emphasis upon problem solving. On the other hand, Physics has been called the mother of all the sciences whose origin dates back into ancient times; certainly Physics is the most
basic of the sciences for it seeks to observe, analyze, and categorize the interactions which occur in our whole physical world. Our Physics program grounds students in the fundamental principles of the discipline and the scientific approach to knowledge.

**Objectives**

As a major component of the School of Science and Mathematics, the Department of Computer Science and Physics strives to meet the needs of the students at Mississippi College by:

Offering courses, to both majors and non-majors, which stimulate their intellectual development while providing them with essential knowledge in the fields of computer science and physics along with acquainting them with the scientific approach to knowledge.

Providing students with opportunities to receive a strong background to enable them to compete successfully in their chosen careers whether in industry or post-baccalaureate study in graduate and professional schools.

Effectively advising students regarding choices of courses and programs while at Mississippi College so that they are acquainted with the opportunities and challenges available to them.

Employing and retaining competent faculty who are dedicated to teaching students while continuing their own professional development and who support and engage in scholarship, creative activity, and community and collegial service.

**Programs of the Department**

The Department consists of separate programs in Computer Science and in Physics. Majors offered include Computer Science (B.A. or B.S.), Computing and Information Systems (B.A. or B.S.), Physics (B.S.), and Electrical Engineering (B.S.E.E.). Minors include Computer Science and Physics. The Department also offers the graduate degree of Master of Science in the area of Computer Science.

**Honors Courses**

By invitation of the Honors Council; see *Honors Program* section of *Undergraduate Catalog*.

Twelve hours are usually required. Students must complete the intermediate or sophomore-level courses in their chosen language. Students with one high school unit may enter course 102 of the same language and thereby waive 3 hours of this requirement; those with two high school units may enter course 201, waiving 6 hours.
University Core - Physical Education (3 hours)
Three hours are required. Recommended courses are listed below:
KIN 123 - Fitness For Life AND
KIN 124 - Nutrition for Well-Being
University Core - Chapel
Students at Mississippi College are required to complete chapel requirements based on the student classification at the time of enrollment as detailed below:
Freshman (0-23 semester hours) 4 semesters
Sophomore (24-53 semester hours) 3 semesters
Junior (54-83 semester hours) 2 semesters
Senior (84 or more semester hours) 1 semester
Students classified as ADP (Accelerated Degree Program) and students enrolled in online degree programs are exempt from chapel requirements.

Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with advisor.
TOTAL: 130 SEM. HOURS
Bachelor of Science in Electrical Engineering (B.S.E.E.)

Program Educational Objectives
Graduates of the Electrical Engineering Program at Mississippi College will attain a reputation for integrity and expertise in the technical workforce by:
Demonstrating problem solving skills, professionalism, and ethical conduct through their endeavors in engineering practice or other related pursuits.
Demonstrating the ability to communicate effectively and make meaningful contributions as members of engineering or other problem-solving teams.
Demonstrating an awareness, appreciation, and ability to engage in life-long learning and service to society.

Student Outcomes
In support of the Program Educational Objectives, the following student outcomes describe what students are expected to know and be able to do by the time of graduation. These relate to the skills, knowledge, and behaviors that students acquire as they progress through the program.
(a) an ability to apply knowledge of mathematics, science, and engineering
(b) an ability to design and conduct experiments, as well as to analyze and interpret data
(c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
(d) an ability to function on multidisciplinary teams
(e) an ability to identify, formulate, and solve engineering problems
(f) an understanding of professional and ethical responsibility
(g) an ability to communicate effectively
(h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
(i) a recognition of the need for, and an ability to engage in life-long learning
(j) a knowledge of contemporary issues
(k) an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Admission Requirements
In order for an applicant to be admitted into the Electrical Engineering program, the applicant must meet all the requirements for admission to Mississippi College and an open slot must be available in the Electrical Engineering program. Additionally, the following requirements must be satisfied:

New Freshman Admission
Applicants applying for admission to the program as a freshman must satisfy the following criteria:
1. The applicant must have at least 4 units of high school mathematics which must include 2 units of algebra, 1 unit of geometry, and at least one-half unit coverage of trigonometry, pre-calculus, or calculus.
2. The applicant must have a Math ACT score of 25 or higher (or equivalent SAT score). Special exceptions can be made in some instances for applicants with a Math ACT score of 24 (or equivalent SAT score) based on the applicant's level of performance in their high school trigonometry, pre-calculus, or calculus courses.

External Transfer Admission
Applicants applying for admission to the program as a transfer from another college or university must satisfy at least one of the following criteria:
1. The applicant must meet the criteria for freshmen listed above OR
2. The applicant must have a cumulative GPA of 2.00 or higher and passed courses equivalent to ENG 101 (English Composition I), MAT 121 (Calculus I), and CHE 141 (General Inorganic Chemistry I) with grades of C or better.

**Internal Transfer Admission (Changes of Major)**

Applicants applying for admission to the program as an existing Mississippi College student must satisfy at least one of the following criteria:

1. The applicant must meet the criteria for freshmen listed above OR
2. The applicant must have a cumulative GPA of 2.00 or higher over all courses taken at Mississippi College and passed ENG 101 (English Composition I), MAT 121 (Calculus I), and CHE 141 (General Inorganic Chemistry I) with grades of C or better.

Applicants with justifiable circumstances may petition the Department Chair for special admission. Students with coursework deficiencies will be required to enroll in the necessary prerequisite courses. These courses will be in addition to those contained in the Electrical Engineering curriculum and may extend the time for graduation.

**Certificate**

**Computer Science Certificate, Track 1**
This track leads to a 20-hour certificate in Computer Science and is open to individuals who have graduated from high school, passed the GED equivalency exam, or already have a baccalaureate degree. A minimum of 12 semester hours in the certificate program must be completed at Mississippi College. Transfer credit (up to 8 hours) with a minimum grade of C will be accepted at the discretion of the department. Students should have some general experience with Calculus before enrolling. MAT 121 or MAT 206 may be required as a prerequisite course if needed. This certificate program may be completed in a minimum of four semesters. Cohorts begin each fall semester. These courses also provide those without a background in computer science with required prerequisites to pursue a master's degree in the field. A 3.0 GPA in the below listed courses is required with no less than a C in any course. 

**Required Courses:**
- CSC 115 - Foundations of Computer Science
- CSC 116 - Intro. to Programming and Problem Solving
- CSC 216 - Data Structures
- CSC 220 - C/C++ Language Programming
- CSC 309 - Discrete Structures
- CSC 314 - Computer Organization

**Computer Science Certificate, Track 2 (Applied Programming)**
This track leads to a 20-hour certificate in Applied Programming and is open to individuals who have graduated from high school, passed the GED equivalency exam, or already have a baccalaureate degree. A minimum of 12 semester hours in the certificate equivalency program must be completed at Mississippi College. Transfer credit (up to 8 hours) with a minimum grade of C will be accepted at the discretion of the department. This certificate program may be completed in a minimum of three semesters. Cohorts begin each fall semester. This track provides a heavier programming emphasis than the Certificate in Computer Science, Track 1. A 2.75 GPA in the below listed courses is required with no less than a C in any course.

**Required Courses**
- CSC 115 - Foundations of Computer Science
- CSC 116 - Intro. to Programming and Problem Solving
- CSC 216 - Data Structures
- CSC 220 - C/C++ Language Programming

Mission Statement
The Department of Mathematics serves to promote and develop quantitative reasoning skills among its majors as well as among students from among all disciplines. Toward that end, the department seeks to maintain an engaged, inclusive and supportive faculty that focuses on personal interaction with students.

Program Objectives
Students graduating as mathematics majors will compare favorably in their knowledge of mathematics subject matter as compared with students graduating from other colleges and universities in the United States. Students majoring in mathematics will be satisfied with their academic experience, which includes academic advising and quality of instruction received from faculty members in the department. Students planning to enter the workforce in scientific, government, business, research or other areas will be prepared mathematically to do well. Students preparing to teach mathematics will be successful in getting state certification/license to teach and in gaining an appropriate teaching position. Students preparing for graduate work in mathematics or in one of the medical fields will be successful in gaining admission to graduate school.

History
What is now the School of Business began in 1946 when an instructor was given permission to teach non-credit typing and shorthand courses in the basement of Chrestman Hall. The success in the non-credit courses inspired the institution to appoint a full-time business professor and add several business courses. By 1955, the business department had four full-time faculty members and a major. In the fall of 1959, the institution combined the Department of Business and the Department of Economics into the Division of Business and Economics. After consolidation, the division had 200 majors and five full-time faculty members.

In the early 1960s, the division added accounting courses to its curriculum. Also the division began offering evening courses. Students responded favorably to the additional courses and the evening offerings, and the division began experiencing double-digit growth. In 1964, the institution constructed Self Hall. Most of the building was dedicated to the Division of Business. In 1967, the Division of Business added the Master of Business Administration targeted at metropolitan-area professionals seeking an evening graduate program. The program was an immediate success.

The Division of Business continued growing, and in 1975, the Division became the School of Business. All of this was due to the tremendous dedication of Dr. D. Gray Miley.

Mission and Goals
The Mississippi College School of Business mission is to provide a quality business education in a Christian environment.

We serve undergraduate and graduate students from the region providing a setting where Christian values are emphasized through ethical awareness, biblical principles and a supportive faculty.

In this environment, the school seeks to prepare students with a sound understanding of essential business principles, effective communication skills, and an appreciation for social responsibility and ethical values.

The school is committed to academic quality through effective teaching, relevant programs, and faculty scholarship through contributions to practice, learning and pedagogy, and discipline-based research.

Accreditation
Mississippi College, through its School of Business, is nationally accredited by the Association of Collegiate Business Schools and Programs to offer the following business degrees:
The Bachelor of Science in Business Administration (B.S.B.A.).
The Master of Business Administration (M.B.A.).

Facilities
The School of Business Administration is housed in Self Hall on the Mississippi College campus. This building was made possible by a grant of funds from the Self Foundation of Marks, Mississippi. The building
has the office space, classrooms, seminar rooms, laboratories and equipment necessary to provide the implementation of quality educational programs.

**Undergraduate Programs**

The School of Business Administration offers programs of study leading to the degree of Bachelor of Science (B.S.B.A.) in Business Administration. Within this degree, majors are available in Accounting, Business Administration, Marketing, and Finance.

**Transfer Student Requirement**

At least 50 percent of transfer student's 300-400-level business courses required for their business degree must be taken at Mississippi College.

**Double Majors in Business**

Students wishing to earn two business majors within their BSBA can do so by completing the requirements for one degree and one major (130 hours) plus completing the requirements for their second major (21 or 24 hours depending on the major). The minimum number of hours required for a double major in business is 151 or 154 hours.

**Minors**

The School of Business offers minors in Business Administration, Marketing, Accounting, Finance and International Business. Business majors may choose a minor in any of these areas in which they do not major.

**European Study**

The School of Business at Mississippi College recommends that students utilize their elective courses to study in Europe during the summer through its membership in a consortium. The center in Vienna, Austria, offers a three-week course (3 hours credit) in international business followed by the five-week courses offered in London, England, with an international emphasis in accounting, economics, finance, insurance, management, and marketing (3 to 6 hours credit). The schedule is structured to encourage study in both Vienna and London although students may choose either.

Information and applications can be obtained in the Business School Administration Office in Self Hall, Telephone: 601.925.3214.

**Certificate Program**

The purpose of a certificate program is to provide an area of concentration in the School of Business for individuals with a bachelor's degree. Persons wishing to change their career or acquire additional skills may be interested in this type of program. Upon completion, a certificate will be awarded and recorded on the transcript. A certificate program is offered in accounting.

**Graduate Programs**

**Master of Business Administration (M.B.A.)**

The M.B.A. program consists of thirty semester hours of graduate work and is offered at night. The program was designed for persons who are working and wish to continue their education at night.

In addition to the traditional M.B.A. described above, an M.B.A. with an Accounting Concentration is offered for students with an interest in advanced work in the field of accounting. Those planning to take the C.P.A. exam may complete the required courses and hours with this program. An MBA with a Finance concentration is also offered for students with an interest in advanced work in the field of Finance.

A joint J.D./M.B.A. is offered as an option for Mississippi College School of Law students. It has been designed especially for a person who wishes to complete both degrees while attending law school.

GENERAL ELECTIVES
Sufficient elective hours must be taken to meet the minimum hour requirement for graduation in this program. Electives should be chosen in consultation with advisor.

TOTAL: 130 SEM. HOURS

Note(s):
(A 2.5 GPA in ACC 201 and ACC 202 is a prerequisite for this major.)
Note: Effective February 1, 1995, a minimum of 150 semester hours of university credit is required to take the CPA Examination.
It is recommended that students use the opportunity to take their elective courses in the European Study Program and in the Internship Program.

Five-Year BSBA Accounting Degree/MBA Path
This program is designed for those students who are planning to complete their undergraduate degree in accounting and immediately pursue a Master's degree on their way to meet the 150 semester-hours requirement to take the CPA examination. The Five-Year BSBA/MBA Path facilitates this pursuit by allowing accounting majors in their senior year to enroll in three (3) hours (1 class) of required upper-level accounting classes and jointly it as a graduate elective. Students using the Five-Year Path may receive up to three (3) hours of graduate school credit by choosing from the following classes during their senior year: ACC 5401 Advanced Accounting I, ACC 5405 Auditing, ACC 5407 Governmental Accounting, or ACC 5403 Federal Income Tax.

The requirements for the MBA degree, as stated in the graduate catalog, will be followed except that the three (3) hours of graduate electives needed may be satisfied by the upper-level accounting courses listed above. Students following this path will only have 27 hours of required graduate courses left to obtain their graduate degree and may complete these requirements in one calendar year.

Students pursuing the Five-Year Path must have at least a 3.0 GPA to be allowed to enroll in the graduate classes their senior year.

Three-Three Law/Business Administration Path, B.S.B.A.

After the approval of their academic advisors in consultation with the appropriate department chair, freshman pre-law students with an acceptable ACT or SAT score may elect to enter the Three-Three Program. Ordinarily, a 26 ACT score or 1180 SAT score will qualify a student for the program. Such students are expected to maintain at least 3.25 GPA in their undergraduate work to remain competitive for early admission to the Mississippi College Law School. Students in this program should plan to take the LSAT as soon as possible after their sophomore year, but no later than the fall of their junior year, as an acceptable LSAT score is required for admission to the Mississippi Law School. Acceptance into the Three-Three Program, however, does not automatically guarantee admission to the Mississippi College Law School.

Mission
The mission of the Mississippi College School of Education is to provide a caring Christian environment which facilitates the acquisition of knowledge in the behavioral sciences, teaching and learning, and health and human sciences. The School of Education provides the general education, professional studies, field and clinical experience, research skill development, and technological foundation required for each graduate and undergraduate program. These components generate the knowledge, dispositions, and skills necessary to render appropriate services to God and others in a professional environment while meeting all local, state and national performance standards.

History
The roots of today's School of Education date from the establishment of the Bachelor of Science in Education degree in 1950. This degree was followed by the Master of Education in 1954, the Educational Specialist in 1974, the Doctor of Education in 2008 and the Doctor of Professional Counseling in 2012. The School of Education was formed in 1977 from the Divisions of Education, Psychology, and Physical Education.

The School of Education is housed in Lowrey Hall which was renovated in 2005 and in Cockroft Hall which was completed in 1976. The School of Education has been a member of the American Association for Colleges of Teacher Education (AACTE) since 1957 and in 1961 was the second institution in Mississippi to be accredited by the National Council for the Accreditation of Teacher Education (NCATE)/Council for the Accreditation of Educator Preparation (CAEP). Counseling Programs received accreditation by the Council for the Accreditation of Counseling in Related Educational Programs (CACREP) in 2001. The Dyslexia Therapy Program was accredited by the International Multisensory Structured Language Education Council (IMSLEC) in 2008 and The International Dyslexia Association in 2014.

The School of Education currently houses the Departments of Kinesiology, Psychology and Counseling, and Teacher Education and Leadership.

Mission
The mission of the Department of Teacher Education and Leadership at Mississippi College is to provide collaborative, integrated professional educator preparation which is field connected and focused on teaching and learning; based on best practice which is driven and assessed by high national, state, and local standards which will develop reflective practitioners with the appropriate knowledge, dispositions and skills to lead the 21st Century enterprise in America.

Program Goals
The underlying purpose of the Department of Teacher Education and Leadership is to further the aim of the University in offering the opportunity for well-rounded higher education in a Christian environment. The general objective is the professional preparation of classroom teachers and the offering of specialized work in educational leadership.

The Department of Teacher Education and Leadership is responsible for the preparation of teachers, supervisors, and principals. The University is a member of the American Association of Colleges of Teacher Education (AACTE) and is accredited by the National Council for Accreditation of Teacher Education (NCATE).

Degrees Offered
Five degrees are granted by the University with specialization in education: Bachelor of Science in Education, Bachelor of Science in Early Childhood Care and Development, Master of Education, Education Specialist,
and Doctor of Education. For the B.S. in Education degree, the student must select an area of specialization approved for teacher licensure by the state of Mississippi. The B.S. in Early Childhood Care and Development is a non-licensure program; therefore, students in this program do not have to be formally admitted to the Teacher Education Program (TEP). This degree is intended to prepare individuals for service as teachers, leaders, and administrators in early childcare settings. Details concerning graduate programs are listed in the Graduate Catalog.

Admission Process to Education Program

Admission procedures in the Department of Teacher Education and Leadership involve three distinct phases: General Admission to the University; Admission to the Teacher Education Program (TEP); and Admission to Student Teaching.

Stage 1. General Admission:
Students who enroll in the University as an education major will be assigned a faculty advisor. The faculty advisor will review all records and counsel the student in preparation for entrance into the Teacher Education Program.

Stage 2. Admission to the Teacher Education Program (TEP):
Students will apply for admission into the Teacher Education Program (TEP) as part of the course requirements for EDU 300 - Introduction to Education. Transfer students, who have had the course equivalent of EDU 300 at another four year institution, must make application to the TEP in the Office of Field Experiences during their first semester at Mississippi College. No upper level (300 and 400) courses including EDU 300 are accepted in transfer from two year colleges as part of Teacher Education Program requirements. All students applying for entrance into the TEP must:

- have successfully completed 44 semester hours of coursework.
- have an overall (cumulative) GPA of at least 2.75.
- have a minimum GPA of 2.75 in the area(s) of expected licensure.
- pass the Praxis I Core Case: Reading 156; Writing 162; Mathematics, 150. Entrance test is waived if the student has a high school ACT score of 21 or higher (no sub-test below 18) or SAT (990 or higher math/verbal).
- pass Mississippi College's Writing Proficiency Exam (WPE).

Teacher Education Program Maintenance Requirements

After admission to the TEP, a student must maintain at least a 2.75 cumulative grade point average for progression. A grade of C or better is required in all teacher education courses and teacher education courses may be repeated only one time. Only courses with a grade of D or F may be repeated. A failing grade in any two teacher education courses will result in dismissal from the TEP. Teacher education courses may not be taken by correspondence and in keeping with University policy no correspondence course may be taken as part of the last 33 hours of the program.

Since standards for progress in the TEP are different from the minimum to avoid academic suspension from Mississippi College, a student who is ineligible to enter or remain in the TEP may still be eligible to remain a student at Mississippi College in another major.

Stage 3. Admission to Student Teaching Semester:
Student teaching assignments are generally restricted to Copiah, Hinds, Madison, Rankin, and Warren counties. Requests to student teach outside these areas must be made to the Department's Appeals Committee. Final authority rests with the Department of Teacher Education and Leadership as to the placement of student teachers. Student teaching is to be completed during the senior year after the following requirements have been met:

- be admitted to the Teacher Education Program for at least one full semester prior to the semester of student teaching.
- have completed EDU 299 - Pre-Teaching Field Experience.
- have removed any grade(s) of I (incomplete).
have at least a 2.75 GPA in the area(s) of expected licensure as well as a cumulative GPA of 2.75.

have completed at least three-fourths of the required courses in his/her area of specialization, (secondary education students only).

have completed (with a minimum grade of C) all Professional Education courses except EDU 431, EDU 432, EDU 433, and EDU 434 Directed Teaching in 7-12, (secondary education students only).

have completed (with a minimum grade of C) all Professional Education courses and subject matter courses except EDU 421, EDU 422, EDU 423, and EDU 424 Directed Teaching in K-8 (elementary education students only).

Each student is responsible for returning the assigned forms properly completed to the Office of Field Experiences by the assigned date. Applications for student teaching are reviewed by the Director of Field Experiences.

Students pass Praxis I (CASE) which includes Reading, Writing & Mathematics as part of the entrance requirements into the TEP. Students also pass Praxis II which includes the Principles of Learning and Teaching (PLT) and a specialty area test required for licensure by the Mississippi Department of Education. • Praxis I Core Case Required Scores as of January 1, 2014: Reading 156; Writing 162; Mathematics, 150. Required scores on the Praxis II (PLT and Specialty Area Tests) vary with grade level and content areas.

Students must request that Educational Testing Services (ETS) send a copy of their scores to Mississippi College (Code 1477). It is important that students have their scores sent to the Mississippi Department of Education (Code 7599). Students should keep their original copy in a safe place for future use.

Nature of Student Teaching Program and Extent of Teaching
Every student seeking licensure for teaching in any area will be expected to arrange his/her work so as to devote one semester of the senior year to certain required professional courses which shall include Directed Teaching. A student must have been admitted to the Teacher Education Program before being eligible to enroll in the professional semester. This professional semester for student teachers covers a period of approximately eighteen weeks, including holidays and registration. No coursework other than the 12 hours in the Professional Semester can be taken during the student teaching semester.

Responsibilities of student teachers during the Professional Semester are outlined in the Teacher Education Handbook which students receive when they enroll in EDU 300 - Introduction to Education, as well as the Student Teacher handbook which they receive at prospective student teacher meeting. Student teachers receive guidance and instruction from the faculty advisor, college supervisor, and the cooperating teacher.

Background Checks for School Personnel
Although the Mississippi Code does not require student teachers to be fingerprinted and subjected to a criminal records background check, school districts in our service area require this as a part of local schools district policy. Background checks will be required for all senior level field experiences and student teaching.

Teacher Licensure
Licensure requirements are reviewed periodically by the Mississippi Department of Education; please consult the School of Education for the latest information. Licenses which entitle the holders to teach in the elementary and secondary schools in Mississippi are issued by the Mississippi Department of Education, Office of Educator Licensure, to applicants who complete the requirements for these licenses. Students who complete any of the teacher education programs offered at Mississippi College and pass all required tests are eligible for a standard Mississippi teaching license.

All persons applying for a license for the first time must have necessary test scores on file with the Mississippi Department of Education.

How to Apply for and Secure One's First Teacher's License
All graduates of Mississippi College who plan to teach in Mississippi must file an application for licensure. Application forms and instructions are available online at the MDE website (www.mde.k12.ms.us) or from the Teacher Education and Leadership Office in Lowrey 208.

The graduate who plans to teach in a state other than Mississippi will, after receiving this Mississippi license, secure a license application from the Department of Education of the state in which he or she wishes to teach and will file the completed application form with the Division of Licensure, Department of Education, of that state. If your out-of-state application asks for a section "to be completed by the certification/licensure officer where you completed an approved teacher education program," mail this to the Office of Teacher Education and Leadership at Mississippi College, Box 4009, Clinton, MS 39058.

**Elementary Education Licensure**

Completion of the basic elementary program at Mississippi College and passing the appropriate MDE prescribed tests qualifies the graduate to receive a standard elementary (K-6) license. Check with the Teacher Education and Leadership Office and/or your advisor to receive the most current licensure requirements. Licensure designations and requirements are subject to change by rulings of the Mississippi Department of Education.

Licensure in the Sciences
A student graduating from Mississippi College and wishing to be licensed to teach one of the sciences (biology or chemistry) will major in that science and take the additional requirements in Secondary Education. It is expected that a student will be licensed in a second area of science or in General Science. An additional endorsement in one of the sciences may be obtained by having twenty-one semester hours in that science (with no grade below C). See the appropriate catalog section for details.

Required Subject-Matter Specialization
(For Secondary and Special Subject Teachers)
Students who wish to know the specific course requirements in their desired areas of specialization need to contact the Department of Teacher Education and Leadership office to secure a status sheet that will show all courses required for any particular secondary education program. Mississippi College prepares teachers in the following areas:

Grades 7-12 Licensure
- Business Education
- English
- Mathematics
- Science
  - Biology
  - Chemistry
- Social Studies

Special Area Licensure (K-12)
- Art
- Special Education - Mild/Moderate Handicapped
- Music - Instrumental
- Music - Voice/Piano
- Physical Education

Supplemental Licensure
Certain teacher licensure endorsements may be added to a Class A teaching license. Several supplemental endorsements are available through Mississippi College. These endorsements are sometimes included as part of another licensure program. Supplemental endorsements are more typically pursued by using electives to take the appropriate courses and/or taking additional courses beyond those required for the program major. Supplemental endorsements are also available to those who already hold an undergraduate degree and a valid Class A license. Supplemental licensure is only available to those who are pursuing a degree in elementary or secondary education or who already hold a Mississippi Class A license. Mississippi College offers supplemental endorsement programs in the following areas: comprehensive school health, computer applications, driver education, English as a Second Language (ESL), physical science, remedial reading, vocational preparation for the handicapped (must hold vocational licensure), special education K-6, special education 7-12, and gifted. Consult the appropriate secondary area department or the Department of Teacher Education and Leadership.

Mission
The Kinesiology Department is dedicated to excellence in academic preparation and continued professional development throughout the lifespan. The department is committed to providing students with the knowledge and skills necessary to pursue their chosen fields. The curriculum is designed to offer students a broad based interdisciplinary education while allowing for in-depth study in a specific area. The kinesiology major focuses on the total development of the individual through the physical, intellectual, social, emotional, and spiritual dimensions of health. The department promotes healthy lifestyle alternatives and provides the skills and services that lead to more productive and satisfying lives.

Program Goals
The curriculum in kinesiology is designed to:
provide quality courses, laboratory experiences, and other educational opportunities that will prepare students for careers and advanced study in the field of kinesiology.
offer courses for the University Core Curriculum that improve and effectively maintain healthy lifestyles.

449
Majors
The Department of Kinesiology offers six tracks leading to the Bachelor of Science degree:

- **Kinesiology-General**: Program designed to have broad applications in the fitness, wellness, and sports industries.
- **Sports Management**: Designed to combine liberal arts, kinesiology, and business in a curriculum focused on preparing individuals for careers in the sports industry.
- **Exercise Science**: Provides the theoretical, research, and clinical experiences for careers in preventive and rehabilitative health settings. It also provides students with the basic requirements for most graduate programs in Exercise Science.
- **Physical Education K-12**: Prepares students for a teaching license in physical education. Additionally, students may select a supplemental endorsement or a minor in a subject matter field.
- **Sports Ministry**: Designed for students interested in careers with Christian athletic organizations, or church based sports programs.
- **Pre Physical Therapy**: Program designed to provide students with pre-requisite courses for application to a professional school of physical therapy. Completion of this degree does not guarantee admission to a PT program.

Minors
The department also offers minors in kinesiology, coaching, and health; a driver education endorsement; and an educator license add-on endorsement in health.

Mission
The mission of the Department of Psychology and Counseling undergraduate programs is to help students learn and apply the vast domain of psychological principles that exist in our world today. The goal is for the student to become an effective scientist-practitioner who can model and apply these psychological principles from a Christian perspective.

The department seeks to prepare students for further training and/or entry-level employment into one of the many professional paths available within the discipline.

Admission
Requirements for the undergraduate psychology major:
The undergraduate psychology major is designed primarily as preparation for graduate study, and most graduate schools require at least a 3.00 GPA for admission. Thus, it is not advisable to enter this major
without a cumulative GPA of 2.5 or higher, and one should not continue in the program without maintaining a GPA above 2.5 in the major field.

Additional Requirements: Students majoring in psychology should meet with their psychology advisors in selecting appropriate minors and other elective coursework.

History

The establishment of the Mississippi College School of Nursing was the realization of a dream of a former president of the University, Dr. Richard A. McLemore. In 1966, the Gilfoy School of Nursing, Baptist Hospital, Jackson, Mississippi, the only Baptist school of nursing in the state, decided to phase out its diploma program in nursing. The program graduated its last class of nursing students in June, 1971. Dr. McLemore believed that Mississippi College had the academic competence and Christian environment in
which to educate nurses with excellent professional and Christian qualities. Additional impetus for the establishment of the School came when the Foreign Mission Board of the Southern Baptist Convention raised its minimum requirement for becoming a missionary nurse to a bachelor of science in nursing degree. In 1968, the Board of Trustees of the University approved the establishment of the Mississippi College School of Nursing, and in 1969, the first class of nursing students was accepted by the University.

**Mission**
The Mississippi College School of Nursing mission is to provide excellence in baccalaureate nursing education within a Christian institution. Graduates are prepared to engage in professional nursing practice as generalists, and to become positive contributors to the profession, to the community, and to society.

**Nursing Program Outcomes**
The program outcomes of the MCSON are designed to prepare a nurse generalist who will:
- Integrate clinical reasoning and Christian Caring in the delivery of safe, holistic, patient-centered care to diverse populations across the lifespan in a variety of settings.
- Incorporate personal and professional development, with relevant evidence-based practice, as the critical thinking premise for all health care delivery.
- Demonstrate effective use of technology and informatics for the provision of safe, ethical, and quality care to diverse populations.
- Apply management and leadership concepts in the delivery of quality patient centered care.
- Utilize communication techniques and collaborative skills to facilitate safe, quality outcomes with patients, families and populations.

**Accreditation**
The School of Nursing is accredited by the Commission on Collegiate Nursing Education and the Mississippi Board of Institutions of Higher Learning.

**Facilities**
The School of Nursing is located in Cockroft Hall which provides a central location for nursing faculty offices and classrooms. The Harvey Garrison Jr. Learning Center houses the audio-visual media and simulated patient care centers. The audio-visual capacity is augmented by the University's Learning Resources Center located in the Leland Speed Library.

Nursing classes are conducted on the Mississippi College campus. The clinical portions of the nursing courses utilize a variety of hospitals and agencies in the Jackson area. Students may also elect learning experiences in other localities within the United States or abroad.

**Policies**
The school of nursing has policies that are specific to the School of Nursing. **Nursing students should review these policies, which involve both academic and non-academic matters.** The policies are included in the Student Handbook that is provided to each student upon admission to the School of Nursing. Each student is expected to abide by these School of Nursing policies; failure to do so may result in dismissal from the program.

**Criminal Background Checks**
In accordance with Mississippi legislative statutes and regulations for health care institutions regarding criminal background checks, every student must have fingerprints taken and a criminal background check completed. Cost of these requirements will be the student's responsibility. The student must be in compliance with the legislative statues and hospital policies to participate in clinical experiences.

**Substance Abuse and Screenings**
Mississippi College School of Nursing is committed to protecting the safety, health, and welfare of its faculty, staff, students and the community of interest including patients and staff in clinical agencies. To this end, the School of Nursing prohibits the illicit use, possession, sale, conveyance, distribution and manufacture of illegal drugs, intoxicants, and/or controlled substances in all instances. The School of Nursing requires all students to submit to drug testing under any or all of the following circumstances: upon admission to the
School of Nursing; random testing; as required by clinical agencies; and for case. Failure of a drug screen will be dealt with consistent with the policy of the School of Nursing, and may include failure and/or dismissal from the program.

Licensure
Successful completion of the nursing program with the Bachelor of Science in Nursing degree permits the student to make application to take the National Council Licensure Examination for RN licensure examination. However, any disciplinary action, arrest, charge, addiction, or impairment may result in denial of licensure as a registered nurse. A criminal background check may be required by state licensure authorities.

Degree Programs
The School of Nursing offers a program of study leading to a Bachelor of Science in Nursing degree. This is the basic professional degree for nurses and the foundation for graduate nursing education. The nursing curriculum provides general knowledge in the arts and sciences with specialized content in professional nursing.

Curriculum
The nursing curriculum is designed to enable the student to secure a broad foundation in general education with content in professional nursing education. The general education courses aid in broadening one’s understanding of oneself and others, in enhancing the ability to communicate effectively, and in providing a perspective of the society within which one lives and practices the profession.

Effective fall 2014, a revised upper division nursing curriculum will be implemented. This innovative revision reflects current trends in health care and nursing, and will prepare graduates to not only practice immediately upon graduation, but for the future of health care. For further information regarding this curriculum revision, please contact the School of Nursing.

High School Preparation
The recommended high school preparation for a major in Nursing should include 3 units of science, one of which should be chemistry, and 2 units of math, including algebra.

Admission
Traditional BSN Students
To enter the School of Nursing, one must first be admitted to Mississippi College and then be accepted by the School of Nursing into the clinical portion of the nursing major. Admission to the University does not guarantee admission to the nursing major.

The School of Nursing admits twice each year, at the beginning of the fall and spring semesters. Pre-nursing students need to submit their completed applications to the School of Nursing office by February 1st preceding the fall semester or September 1st preceding the spring semester they wish to enter. Students applying for admission after these dates will be considered on a "space available basis." Students should have completed most core courses prior to applying for admission to the clinical portion of the nursing major.

Students who have taken all their work at Mississippi College have priority for admission if they meet the minimum requirements. Transfer students may be admitted if there is space available in the class. The total number of hours taken at MC and the grade point average are considered along with the minimum requirements in the admission of students.

Applicants with repeats in more than two pre-requisite courses will not be considered for selection into upper division nursing. Applicants with no repeats of lower level courses will be given preference over students who have repeated courses. Any social and natural science courses must have been completed within five (5) years of the date of application.

Minimum requirements for admission to the nursing major include:
- Completion of all prerequisite courses with a grade of C or higher.
- Successful completion of university core courses or a faculty-approved plan for completing these in a timely fashion.
- A cumulative grade point average (GPA) of 2.50 or higher based on work completed at Mississippi College.
Acceptable scores on pre-admissions examinations. (Contact the School of Nursing for specific requirements.)

Entry HESI (A2) assessment examination benchmark set at 80, with three attempts permitted. Transfer students may submit electronic results for a TEAS result that is at or above the national program mean for BSN students, with three attempts permitted. Please use review materials to prepare for entry assessments. Consistent with State law for health care providers, and for compliance with clinical agency requirements, criminal background checks and/or drug screenings may be required. Failure to successfully meet requirements for the background check or drug screening may result in denial of admission to or progression within the School of Nursing.

*Note: Admission to the nursing major for transfer students is competitively based. The requirements listed above are the minimum for admission to the program. Prospective nursing students are strongly encouraged to exceed minimum levels of work, especially in relation to grade point average, grades in the nursing prerequisite courses, and scores on the pre-admissions examination. When there are more qualified applicants than can be accommodated by the faculty and available clinical facilities, the Admissions and Progression Committee will select those most qualified for the positions available. The Committee may take into account any and all aspects of the student's prior educational record in assessing preparation for success in the nursing program. Careful consideration is given to achievement in prerequisite courses.

**Students should make every effort to complete writing proficiency requirement prior to admission to the School of Nursing.

RN-BSN Completion Students

Advanced placement in the nursing major is available to the registered nurse who is a graduate of a state-approved diploma or associate degree program. Mississippi College School of Nursing is committed to providing opportunities for educational advancement for working registered nurses through online delivery of courses and flexible clinical experiences.

Acceptance to the nursing major is dependent upon the satisfactory fulfillment of selected liberal arts and nursing core courses. Some of these courses may have been taken elsewhere, provided they are equivalent to the courses taught at Mississippi College. Equivalency is determined by the Dean and the Office of the Registrar.

The registered nurse student must meet the minimum admission requirements for Mississippi College, have completed most core and prerequisite courses, provide evidence of an unrestricted registered nurse license or authorization to practice as a Registered Nurse in the State of Mississippi, and have criminal background clearance for clinical practice in Mississippi. In addition, students must have access to a computer and internet services.

The validation process of previous nursing knowledge consists of successful completion of:

- NUR 386 - Foundations of Nursing
- NUR 390 - Maternal/Newborn Nursing & Women's Health
- NUR 393 - Pediatrics
- NUR 406 - Chronic Health Problems
- NUR 484 - Behavioral/Mental Health Nursing
- NUR 433 - Unstable Health Problems

**TOEFL Admission Criteria Specifications for the School of Nursing**

A certain level of English proficiency is necessary for academic success in nursing as well as for patient safety. In addition to Mississippi College's English proficiency requirements, all applicants to the School of Nursing whose first language is not English (including international and/or U.S. residents) must meet additional requirements.

The Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) is required of all applicants to the School of Nursing whose first language is not English, with the exception of licensed practical nurses and registered nurses who hold current United States LPN or RN licensure. (LPN and RN students may be required to take the TOEFL / IELTS or other testing before or
during the course of the program, if so recommended by the Dean and/or School of Nursing faculty instructors).

Minimum TOEFL Scores for Consideration of Admission:
To be considered for admission to the School of Nursing, applicants must achieve minimum scores on the TOEFL Internet-based test (TOEFL iBT) of:

Minimum Cumulative Score of:
83 combined (6.5 IELTS banding)

AND Minimum Individual Scores of 18, with target scores of:
- 26 in Speaking
- 20 in Writing
- 20 in Reading
- 20 in Listening

In comparison, the paper-based TOEFL of 550 is required, 213 or better on the computer-based TOEFL, or 83 overall.

Test Preparation and Registration
TOEFL iBT Registration:
Complete information on the TOEFL iBT, including free test preparation materials, testing sites, and registration, is available online at http://www.toefl.org. Applicants may register for the TOEFL iBT by Internet, telephone (1-800-468-6335) or mail.

To request official TOEFL iBT scores to be sent to Mississippi College, School of Nursing, enter Institution Code 79577.

Students who have taken previous versions of the TOEFL (computer-based or paper-based tests) should contact the School of Nursing at 601 925 3380.

Only official score reports will be accepted. TOEFL scores are valid for two years from the test date (see score information online).

Policy for Continuing Nursing Students
Nursing students whose first language is not English should be aware that they may not be able to complete the program of study within the described time frame. Individual advising is available and is directed toward student success.

Current students who have difficulty in the program may be encouraged to take extra steps (e.g., enroll half-time in nursing courses, participate in ESL courses or activities) in an effort to increase the probability of their success in the program and on the certifying examinations.

Financial Information
Detailed financial information is located in the Financial Information section of the Undergraduate Catalog. Further information regarding Nursing Scholarships may be obtained from the Office of Financial Aid.

For nursing majors taking clinical courses, the costs of uniforms, annual physical examinations, assessment supplies, malpractice insurance, standardized tests, NCLEX Review, professional association fees and a $55.00 charge per semester hour of clinical work are in addition to the standard university tuition, fees, and books. Some courses may require that students use their personal cars or share rides with fellow students. A personal laptop computer is strongly recommended.

Academic Information
Advising
The Dean of the School of Nursing or a designated faculty member acts as general advisor to all nursing majors and to students who have not yet been formally admitted to the nursing program. Faculty advisors counsel students regarding academic concerns, adjustment to university life, and professional goals.

Class Attendance
Students in the nursing major are subject to Mississippi College and the School of Nursing rules regulating class attendance and absences as outlined in the Undergraduate Catalog under Attendance Regulations and the School of Nursing Handbook. Attendance in class and clinical laboratory is required and students are expected to attend regularly and to be on time to all learning experiences.

**Off-Campus Credit**
The Dean of the School of Nursing reserves the right to determine whether any course from another institution will be accepted toward a degree in nursing at Mississippi College.

**Academic Standards Specific to the Nursing Major**
After admission to the nursing major, a student must maintain at least a 2.00 cumulative grade point average for progression. A grade of C or better is required in all nursing courses and nursing courses may be repeated only one time. The failure of any two theory or clinical courses will result in dismissal from the nursing program. Specific progression policies may be found in the School of Nursing student handbook. There is a five-year time limit that applies to all courses in the nursing major. Any student, for whatever reason, who does not graduate within a five-year time period may be required to repeat any nursing course taken more than five years previously. Students are required to complete all nursing courses within a level before progressing to the next level.

Since minimum standards for progression in the nursing major are different from the minimum to avoid suspension from Mississippi College, a student who becomes ineligible to enter or remain in the nursing major may still be eligible to remain a student at Mississippi College in another major.

**Graduation Requirements for Bachelor of Science in Nursing (B.S.N.)**
The general requirements for the bachelor's degree in Nursing are:
A total of 130 semester hours of university work. No more than 6 semester hours earned by correspondence or extension courses, and no more than a total of 30 hours of non-residence work (including correspondence or extension courses, credit by examination, credit for specialized training in the armed forces) can be applied toward meeting requirements for graduation. The last 33 semester hours must be taken in residence at Mississippi College. A maximum of 65 sem. hours learned at a junior/ community college can be applied toward a degree at Mississippi College.

Compliance with the general graduation requirements of Mississippi College.
A grade of C or higher in each nursing course.

The School of Nursing reserves the right to withhold a degree of any student deemed unsuitable for the practice of nursing.
Further information pertaining to graduation may be found in the Academic Information section of the Undergraduate Catalog.

**Honors Courses**
By invitation of the Honors Council; see Honors Program section of Undergraduate Catalog.
Bachelor of Science in Nursing

Accelerated Bachelor of Science in Nursing (B.S.N.)
Accelerated BSN students have one fall admission gateway into the program of accelerated study. This 16 month program continues over 4 semesters and students must plan for full time study and the compressed timeframe for this rigorous program. Accelerated does not mean abbreviated and the full curricular plan is addressed to meet the required BSN competencies. Students who do not find a place in the fall admission may enter as second degree students in the spring semester and would be accorded accelerated status, but would complete the program in at traditional pace.

**Credits, 3 sem. hrs.** Prerequisite(s): ART 101 and ART 102, ART 205 and/or department chair approval.

Explores typographic forms and their relation to images and print production. Emphasis is placed on design history, principles of visual design, and digital media. Projects in this studio class will emphasize application of graphic design principles to typography and page layout.

*Fee: (Extra lab fees)*

Course Designation: (S)

**ART 216 - Graphic Design II**

**Credits, 3 sem. hrs.** Prerequisite(s): ART 215.

An introduction to graphic design practices and technology, with emphasis on planning, design fundamentals, and execution. Projects in this studio class will focus on basic graphic design problem solving, printing, and presentation. Extra lab fee.
ART 234 - Introduction to Handmade Paper
Credits, 3 sem. hrs. An introduction to the fine craft of handmade paper focusing on basic sheet forming techniques and the process of recycling material. Papermaking techniques applied to basic design concepts will also be explored.

Fee: (Extra lab fees) Course Designation: (S)

ART 271 - Interior Design I
Credits, 3 sem. hrs. Corequisite(s): ART 306
Corequisite/Prerequisite Prerequisites or Corequisites: ART 101 and ART 301
An introduction to residential and commercial space planning with emphasis on proxemics, ergonomics, and health and safety. A studio class with residential projects that focus on the social, work, and private zones.

Fee: Lab fee ($150) Course Designation: (S)

ART 272 - Interior Design II
Credits, 3 sem. hrs. Corequisite(s): ART 102
Corequisite/Prerequisite Prerequisites or Corequisites: ART 104, ART 302 and ART 469
Investigation of material components used by the designer coinciding with a residential design project that includes specification of surface finishes, architectural details, and furnishings based on the Construction Specifications Institute (CSI) System.

Fee: Field Studies Fee ($500)
Supplies Fee ($75) Course Designation: (S)

ART 273 - Research and Writing for Interior Design
Credits, 3 sem. hrs Prerequisite(s): ART 271 and ENG 102
This is a lecture course involving research and writing applicable to the field of Interior Design.

ART 301 - ID Graphics I
Credits, 3 sem. hrs. Corequisite(s): ART 271
Focus on use of drafting equipment as a means of visually communicating solutions to architectural design problems. Includes a study of drafting symbols, isometric and oblique drawings, sections, floor plans, and elevations.

Fee: ($100) Course Designation: (S)

ART 302 - ID Graphics II
Credits, 3 sem. hrs. Prerequisite(s): ART 301
Corequisite(s): ART 272
Study and application of sketching and mechanical perspective drawing techniques and quick color rendering techniques as they relate to exterior & interior spaces.

Fee: (Extra lab fees) Course Designation: (S)
ART 303 - Drawing III  
Credits, 3 sem. hrs. Prerequisite(s): ART 204.
Problems in life drawing with emphasis on anatomy. Study and practice of advanced approaches to drawing in various modes.

Course Designation: (S)

ART 304 - Drawing IV  
Credits, 3 sem. hrs. Prerequisite(s): ART 303.
Advanced exploration and experience in drawing with emphasis on stylistic development and individual accomplishment in drawing.

Course Designation: (S)

ART 305 - ID Graphics III  
Credits, 3 sem. hrs. Prerequisite(s): ART 302.
A studio course that focuses on color rendering techniques using color markers and color pencils as applied to interior and exterior architectural drawings.

Course Designation: (S)

ART 306 - Textiles, Materials and Resources for Interior Environments  
Credits, 3 sem. hrs. Prerequisite(s): None.
A study of textiles, materials and resources for the interior environment which considers finish products and their application as well as manufacturing processes, installation methods, maintenance, and specifications.

Course Designation: (L)

ART 310 - History of American Architecture  
Credits, 3 sem. hrs. This course is a survey of American architectural styles and the architects responsible for them. Emphasis is on identifying architectural elements that serve as clues in determining a building's architectural style.

ART 313 - History of Architecture and Interiors I  
Credits, 3 sem. hrs. A chronological history of architecture and interiors from prehistoric periods to French Renaissance exploring the global influences of design. This course is offered in both lecture and online formats.

Course Designation: (L)

ART 314 - History of Architecture and Interiors II  
Credits, 3 sem. hrs. A chronological history of architecture and interiors from English Renaissance to the present exploring the global influences of design. This course is offered in both lecture and online formats.

Course Designation: (L)

ART 315 - Graphic Design III
Credits, 3 sem. hrs. Prerequisite(s): ART 216.
Advanced application of graphic design fundamentals and computer technology, with emphasis on advertising, publication, and project production. Projects in this studio class will focus on graphic design problem solving for business and social needs, as well as pre-press problem solving.

Fee: (Extra lab fees) Course Designation: (S)

ART 316 - Graphic Design IV
Credits, 3 sem. hrs. Prerequisite(s): ART 315.
Focuses on technical proficiency of press production and file preparation, as well as the business components of production. Students produce projects from comprehensives to print-ready digital mechanicals. Projects in this studio class include file preparation, trouble-shooting, pricing, estimates, client relations and professional business conduct.

Fee: (Extra lab fees) Course Designation: (S)

ART 318 - Printmaking I
Credits, 3 sem. hrs. Prerequisite(s): ART 203.
Introduction to woodcuts, etching, engraving and screen process.

Fee: (Extra lab fees) Course Designation: (S)

ART 319 - Printmaking II
Credits, 3 sem. hrs. Prerequisite(s): ART 318.
A continuation of ART 318 with emphasis on advanced printmaking techniques.

Fee: (Extra lab fees) Course Designation: (S)

ART 320 - Color & Lighting for Interior Environments
Credits, 3 sem. hrs. Prerequisite(s): ART 272
This course explores the use of color and lighting as design elements in the interior environment and how they apply to visual, psychological, technical, and functional aspects of lighting specifications.

Course Designation: (L)

ART 331 - Sculpture I
Credits, 3 sem. hrs. Prerequisite(s): Department Chair Approval.
Introductory course implementing basic sculptural methods in clay and other pliable media with exploration of the human form, representation of non-figurative form, and principles of design.

Fee: (Extra lab fees) Course Designation: (S)

ART 332 - Sculpture II
Credits, 3 sem. hrs. Prerequisite(s): ART 331.
Implementation of sculptural methods in pliable media dedicated to learning human anatomy and the expressive quality of the human form and underlying principles of design. Introduction of mold-making and casting.
ART 351 - Ceramics I
Credits, 3 sem. hrs. Prerequisite(s): Art Majors Only (Non-Art Majors must receive written permission from the Chair, Department of Art).
An introduction to basic ceramic construction techniques including slab, coil, and wheel-thrown methods. Includes study and experimentation with glazing and firing.

Fee: (Extra lab fees) Course Designation: (S)

ART 352 - Ceramics II
Credits, 3 sem. hrs. Prerequisite(s): ART 351.
A continuation of ART 351, extending the creative activity into the development of skill at the potter's wheel and further knowledge of firing, glazing, and hand-built methods.

Fee: (Extra lab fees) Course Designation: (S)

ART 370 - Sustainable Design
Credits, 3 sem. hrs Prerequisite(s): ART 104
This lecture course discussed green building concepts, including sustainable site selection, water efficiency, energy efficiency, sustainable materials and resources, and indoor environmental quality.

Course Designation: (L)

ART 371 - Interior Design III
Credits, 3 sem. hrs Prerequisite(s): ART 272 and ART 273
Corequisite(s): ART 272
Studio class that incorporates research and application of the International Building Code, Americans with Disabilities Act, and the NFPA Life Safety Code in commercial interiors. Major projects focus on ADA compliant bathroom design and a small commercial space.

Course Designation: (S)

ART 372 - Interior Design IV
Credits, 3 sem. hrs Prerequisite(s): ART 371.

Fee: Field Studies Fee ($500) Course Designation: (S)

ART 375 - Furniture Design
Credits, 3 sem. hrs Prerequisite(s): ART 305
This course incorporates the study of the history and design of residential and commercial furniture. The components of this course focus on advanced application of design theories and principles in the creation of furniture, as well as the specification of furniture in interior design projects.

Fee: ($200) Course Designation: (L)
ART 399 - The Business of Art  
**Credits, 3 sem. hrs** Prerequisite(s): For Art Majors only. Junior Standing.  
A course designed to better prepare the advanced art student for a professional career in studio art. Main topics of the course will deal with production, record keeping, and marketing works of art.

Course Designation: (L)

**ART 403 - Illustration**  
**Credits, 3 sem. hrs.** Prerequisite(s): ART 102 and ART 204.  
A studio exploration of illustration techniques and their applications, with an emphasis on in-depth portfolio projects.

Course Designation: (S)

**ART 405 - Art in America to 1913**  
**Credits, 3 sem. hrs.** A study of art in America from the Colonial Period to 1900. A survey of architecture, decorative arts, paintings, and sculpture.

Course Designation: (S)

**ART 406 - History of Modern Art**  
**Credits, 3 sem. hrs.** Twentieth century art, from post-impressionism to the present. Course includes study of architecture, decorative arts, painting and sculpture.

Course Designation: (L)

**ART 407 - History of Art I**  
**Credits, 3 sem. hrs.** A study of art from the prehistoric period through the Medieval period, including utilitarian art, architecture, decorative arts, painting and sculpture. This course is offered in both lecture and online formats.

Course Designation: (L)

**ART 408 - History of Art II**  
**Credits, 3 sem. hrs.** Art from the Renaissance to the present including architecture, decorative arts, painting and sculpture. Continuation of ART 407, but may be taken without prerequisite. This course is offered in both lecture and online formats.

Course Designation: (L)

**ART 414 - Web Design I**  
**Credits, 3 sem. hrs.** Prerequisite(s): ART 205.  
An introduction to Web authoring software with specific application on the Macintosh system. The focus will be on applied use of website development programs with static website development.

Course Designation: (S)
ART 415 - Graphic Design Portfolio I  
Credits, 3 sem. hrs. Prerequisite(s): ART 216.  
Initiation of professional-level portfolio development projects in the graphic design field from concept to distribution with individual flexibility for professional development.

Fee: (Extra lab fee) Course Designation: (S)

ART 416 - Graphic Design Portfolio II  
Credits, 3 sem. hrs. Prerequisite(s): ART 315.  
Professional-level portfolio development projects in the graphic design field from concept to distribution with individual flexibility for professional development, for completion of professional-level portfolio for assessment and career planning. Special Emphasis on the synthesis of technical, functional, and aesthetic factors inherent in the graphic design process.

Fee: (Extra lab fees) Course Designation: (S)

ART 417 - Art and the Gospel  
Credits, 3 sem. hrs. Prerequisite(s): Instructor permission, Art Major or Minor, and at least Junior standing.  
This course is designed to assist undergraduate students in the production of art works and the implementation of ministering opportunities using art, so that the student may assist in the spread of the Gospel ministry and serve to enhance various Christian arenas of service and worship

ART 420 - Web Design II  
Credits, 3 sem. hrs. Prerequisite(s): ART 414.  
An Introduction to higher level web authoring software focusing on increased interactivity on the part of internet users with applied use of advanced website authoring programs as well as dynamic subscripts.

Course Designation: (S)

ART 421 - Special Projects  
Credits, 3 sem. hrs. Prerequisite(s): Department Chair Approval.  
Advanced level projects with consideration of students’ professional goals. A course with flexibility in which an advanced art student may continue an advanced level of work in projects determined according to individual need and specific areas of interest. A student preparing for graduate school may in this way do further study in an area in which he/she plans to do work on a graduate level.

ART 422 - Special Projects  
Credits, 3 sem. hrs. Prerequisite(s): Department Chair Approval.  
Advanced level projects with consideration of students’ professional goals. A course with flexibility in which an advanced art student may continue an advanced level of work in projects determined according to individual need and specific areas of interest. A student preparing for graduate school may in this way do further study in an area in which he/she plans to do work on a graduate level.

ART 430 - Building Construction  
Credits, 3 sem. hrs. Prerequisite(s): ART 272  
This course explains the philosophy, organization and content of construction documents - drawings and specifications - and their relationship to actual interior construction and the commercial project design and construction process.
Course Designation: (S)

ART 431 - Sculpture III
Credits, 3 sem. hrs. Prerequisite(s): ART 331.
Explores sculpture in pliable media with representational non-figurative subjects as relief and free-standing sculpture, mold-making, and casting projects with underlying principles of design.

Fee: (Extra lab fees) Course Designation: (S)

ART 432 - Sculpture IV
Credits, 3 sem. hrs. Prerequisite(s): ART 332
Advanced sculpture in pliable media dedicated to learning human anatomy and the expressive quality of the human form and underlying principles of design. A continuation of ART 332 with relief and free-standing sculpture projects in addition to casting projects.

Fee: (Extra lab fees) Course Designation: (S)

ART 434 - Papermaking
Credits, 3 sem. hrs. This course offers a variety of sheet forming and sculptural techniques applied to the craft of handmade paper.

Fee: (Extra lab fees) Course Designation: (S)

ART 435 - Special Projects in Sculpture I
Credits, 3 sem. hrs Prerequisite(s): ART 432
This course is for the purpose of directed experience in sculpture. This course is designed with flexibility whereby an advanced art student may continue an advanced level of work in sculpture projects determined according to individual need and specific areas of interest. The student will submit a proposal that establishes specific goals and objectives that must be approved and supervised by the professor of record.

Fee: (Extra lab fees) Course Designation: (S)

ART 436 - Special Projects in Sculpture II
Credits, 3 sem. hrs Prerequisite(s): ART 432
This course is for the purpose of directed experience in sculpture. This course is designed with flexibility whereby an advanced art student may continue an advanced level of work in sculpture projects determined according to individual need and specific areas of interest. The student will submit a proposal that establishes specific goals and objectives that must be approved and supervised by the professor of record.

Fee: (Extra lab fees) Course Designation: (S)

ART 437 - Painting III
Credits, 3 sem. hrs Prerequisite(s): ART 212
The study and practice of painting emphasizing color and creative processes through use of techniques with selected media such as oils, acrylics, watercolors, and pastels; development and visualization of painting concepts.
ART 438 - Painting IV
Credits, 3 sem. hrs. Prerequisite(s): ART 437
Advanced study and practice of painting in selected media such as oil, acrylic, watercolor and pastel, seeking refinement of a personal aesthetic direction.

ART 441 - Art in Secondary Schools
Credits, 3 sem. hrs. Prerequisite(s): ART 207.
In this course designed for art education majors, students will plan curricula and prepare teaching materials for middle and secondary art classrooms. Specific teaching procedures and techniques developed from Art Education philosophy, research, and studio practices will be utilized.

Fee: (Extra lab fees)

ART 451 - Ceramics III
Credits, 3 sem. hrs. Prerequisite(s): ART 352.
This class will explore advanced wheel-throwing techniques and hand-built methods of construction for ceramic forms, with continued experimentation with surface enrichment and firing processes.

Fee: (Extra lab fees)

ART 452 - Ceramics IV
Credits, 3 sem. hrs. Prerequisite(s): ART 451.
Emphasis placed on aesthetic considerations of ceramic forms, wheel-thrown and hand-built, and appropriate application of surface enrichment and firing processes.

Fee: (Extra lab fees)

ART 458 - Special Projects in Painting I
Credits, 3 sem. hrs. Prerequisite(s): ART 438
This course is for the purpose of further directed experience in an individually chosen medium with a stated goal or objective. Advanced level projects with consideration of the student's possible career goals. A course with flexibility in which an advanced art student may continue a professional level of work in projects determined according to individual need and specific areas of interest.

ART 459 - Special Projects in Painting II
Credits, 3 sem. hrs. Prerequisite(s): ART 438
This course is for the purpose of further directed experience in an individually chosen medium with a stated goal or objective. Advanced level projects with consideration of the student's possible career goals. A course with flexibility in which an advanced art student may continue a professional level of work in projects determined according to individual need and specific areas of interest.
Course Designation: (S)

**ART 460 - Special Projects in Printmaking I**
**Credits, 3 sem. hrs Prerequisite(s):** ART 318
This course is for the purpose of further directed experience in an individually chosen medium with a state goal or objective. Advanced level projects with consideration of the student's possible career goals. A course with flexibility in which an advanced art student may continue a professional level of work in projects determined according to individual need and specific areas of interest.

*Fee: (Extra lab fees)* Course Designation: (S)

**ART 461 - Special Projects in Printmaking II**
**Credits, 3 sem. hrs Prerequisite(s):** ART 318
This course is for the purpose of further directed experience in an individually chosen medium with a state goal or objective. Advanced level projects with consideration of the student's possible career goals. A course with flexibility in which an advanced art student may continue a professional level of work in projects determined according to individual need and specific areas of interest.

*Fee: (Extra lab fees)* Course Designation: (S)

**ART 465 - Special Projects in Ceramics I**
**Credits, 3 sem. hrs Prerequisite(s):** ART 452
This course is for the purpose of further directed experience in an individually chosen medium with a state goal or objective. Advanced level projects with consideration of the student's possible career goals. A course with flexibility in which an advanced art student may continue a professional level of work in projects determined according to individual need and specific areas of interest.

*Fee: (Extra lab fees)* Course Designation: (S)

**ART 466 - Special Projects in Ceramics II**
**Credits, 3 sem. hrs Prerequisite(s):** ART 452
This course is for the purpose of further directed experience in an individually chosen medium with a state goal or objective. Advanced level projects with consideration of the student's possible career goals. A course with flexibility in which an advanced art student may continue a professional level of work in projects determined according to individual need and specific areas of interest.

*Fee: (Extra lab fees)* Course Designation: (S)

**ART 469 - Computer Generated Design I**
**Credits, 3 sem. hrs Prerequisite(s):** ART 301.
Introduction to basic principles of computer-aided drafting using Autodesk AutoCAD computer software. Focus will be on architectural drafting and design. Satisfies the core requirement for interior design.

*Fee: (Extra lab fees)* Course Designation: (S)

**ART 470 - Computer Generated Design II**
Credits, 3 sem. hrs. Prerequisite(s): ART 469.
Advanced architectural drafting problems using Autodesk AutoCAD computer software. Emphasis placed on 3-D design and computer rendering techniques. Utilizes Photoshop and Sketchup computer software.

Fee: (Extra lab fees) Course Designation: (S)

ART 471 - Interior Design V
Credits, 3 sem. hrs. Prerequisite(s): ART 372.
This studio course incorporates a team approach to the designing of residential spaces. The components of this course focus on advanced application of interior design concepts culminating in professional projects.

Course Designation: (S)

ART 472 - Interior Design Professional Examination Preparation
Credits, 3 sem. hrs. Prerequisite(s): ART 272
A course designed to prepare students for a professional examination that assesses the knowledge and skills needed by interior designers to practice responsibly and to protect the health, safety, and welfare of the public.

Course Designation: (L)

ART 473 - Business Principles for Interior Design
Credits, 3 sem. hrs. Prerequisite(s): ART 371
Emphasis on contract documents, business formation, specification writing, designer-client relationship, and accounting principles unique to interior design.

Course Designation: (S)

ART 474 - Professional Internship
Credits, 3 sem. hrs. Prerequisite(s): ART 416 for Graphic Design Majors and ART 472 for Interior Design Majors.
A period of apprenticeship or observation by arrangement with a professional business specializing in graphic design or other professional disciplines in art, or with an institution in the field of museology. Includes 200 hours of on-the-job experience as well as projects and assignments.

Course Designation: (S)

ART 475 - Aesthetics
Credits, 3 sem. hrs. Contemplative study of reactions to art based on value theories. Question-centered approach used to investigate assumptions about art and its role in society.

Course Designation: (L)

ART 481 - Digital Photography I
Credits, 3 sem. hrs. Prerequisite(s): Art Majors Only (Non-Art majors must receive written permission from the Chair, Department of Art).
This course is an introduction to the world of digital photography using the digital camera. Concepts and skills of basic photography with a creative approach, history of photography, lighting, composition, manipulation and color correction of images with digital software for enhancement will be covered and
practiced. A digital camera is required.

Course Designation: (S)

**ART 482 - Digital Photography II**  
**Credits, 3 sem. hrs.** Prerequisite(s): ART 481 and Department Chair Approval.  
This course will result in advanced competency in digital photography including creative approaches and technical exploration. A digital camera is required.

Course Designation: (S)

**ART 484 - Portfolio Development and Professional Internship for Interior Design**  
**Credits, 3 sem. hrs.** Prerequisite(s): ART 472.  
A period of apprenticeship or observation with a professional business specializing in interior design. Includes 400 hours of on-the-job experience.

**ART 485 - Graphic Design Internship**  
**Credits, 3 sem. hrs** Prerequisite(s): ART 315 for Graphic Design Majors  
A period of apprenticeship or observation by arrangement with a professional business specializing in graphic design. Includes 200 hours of on-the-job experience as well as projects and assignments.

**ART 499 - Senior Art Exhibit**  
**Credits, 1 sem. hrs.** Prerequisite(s): Senior Standing, required for graduation  
A juried exhibit of selected works by senior art majors.

**Bible**

**BIB 110 - Introduction to the Old Testament**  
**Credits, 3 sem. hrs.** A general overview of the background, development, and content of the Old Testament.

**BIB 111 - An Intensive Analysis of the Old Testament**  
**Credits, 3 sem. hrs** Bible 111 is designed for Christian Studies & Philosophy (CSP) majors and other interested students and offers a more intensive investigation into the critical issues of Old Testament studies. The critical issues to be addressed include author, date, purpose, and interpretive issues related to significant passages.

**BIB 120 - Introduction to the New Testament**  
**Credits, 3 sem. hrs.** A general overview of the background, development, and content of the New Testament.

**BIB 121 - An Intensive Analysis of the New Testament**  
**Credits, 3 sem. hrs** Bible 121 is designed for Christian Studies & Philosophy (CSP) majors and other interested students and offers a more intensive investigation into the critical issues of New Testament studies. The critical issues to be addressed include author, date, purpose, and interpretive issues related to significant passages.
BIB 210 - Discovering the World of the Bible
Credits, 3 sem. hrs. Prerequisite(s): BIB 110 and BIB 120.
A study of geography, archaeology, and history relevant to sound biblical understanding.

BIB 220 - Interpreting the Bible
Credits, 3 sem. hrs Prerequisite(s): Sophomore standing.
A practical introduction to biblical interpretation where the student will have the opportunity to apply learned principles of exegesis to a specific biblical passage.

BIB 315 - A History of Israel
Credits, 3 sem. hrs. Prerequisite(s): BIB 110 and BIB 120.
A historical survey of the life and faith of Israel up to the New Testament period.

BIB 316 - Exegesis in Poetic and Wisdom Literature
Credits, 3 sem. hrs. Prerequisite(s): BIB 110 and Sophomore Standing.
An introduction to the poetic and wisdom literature of the Old Testament with selected exegesis within the literature.

BIB 317 - Exegesis in Eighth Century Prophets
Credits, 3 sem. hrs. Prerequisite(s): BIB 110 and Sophomore Standing.
Selected exegesis within the books of the eighth century prophets.

BIB 322 - Distinctive Theological Ideas in the Bible
Credits, 3 sem. hrs. Prerequisite(s): BIB 110 and BIB 120.

BIB 324 - The New Testament: Text and Canon
Credits, 3 sem. hrs. Prerequisite(s): BIB 120 and Sophomore Standing.
The historical study of the origin of the New Testament with particular emphasis on the process of preservation of the text and determination of canonicity.

BIB 327 - Acts of the Apostles
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.

BIB 328 - Paul: The Man and His Writings
Credits, 3 sem. hrs. Prerequisite(s): BIB 120 and Sophomore Standing.
A study of the life and thought of Paul from the primary literature.

BIB 440 - Geography and Culture of the Biblical Lands
Credits, 3 sem. hrs. Travel and study in the biblical lands under the guidance of a Mississippi College faculty member. The course will include lectures, corollary reading, and a travel journal.

BIB 490 - Special Topics
Credits, 3 sem. hrs. Designed to respond to identified interests and needs.

Biological Sciences

BIO 101 - Biology for Today
Credits, 3 sem. hrs. Lecture/Lab/Field/Meeting: Lecture three hours a week.
A survey of life from cell to organism including a look at related topics of cell structure and function, cellular reproduction, and genetics as related to people living and interacting with a biological world. Students will research and prepare oral presentations as part of the requirements for the class. This course will not count
toward a major or minor in biology although it will count as a non-laboratory core science course for non-science majors.

**BIO 103 - Human Biology**  
**Credits, 3 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours a week.

A survey of the structure and normal functions of the human organism and an introduction to human ecology and genetics. Students will research and prepare oral presentations as part of the requirements for this class. This course will not count toward a major or minor in biology. It can, however, count either as a non-laboratory core science course for non-science majors or if taken with BIO 104, would count as a laboratory core science course.

**BIO 104 - Human Biology Laboratory**  
**Credits, 1 sem. hr. Corequisite/Prerequisite** Corequisite or prerequisite: BIO 103. Lecture/Lab/Field/Meeting: Laboratory three hours a week.

A laboratory study of the structure and normal functions of the human body. This course will not count toward a major or minor in biology. This course taken con-currently with BIO 103 will meet the core curriculum four hour laboratory science course requirement.

**BIO 105 - Plants and People**  
**Credits, 3 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours a week.

A survey of the uses of plants in human societies throughout the world. This course will not count toward a major or minor in biology although it will count as a non-laboratory core science course for non-science majors. This course taken con-currently with BIO 106 will meet the core curriculum four hour laboratory science course requirement.

**BIO 106 - Plants and People Laboratory**  
**Credits, 1 sem. hr. Corequisite/Prerequisite** Corequisite or prerequisite: BIO 105. Lecture/Lab/Field/Meeting: Laboratory three hours a week.

A laboratory investigation of the plants used in human societies throughout the world. This course will not count toward a major or minor in biology. This course taken concurrently with BIO 105 will meet the core curriculum four hour laboratory science course requirement.

**BIO 111 - Biology I**  
**Credits, 4 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

An introduction to the living organism emphasizing the structure and function of the cell and genetics. This course is designed for Biology majors and minors.

**BIO 112 - Biology II**  
**Credits, 4 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.
An overview of the biodiversity, biology and ecological relationships for the major phyla or organisms inhabiting our planet.

**BIO 145 - Introduction to Earth Science**  
**Credits, 3 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours a week.

An introduction to the principles of geology. This course will not count as a biology course for students majoring or minoring in biology. This course will count as a non-laboratory core science course for non-science majors.

**BIO 203 - Human Anatomy and Physiology I**  
**Credits, 4 sem. hrs.** Prerequisite(s): BIO 111 or CHE 141 or CHE 124 - Integrated Chemical Principles or equivalent or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

An integrated study of the gross and microscopic structures and normal functions of the human organism, emphasizing basic biological principles with a holistic human perspective. Topics to be covered include the cell, integumentary system, skeletal system, muscular system, and nervous system.

**BIO 204 - Human Anatomy and Physiology II**  
**Credits, 4 sem. hrs.** Prerequisite(s): BIO 111 or CHE 141 or CHE 124 - Integrated Chemical Principles or equivalent or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

An integrated study of the gross and microscopic structure and normal functions of the human organism, emphasizing basic biological principles with a holistic human perspective. Topics to be covered include the endocrine system, cardiovascular system, digestive system, respiratory system, urinary system, reproductive system, and human genetics.

**BIO 251 - Microbiology**  
**Credits, 4 sem. hrs.** Prerequisite(s): Restricted to nursing majors.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

A survey of the bacteria, fungi, viruses, and some parasites with an emphasis on their structure, physiology, and pathogenesis in man.

**BIO 301 - Contemporary Issues in Biology**  
**Credits, 3 sem. hrs.** Prerequisite(s): Core science and math.  
An examination of selected biological topics which impinge on society. This course may not be used to satisfy core requirements, or the requirements for a major or minor in biology.

**BIO 305 - Cell Biology**  
**Credits, 3 sem. hrs.** Prerequisite(s): BIO 111, CHE 141, CHE 142 and sophomore standing or higher or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week.

An analysis of the organization and physiology of eukaryotic cells.
BIO 306 - Genetics  
Credits, 3 sem. hrs. Prerequisite(s): BIO 111, and CHE 141 and sophomore standing or higher or instructor’s consent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week.  

An analysis of the three main themes in genetics: classical genetics, population genetics, and molecular genetics.  

BIO 307 - Cell and Genetics Laboratory  
Credits, 2 sem. hrs. Prerequisite(s): BIO 111 and CHE 141.  
Corequisite(s): BIO 305 OR BIO 306.  
A laboratory course designed to illustrate the techniques of cell biology and genetics. This course will include the building of information literacy skills and an oral presentation. This course cannot be changed from credit to audit.  

BIO 311 - Comparative and Developmental Anatomy  
Credits, 4 sem. hrs. Prerequisite(s): BIO 111-BIO 112.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.  

A comparative study of the anatomy and early development of vertebrates. Students will research and prepare oral presentations on a topic in embryology as part of the requirements for the class.  

BIO 321 - Ecology  
Credits, 4 sem. hrs. Prerequisite(s): BIO 111 or BIO 112 or equivalent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.  

A study of the interactions of organisms and their environments.  

BIO 329 - Molecular Biology  
Credits, 4 sem. hrs. Prerequisite(s): BIO 307 or equivalent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.  

An introduction to the basic concepts and techniques in molecular biology. The laboratory component of the course will consist of completion of an independent research project. During the semester, each student will prepare three oral presentations: a research proposal, a mid-semester research update, and a final presentation of results. This course cannot be changed from credit to audit.  

BIO 331 - Systematic Zoology  
Credits, 4 sem. hrs. Prerequisite(s): BIO 111 or BIO 112 or equivalent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory and field work three hours a week.  

A study of taxonomic principles of invertebrates and vertebrates.  

BIO 335 - Plant Morphology  
Credits, 4 sem. hrs. Prerequisite(s): BIO 111-BIO 112.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.  

A phylogenetic survey of plants.
BIO 401 - Entomology  
Credits, 4 sem. hrs. Prerequisite(s): BIO 111 or BIO 112 or equivalent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.  
Study of the morphology, physiology, ecology, and systematics of insects.

BIO 403 - Vertebrate Histology  
Credits, 5 sem. hrs. Prerequisite(s): BIO 305.  
Lecture/Lab/Field/Meeting: Lecture four hours a week. Laboratory three hours a week.  
An introduction to normal histology, featuring the study of cells, tissues, and organs. The functional significance of structure is considered.

BIO 404 - Pharmacology I  
Credits, 5 sem. hrs. Prerequisite(s): CHE 304, CHE 314, CHE 418 or CHE 419, BIO 305, BIO 412, BIO 413 or instructor's consent.  
This course is part one of a study of basic and clinical pharmacology with an emphasis on major drug groups and their mechanisms of action. This course will also include the recommended drugs for all major diseases of the autonomic nervous system, cardiovascular and renal systems, smooth muscle, and the CNS; it will integrate some basic human pathology to enhance further understanding of drugs on certain diseases. The study of each drug will cover bioavailability, route of delivery, its mechanism of action, its medical use, its contraindications, and its adverse effects.

BIO 405 - Pharmacology II  
Credits, 5 sem. hrs. Prerequisite(s): BIO 404 - Pharmacology I.  
This course is part two of a study of basic and clinical pharmacology with an emphasis on major drug groups and their mechanisms of action. This course will also include the recommended drugs for all major diseases of the CNS not covered in Pharmacology I, blood and the endocrine system, and will also include chemotherapeutics; it will integrate some basic human pathology to enhance further understanding of drugs on certain diseases. The study of each drug will cover bioavailability, route of delivery, its mechanism of action, its medical use, its contraindications, and its adverse effects.

BIO 406 - Introduction to Toxicology  
Credits, 3 sem. hrs Prerequisite(s): BIO 412  
This course is designed to provide an introduction to fundamental toxicological principles including but not limited to toxicokinetics, xenobiotic metabolism, mechanisms of toxicity (genotoxic and nongenotoxic), organ systems toxicity, environmental toxicity, occupational exposures, heavy metal toxicity, pesticides, and venomous bites/stings.

BIO 407 - Biology of Cancer  
Credits, 3 sem. hrs Prerequisite(s): CHE 304, CHE 314, BIO 305, BIO 306.  
Building on the student's knowledge of cell physiology and genetics, the discussion in this course will begin with the process of cell transformation, followed by the mechanics of cell growth and division gone awry, and lead up to the interactions between tumors and their host. Signal transduction, the cellular energetics of tumor cells, inflammation, and angiogenesis will be discussed in the context of tumor growth and metastasis.

BIO 409 - Human Embryology
**BIO 410 - Human Gross Anatomy**
**Credits, 8 sem. hrs.**  
**Prerequisite(s):** BIO 305 or BIO 306 and a grade of B or better in one of the following courses: BIO 403, BIO 412, BIO 413 or BIO 425.

Lecture/Lab/Field/Meeting: Lecture four hours a week. Laboratory three hours a week.

This is a human dissection course. The major objective of the course is to have students become proficient in dissection techniques of the human body. In addition, students will demonstrate a mastery of all structures of the human body and apply that knowledge to clinical situations. Technical Standards: Students need to have sufficient motor and sensory function to be able to dissect cadavers for the full duration of the assigned laboratory meeting times. This course cannot be taken as an audit.

**BIO 412 - Medical Physiology I**
**Credits, 6 sem. hrs.**  
**Prerequisite(s):** BIO 305 and CHE 142, PHY 151 or PHY 251.  
**Corequisite(s):** PHY 152 or PHY 252.

Lecture/Lab/Field/Meeting: Lecture four hours a week. Laboratory three hours a week.

This course is designed to provide students with detailed instruction in the physiology of osmolarity, lung, kidney, nervous system, muscle and cardiovascular systems.

**BIO 413 - Medical Physiology II**
**Credits, 5 sem. hrs.**  
**Prerequisite(s):** BIO 111, BIO 112, BIO 305, CHE 141, CHE 142.

Lecture/Lab/Field/Meeting: Lecture four hours a week.

The course is designed to provide students with detailed instruction in the physiology of the endocrine, gastrointestinal, and hematological systems.

**BIO 414 - General Microbiology**
**Credits, 4 sem. hrs.**  
**Prerequisite(s):** BIO 111, BIO 112, BIO 305 and CHE 141, CHE 142

Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

An integrated course on prokaryotic cell structure, protein secretion, nutrition, growth, metabolism, antimicrobial drugs, normal microbial flora, dental infections, pathogenicity, selected Gram-negative and Gram-positive bacteria, and a survey of viruses, viral diseases, and prions. Laboratory exercises illustrating the preceding lecture topics and a class research project are included in this course. Students receiving credit for BIO 414 cannot receive credit for BIO 251 (Microbiology). This course cannot be changed from credit to audit.

**BIO 415 - Immunology**
**Credits, 3 sem. hrs.**  
**Prerequisite(s):** BIO 305 and CHE 142.

Lecture/Lab/Field/Meeting: Lecture three hours a week.
A study of multiple aspects of the immune response. This course cannot be changed from credit to audit.

**BIO 416 - Immunology and Virology Lab**  
**Credits, 1 sem. hr.** Lecture/Lab/Field/Meeting: Laboratory three hours a week.

Laboratory component of BIO 415 or BIO 442. This course cannot be changed from credit to audit.

**BIO 417 - Medical Microbiology**  
**Credits, 4 sem. hrs. Prerequisite(s):** BIO 414 or equivalent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

A study of medically important bacteria, fungi, viruses, and parasites with an emphasis on clinical laboratory applications.

**BIO 418 - Infectious Diseases**  
**Credits, 3 sem. hrs Prerequisite(s):** BIO 251 or BIO 414 or BIO 417 or equivalent  
A survey of infectious diseases with a focus on human pathogens. Clinical based correlations and geographic epidemiology as it relates to the spread and pathophysiology of disease in human societies will be a primary topic. A review of emerging and re-emerging pathogens as they relate to human health and societal impacts will be covered.

**BIO 419 - DNA Forensics**  
**Credits, 3 sem. hrs Prerequisite(s):** CHE 141, CHE 142, BIO 305, BIO 306.  
Specific examples of protocols and methodology will be presented from the scientific and the law literature. Students will be expected to develop an understanding of the nature of DNA evidence and the manner in which it is presented in court. Students will be expected to understand how the collection and analysis of samples interacts with presentations of materials to support legal arguments in courts of law.

**BIO 422 - Virology**  
**Credits, 3 sem. hrs Prerequisite(s):** BIO 111, BIO 112, BIO 305, and CHE 141 and CHE 142.  
Lecture/Lab/Field/Meeting: Lecture three hours a week.

A survey of bacterial, plant and animal viruses with an additional emphasis on pertinent aspects of molecular biology. A review of emerging and re-emerging viruses will be included as they currently relate to their ecological and human health impact.

**BIO 423 - Plant Ecology**  
**Credits, 4 sem. hrs Prerequisite(s):** BIO 111-BIO 112 or equivalent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Students will study plant community ecology. Students will analyze local hardwood forests for plant diversity and make an oral presentation of their findings.

**BIO 424 - Animal Ecology**  
**Credits, 3 sem. hrs Prerequisite(s):** BIO 112.  
Lecture/Lab/Field/Meeting: Lecture three hours a week.
An analysis of the factors that regulate animal populations.

**BIO 425 - Human Neuroanatomy**
Credits, 5 sem. hrs. Prerequisite(s): BIO 305 or instructor's consent.
Lecture/Lab_Field/Meeting: Lecture four hours a week. Laboratory three hours a week.

A detailed examination of neurocircuitry and function of the human brain and spinal cord, and the etiology of common neurological disorders. Human cadaver brains are utilized.

**BIO 426 - Mitochondrial Genomics**
Credits, 3 sem. hrs Prerequisite(s): BIO 111, BIO 112, BIO 305, and sophomore standing or higher.
This course centers on mitochondrial biology, including general structure and function, energy production and oxidative phosphorylation, and protein import. There is special focus on mitochondrial genome structure including genetic abnormalities, corresponding mitochondrial disorders, and use of the genome in mitochondrial haplotyping to determine maternal inheritance.

**BIO 431 - Biology Seminar**
Credits, 1 sem. hr. Prerequisite(s): Senior standing.
Corequisite(s): BIO 433. Restricted to Biology majors.
A weekly departmental seminar on current biological topics. Students will do an oral presentation on a selected topic.

**BIO 433 - Biology Capstone**
Credits, 1 sem. hr. Prerequisite(s): Senior standing.
Corequisite(s): BIO 431. Restricted to Biology majors.
Lecture/Lab/Field/Meeting: One meeting a week.

A synthesis of biology subject matter culminating in a senior biology examination.

**BIO 435 - Methods of Teaching Secondary School Science**
Credits, 3 sem. hrs. Prerequisite(s): EDU 300 or instructor's consent.
Lecture/Lab/Field/Meeting: Lecture three hours per week.

Designed to familiarize teachers with current trends, methods, and techniques of teaching science to secondary school students. Students will research and prepare oral presentations along with inquiry-based activities in order to show competency in their teaching ability. This course may not be used to satisfy requirements for a major or minor in biology. Students certifying to teach biology will take this course.

**BIO 442 - Special Topics**
Credits, 1-3 sem. hrs. Prerequisite(s): three semesters of biology and instructor's consent.
A study of selected topics in biology.

**BIO 443 - Special Topics**
Credits, 1-3 sem. hrs. Prerequisite(s): three semesters of biology and instructor's consent.
A study of selected topics in biology.

**BIO 445 - Special Topics**
Credits, 1-3 sem. hrs. Prerequisite(s): Three semesters of biology and instructor's consent.
A study of selected topics in biology.

BIO 446 - Special Topics
Credits, 1-3 sem. hrs. Prerequisite(s): Three semesters of biology and instructor's consent.
A study of selected topics in biology.

BIO 448 - Special Topics
Credits, 1-3 sem. hrs. Prerequisite(s): Three semesters of biology and instructor's consent.
A study of selected topics in biology.

BIO 449 - Special Topics
Credits, 1-3 sem. hrs. Prerequisite(s): Three semesters of biology and instructor's consent.
A study of selected topics in biology.

BIO 451 - Independent Studies and Research
Credits, 1-3 sem. hrs. Prerequisite(s): Instructor consent.
Individual reading and research involving experimental or theoretical investigations; for students not enrolled in Honors Program.

BIO 452 - Independent Studies and Research
Credits, 1-3 sem. hrs. Prerequisite(s): Instructor consent.
Individual reading and research involving experimental or theoretical investigations; for students not enrolled in Honors Program.

BIO 453 - Independent Studies and Research
Credits, 1-3 sem. hrs. Prerequisite(s): Instructor permission.
Individual reading and research involving experimental or theoretical investigations; for students not enrolled in Honors Program.

BIO 454 - Independent Studies and Research
Credits, 1-3 sem. hrs. Prerequisite(s): Instructor consent.
Individual reading and research involving experimental or theoretical investigations; for students not enrolled in the Honors Program.

Chapel

CHPL 0000 - Chapel
Credits, 0 sem. hrs.
Freshmen and upperclassmen must attend chapel per the following guidelines:
Upperclass chapel meets on Tuesdays from 10:50-11:40 at FBC, Clinton. Students who are recorded absent more than three times will not receive chapel credit.
Freshman chapel is designed for recent high school graduates who are in their first semester of college.
Freshman Chapel meets on Thursdays from 10:50-11:40 at FBC, Clinton and Blue & Gold 101 small groups meet on Tuesdays from 10:50-11:40 in various rooms across campus. Students who are recorded absent
more than three times in chapel or more than three times in Blue & Gold 101 small group will not receive chapel credit.  
There are no excused absences from chapel for either upperclassmen or freshmen.

**Chemistry and Biochemistry**

**CHE 111 - Chemistry in American Life I**
**Credits, 3 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours per week.

Special emphasis is given to applications which will affect the nonscientist throughout life, such as chemistry of health, home, and environment. Designed to satisfy core curriculum science requirements. May not be used as a prerequisite for other chemistry courses (other than CHE 112) or toward a major or minor. May not be combined with CHE 141 or CHE 124 for the University Core Curriculum.

**CHE 112 - Chemistry in American Life II**
**Credits, 4 sem. hrs.** Prerequisite(s): CHE 111 or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours per week. Laboratory three hours per week.

A continuation of CHE 111, with laboratory.

**CHE 124 - Integrated Chemical Principles**
**Credits, 4 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours per week and laboratory three hours per week.

A one semester survey of the principles of chemistry illustrated by selected topics from inorganic, organic, and biochemistry. Topics discussed are those relevant to allied health related fields, especially nursing. This course may not substitute for any other chemistry course.

**CHE 141 - General Chemistry I**
**Credits, 4 sem. hrs.** Lecture/Lab/Field/Meeting: Lecture three hours per week. Laboratory three hours per week.

The fundamental laws and theories of chemistry and chemical calculations are stressed, primarily while studying inorganic compounds. CHE 141 may not be combined with CHE 111 for the core curriculum.

**CHE 142 - General Chemistry II**
**Credits, 4 sem. hrs.** Prerequisite(s): CHE 141.  
Lecture/Lab/Field/Meeting: Lecture three hours per week. Laboratory three hours per week.

A continuation of CHE 141.

**CHE 143 - Introduction to Organic and Biochemistry**
**Credits, 3 sem. hrs.** Prerequisite(s): CHE 141.  
An overview of basic concepts of Organic and Biochemistry including nomenclature, classification and selected reaction mechanisms.
CHE 211 - Investigations in Inorganic Chemistry  
Credits, 1 sem. hr.  
Prerequisite(s): CHE 142.  
Lecture/Lab/Field/Meeting: Laboratory three hours per week.

A laboratory study of the classification, synthesis and reactions of typical inorganic substances. The physical and chemical properties of elements and compounds will be examined.

CHE 231 - Topics of Current Interest  
Credits, 1 sem. hr.  
Prerequisite(s): CHE 141, CHE 142.  
Students attend seminars, participate in field trips, and discuss topics of current interest in chemistry.

CHE 303 - Organic Chemistry I  
Credits, 3 sem. hrs.  
Prerequisite(s): CHE 141, CHE 142.  
Corequisite(s): CHE 313 or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours per week.

An introductory course, including a study of the fundamental types of organic compounds, their nomenclature, classification, synthesis, and typical reactions.

CHE 304 - Organic Chemistry II  
Credits, 3 sem. hrs.  
Prerequisite(s): CHE 303 and CHE 313.  
Corequisite(s): CHE 314 or instructor's consent.  
A continuation of CHE 303.

CHE 310 - Quantitative Chemical Analysis  
Credits, 4 sem. hrs.  
Prerequisite(s): CHE 141, CHE 142 or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture two hours per week. Laboratory six hours per week.

This laboratory intensive course presents the fundamental methods of exact chemical analysis and includes an introduction to the use of chemical instrumentation.

CHE 313 - Organic Chemistry Laboratory I  
Credits, 2 sem. hrs.  
Corequisite(s): CHE 303 or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture one hour per week and laboratory four hours per week.

A study of laboratory techniques in synthesis, purification, and chemical and instrumental analysis.

CHE 314 - Organic Chemistry Laboratory II  
Credits, 2 sem. hrs.  
Prerequisite(s): CHE 313.  
Corequisite(s): CHE 304 or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture one hour per week and laboratory four hours per week.

A continuation of CHE 313.

CHE 317 - Chemical Dynamics  
Credits, 4 sem. hrs.  
Prerequisite(s): CHE 142, MAT 122, PHY 152 or PHY 252, or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours per week. Laboratory three hours per week.
A study of the thermodynamics and kinetics of chemical and biochemical processes.

**CHE 318 - Chemical Energetics**  
**Credits, 4 sem. hrs.** Prerequisite(s): CHE 317.  
Lecture/Lab/Field/Meeting: Lecture three hours per week. Laboratory three hours per week.

An introduction to the theoretical and fundamental aspects of molecular bonding and structure, and atomic and molecular spectroscopy.

**CHE 402 - Advanced Organic Chemistry**  
**Credits, 4 sem. hrs.** Prerequisite(s): CHE 303, CHE 304, CHE 317, or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours per week. Laboratory three hours per week.

Reactions and mechanisms, separation science, serial synthesis and instrumental methods of compound identification.

**CHE 410 - Instrumental Analysis**  
**Credits, 4 sem. hrs.** Prerequisite(s): CHE 310 and CHE 317 or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture two hours per week. Laboratory six hours per week.

The course deals with the principles and application of some of the modern instruments used in analytical chemistry.

**CHE 411 - Advanced Inorganic Chemistry**  
**Credits, 3 sem. hrs.** Prerequisite(s): CHE 211, CHE 317.  
Conquisite(s): CHE 318 or instructor's consent.  
Lecture/Lab/Field/Meeting: Lecture three hours per week.

A study of modern inorganic chemistry with emphasis on the principles and trends in the chemistry of the elements and the essentials of structure, bonding, and reactivity of inorganic systems.

**CHE 415 - Synthetic Inorganic Chemistry**  
**Credits, 3 sem. hrs.** Prerequisite(s): CHE 141, CHE 142, CHE 211.  
Lecture/Lab/Field/Meeting: Laboratory six hours per week. Lecture one hour per week.

A laboratory course illustrating the techniques of crystallization, distillation, furnace methods, electrolytic processes and gas handling involved in the preparation and characterization of novel inorganic compounds.

**CHE 417 - Theoretical Chemistry**  
**Credits, 3 sem. hrs.** Prerequisite(s): CHE 318.  
Lecture/Lab/Field/Meeting: Lecture three hours per week.

A study of theoretical chemistry, chemical physics, theoretical molecular spectroscopy and solid-state chemistry.

**CHE 418 - Biochemistry: Macromolecules**
Credits, 3 sem. hrs. Prerequisite(s): CHE 304 and BIO 111 or instructor’s consent.
Lecture/Lab/Field/Meeting: Lecture three hours per week.

This lecture course explores the structures and functions of biological molecules. Additional topics include the biological synthesis of proteins and nucleic acids.

CHE 419 - Biochemistry: Metabolism
Credits, 3 sem. hrs. Prerequisite(s): CHE 304 and BIO 111 or instructor’s consent.
This lecture course covers the fundamentals of metabolism and bioenergetics. Clinical correlations with metabolic diseases and diabetes are presented.

CHE 420 - Bioanalytical Chemistry Laboratory
Credits, 1 sem. hr. Prerequisite(s): CHE 304 and BIO 111 or instructor’s consent.
This laboratory course covers basic methods utilized in the purification and chemical analysis of biological molecules with applications to medicinal and forensic chemistry.

CHE 421 - Biophysical Chemistry Laboratory
Credits, 1 sem. hr. Prerequisite(s): CHE 304 and BIO 111 or instructor’s consent.
This laboratory course covers basic methods for the determination of protein and nucleic acid structure, stability, and function.

CHE 431 - Chemistry Seminar
Credits, 1 sem. hr. Prerequisite(s): CHE 303, CHE 304 and senior standing.
In order to gain experience in oral communication and exploration of the scientific literature students learn to present scientific information by giving short seminars on selected topics in chemistry, as well as a departmental seminar. A standardized chemistry test covering areas of undergraduate chemistry will be administered.

CHE 435 - Methods of Teaching Secondary School Science
Credits, 3 sem. hrs. Prerequisite(s): EDU 300.
Designed to familiarize teachers with current trends, methods and techniques of teaching science to secondary school students. May not be used for minor, nor for Career Chemist and Medical Science majors.

CHE 441 - Special Topics in Chemistry
Credits, 1 sem. hr. Prerequisite(s): Eighteen hours of chemistry and departmental permission.
Provides students a means to begin undergraduate research or to explore a subject in more depth than is offered in a regular class. A final written report is required.

CHE 442 - Special Topics in Chemistry
Credits, 1 sem. hr. Prerequisite(s): Eighteen hours of chemistry and departmental permission.
Provides students a means to begin undergraduate research or to explore a subject in more depth than is offered in a regular class. A final written report is required.

CHE 451 - Independent Studies and Research
Credits, 3 sem. hrs. Prerequisite(s): Eighteen hours of chemistry and departmental consent.
Individual reading and research involving experimental or theoretical investigation.

CHE 452 - Independent Studies and Research
Credits, 3 sem. hrs. Prerequisite(s): Eighteen hours of chemistry and departmental consent.
Individual reading and research involving experimental or theoretical investigation.

CHE 470 - Historical Foundations of Chemistry
Credits, 3 sem. hrs. Prerequisite(s): Eight hours of chemistry.
Lecture/Lab/Field/Meeting: Lecture three hours per week.

A selected history of chemistry with a study of the pioneers who developed the theories and techniques that have brought the science to its present position. May not be taken for credit toward the undergraduate major or minor in chemistry.

Chinese

CHI 101 - Elementary Chinese I
Credits, 3 sem. hrs. Prerequisite(s): None.
A course for beginning students with an emphasis on hearing, speaking, reading, and writing Chinese language (simplified) within a cultural context.

CHI 102 - Elementary Chinese II
Credits, 3 sem. hrs. Prerequisite(s): CHI 101.
A continuation course for beginning students with an emphasis on the further development of the four skills hearing, speaking, reading, and writing the Chinese language (simplified) within a cultural context.

CHI 201 - Intermediate Chinese I
Credits, 3 sem. hrs. Prerequisite(s): CHI 101, CHI 102.
A course for intermediate students with a limited background in the Chinese language. Students will continue to develop skills in reading, writing, listening, and speaking.

CHI 202 - Intermediate Chinese II
Credits, 3 sem. hrs. Prerequisite(s): CHI 201.
Intermediate Chinese II is a continuation course for intermediate students. Students will continue to develop skills in reading, writing, listening, and speaking.

CHI 440 - Selected Topics
Credits, 3 sem. hrs. Prerequisite(s): by department approval.
Designed to meet the needs of students minoring in Chinese.

Communication

COM 102 - Communication Research
Credits, 3 sem. hrs. This course prepares the student to do practical research associated with the pursuit of a degree in communication. Emphasis will be placed on developing a research attitude, research skills, and a research vocabulary. The course will deal with surveys, validity, and the interpretation of data. This course is required for most COM classes 300 or above.

COM 202 - Interpersonal Communication
Credits, 3 sem. hrs. This course is designed to improve communication competencies in dyadic and small-group situations. Students will practice identifying and using both verbal and nonverbal channels and cues. The opportunities for enrichment, satisfaction, and productivity derived from optimum relationships will be discussed and explored.

COM 203 - Professional Communication Skills
Credits, 3 sem. hrs. This course is designed to offer the student opportunities to develop oral skills in problem solving, leadership, interviewing, negotiating, and oral presentation.

COM 301 - Nonverbal Communication
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors
This course is a survey and examination of such phenomena as the environment, architectural design, physical appearance, kinesics, haptics, face and eye behavior, as well as other similar applications. Students will be encouraged to investigate the findings of nonverbal research in their major interest areas.

COM 304 - Public Speaking
Credits, 3 sem. hrs. Prerequisite(s): sophomore or junior standing
This course is the upper-level speaking course which seeks to polish basic public speaking skills. Persuasion is studied and taught as a speaking skill. A student is expected to develop advanced speaking skills in the course.

COM 305 - Argumentation
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors
This course includes an extensive theoretical study of formal debating as the most complete type of argumentation.

COM 330 - Fundamentals of Radio
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors
This course combines observation and actual work in radio at the campus radio station, campus commercial training station, and local radio stations.

COM 332 - Sportscasting
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors
This course introduces the student to the field of sportscasting for the media. Sports terminology and a pattern for describing action on the playing field are a part of the course content. Practical experience in calling sports action is a major part of the training.

COM 335 - Electronic Cinematography
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course utilizes camcorders and one half inch editing equipment to teach camera techniques and editing techniques. Both technical and narrative aspects of editing are presented in the course.

COM 336 - Television Workshop I
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course provides actual experience in writing, filming, and producing materials for commercial or educational television.

COM 337 - Church Media Production and Technology
COM 338 - Mass Media Survey
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course presents a survey and brief history of the various media in our society. Survey techniques and practical experience are integral parts of the course. Use of media is also discussed as a delivery system.

COM 401 - Dynamics of Group Communication
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors
This course presents the practical application of group procedures functioning under the principles of parliamentary order.

COM 402 - Listening
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course explores the concepts of active and critical listening and presents techniques to improve listening in a varied communication arena.

COM 403 - Negotiation
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course teaches the communication principles involved in conflict resolution. Students will have the opportunity to develop those skills in multiple contexts including business and non-business structures.

COM 432 - Sports Media Practicum
Credits, 3 sem. hrs Prerequisite(s): COM 332 or COM 453 or JOU 455
This course allows students to develop skills in sports media based on personal interest and available opportunities on campus. Possible learning activities include play-by-play and analysis of live events, print and electronic reporting, technical design and support, and public relations opportunities.

COM 436 - Television Workshop II
Credits, 3 sem. hrs. Prerequisite(s): COM 336 or instructor's consent
This course provides actual experience in writing, filming, and producing materials for commercial or educational television.

COM 442 - Communication Law
Credits, 3 sem. hrs. Prerequisite(s): junior or senior standing, COM 102 for Communication Majors
This course examines legal rights, privileges, and regulations of the press, radio, television, and films. The principles of libel, contempt, copyright, and broadcast regulations are explored.

COM 443 - Public Relations
Credits, 3 sem. hrs. Prerequisite(s): junior or senior standing, COM 102 for Communication Majors
This course addresses the task of building and maintaining positive or neutral relationships with the public based upon performance and communications.

COM 444 - Practices in Public Relations
Credits, 3 sem. hrs. Prerequisite(s): junior or senior standing, COM 102 for Communication Majors
This course is an advanced study of public relations and is designed to utilize case studies which allow the student to solve problems in public relations.

COM 446 - Media Sales
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors and COM 330 or COM 442.
This course is structured to provide the student with basic approaches to media sales, promotions and networks. An oral presentation section allows the student to polish sales presentational skills.

COM 447 - Media Programming and Management
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course is designed to introduce the student to programming principles and identify program sources, both local and syndicated. The course further incorporates management principles unique to the media industry.

COM 449 - Intercultural Communication
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course involves the student in the study of the complex issues of intercultural communication. The student examines the manner in which various cultures and subcultures communicate in personal and professional settings. The course focuses upon both foreign and domestic cultures. Various cultural communication patterns are explored in order to prepare the student to be a leader in a global multi-cultural community.

COM 450 - Communication Theory
Credits, 3 sem. hrs. Prerequisite(s): COM 102 for Communication Majors.
This course is a study of modern communication theories as they relate to human communication. The course introduces the student to delivery systems, cybernetics, and redundancies in a modern system of communication.

COM 452 - Television Broadcast Weather
Credits, 3 sem. hrs. Prerequisite(s): Junior or senior standing; COM 102 for Communication Majors, COM 336.
This course introduces the student to the presentational skills and technical information necessary to present a weathercast for television news. Practice before a camera along with critique by the instructor is an integral part of the preparation.

COM 453 - Public Relations in College Athletics
Credits, 3 sem. hrs Prerequisite(s): COM 443
This course is designed to provide students with an overview of public relations activities and opportunities within the sports industry. The intersection of sports public relations with newspaper, radio, television, digital media, and advertising agency industries will be explored, as will the impact of public relations on college and professional sports teams.

COM 455 - Science Communication
Credits, 3 sem. hrs. Prerequisite(s): Junior or senior standing although JOU 333 and/or COM 338 are recommended and COM 102 required for Communication Major.
This course is designed to prepare science writers, budding scientists and academicians in communication and
the sciences to convey science principles and knowledge to others in the sciences. It will also create awareness of the need to write so as to promote science understanding in lay people.

**COM 480 - Communication Internship**

**Credits, 3 sem. hrs. Prerequisite(s): Junior or senior standing.**

This course is an integral part of communication curriculum. It requires students to work for 160 hours in an approved workplace setting in order to gain experience beyond that which could be learned in the classroom environment. Each student, under direct supervision of an onsite director, will learn the inner workings of the organization. In addition, a significant research project must be submitted as a part of the course requirements.

**COM 491 - Field Studies**

**Credits, 1 sem. hrs. Prerequisite(s): Junior or senior standing and departmental consent**

These courses are taught in response to a specific need and request. They may involve non-traditional teaching techniques and usually combine formal education with practical experience in a career field. (A similar program is available at the graduate level.) These courses may be repeated as necessary for up to six hours of credit.

**COM 492 - Field Studies**

**Credits, 2 sem. hrs. Prerequisite(s): Junior or senior standing and departmental consent**

These courses are taught in response to a specific need and request. They may involve non-traditional teaching techniques and usually combine formal education with practical experience in a career field. (A similar program is available at the graduate level.) These courses may be repeated as necessary for up to six hours of credit.

**COM 493 - Field Studies**

**Credits, 3 sem. hrs. Prerequisite(s): Junior or senior standing and departmental consent**

These courses are taught in response to a specific need and request. They may involve non-traditional teaching techniques and usually combine formal education with practical experience in a career field. (A similar program is available at the graduate level.) These courses may be repeated as necessary for up to six hours of credit.

**COM 499 - Portfolio**

**Credits, 1 sem. hrs. Prerequisite(s): Senior standing**

This course is designed to prepare the student to present a portfolio of his/her work to a panel of departmental instructors and working professionals. The student must register for the course during the last semester of their senior year. The portfolio is to be completed during the semester of graduation.

**Computer Science**

**CSC 105 - C Programming for Scientists and Engineers**

**Credits, 3 sem. hrs.** A study of syntax and features of C programming language. Special attention will be given to scientific, engineering and mathematical oriented applications of C. Substantial programming exercises utilizing concepts from scientific programming environments will be required.

**CSC 114 - Introduction to Computer Science**
Credits, 3 sem. hrs. This course is an introduction to computer science. Topics to be covered include computer history, computer hardware, application and system software, networks, www concepts, ethics, and problem solving.

CSC 115 - Foundations of Computer Science
Credits, 3 sem. hrs. Lecture/Lab/Field/Meeting: Three hours of lecture per week. The class will meet some of these times in the computer laboratory.

This course is designed to introduce the student with no prior programming experience to the fundamentals necessary to study the science of computing. Topics include history of computing, computing as a tool and a discipline, machine level data representation, algorithms and problem solving, fundamental programming constructs and software design methodology, fundamental data structures, operating systems, net-centric computing, human-computer interaction, artificial intelligence, simulation, and social issues in computing.

CSC 116 - Intro. to Programming and Problem Solving
Credits, 4 sem. hrs. Prerequisite(s): CSC 115.
Lecture/Lab/Field/Meeting: Three hours of lecture and three hours of laboratory per week.

This course is designed as an introduction to programming and problem solving. Topics to be included are the abstractions necessary for the program development process, design methodology, control structures, looping, procedures, interface design, functions, simple data types, aggregate data structures and objects.

CSC 204 - Practical Fortran Programming
Credits, 3 sem. hrs. Prerequisite(s): CSC 116 and MAT 121 or MAT 206 or approval by instructor.
A study of the syntax and features of Fortran programming language. Special attention will be given to scientific, engineering and mathematical oriented applications of Fortran. Substantial programming exercises utilizing concepts from scientific programming environments will be required.

CSC 205 - Data Structures and Algorithms for Engineers
Credits, 3 sem. hrs. Prerequisite(s): CSC 105 or Instructor's Consent.
Introduces fundamental data structures, algorithms, and abstract data types. Main topics include data structures such as arrays, linked lists, stacks, queues, graphs, and trees, and algorithms such as those that are used for list manipulation, graph searches, sorting, searching and tree traversals. Implementation of data structures and algorithms in C++.

CSC 216 - Data Structures
Credits, 4 sem. hrs. Prerequisite(s): CSC 116.
Lecture/Lab/Field/Meeting: Three hours of lecture and three hours of laboratory per week.

An introduction to the basic concepts of data structures from a practical standpoint with an emphasis on the use of some of the abstractions necessary for structured program development. Topics include software development tools, top-down design, algorithm analysis, encapsulation, and methods of implementation as well as the common data structures stacks, queues, lists, and trees. Sorting and searching techniques employing these data structures will also be examined.

CSC 220 - C/C++ Language Programming
Credits, 3 sem. hrs. Prerequisite(s): CSC 116 or instructor’s consent.
A study of the syntax and features of the C and C++ programming languages.
CSC 231 - Selected Language Programming
Credits, 1 sem. hr. Prerequisite(s): CSC 220 or instructor's consent.
A study of the syntax and features of a selected special purpose language such as LISP, Prolog, Ada, Pascal, Fortran, Assembly, BASIC or COBOL. Other languages may be included as needed. May be repeated for credit if a different language is offered.

CSC 232 - Selected Language Programming
Credits, 2 sem. hrs. Prerequisite(s): CSC 220 or instructor's consent.
A study of the syntax and features of a selected special purpose language such as LISP, Prolog, Ada, Pascal, Fortran, Assembly, BASIC or COBOL. Other languages may be included as needed. May be repeated for credit if a different language is offered.

CSC 233 - Selected Language Programming
Credits, 3 sem. hrs. Prerequisite(s): CSC 220 or instructor's consent.
A study of the syntax and features of a selected special purpose language such as LISP, Prolog, Ada, Pascal, Fortran, Assembly, BASIC or COBOL. Other languages may be included as needed. May be repeated for credit if a different language is offered.

CSC 300 - Fundamentals of Computer Science for Educators
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
A study of the methodology and concepts involved in computer education in the secondary schools. Topics included will be computer curriculum and computer laboratory techniques, course authoring, language survey, multimedia, and classroom networking.

CSC 302 - Internet and WWW Basics
Credits, 3 sem. hrs. Prerequisite(s): CSC 114 or CSC 115 or instructor's consent.
This course is intended for the general university audience and will cover basic Internet concepts as well as World Wide Web design concepts such as XHTML, CSS, XML, Javascript and XSL.

CSC 309 - Discrete Structures
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
Concepts of algorithms, induction, recursion, proofs, topics from logic, set theory, combinatorics, graph theory, and automata theory fundamental to the study of computer science.

CSC 310 - File and Systems Software
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
A study of file and data storage techniques and the operating systems software necessary to support such file systems. Topics include operating systems, I/O, memory management, indexing, hashing, buffering, and specialized file management techniques for database systems.

CSC 314 - Computer Organization
Credits, 3 sem. hrs. Prerequisite(s): CSC 216 and CSC 220.
Computer system organization; internal organization and operation of digital computers; some systems software. A working knowledge of the C programming language is assumed.

CSC 319 - Computer-Human Interaction
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
This course is the study of the interfaces between the human and the computer and the design principles necessary to make such interfaces more effective. It provides a broad overview of CHI as a sub-area of the computer sciences and offers specific background relating to user-centered design approaches in information systems applications. Areas to be addressed include user interface and software design strategies, user experience levels, interaction styles, usability engineering and collaborative systems technology.

CSC 320 - Systems Analysis and Design
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
Physical and logical design of an operational computer system. The processes of planning for control, implementation, change, analysis, and review of existing systems from a technological as well as managerial standpoint will be covered. This course requires students to make both written and oral presentations of analysis and design projects.

CSC 330 - Social & Ethical Issues in Computing
Credits, 3 sem. hrs. Prerequisite(s): Junior standing.
A study of the major social and ethical issues in computer science, a brief history of computer science, the impact of computers on society, and professional computer ethics.

CSC 380 - Internship
Credits, 1, 2, 3, or 6 sem. hrs. See Internships section of the Undergraduate Catalog.

CSC 381 - Introduction to Numerical Methods
Credits, 3 sem. hrs. Prerequisite(s): MAT 122 and CSC 116.
This course looks into the modeling of mathematical concepts on a computer. Algorithms will be discussed and implemented which find roots of equations, give polynomial approximations to discrete data, approximate integrals and derivatives, solve ordinary differential equations and solve linear systems of equations.

[Crosslisted as: MAT 381.]

CSC 387 - Internship
Credits, 1, 2, 3, or 6 sem. hrs. See Internships section of the Undergraduate Catalog.

CSC 388 - Internship
Credits, 1, 2, 3, or 6 sem. hrs. See Internships section of the Undergraduate Catalog.

CSC 389 - Internship
Credits, 1, 2, 3, or 6 sem. hrs. See Internships section of the Undergraduate Catalog.

CSC 402 - Advanced Data Structures
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
A study of data structures and algorithms designed for their implementation. Lists, arrays, stacks, deques, queues, graphs, trees and tree structures, and various search and sorting techniques will be covered.

CSC 404 - Programming Language Structures
**Credits, 3 sem. hrs. Prerequisite(s): CSC 216**
Introduction to the principles of programming language design and implementation, syntax, data types, scope, data abstractions, concurrency and Object-Oriented Programming.

**CSC 405 - Introduction to Operations Research**
Credits, 3 sem. hrs.  
[Crosslisted as: MAT 405.]

**CSC 415 - Data Base Management Systems**
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
Design and implementation of a data base system. This course focuses on relational database systems concepts such as relational algebra, normalization, transaction management, concurrency control, authentication, XQuery, Xpath, SQL, and design implementation concepts. A major database design and implementation project will be required.

**CSC 416 - Software Engineering**
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
A study of the analysis, design and implementation of major software systems. Topics include software development life-cycles and software development product management. A collaborative exercise in developing a large software product is central to the course. This course requires oral presentation of final software engineering project.

**CSC 422 - Operating Systems**
Credits, 3 sem. hrs. Prerequisite(s): CSC 220, CSC 314.
An introduction to the various data and control structures necessary for the design and implementation of the modern computer operating systems. Process creation and control, inter-process communications, synchronization and concurrency, I/O memory management, and file systems concepts are explored in the context of the Unix operating system. A working knowledge of the C programming language is assumed.

**CSC 423 - Computer Networking**
Credits, 3 sem. hrs. Prerequisite(s): CSC 220.
This course is a study of the physical and logical components used in modern computer networks. Topics include: fundamentals of signaling and data transmission using electromagnetic media, data encoding, multiplexing, circuit switching, packet switching, LAN and WAN technologies, internet working concepts, transport protocols, network security, and distributed applications. May include programming or laboratory assignments to demonstrate key concepts.

**CSC 425 - Advanced Database Systems**
Credits, 3 sem. hrs. Prerequisite(s): CSC 415 or instructor’s consent.
This course will focus on database systems theory. Topics include Query optimization, object-oriented databases, data mining, hybrid databases, data warehousing, physical database structures, indexing and recovery.

**CSC 431 - Selected Topics**
Credits, 1 sem. hr., respectively. These courses are offered in response to identified needs and interests.

**CSC 432 - Selected Topics**
Credits, 2 sem. hrs., respectively. These courses are offered in response to identified needs and interests.
CSC 433 - Selected Topics
Credits, 3 sem. hrs., respectively. These courses are offered in response to identified needs and interests.

CSC 435 - Computer Security
Credits, 3 sem. hrs. Prerequisite(s): CSC 216 and CSC 314.
A study of the fundamental concepts and practical applications of computing systems security from a critical and analytical standpoint. Topics include: security concepts and services, physical, operational, and organizational security, cryptography, hardening, secure code, secure applications development, threats, vulnerabilities, and countermeasures, legal, ethical and privacy considerations.

CSC 440 - Introduction to Artificial Intelligence
Credits, 3 sem. hrs. Prerequisite(s): CSC 216 and CSC 309.
A study of fundamental concepts in AI. The focus is upon knowledge representation and searching, with emphasis on expert systems. Other topics include machine learning, natural language understanding, perception, specialized data structures such as semantic and neural networks, and open problems in the field of AI. Exercises using the LISP and/or Prolog languages may be assigned.

CSC 445 - Web-Centric Programming Methodologies
Credits, 3 sem. hrs. Prerequisite(s): CSC 216.
This course gives hands-on experimentation and analysis of concepts and applications relating to real-world web-based application development. Topics include Client-Server Architectures, web protocols and software, client-side and server-side programming, database connectivity, design patterns for web apps, security, performance, reliability, internationalization, cloud, wireless and mobile computing, SaaS, SOA, and various other web services and advanced web-based architectural styles.

CSC 450 - Computer Graphics
Credits, 3 sem. hrs. Prerequisite(s): CSC 220.
An introduction to raster graphics technology. A study of the theory and practice necessary for comprehending the techniques for scientific visualization, interface design, and two- and three-dimensional data representation and manipulation.

CSC 455 - Graph Theory
Credits, 3 sem. hrs. Prerequisite(s): MAT 222 and CSC 216 or instructor's consent.
Graph theory with a wide variety of applications, both to other branches of mathematics and to the real world. Some subjects to be treated are graphs, subgraphs, cycles, trees, matchings, and planar graphs.

[Croslisted as: MAT 455.]

CSC 460 - Automata Theory and Formal Languages
Credits, 3 sem. hrs. Prerequisite(s): CSC 309.
A study of languages, grammars, and machines at a theoretical level. Regular, context free, and context sensitive languages are covered, as well as finite state, push down and Turing machines. The concept of decideability is also discussed.

CSC 481 - Numerical Analysis
Credits, 3 sem. hrs. Prerequisite(s): MAT 381/CSC 381.
This course is a mathematical analysis of scientific computing. Topics covered include the stability and convergence of algorithms, interval arithmetic, fixed point iteration, matrix factorizations, norms and
eigenvalues; iterative solutions to systems. Additional discussions will focus on the design of efficient algorithms for use on parallel computers.

[Crosslisted as: MAT 381.]

CSC 485 - Senior Seminar
Credits, 1 sem. hr. Prerequisite(s): CSC 416 and CSC 422, or instructor's consent.
Students will review material from their Computer Science course work and apply this knowledge in the study, discussion and presentation of current literature in the field. Grades will be based, in part, on student presentations and on the results of a nationally standardized Computer Science exam to be given during the course.

**Departmental Activity Courses**

COM 100 - Campus Media Production
Credits, 1 sem. hr. This course allows students to gain practical experience in a variety of campus-based media productions. This course may be repeated once for credit.

COM 170 - Forensics
Credits, 1 sem. hr.

COM 171 - Forensics
Credits, 1 sem. hr.

COM 200 - Campus Media Production
Credits, 1 sem. hr. This course allows students to gain practical experience in a variety of campus-based media productions. This course may be repeated once for credit.

COM 270 - Forensics
Credits, 1 sem. hr.

COM 271 - Forensics
Credits, 1 sem. hr.

COM 300 - Campus Media Production
Credits, 1 sem. hr. This course allows students to gain practical experience in a variety of campus-based media productions. This course may be repeated once for credit.

COM 370 - Forensics
Credits, 1 sem. hr.

COM 371 - Forensics
Credits, 1 sem. hr.

COM 400 - Campus Media Production
Credits, 1 sem. hr. This course allows students to gain practical experience in a variety of campus-based media productions. This course may be repeated once for credit.
COM 470 - Forensics  
Credits, 1 sem. hr.

COM 471 - Forensics  
Credits, 1 sem. hr.

THE 355 - Theatre Production  
Credits, 1 sem. hr. May be repeated as needed.

THE 356 - Theatre Production  
Credits, 1 sem. hr. May be repeated as needed.

Economics

ECO 131 - The American Economic System  
Credits, 3 sem. hrs. A survey course offered for non-business students which introduces the American Economic System and its institutions.

ECO 231 - Economic Principles I  
Credits, 3 sem. hrs. (Can be taken in freshman year with the consent of School of Business advisor) A study of macroeconomics topics, including national income accounting, equilibrium analysis, fiscal and monetary policy.

ECO 232 - Economic Principles II  
Credits, 3 sem. hrs. (Can be taken in freshman year with the consent of School of Business advisor) A study of microeconomics, including supply and demand analysis, demand theory, cost theory, and market structures.

ECO 332 - Money and Financial Institutions  
Credits, 3 sem. hrs. Prerequisite(s): ECO 231. The history, theories, and functions of monetary systems and their relation to the economic order.

[Crosslisted as: FIN 342; therefore, students taking ECO 332 for credit cannot receive credit for FIN 342.]

Education

EDU 299 - Pre-Teaching Field Experience  
Credits, 1 sem. hr. Corequisite(s): EDU 300 or consent of Director of Field Experiences. This course consists of 30 clock hours of laboratory experience in one or more approved schools where the teacher candidate will be involved in guided, active observation of students, teachers, administrators, schools, and communities. In addition, a variety of additional activities will be provided. All experiences are designed to provide students with a realistic view of the teaching profession.

EDU 300 - Introduction to Education
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.  
Corequisite(s): EDU 299.
This course is designed to give students a foundation in the history and philosophy of education, as well as current issues in education. Students apply to the Teacher Education Program (TEP) during this course.

EDU 301 - Methods of Elementary School Teaching  
Credits, 3 sem. hrs. This course is designed to develop an understanding of the ways in which an effective teacher uses various methods to enhance teaching and learning in an elementary classroom.

EDU 304 - Educational Psychology  
Credits, 3 sem. hrs. Prerequisite(s): EDU 300 or PSY 201
Emphasis is placed upon psychological principles underlying the process of learning.  
[Crosslisted as: PSY 304.]

EDU 309 - Early Literacy I  
Credits, 3 sem. hrs. Prerequisite(s): EDU 300, EDU 301 and junior standing; must be taken concurrently with EDU 334.
This course is designed as a study of concepts, materials and teaching strategies for oral language development and systematic early reading and writing instruction specific to concepts about print, phonemic awareness and phonics. This course will also allow students to study the basic principles and theories of reading instruction at the elementary level. Students will learn about current research findings in reading curricula.

EDU 311 - Social Science for Children  
Credits, 3 sem. hrs. Prerequisite(s): EDU 300, GEO 210, and Social Studies core; admission to TEP.
This course is designed specifically for preservice elementary school teachers, K-8. The emphasis is placed on teacher’s role as decision maker in planning the content of the social studies program, arranging the environment, guiding the learning process, and organizing and managing instruction. Includes Field Experience.

EDU 312 - Science for Children  
Credits, 3 sem. hrs. Prerequisite(s): EDU 300, BIO 145, and science core; admission to TEP.
This course is designed to provide the prospective teacher with the process and product of modern elementary service. The discovery process and hands-on learning are emphasized. Includes Field Experience.

EDU 317 - Introduction to Instructional Technology  
Credits, 3 sem. hrs. This course is designed as an introduction to instructional technology. Teacher candidates will evaluate, select, integrate and prepare technology for classroom settings.

EDU 320 - Principles and Methods in Early Childhood Education  
Credits, 3 sem. hrs. Prerequisite(s): PSY 305.
This course is designed to emphasize the history, theory, trends, principles and curriculum pertinent to the management of a developmental preschool program. It includes the cultural and psychological forces that affect the curriculum and provides students with an opportunity to plan, develop, and execute learning experiences with young children. A two-hour laboratory is required.

EDU 321 - Mathematics for Children
Credits, 3 sem. hrs.  Prerequisite(s): EDU 300, MAT 207, and mathematics core; admission to TEP.
This course involves the teaching of mathematics at all elementary grade levels. Emphasis will be placed on the use of manipulatives to develop conceptual understandings of all mathematics as well as the recommendations of the National Council for Teachers of Mathematics (NCTM). Includes Field Experience.

EDU 334 - Early Literacy II
Credits, 3 sem. hrs.  Prerequisite(s): EDU 300 and junior standing must be taken concurrently with EDU 309.
This course is designed to teach concepts, materials, and teaching strategies for oral language development and early systematic reading and writing instruction specific to vocabulary, fluency, and comprehension. Students will explore materials and techniques for teaching developmental skills and abilities in reading at the elementary level. Emphases will also be placed on diagnosis, prescription, and recent research findings in the area of reading methodology.

EDU 362 - Special Education Practicum I
Credits, 1 sem. hr.  Corequisite(s): Must be taken concurrently with EDU 455.
This course will be divided into two placements of fifteen hours each. Considering the diversity of special education services, placement will be made based on the skills needed by the students and with teachers who have those skills. During the course of the three field experiences, the student will observe and work with the following populations: developmentally delayed, mild learning problems of elementary students, mild learning problems of middle school or junior high level students, mild learning problems of secondary level students, and learning patterns of moderately disabled students such as those who are trainable mentally retarded and autistic.

EDU 363 - Special Education Practicum II
Credits, 1 sem. hr.  Corequisite(s): Must be taken concurrently with EDU 456.
This course will be divided into two placements of fifteen hours each. Considering the diversity of special education services, placement will be made based on the skills needed by the student and with teachers who have those skills. During the course of the three field experiences, the student will observe and work with the following populations: Developmentally delayed mild learning problems of elementary students, mild learning problems of middle school or junior high level students, mild learning problems of secondary level students, and learning patterns of moderately disabled students such as those who are trainable mentally retarded and autistic.

EDU 403 - Measurement and Evaluation of Student Progress
Credits, 3 sem. hrs.  Prerequisite(s): Admission to TEP.
This course is concerned with the measurement and evaluation of elementary and secondary pupils. Norm-referenced and criterion-referenced testing procedures are emphasized. Statistical interpretation is given special emphasis.

EDU 411 - Children’s Literature/Reading
Credits, 3 sem. hrs.  Prerequisite(s): EDU 300.
This course is designed to help future teachers know the importance of books and reading in the life of the young child and to develop a knowledge and appreciation of the wide variety and scope of recreational and informational materials available for grades K-8.

EDU 413 - Current Educational and Psychological Testing Procedures I
Credits, 3 sem. hrs. This course is specifically designed to keep the student abreast with current tests required for special class placement. Close contact will be maintained with the State Department of Education requirements, acceptable tests, and testing procedures.

EDU 414 - Current Educational and Psychological Testing Procedures II
Credits, 3 sem. hrs. This course introduces the student to the administration of current tests used in the IDEA and Section 504 processes. The student will also be introduced to the administration of current tests used in preschool assessments. The student will become familiar with the factors to be considered when conducting assessment, as well as the factors to be considered when determining educational disabilities.

EDU 415 - Learning and Behavioral Interventions in the School Setting
Credits, 3 sem. hrs. This course offers students opportunity to develop an understanding of the principles of applied behavioral analysis and the skills to design, implement and evaluate behavior plans for students with various behavioral challenges. Skills as both direct interventionist and consultant will be developed.

EDU 418 - The Association Method-Techniques in Teaching Language Disorders and Dyslexic Children
Credits, 3 sem. hrs. Prerequisite(s): Student must be admitted to an undergraduate education program; currently teach in the public or private schools; or hold a teacher's license.
This course is designed to introduce elementary and special educators to Association Method techniques that can be used in teaching reading to dyslexic children and also in teaching oral language skills to students deficient in receptive and/or expressive language.

EDU 419 - Practicum in the Association Method of Teaching Language Deficient Children
Credits, 3 sem. hrs. Prerequisite(s): Completion of EDU 418.
A clinical field experience using the Association Methods of teaching language deficient children. A minimum of 200 clock hours at the Magnolia Speech School.

EDU 421 - Directed Teaching in K-8
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all professional education, subject matter, and interdisciplinary courses.
Full semester of student teaching.

EDU 422 - Directed Teaching in K-8
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all professional education, subject matter, and interdisciplinary courses.
Full semester of student teaching.

EDU 423 - Directed Teaching in K-8
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all professional education, subject matter, and interdisciplinary courses.
Full semester of student teaching.

EDU 424 - Directed Teaching in K-8
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all professional education, subject matter, and interdisciplinary courses.
Full semester of student teaching.
EDU 425 - Advanced Child Development
Credits, 3 sem. hrs. Prerequisite(s): PSY 305 and EDU 320.
This course is designed to develop an understanding of the sequential development of young children through an in-depth study of the physical, social, emotional, cognitive and language aspects of growth in order to enhance teaching and learning in an early childhood setting. It includes the cultural and neurological forces that affect the curriculum and provides the teacher candidate with an opportunity to plan, develop and execute learning experiences with young children. A field experience component is required.

EDU 427 - Health Education Workshop
Credits, 3 sem. hrs. Prerequisite(s): KIN 105 - Comprehensive Health or permission of instructor.
An intensive study of the major problems and possible solutions in the area of health education.

[Crosslisted as: KIN 427.]

EDU 428 - Methods and Materials in Teaching Business
Credits, 3 sem. hrs. Prerequisite(s): EDU 300
Objectives, materials and special methods of teaching business subjects.
Prerequisite to Directed Teaching

EDU 431 - Directed Teaching in 7-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 432 - Directed Teaching in 7-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 433 - Directed Teaching in 7-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 434 - Directed Teaching in 7-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into the TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 438 - Teaching Reading in Content Areas
Credits, 3 sem. hrs. Prerequisite(s): Admission to TEP and Junior standing.
The place of reading in the curriculum; aims and objectives of reading; teaching, organization, materials and methods of middle and high school reading; planning of lessons; and other topics of interest to the prospective secondary teacher.
EDU 439 - Language Arts Methods/Reading  
**Credits, 3 sem. hrs.** **Prerequisite(s):** EDU 309, English Core, Admission to TEP.  
This course involves a study of the principles, methods, and materials needed for teaching written and oral forms of communication (aside from reading) in elementary schools. Includes Field Experience.

EDU 445 - Characteristics of Students With Mild/Moderate Learning Problems  
**Credits, 3 sem. hrs.** A study of the cognitive and psycho-social needs of students who are mildly handicapped (learning disabled) or moderately handicapped (educable mentally retarded) on the pre-school, elementary and secondary levels.

EDU 452 - Programs, Methods and Materials of Early Childhood  
**Credits, 3 sem. hrs.** **Prerequisite(s):** PSY 305 and EDU 320.  
This course is designed to develop an understanding of the beliefs, philosophies and practices associated with early childhood programs and to make connections between the theory, methods and materials an effective early childhood teacher or care-giver implements in order to enhance teaching and learning in an early childhood setting. A field experience component is required.

EDU 453 - Curriculum Development for Early Childhood Programs  
**Credits, 3 sem. hrs.** **Prerequisite(s):** PSY 305 and EDU 320.  
This course is designed to develop an understanding of developmentally appropriate practice in curriculum, teaching strategies, environmental arrangement, educational materials, and differentiated instruction associated with early childhood education and child development. A field experience component is required.

EDU 453 - Seminar in Child Development  
**Credits, 3 sem. hrs.** **Prerequisite(s):** instructor's consent.  
This course is designed to assist inservice and prospective preschool and elementary teachers. Current academic information on curriculum and management skills in working with preschool children is emphasized.  
*Offered only in the summer.*

EDU 455 - Individualized Programming for Students With Mild/Moderate Learning Problems I  
**Credits, 3 sem. hrs.** A study of the strategies and materials used in planning and implementing individualized programs for elementary mildly/moderately handicapped students.

EDU 456 - Individualized Programming for Students With Mild/Moderate Learning Problems II  
**Credits, 3 sem. hrs.** A study of the strategies and materials used in planning and implementing individualized programs for secondary mildly/moderately handicapped students.

EDU 457 - Teaching Students with Moderate Learning Problems  
**Credits, 3 sem. hrs.** This course will address the characteristics and methods of teaching students, kindergarten through secondary school, who are diagnosed as being autistic, having severe communication problems, trainable mentally retarded, milder behavioral problems, and other pervasive developmental difficulties.

EDU 458 - Organization and Management of the Elementary Classroom
Credits, 3 sem. hrs. Prerequisite(s): Admission to TEP.
A study of child-centered techniques for creating a classroom environment conducive to learning including environmental factors, legal regulations, and theories/strategies for preventing and altering unproductive behavior. Utilization of routines, time management, and planning for effective use of technology will also be studied.

EDU 459 - Organizational Procedures for Special Education
Credits, 3 sem. hrs. A study of organizational procedures for special education as required by the Mississippi Department of Education.

EDU 460 - Managing the Secondary Classroom
Credits, 3 sem. hrs. Prerequisite(s): Admission to TEP
An intensive study of techniques to be used in creating an organized, orderly environment in the complex secondary classroom. A pragmatic, student-oriented approach to implementing research-based management principles will be emphasized. Strategies for creating effective individual/group interaction and utilizing current multi-media technology will also be studied.

EDU 461 - Special Education Practicum III
Credits, 1 sem. hr. Corequisite(s): Must be taken concurrently with EDU 457.
This course will be divided into two placements of fifteen hours each. Considering the diversity of special education services, placement will be made based on the skills needed by the student and with teachers who have those skills. During the course of the three field experiences, the student will observe and work with the following populations: developmentally delayed mild learning problems of elementary students, mild learning problems of middle school or junior high level students, mild learning problems of secondary level students, and learning patterns of moderately disabled students such as those who are trainable mentally retarded and autistic.

EDU 465 - Organization and Administration of the Preschool
Credits, 3 sem. hrs. Prerequisite(s): PSY 305, EDU 320.
The course is designed to assist current and prospective preschool teachers and directors in the organization and administration of facilities, personnel, developmental materials and equipment, budgeting and licensing procedures. Special emphasis is given to the child’s environment and working with parents.

EDU 465 - Policies and Procedures for the Organization and Administration of Early Childhood Programs
Credits, 3 sem. hrs. Prerequisite(s): PSY 305 and EDU 320.
The course is designed to assist current and prospective early childcare teachers and directors in the organization and administration of facilities, personnel, developmental materials and equipment, budgeting and licensing procedures. Special emphasis is given to the child's environment and working with parents. A field experience component is required.

EDU 466 - Child Study and Management in the Early Childhood Setting
Credits, 3 sem. hrs. Prerequisite(s): PSY 305 and EDU 320.
This course is designed to help early childhood teachers plan, conduct, and interpret authentic, researched-based, assessment, which is used to guide children in appropriate behavior and to plan responsive, supportive curriculum that ensures optimal learning for all children. A field experience component is required.

EDU 466 - Practicum in the Preschool
Credits, 3 sem. hrs. Prerequisite(s): PSY 305, EDU 320.
This course is designed to provide students with an opportunity to work with individuals concerned with child-care who play a significant role in providing young children with quality care. Students are given an opportunity to work with professionals in designing and implementing State standards of child care, as well as being informed of possible grants, etc. available in this area.

EDU 471 - Directed Teaching in K-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 472 - Directed Teaching in K-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 473 - Directed Teaching in K-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 474 - Directed Teaching in K-12
Credits, 3 sem. hrs. Prerequisite(s): Acceptance into TEP for at least one full semester prior to the semester in which student teaching is to be done; completion of all Professional Education, non-block courses and at least three-fourths of all specialization courses.
Full semester of student teaching.

EDU 488 - Diagnostic/Prescriptive Reading
Credits, 3 sem. hrs. Prerequisite(s): Admission to the TEP; EDU 309 and EDU 334 and junior standing.
A study of the symptoms and causes of reading disabilities. Analysis and diagnosis of reading ability, including the use of standardized tests, informal measures, portfolios, surveys, inventories, observation and individual or group tests will be utilized. Communicating results and reporting practices will be explored along with remediation or corrective techniques, special teaching materials, machines and visual or other physical aids for reading improvement. The case study approach utilizing individual educational prescriptions (IEP) will be used by students to develop reading instruction to meet individual needs based upon diagnostic findings.

EDU 489 - Middle Grades Literacy Skills
Credits, 3 sem. hrs. Prerequisite(s): EDU 309 and EDU 334.
Founded on the principles of research, this course focuses on the literacy needs and development of fourth and eighth grade learners. The aim is to present the theory, application, examples, and strategies teachers need to fully understand teaching and assessing reading and writing in the middle grades.

EDU 491 - Field Study
Credits, 1 sem. hr., respectively.
EDU 492 - Field Study  
Credits, 2 sem. hrs., respectively.

EDU 493 - Field Study  
Credits, 3 sem. hrs., respectively.

**Engineering Science**

**ESC 105 - Spreadsheet Applications for Scientists and Engineers**  
Credits, 2 sem. hrs.  
Prerequisite(s): MAT 102 or MAT 121.  
Lecture/Lab/Field/Meeting: Lecture two hours a week.

The use of spreadsheet packages such as Excel to store data from laboratory experiments, to perform calculations on those data, and to generate charts from the results.

**ESC 205 - Computational Tools for Scientists and Engineers**  
Credits, 3 sem. hrs.  
Prerequisite(s): PHY 252.  
Lecture/Lab/Field/Meeting: Lecture three hours a week.

An introduction to the use of a commercially available array processing software package such as MATLAB to analyze large blocks of data (e.g., multiple time-dependent temperatures).

**ESC 305 - Electrical Circuits**  
Credits, 5 sem. hrs.  
Prerequisite(s): PHY 152 or PHY 252 and MAT 122.  
Lecture/Lab/Field/Meeting: Lecture four hours a week. Laboratory three hours a week.

Principles of DC circuits, Ohm’s Law, Kirchhoff’s laws, analysis theorems, AC circuit components, transient behavior, steady-state behavior, phasors, transformers, two-port networks.

**ESC 306 - Digital Circuits**  
Credits, 4 sem. hrs.  
Prerequisite(s): PHY 152 or PHY 252 or instructor’s consent.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Binary, hexadecimal, octal number systems, Boolean algebra, binary logic, Karnaugh maps, digital circuit principles, flip-flops, switches, counters, basic computer circuits, LED’s, introduction to microprocessors.

**ESC 310 - Electronics**  
Credits, 4 sem. hrs.  
Prerequisite(s): ESC 305.  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Semiconductors, solid state electronics, principles of active devices, JFET’s, amplifier circuits, operational amplifiers, analog measurements, oscillator circuits, linear integrated circuits.

**ESC 311 - Statics**  
Credits, 3 sem. hrs.  
Prerequisite(s): PHY 151 or PHY 251 and MAT 122.  
Forces in equilibrium, free body diagrams, beams, trusses, engineering principles, bodies in tension and compression, stress and strain.
ESC 312 - Dynamics  
**Credits, 3 sem. hrs.** *Prerequisite(s): ESC 311.*  
Vector treatment of the kinematics and kinetics of particles and rigid bodies, Newton’s laws, work and energy, impulse and momentum, impact, mass moments of inertia, rotating axes.

ESC 315 - Thermodynamics  
**Credits, 3 sem. hrs.** *Prerequisite(s): PHY 152 or PHY 252 and MAT 222 or instructor's consent.*  
A study of the science of the conversion of energy from one form to another. This course will emphasize the first and second laws of thermodynamics and their applications to power cycle and refrigeration cycle analyses.

ESC 321 - Strength of Materials  
**Credits, 3 sem. hrs.** *Prerequisite(s): PHY 151 or PHY 251 and MAT 122.*  
Lecture/Lab/Field/Meeting: Lecture three hours a week.

Relationship between internal stresses and deformations produced by external forces acting on deformable bodies, and design principles based on mechanics of solids: normal stresses, shear stresses, and deformations produced by tensile, compressive, torsional, and dimensional stress states; and buckling of columns.

ESC 340 - Heat Transfer  
**Credits, 3 sem. hrs.** *Prerequisite(s): PHY 151 or PHY 251 and MAT 122.*  
*Corequisite(s): MAT 352.*  
A one-semester study of the principles of steady state conduction, transient conduction, radiative heat transfer, and forced natural convection.

ESC 350 - Fluid Mechanics  
**Credits, 4 sem. hrs.** *Prerequisite(s): PHY 151 or PHY 251 and MAT 122.*  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Comprehensive first course in basic and applied fluid mechanics. Topics covered will include: fluid properties under static and dynamic conditions, Euler’s and Bernoulli’s equations, hydrodynamics, dimensional analysis and similitude, laminar and turbulent flows, boundary layer model and approximate analysis, compressible flow and propulsion devices, flow measurement, and an introduction to turbomachinery with applications.

ESC 430 - Geophysical Applications: Atmospheric Electricity  
**Credits, 4 sem. hrs.** *Prerequisite(s): ESC 305, ESC 306, or PHY 406.*  
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Electrical nature of earth's atmosphere, the global electric circuit, cloud physics, lightning, modeling thunderstorm parameters.

ESC 450 - Senior Design Project  
**Credits, 2 sem. hrs.** *Prerequisite(s): senior standing, Engineering Physics major.*  
Independent research, design, and presentation of results for a student selected and advisor approved project.
English

ENG 099 - Writing Proficiency Exam
Credits, 0 sem. hrs. Prerequisite(s): See ENG 299 course description for prerequisites.
Required by the University of all students. ENG 299 with a grade of C or higher may be substituted.

ENG 100 - English Fundamentals
Credits, 3 sem. hrs. Prerequisite(s): Restricted freshman admission.
Required for students judged to be unprepared for ENG 101; carries credit but does not count toward a major, minor or core curriculum. A review of grammar, spelling, reading, vocabulary building and an introduction to theme writing.

ENG 101 - English Composition
Credits, 3 sem. hrs. The study of the elements of composition through writing and analysis of expository prose with emphasis on short essays.

ENG 102 - English Composition
Credits, 3 sem. hrs. Prerequisite(s): ENG 101. Required of all freshmen.
Corequisite(s): ENG 099.
The study of academic research and writing with special attention to information literacy. Students enrolled in ENG 102 must also concurrently register for the Writing Proficiency Examination (ENG 099).

ENG 103 - Accelerated Composition
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 credit and instructor's consent.
Corequisite(s): ENG 099
A special section of freshman composition focusing on the research paper and designed for students with advanced writing skills. Interested students should contact the instructor prior to registering. It may be substituted for ENG 102.

ENG 211 - World Masterpieces
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 credit.
A survey of literary works that have been most influential in shaping the culture of the Western world. Fulfills the University Core Curriculum requirement.

ENG 212 - Survey of British Literature
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 credit.
A survey of major British literary figures and their works. Fulfills the University Core Curriculum requirement.

ENG 213 - Survey of American Literature
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 credit.
A survey of major American literary figures and their works. Fulfills the University Core Curriculum requirement.

ENG 270 - Literary Thinking and Research
Credits, 3 sem. hrs Prerequisite(s): Completion of English core requirement.
Corequisite(s): ENG 370.
Within the context of historical, biographical and genre theories, this course introduces students to patterns
of literary thinking and research needed in the literature track. Taken in conjunction with ENG 370, it serves
to guide the student into developing effective questions for analysis, strategic processes for research, and
synthesis of researched material with the student's own thinking and writing. This course is part of the
University's U-Research plan.

ENG 270 - Literary Thinking and Research
Credits, 3 sem. hrs  Prerequisite(s): Completion of English core requirement.
Corequisite(s): ENG 370.
Within the context of historical, biographical and genre theories, this course introduces students to patterns
of literary thinking and research needed in the literature track. Taken in conjunction with ENG 370, it serves
to guide the student into developing effective questions for analysis, strategic processes for research, and
synthesis of researched material with the student's own thinking and writing. This course is part of the
University's U-Research plan.

Offered in fall semester only.

ENG 271 - Introduction to Research Methods
Credits, 3 sem. hrs  Prerequisite(s): ENG 101 and ENG 102 or ENG 103
Reading and analysis of selected research models; introductory study and practice in research methods
relevant to composition studies and English education; practice in primary and secondary research; practice in
various modes of writing and presentation of research.

ENG 299 - Composition Skills
Credits, 3 sem. hrs.  Prerequisite(s): ENG 101-ENG 102 credit and 1 prior attempt at Writing Proficiency Exam
(WPE).
The practical study of writing techniques designed to develop the student's abilities to write correctly, clearly,
and coherently. Classroom lecture will be supplemented with laboratory and tutorial work. ENG 299 satisfies
the writing proficiency requirement with a grade of C or higher. Students who fail the WPE once may take
ENG 299 to satisfy the college's writing proficiency requirement; students who fail the WPE twice must take
ENG 299.

ENG 321 - Sentence Grammar and Style
Credits, 3 sem. hrs  Prerequisite(s): ENG 101 and ENG 102 or ENG 103
This course will focus on the building block of any written discourse: the sentence. Students will work at
defining the sentence and analyzing the functions of contributing factors such as parts of speech, grammar,
and style choices. Students will study various kinds of sentence patterns, examine how and why grammar
functions, and work on incorporating those options into their own writing.

ENG 322 - Language and Diversity
Credits, 3 sem. hrs  Prerequisite(s): ENG 101 and ENG 102 or ENG 103; ENG 321 recommended
This course introduces students to the structure of and attitudes towards the English language in all its
varieties. The course begins with the basics of linguistics - definitions of language, sound production and
sound systems, word-formation processes, and grammatical structure. Students will then apply these linguistic
tools to understand how meaning is created, how variation and change occur in English, and how English is
acquired, processed, and used to establish social and other (cognitive, pragmatic, emotional) meanings.

ENG 330 - Mythology
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
A survey of myth, saga, folktale, and folklore from ancient times to the present.

ENG 340 - Introduction to Film
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
An introductory study of the elements of film that includes a brief survey of film history and the viewing and discussion of significant representative films.

ENG 350 - Introduction to Creative Writing
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 or ENG 103
Poetry and fiction. A structured approach to formal verse, free verse, and the basic elements of narration.

ENG 370 - Analysis of Literature
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
Corequisite(s): ENG 270.
This course is designed to help English majors and minors become more proficient in thinking, writing, and speaking about literature. MLA documentation will be studied and applied to writing about poetry, fiction, and drama. For English majors, ENG 370 should be taken either concurrently with the final survey course in the English core or during the first semester after completion of the survey courses in the English core.

Offered in fall semester only.

ENG 371 - Analysis of Discourse
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 or ENG 103
This course is designed to help students become more proficient in thinking, writing, speaking, and theorizing about discourse. Students will engage in rhetorical, linguistic, and cultural analysis of texts representing a variety of genres and disciplines.

ENG 372 - Rhetorical Devices and Designs
Credits, 3 sem. hrs Prerequisite(s): ENG 101 and ENG 102 or ENG 103
This course will focus on defining rhetoric and analyzing the function of rhetorical devices and designs in sample texts and contemporary discourse. Students will study various kinds of rhetorical options, examine what those devices do and how they do it, and work on incorporating those options into their own writing.

ENG 390 - Special Topics
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
In-depth study in special areas of literary inquiry. Topics and readings will vary between offerings. The course may be repeated for credit with permission of the department chair if course readings differ between sections.

ENG 391 - Special Topics in Writing
Credits, 3 sem. hrs Prerequisite(s): ENG 101 and ENG 102 or ENG 103
In-depth study in special areas of rhetoric and writing. Topics will vary between offerings. The course may be repeated for credit with permission of the department chair if course emphasis differs between sections.

ENG 398 - Practicum in Writing Consulting
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 or ENG 103
An introduction to writing theory and pedagogy, with emphasis on approaches to teaching writing one-on-
one. This course prepares students to tutor in the Mississippi College Writing Center and is recommended for those planning to pursue careers in teaching or in writing-oriented fields.

ENG 404 - Shakespeare
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
A study of Shakespeare’s plays against the background of the life and times of the dramatist.

Offered in fall semester only.

ENG 427 - Literature of the South
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
Examination of selected works of writers from the early South through the Modern Southern Renaissance to the present.

ENG 429 - American Ethnic Writers
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
Readings in the literature of American ethnic groups.

ENG 430 - Mississippi Writers
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
In-depth study of writers associated with Mississippi, including writers from the Territorial through Contemporary eras.

ENG 436 - European Culture
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
European travel, reading, reports, and research paper. A study-tour directed by a teacher and requiring corollary reading, a travel journal, and a paper on some area of concentration.

ENG 442 - Texts and Interpretation for Teachers
Credits, 3 sem. hrs Prerequisite(s): Completion of English core requirements.
A survey of representative texts, of various genres and forms, commonly taught at the secondary school level, including fiction and non-fiction, classic, and contemporary works.

ENG 445 - Women Writers
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
Readings from selected women writers and studies in their social and cultural contexts.

ENG 447 - Methods of Teaching Literature to Young Adults
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 or ENG 103
The study of literature suitable for students in middle school and above along with the theories and methods of teaching literature.

ENG 450 - Advanced Creative Writing
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 or ENG 103
A study of poetry and fiction. A structured approach to formal verse, free verse, and basic elements of the narrative.

ENG 452 - Professional Writing
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 or ENG 103
The study of and practice in techniques of business, technical, and general professional composition.

(Crosslisted as: JOU 452.)

ENG 455 - Methods of Teaching Composition and Grammar
Credits, 3 sem. hrs. Prerequisite(s): ENG 101 and ENG 102 or ENG 103
A study of the theories and methods of teaching grammar and composition designed for those who plan to teach at the middle school level or above.

Offered in fall semester only.

ENG 457 - History of the English Language
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement.
Study of the phonological, grammatical, and lexical history of the English language.

Offered in fall semester only.

ENG 460 - Literature of the Bible
Credits, 3 sem. hrs. Prerequisite(s): Completion of ENG 102 or equivalent.
A study of the literary qualities of the Bible, emphasizing genres and figures of speech.

ENG 465 - Studies in Literary Figure
Credits, 3 sem. hrs. This course explores a body of work from one or two authors primarily in light of biographical theory. Offered Fall and Spring semesters; may be repeated.

ENG 466 - Studies in Literary Period
Credits, 3 sem. hrs. This course surveys discrete literary periods, highlighting the historical contexts for authors and works. Offered Fall and Spring semesters; may be repeated.

ENG 467 - Studies in Literary Genre
Credits, 3 sem. hrs. This course examines the development of particular genres, emphasizing changes over time. Offered Fall and Spring semesters; may be repeated.

ENG 470 - Senior Seminar
Credits, 3 sem. hrs. Prerequisite(s): Senior standing, English major or minor.
A study of critical theory and advanced research techniques in English language and literature; a research project and an oral presentation are required.

Offered in fall and spring semesters.

ENG 471 - Advanced Research and Composition
Credits, 3 sem. hrs. Prerequisite(s): Senior standing and completion of ENG 371.
Reading and analysis of selected prose models; study of rhetorical principles and theories; practice in advanced research methodologies; and practice in various modes of writing.

Offered in spring semester.
ENG 489 - Independent Reading and Research  
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement and department chair's consent. 
Designed for outstanding students to deepen and broaden their knowledge of special topics. This course is not offered regularly but is available only under special circumstances, normally when the student and instructor have already worked together in an on-going pursuit of mutual interests in the field.

ENG 490 - Special Topics  
Credits, 3 sem. hrs. Prerequisite(s): Completion of English core requirement. 
Designed to respond to identified interests and needs.

Finance

FIN 240 - Personal Finance  
Credits, 3 sem. hrs. Financial planning for individual: budgeting, taxes, banking, insurance, housing, and investments.

FIN 341 - Business Finance  
Credits, 3 sem. hrs. Prerequisite(s): ACC 201 and ACC 202  
Corequisite(s): MIS 099 or MIS 226  
An introduction to financial management principles. Emphasis on analysis of financial statements, time value of money concepts, security valuation principles, risk and return relationships, and the capital budgeting process.

FIN 342 - Money and Financial Institutions  
Credits, 3 sem. hrs. Prerequisite(s): ECO 231.  
The history, theories, and functions of monetary systems and their relation to the economic order.

[Crosslisted as: ECO 332; therefore, students taking FIN 342 for credit cannot receive credit for ECO 332.]

FIN 343 - Financial Modeling  
Credits, 3 sem. hrs. Prerequisite(s): MIS 099 and FIN 341.  
Employing a computer in financial decision making. Covers spreadsheets, object-relational database management systems, and data warehousing.

FIN 440 - Short-Term Financial Management  
Credits, 3 sem. hrs. Prerequisite(s): FIN 341.  

FIN 441 - Investments  
Credits, 3 sem. hrs. Prerequisite(s): FIN 341.  
An introduction to investments. The study and application of the investment environment (markets, instruments, institutions), risk and return relationships, portfolio diversification, market efficiency, mutual funds, security analysis, valuation, and allocation.

FIN 443 - Advanced Business Finance
Credits, 3 sem. hrs. Prerequisite(s): FIN 341.
A continuation of FIN 341. Major topics include capital structure, dividend policy, long-term financing, working capital management, failure and reorganization, and international finance.

French

FRE 101 - Elementary French I
Credits, 3 sem. hrs. Prerequisite(s): None.
A course for beginning students with emphasis on hearing, speaking, reading, and writing the French language within a cultural context.

FRE 102 - Elementary French II
Credits, 3 sem. hrs. Prerequisite(s): FRE 101 or 1 unit of high school French.
A continuation of FRE 101 - Elementary French I with emphasis on the further development of the four skills of hearing, speaking, reading, and writing the French language within a cultural context.

FRE 109 - Beginning French Conversation
Credits, 3 sem. hrs. A conversation course for beginning students participating in the Montpellier Summer Program.

FRE 201 - Intermediate French I
Credits, 3 sem. hrs. Prerequisite(s): FRE 101 - FRE 102 or 2 units of high school French.
A course composed of grammar review, conversation, composition, and cultural and literary readings. Designed for students with a basic knowledge of French pronunciation, vocabulary and grammar.

FRE 202 - Intermediate French II
Credits, 3 sem. hrs. Prerequisite(s): FRE 201 or 3 units of high school French.
A continuation of FRE 201 - Intermediate French I.

FRE 209 - Intermediate French Conversation
Credits, 3 sem. hrs. Prerequisite(s): FRE 201 or instructor's consent.
A conversation course for intermediate students in French. May be used instead of FRE 202 to satisfy core curriculum requirement.

FRE 309 - Advanced French Conversation and Composition I
Credits, 3 sem. hrs. Prerequisite(s): FRE 202 or FRE 209.

This course introduces students to the principles of journalistic photography and videography for print and digital distribution. Topics and assignments in this course include but are not limited to: still photojournalism, short-form video journalism, use of social media in reporting, and photojournalistic ethics and law.

JOU 434 - Journalism II  
Credits, 3 sem. hrs.  
Prerequisite(s): JOU 333  
The second course of Journalism builds upon the writing principles developed in Journalism I.

JOU 435 - Reporting and Interviewing  
Credits, 3 sem. hrs.  
Prerequisite(s): JOU 333  
This course is designed to teach skills in finding information and gathering facts through observation and interviewing. Emphasis is placed on reporting and arranging the interview into a news story.

JOU 452 - Professional Writing  
Credits, 3 sem. hrs.  
Prerequisite(s): JOU 333  
The study of and practice in techniques of business, technical, and general professional composition.

[Crosslisted as: ENG 452]

JOU 453 - Writing for Periodicals  
Credits, 3 sem. hrs.  
Prerequisite(s): JOU 333  
This course is an indepth study of the techniques used in writing articles for publications in popular periodicals. The course covers practice in writing and preparing manuscripts for publication. Information about markets, query letters, and photography is addressed.

JOU 454 - Public Relations Writing  
Credits, 3 sem. hrs.  
This course is an integral part of the journalism and public relations concentrations and is designed to assist in preparing the student to write for public relations as a professional.

JOU 455 - Sports Journalism  
Credits, 3 sem. hrs  
Prerequisite(s): JOU 333  
This course explores sports journalism for print, visual, graphical, audio, and social media, teaching techniques for coverage of sports events, issues, and participation.

This course may be applied toward a Journalism minor.

JOU 480 - Journalism Internship  
Credits, 3 sem. hrs.

JOU 491 - Field Studies  
Credits, 1 sem. hr.  
Prerequisite(s): Junior or senior standing and departmental consent.  
These courses are taught in response to a specific need and request. They may involve non-traditional teaching techniques and usually combine formal education with practical experience in a career field. (A similar program is available at the graduate level.) These courses may be repeated as necessary for up to six hours of credit.
JOU 492 - Field Studies
Credits, 2 sem. hrs. Prerequisite(s): Junior or senior standing and departmental consent.
These courses are taught in response to a specific need and request. They may involve non-traditional teaching techniques and usually combine formal education with practical experience in a career field. (A similar program is available at the graduate level.) These courses may be repeated as necessary for up to six hours of credit.

JOU 493 - Field Studies
Credits, 3 sem. hrs Prerequisite(s): Junior or senior standing and departmental consent.
These courses are taught in response to a specific need and request. They may involve non-traditional teaching techniques and usually combine formal education with practical experience in a career field. (A similar program is available at the graduate level.) These courses may be repeated as necessary for up to six hours of credit.

Kinesiology

KIN 091 - Physical Fitness Evaluation (Undergraduate)
Credits, 0 sem. hrs. Prerequisite(s): For underclassmen PE K-12 majors only.
Physical fitness evaluation for underclassmen (Freshmen-Junior) PE K-12 majors.

KIN 092 - Physical Fitness Evaluation (Seniors)
Credits, 0 sem. hrs. Prerequisite(s): Senior PE K-12 majors only.
Physical fitness evaluation for senior PE K-12 majors.

KIN 099 - Comprehensive Examination
Credits, 0 sem. hrs. Administration of departmental exit examination.

KIN 105 - Comprehensive Health
Credits, 3 sem. hrs. Basic information for the adoption of satisfactory personal health habits is studied.

KIN 107 - First Aid and CPR
Credits, 3 sem. hrs. Instruction to enable students to be effective first responders to victims of accidents, sudden illness, and cardiac or respiratory emergencies. Successful completion of this course entitles the student to either American Red Cross or American Heart Association certification in CPR.

KIN 123 - Fitness For Life
Credits, 2 sem. hrs. This course is designed to promote all components of fitness so that the student is able to develop a personal exercise program. Stress management and weight management will also be covered.

KIN 124 - Nutrition for Well-Being
Credits, 1 sem. hr. This course is a study of basic nutrition concepts relating to optimum health, proper selection of foods, and aerobic exercise to meet the needs of the individual through the life cycle. This course should not be taken after taking KIN 211.

KIN 150 - Foundations and History of Physical Activity and Sport
Credits, 3 sem. hrs. This course provides an introduction to the study of human movement with emphasis on the historical foundations and philosophical concepts of physical activity and sport.
KIN 191 - Drug Education
Credits, 1 sem. hr. An overview of the physiological and psycho-social aspects of drugs and their abuse. Course focuses on drug abuse prevention and effective drug education.

KIN 210 - Introduction to Driver Education
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing, driver's license.
Critical analysis of traffic accidents, attitude factors, essential knowledge of automobile operation, traffic laws and regulations; laboratory experiences for developing driving skills.

KIN 211 - Basic Principles of Nutrition
Credits, 3 sem. hr. A study of basic nutrition throughout the life cycle, incorporating the nutrients and their relationship to various socio-economic, cultural, and regional conditions.

KIN 219 - General Principles of Safety
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
Principles, procedures and materials for teaching safety in the school, home and community.

KIN 226 - Team Sports
Credits, 2 sem. hrs. This course is designed to introduce students to the rules, strategies, organization, and skill development of a variety of team sports, including basketball, softball, volleyball, and soccer. Emphasis is placed on development of motor skills necessary for game participation.

KIN 227 - Teaching Individual/Dual Sport
Credits, 2 sem. hrs. This course is designed to prepare students for successful teaching of individual/dual sport activities in the school or fitness facility setting. Students are exposed to rules, strategies, organization and skill development in individual and dual sports. Emphasis is placed on the teaching and learning process throughout the various grade levels.

KIN 228 - Lifetime Activities
Credits, 2 sem. hrs. This course is designed to introduce students to a variety of lifetime recreational activities including archery, golf, tennis, and outdoor recreational activities. Emphasis is given to development of skills necessary for effective participation in each activity.

KIN 229 - Teaching Sports and Activities
Credits, 3 sem. hrs. This course is designed to prepare students for successful teaching of sport activities in school or fitness facility setting. Students are exposed to rules, strategies, organization and skill development in sports and activities. Students are exposed to a number of sports and activities that can be used to promote proper health for a lifetime. Emphasis is placed on the teaching and learning process throughout the various grade levels, and the methods of delivery that will allow participants to feel enjoyment and success.

KIN 302 - Professional Protocol
Credits, 3 sem. hrs. This course is designed to include an in-depth study of practices of professional protocol both in the United States and several other countries of interest.

KIN 303 - Methods of Teaching Health Education
Credits, 3 sem. hrs. Prerequisite(s): KIN 105 or permission of instructor.
This course is designed to develop an understanding of the skills and techniques necessary to bring about the most desirable learning in students. An STAI portfolio will be prepared and evaluated.

KIN 304 - Methods and Materials in Driver Education
Credits, 3 sem. hrs. Prerequisite(s): KIN 210.
Preparation of university students to teach Driver Education in secondary schools.

KIN 306 - Methods and Materials of Teaching Physical Education in Elementary Schools
Credits, 3 sem. hrs. Prerequisite(s): EDU 300.
This course is designed for physical education and classroom teachers of elementary school physical education. Specific learning experiences related to fundamental motor skills, health-related physical fitness, and wellness will be emphasized.

KIN 307 - Methods and Materials of Teaching Physical Education in Secondary Schools
Credits, 3 sem. hrs. Prerequisite(s): KIN 150 and EDU 300.
This course provides materials and methods for teaching secondary physical education.

KIN 308 - Basic Athletic Training
Credits, 3 sem. hrs. Prerequisite(s): BIO 103 and BIO 104 or BIO 111.
Designed to give the student the basic fundamentals and techniques in the prevention, diagnosis, treatment, and care of injuries.

KIN 312 - Family Life and Wellness
Credits, 3 sem. hrs. Prerequisite(s): Junior standing or permission of instructor.
The major purpose of the course is to explore factors which play a role in building successful family life. Emphasis is placed on social, emotional, and physical readiness for becoming a viable family member.

KIN 313 - Principles of Coaching Football
Credits, 3 sem. hrs. Prerequisite(s): KIN 150
Introduction to the fundamentals of coaching football in the high school or collegiate setting.

KIN 314 - Principles of Coaching Track and Field
Credits, 3 sem. hrs. Prerequisite(s): KIN 150
Introduction to the fundamentals of coaching track and field in the high school or collegiate setting.

KIN 315 - Principles of Coaching Baseball
Credits, 3 sem. hrs. Prerequisite(s): KIN 150
Introduction to the fundamentals of coaching baseball in the high school or collegiate setting.

KIN 316 - Principles of Coaching Tennis
Credits, 3 sem. hrs. Prerequisite(s): KIN 150
This course prepares students to teach basic tennis strokes, strategy, and coaching philosophy. The standard teaching method of the Professional Tennis Registry will be used.

KIN 317 - Principles of Coaching Basketball
Credits, 3 sem. hrs. Prerequisite(s): KIN 150
Introduction to the fundamentals of coaching basketball in the high school or collegiate setting.
KIN 318 - Principles of Coaching Soccer  
Credits, 3 sem. hrs. Prerequisite(s): KIN 150  
Introduction to the fundamentals of coaching soccer in the high school or collegiate setting.

KIN 322 - Principles of Strength and Conditioning  
Credits, 3 sem. hrs. Prerequisite(s): KIN 150  
This course is designed to provide students with an understanding of the principles of strength and conditioning and the practical application of these principles.

KIN 326 - Sports Nutrition  
Credits, 3 sem. hrs. Prerequisite(s): KIN 211.  
This course is designed to meet the special demands of the athlete through proper nutrition, including a focus on ways to improve performance.

KIN 350 - Psychology of Sport  
Credits, 3 sem. hrs. Prerequisite(s): PSY 201.  
Introduction to and overview of basic psychological principles applied to sport and exercise performance.

KIN 350 - Psychology of Sport  
Credits, 3 sem. hrs. Prerequisite(s): PSY 201.  
Introduction to and overview of basic psychological principles applied to sport and exercise performance.  
[Crosslisted as: PSY 350].

KIN 360 - Anatomical Kinesiology  
Credits, 3 sem. hrs Prerequisite(s): BIO 103 and BIO 104 or BIO 111  
Application of anatomy and physiology to analysis and improvement of human performance in gross body movement. Musculoskeletal and neuromuscular anatomy and physiology are discussed, along with kinesiological concepts related to the integration of these systems during human movement.

KIN 385 - Motor Development and Learning  
Credits, 3 sem. hrs. Prerequisite(s): KIN 150.  
This course examines human movement in relation to motor development and motor learning. Topics include: fundamental motor skill development, changes which occur in skilled movements during the lifespan, and factors related to skill acquisition.

KIN 386 - Adapted Physical Education  
Credits, 3 sem. hrs. Prerequisite(s): Junior Standing.  
This course is designed to develop physical education programs and activities for the individual with special needs.

KIN 396 - Measurement and Evaluation in Kinesiology  
Credits, 3 sem. hrs. Prerequisite(s): KIN 150.  
This course is designed to familiarize the student with the principles and techniques of measurement and evaluation in kinesiology.

KIN 401 - Facility Design and Event Management  
Credits, 3 sem. hrs. Prerequisite(s): Junior standing.  
This course is designed as an overview of the fundamentals of planning and managing sports facilities and sporting events.
KIN 410 - Legal Aspects of Sport and Physical Activity  
Credits, 3 sem. hrs. Prerequisite(s): Junior standing.  
This course examines the legal system, its terminology, and principles as applied to sports and physical activity.

KIN 420 - Physiology of Exercise  
Credits, 3 sem. hrs. Prerequisite(s): A grade of C or better in BIO 103 and BIO 104 or BIO 111.  
Corequisite(s): KIN 421 - Physiology of Exercise Lab  
Acute and chronic physiological changes in response to physical exercise with emphasis given to the practical application of exercise training for health, fitness, and athletic performance.

KIN 421 - Physiology of Exercise Lab  
Credits, 1 sem. hr. Prerequisite(s): A grade of C or better in BIO 103 and BIO 104 or BIO 111  
Corequisite(s): KIN 420  
Laboratory techniques in exercise physiology providing students with an opportunity to evaluate and assess physiological parameters and anthropometric characteristics.

KIN 425 - Advanced Sports Medicine  
Credits, 3 sem. hrs. Prerequisite(s): KIN 308.  
This course focuses on the treatment of sports injuries, specifically field injury situations, principles of rehabilitation, and proper taping techniques.

KIN 427 - Health Education Workshop  
Credits, 3 sem. hrs. Prerequisite(s): KIN 105 or permission of instructor.  
An intensive study of the major problems and possible solutions in the area of health education.  
[Crosslisted as: EDU 427.]

KIN 430 - Exercise Prescription and Assessment  
Credits, 3 sem. hrs. Prerequisite(s): KIN 420 and KIN 421.  
The study and practical application of the theory and practice of evaluating fitness and prescribing individualized exercise programs. ACSM’s Guidelines for Exercise Testing and Prescription will be utilized.

KIN 451 - Current Topics in Kinesiology  
Credits, 1 sem. hr. Prerequisite(s): Permission of Department Chair.  
Selected topics will be offered to address identified needs and interests of kinesiology majors.

KIN 452 - Current Topics in Kinesiology  
Credits, 2 sem. hrs. Prerequisite(s): Permission of Department Chair.  
Selected topics will be offered to address identified needs and interests of kinesiology majors.

KIN 453 - Current Topics in Kinesiology  
Credits, 3 sem. hrs. Prerequisite(s): Permission of Department Chair.  
Selected topics will be offered to address identified needs and interests of kinesiology majors.

KIN 460 - Internship in Kinesiology  
Credits, 3 sem. hrs. Prerequisite(s): Senior standing and permission of instructor.  
A semester long supervised fitness leadership experience during the senior year designed to provide
opportunities for students to gain practical experience working in a medical, fitness or recreation facility. A minimum of 100 supervised clock hours is required. Internship site must be approved by academic advisor one semester prior to placement. A grade of Credit or No Credit will be given upon completion of this course.

KIN 481 - Biomechanics
Credits, 3 sem. hrs. Prerequisite(s): KIN 360 or equivalent or instructor and department chair approval. This course is designed to provide students with an understanding of structural and functional kinesiology, and focuses on applying the concepts of mechanics to physical activity and sports performance.

KIN 482 - Management of Physical Education, Fitness, and Sport Programs
Credits, 3 sem. hrs. The management and organization theories and principles of physical education, fitness, and sport programs. Emphasis will be placed on leadership skills, program development, fiscal management, ethics, risk management, and governing and professional organizations in sport and fitness.

Latin

LAT 101 - Elementary Latin
Credits, 3 sem. hrs. Introduction to the Latin language, with emphasis on pronunciation, basic grammar, syntax, and vocabulary, along with attention to the influences of Latin on English.

LAT 102 - Elementary Latin
Credits, 3 sem. hrs. Prerequisite(s): LAT 101 or 1 unit of high school Latin. Introduction to the Latin language, with emphasis on pronunciation, basic grammar, syntax, and vocabulary, along with attention to the influences of Latin on English.

LAT 201 - Intermediate Latin
Credits, 3 sem. hrs. Prerequisite(s): LAT 102 or 2 units of high school Latin. These courses build on LAT 101 - LAT 102, further developing the ability to read selections from Latin literature with understanding and appreciation.

LAT 202 - Intermediate Latin
Credits, 3 sem. hrs. Prerequisite(s): LAT 201 or 3 units of high school Latin. These courses build on LAT 101 - LAT 102, further developing the ability to read selections from Latin literature with understanding and appreciation.

LAT 411 - Selected Readings in Latin
Credits, 3 sem. hrs. Prerequisite(s): Two years of high school Latin and instructor’s consent or LAT 202. Extensive reading of Latin literature, focusing on particular authors or works.

Management

MGT 371 - Principles of Management & Organizational Behavior
Credits, 3 sem. hrs. An introduction to management theory and practice through the study of (1) the basic functions of management - planning, organizing, leading, and controlling - and (2) individual and group behavior. Focused on preparing the student to respond effectively to a dynamic, global business environment.
MGT 454 - Entrepreneurship
Credits, 3 sem. hrs. Prerequisite(s): ACC 202.
A survey of all aspects of entrepreneurship including: role in the economy, establishing the entrepreneurial
venture, funding, identifying opportunities and developing a business plan.

MGT 473 - Quantitative Business Modeling
Credits, 3 sem. hrs. Prerequisite(s): FIN 341; GBU 251; MIS 327 and MIS 099 or MIS 226 with a grade of C or
higher.
Quantitative Business Modeling is an applications course designed to prepare the student for data analysis
and decision making in the modern organization. The course begins by preparing the student to conduct
fundamental data analysis, proceeds to develop the analytical and modeling skills required for decision
analysis (strategies and methods for optimization, queuing, and simulation) and concludes with the basic skills
necessary for managing technical projects. Along the way, the student will apply the skills learned to situations
in management, finance, marketing, operations, accounting, and human resources management. The course
makes extensive use of spreadsheet analysis (Microsoft Excel) and spreadsheet add-ins.

MGT 474 - Human Resources Management
Credits, 3 sem. hrs. Prerequisite(s): MGT 371.
A study of personnel management concepts and techniques, including recruitment and placement, training
and development, and compensation, to provide the student with a practical working knowledge of the
processes involved in managing the human resources of an organization in a dynamic business environment.

MGT 475 - Production and Operations Management
Credits, 3 sem. hrs. Prerequisite(s): GBU 251; MGT 371 and MIS 099 or MIS 226 with a grade of C or higher.
A study of the role of operations management in manufacturing and service firms. Special emphasis is placed
on key topics in the fields of cost accounting, general management, industrial engineering, and quantitative
methods.

MGT 499 - Strategic Management
Credits, 3 sem. hrs. Prerequisite(s): ACC 202; ECO 232; FIN 341; MGT 371; MKT 381; must be taken in last 30
hours.
The capstone course for the undergraduate business school curriculum that integrates the fundamental
aspects of business (marketing, finance, accounting, economics, operations) into a coherent view of
management. Through the case analysis method, students study the role of strategy in the management of
large and small firms and investigate the principles and practices that lead to successful organizations, both
public and private. The final project is a formal classroom presentation where students must demonstrate
proficiency in both oral and written communication skills as they present the results of group and individual
research applying the principles learned during the semester.

Management Information Systems

MIS 099 - Spreadsheet Proficiency Requirement
Credits, 0 sem. hrs. This requirement is met by earning a passing score on the Spreadsheet Proficiency
Exam (MIS 099) which will be shown on the permanent records as “CR” for MIS 099, or by earning a grade
of C or higher in the three hour course MIS 226.
MIS 226 - Business Software Skills and Applications
Credits, 3 sem. hrs. A study and application of the basic skills needed in using current business software packages, including spreadsheet management. Classroom lecture will be supplemented with laboratory and tutorial work. MIS 226 satisfies the spreadsheet proficiency requirement with a grade of C or higher. Students who fail the SPE (MIS 099) once may take MIS 226 to satisfy the spreadsheet proficiency requirement; students who fail the SPE twice must take MIS 226.

MIS 327 - Introduction to Management Information Systems
Credits, 3 sem. hrs. Prerequisite(s): MIS 099 or MIS 226
Introduction to Management Information Systems is a lecture and application based courses that provides an introduction to the basics of information technology and its role in the organizational framework. The student will be provided with a background into the field of Information Systems and will be asked to apply the skills and techniques discussed in class in a variety of assignments.

Marketing

MKT 381 - Marketing Principles
Credits, 3 sem. hrs. An introductory overview of the marketing process, including segmentation and target market selection, marketing mix development, and marketing strategy with emphasis on the interaction with the business environment. Global impact, social responsibility and ethics, technology, and other macromarketing issues are included.

MKT 383 - Personal Selling
Credits, 3 sem. hrs. Prerequisite(s): MKT 381.
An application-based course that addresses all aspects of the sales process. Students will improve verbal and written communication skills through mock sales situations, role-playing and product demonstrations. Students will participate in a self-development project that is designed to build self-esteem and confidence. Ethical dilemmas relating to salespeople will be extensively discussed.

MKT 429 - Marketing Research
Credits, 3 sem. hrs. Prerequisite(s): MKT 381; GBU 251.
The study and application of techniques used to conduct systematic qualitative and quantitative business research. The course teaches a basic research process that includes characterizing business problems or opportunities and developing research objectives, designing a research methodology to address the research objectives, conducting the research in a systematic fashion, and using the tools of statistics to analyze and report the research results.

MKT 481 - Consumer Behavior
Credits, 3 sem. hrs. Prerequisite(s): MKT 381 or instructor's consent.
The strategic implications of the internal, external, and decision-making factors which impact consumer purchasing patterns with emphasis on managerial applications.

MKT 482 - Retailing & E-Commerce
Credits, 3 sem. hrs. Prerequisite(s): Marketing Principles.
Retailing and E-Commerce examines the strategic and tactical decisions retailers make and the concepts, practices and technology they use in making those decisions. The course introduces students to the many ways in which information technology and the Internet can be used to enhance retail operations. Both store-
based and web-based retail businesses are examined. While the course focuses on the retail industry, the content of the course is useful for students interested in working for companies that interface with retailers such as manufacturers of consumer products or for students with an entrepreneurial interest.

**MKT 485 - Integrated Marketing Communications**  
*Credits, 3 sem. hrs. Prerequisite(s): MKT 381.*  
An application-based study of marketing communications tools including advertising, promotions, direct marketing, personal selling, and public relations, and their coordination and integration into a unified program designed to influence a firm’s marketing channel, customer, and internal constituencies.

**MKT 486 - Marketing Strategy**  
*Credits, 3 sem. hrs. Prerequisite(s): MKT 381.*  
An application of marketing concepts and skills within the business environment. Using computer simulations, students analyze data, make decisions, implement solutions, and evaluate results. The course provides an illustration of the effects of marketing planning, implementation, and control on the total business system.

**Mathematics**

**MAT 100 - Developmental Mathematics**  
*Credits, 3 sem. hrs. Prerequisite(s): ACT Math subscore of less than 20 or instructor's consent.*  
A review of basic topics from arithmetic, geometry, and algebra. The course is required of students judged to be unprepared for MAT 101. It carries elective credit but does not count toward a major, minor, or university core curriculum.

**MAT 101 - College Algebra**  
*Credits, 3 sem. hrs. Prerequisite(s): MAT 100 or the equivalent.*  
This course builds upon basic algebraic concepts. it includes topics such as rational expressions, rational exponents, radicals, quadratic equations and inequalities, quadratic functions, graphing, systems of equations, and exponential and logarithmic functions.

**MAT 102 - Trigonometry**  
*Credits, 3 sem. hrs. Prerequisite(s): MAT 101 or the equivalent.*  
A study of the trigonometric functions including their properties and graphs with applications to practical problems in mathematics, physics and other areas. An emphasis is also placed on proving trigonometric identities, solving equations involving trigonometric functions, and understanding and applying theorems such as the Law of Sines and the Law of Cosines.

**MAT 105 - Contemporary Mathematics**  
*Credits, 3 sem. hrs. A survey of mathematical topics for non-majors, designed to develop an appreciation of the uses of mathematics. Selected topics will include: problem solving, math modeling, statistics and the mathematics of finance.*

**MAT 121 - Calculus with Analytic Geometry I**
MAT 122 - Calculus with Analytic Geometry II
Credits, 3 sem. hrs. Prerequisite(s): MAT 121.
A study of single-variable integral calculus with applications to area, arc length, surfaces of revolution and work. Techniques discussed include integration by parts, partial fractions, trig substitutions and improper integrals.

MAT 205 - Finite Mathematics
Credits, 3 sem. hrs. Prerequisite(s): MAT 101 or the equivalent.
A study of mathematics for business, management and economics. Topics include applications of functions to include exponential and logarithmic, mathematics of finance, systems of equations and matrices, and linear optimization. Since this course presumes a strong background in algebra, students should have successfully completed the prerequisite within the previous five years.

MAT 206 - Applied Calculus
Credits, 3 sem. hrs. Prerequisite(s): MAT 101 or higher.
A study of the applications of calculus for disciplines outside of mathematics such as business, economics, management, computing and information systems and the life and social sciences. Topics include differentiation, integration and multivariate calculus and applications.

MAT 207 - Elementary Statistics
Credits, 3 sem. hrs. Prerequisite(s): MAT 101 or MAT 210 or the equivalent.
A study of elementary statistics for non-majors with an introduction to probability. Emphasis is placed on student understanding and interpretation of statistical data and computation using calculators and computers. Mathematics majors should take MAT 353 - Introduction to Mathematical Probability and Statistics.

MAT 210 - Mathematics for Teachers: Number Systems
Credits, 3 sem. hrs. Prerequisite(s): Education major or instructor's consent.
A development of the real number system for prospective elementary teachers. Emphasis is placed on developing number sense through problem solving, estimation, properties of real numbers and modeling algorithms.

MAT 211 - Mathematics for Teachers: Geometry
Credits, 3 sem. hrs. Prerequisite(s): MAT 210 or instructor's consent.
A development of ideas related to informal geometry for prospective elementary teachers. Material includes topics from Euclidean geometry, solid geometry, analytic geometry and measurement.

MAT 213 - Applied Linear Algebra
Credits, 3 sem. hrs. Prerequisite(s): MAT 101 or higher or the equivalent.
This course develops practical uses for vector and matrix arithmetic and makes extensive use of computational resources. Topics covered include various methods for solving linear systems, matrix factorization, linear transformations, eigenvalues and eigenvectors. Applications include problems in mathematics, engineering, computer science and the natural sciences as well as in finance and business.

MAT 221 - Calculus with Analytic Geometry III

Credits, 3 sem. hrs. Prerequisite(s): MAT 122.
A study of the calculus of infinite series and single-variable vector calculus. Topics covered include tests for series convergence, Taylor's Theorem, power series, polar coordinates, cylindrical and spherical coordinates, and vectors and vector-valued function in the plane and in space.

MAT 222 - Calculus with Analytic Geometry IV
Credits, 3 sem. hrs. Prerequisite(s): MAT 221.
A study of the calculus of multivariate functions. Topics covered include partial differentiation, double and triple integration, vector fields, line and surface integrals and numerous applications.

MAT 301 - Foundations of Mathematics
Credits, 3 sem. hrs. Prerequisite(s): MAT 122.
An introduction to the ideas needed for advanced mathematics courses. Topics include set theory, logic, axiom systems, proof techniques, relations, functions, and cardinality. Emphasis will be given to applying proof techniques to material on number systems and other areas of higher mathematics. Also, this course serves as a formal introduction into the literature of mathematics and mathematical research.

MAT 304 - Modern Plane Geometry
Credits, 3 sem. hrs. Prerequisite(s): MAT 301 or instructor's consent.
A study of Euclidean geometry from the modern axiomatic viewpoint. Some alternatives to Euclidean geometry will be considered.

MAT 309 - Discrete Mathematics
Credits, 3 sem. hrs. Prerequisite(s): MAT 122 or instructor's consent.
An introduction to discrete mathematics including induction and recursion, algorithms, relations, partial ordering, graphs, directed graphs and trees. Applications will include Euler and Hamilton paths and minimal spanning trees.

MAT 320 - Introduction to Number Theory
Credits, 3 sem. hrs. Prerequisite(s): MAT 301.
An introduction to properties of integers, prime numbers, divisibility, number theoretic functions and congruences.

MAT 352 - Introduction to Differential Equations
Credits, 3 sem. hrs. Prerequisite(s): MAT 222 or MAT 221 and instructor's consent.
This course covers the development of ordinary differential equations and concentrates on the derivation of methods. First order equations, linear equations and systems of equations and Laplace Transforms are discussed as well as further applications.

MAT 353 - Introduction to Mathematical Probability and Statistics
Credits, 3 sem. hrs. Prerequisite(s): MAT 221
Corequisite/Prerequisite MAT 221.
This course is a calculus-based introduction to probability and statistics. Major emphasis is placed on developing a precise framework for solving problems under uncertainty. Topics covered include expected value, probability density functions and their distributions, interpretation of the Central Limit Theorem and its application to confidence intervals.

MAT 381 - Introduction to Numerical Methods
Credits, 3 sem. hrs. Prerequisite(s): MAT 122 and CSC 116.
This course looks into the modeling of mathematical concepts on a computer. Algorithms will be discussed and implemented which find roots of equations, give polynomial approximations to discrete data, approximate integrals and derivatives, solve ordinary differential equations and solve linear systems of equations.

[Crosslisted as: CSC 381.]

MAT 401 - Mathematics Seminar
Credits, 2 sem. hr. Prerequisite(s): COM 202, COM 203 or COM 304; senior standing.
This seminar course serves as a research-oriented capstone course for senior students in mathematics. Methods for discovering and developing area-appropriate research topics will be investigated and skills will be cultivated in the effective use of discipline-specific information systems. Major goals include the oral presentation of a written paper on a selected topic in mathematics and successfully completing a nationally normed examination in Mathematics.

MAT 405 - Introduction to Operations Research
Credits, 3 sem. hrs. Prerequisite(s): Instructor's consent.
Application of quantitative methods to problems arising in the area of business and computing science.

[Crosslisted as: CSC 405.]

MAT 406 - History of Mathematics
Credits, 3 sem. hrs. Prerequisite(s): MAT 301 or instructor's consent.
A study of the development of areas of mathematics including number theory, algebras, geometries, probability and statistics, graph theory and analysis. Included in the course are studies of the lives and contributions of outstanding mathematicians of each era.

MAT 407 - Statistical Data Analysis
Credits, 3 sem. hrs. Prerequisite(s): MAT 207 or MAT 253 or the equivalent.
Development and application of descriptive techniques, inferential techniques, simple and multiple linear regression. Frequent use of statistical computer packages, allowing the student to concentrate on topics in his own major area. No previous knowledge of the computer is required, though some familiarity is desirable.

MAT 413 - Linear Algebra
Credits, 3 sem. hrs. Prerequisite(s): MAT 301.
An introductory course in linear algebra. Subjects treated are vectors, vector spaces, matrices and determinants, systems of linear equations, linear transformations in a vector space, and systems of linear differential equations.

MAT 421 - Modern Algebra
Credits, 3 sem. hrs. Prerequisite(s): MAT 301.
A study of groups, rings, integral domains and fields.

MAT 426 - Advanced Calculus
Credits, 3 sem. hrs. Prerequisite(s): MAT 222 and MAT 301.
Set theory, the real number system, metric spaces, continuous functions, differentiation and integration.
MAT 431 - Selected Topics
Credits, 1 sem. hr. Prerequisite(s): Instructor's consent.
A study of selected topics in mathematics.

MAT 432 - Selected Topics
Credits, 2 sem. hrs. Prerequisite(s): Instructor's consent.
A study of selected topics in mathematics.

MAT 433 - Selected Topics
Credits, 3 sem. hrs. Prerequisite(s): Instructor's consent.
A study of selected topics in mathematics.

MAT 441 - Methods and Materials for the Teaching of Secondary Mathematics
Credits, 3 sem. hrs. Prerequisite(s): Math major with at least junior standing in the Teacher Education Program.
This course will acquaint preservice secondary teachers with Common Core State Standards for Mathematics (CCSSM) as well as NCTM Standards and current issues related to teaching secondary mathematics. Emphasis will be placed on using manipulative materials and current available technology to teach mathematics.

MAT 452 - Applied Mathematical Problem Solving
Credits, 3 sem. hrs. Prerequisite(s): MAT 222 and instructor’s consent.
Various problem solving techniques will be employed. Applications of linear algebra, the calculus sequence, and other undergraduate mathematics courses provide a comprehensive review of these courses. This would be an excellent course for students considering a career in actuarial science.

MAT 453 - Mathematical Statistics
Credits, 3 sem. hrs. Prerequisite(s): MAT 353.
This course develops rigorous proofs for the results presented in MAT 353. Multivariate Statistics is also covered. Linear regression and the analysis of variance will be discussed as well as applications of the theory.

MAT 455 - Graph Theory
Credits, 3 sem. hrs. Prerequisite(s): MAT 222 or instructor's consent.
Graph theory with a wide variety of applications, both to other branches of mathematics and to the real world. Some subjects to be treated are graphs, sub graphs, cycles, trees, matching's, and planar graphs.

MAT 460 - Introduction to Topology
Credits, 3 sem. hrs. Prerequisite(s): MAT 301.
An introduction to metric spaces and topological spaces. Additional topics include continuous functions, separation axioms, connectedness and compactness.

MAT 471 - Independent Study and Research
Credits, 3 sem. hrs. Prerequisite(s): Junior standing and permission of the faculty.
Individual reading and research in pure or applied mathematics.

MAT 481 - Numerical Analysis
Credits, 3 sem. hrs. Prerequisite(s): MAT 381.
This course is a mathematical analysis of scientific computing. Topics covered include the stability and convergence of algorithms, interval arithmetic, fixed point iteration, matrix factorizations, norms, and
Additional discussions will focus on the design of efficient algorithms for use on parallel computers.

**MSL 204 - Leadership Laboratory**
*Credits, 1 sem. hr.* Develops principles and exercises for individual fitness and healthy lifestyle.

**MSL 301 - Advanced Leadership and Management I**
*Credits, 3 sem. hrs. Corequisite(s): MSL 303.*
The study, practice and evaluation of adaptive leadership skills in challenging scenarios related to squad tactical operations.

**MSL 302 - Advanced Leadership and Management II**
*Credits, 3 sem. hrs. Corequisite(s): MSL 304.*
Uses intense situational leadership challenges to build cadet awareness and skills in leading tactical operations up to platoon level.

**MSL 303 - Leadership Laboratory**
Credits, 1 sem. hr. Develops principles and exercises for individual fitness and healthy lifestyle.

MSL 304 - Leadership Laboratory
Credits, 1 sem. hr. Develops principles and exercises for individual fitness and healthy lifestyle.

MSL 401 - Seminar in Leadership I
Credits, 3 sem. hrs. Corequisite(s): MSL 403.
Develops cadet proficiency in planning, executing and assessing complex operations.

MSL 402 - Seminar in Leadership II
Credits, 3 sem. hrs. Corequisite(s): MSL 404.
Explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment.

MSL 403 - Leadership Laboratory
Credits, 1 sem. hr. Develops principles and exercises for individual fitness and healthy lifestyle.

MSL 404 - Leadership Laboratory
Credits, 1 sem. hr. Develops principles and exercises for individual fitness and healthy lifestyle.

**Ministry Studies**

MIN 201 - Foundations for Christian Ministry
Credits, 3 sem. hrs. An introductory study of Christian ministry emphasizing spiritual, personal, academic and professional foundations for ministry.

MIN 224 - Ministry of the Church
Credits, 3 sem. hrs. A study of the programs and activities of the church’s ministry in relationship to the mission and life cycle of the church.

MIN 300 - Essentials for Ministry
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
A study of the varied responsibilities of those who serve on a church staff including leadership in worship, officiating at funerals and weddings, and pastoral care with specific attention to the visiting of the sick and dying.

Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
The Development of Christian Worship is a course designed to introduce the student to the historical and theological aspects of worship in the Judeo-Christian heritage.

MIN 410 - Faith Development
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
A theological & psychological study of faith throughout the life cycle with an examination of the implications of the study for individuals and church programs.

MIN 490 - Special Topics in Ministry Studies
Credits, 3 sem. hrs. Designed to respond to identified interest and needs.

Modern Language, General

ELL 100 - English Fundamentals for Non-Native Speakers
Credits, 3 sem. hrs. Prerequisite(s): Restricted to non-native speakers of English.
Required for students who graduate from the Intensive English Program, who are judged to be unprepared for ENG 101; This course will contain a review of grammar spelling, reading, vocabulary building, and an introduction to composition techniques. This course carries credit but will not count toward a major, minor, or core curriculum.

ELL 101 - English Academic Communication for Non-Native Speakers
Credits, 3 sem. hrs Prerequisite(s): Restricted to undergraduate and graduate non-native speakers. Corequisite(s): ELL 100
Required for students who have met the entrance standards into the Intensive English Program Bridge but who have not met the general admissions requirement. This course will contain a review of academic communication skills and an introduction to research through an American culture frame of reference. This course is designed to support international students by providing practical skills for classroom instruction. This course will introduce international students to important skills, such as independent learning and goal setting. This course carries credit hours but will not count toward a major, minor, or core curriculum.

MLG 205 - Cross-Cultural Understanding
Credits, 3 sem. hrs. (This course satisfies three hours of the University Core Curriculum Social Sciences requirement.) This course will introduce students to various cultures in order to develop an awareness and
understanding of how culture influences perceptions and actions. Students will also study communication skills drawn from a cross-cultural frame of reference.

MLG 401 - Sociolinguistics and Dialect
Credits, 3 sem. hrs This course is intended to provide students with a sound, basic coverage of sociolinguistics and dialectology. The course content will be directed to future teachers, focusing on the applications of teaching of English as a second language, in addition to covering global themes within the disciplines. Students will have the opportunity to gain practical knowledge through research projects and actual data from audio/video sources.

MLG 440 - Selected Topics
Credits, 3 sem. hrs. Designed to respond to identified interests and needs of students in foreign languages not traditionally taught at Mississippi College.

MLG 450 - The Multicultural Classroom
Credits, 3 sem. hrs. A course designed to introduce students to various cultures in order to develop an awareness and understanding of how culture influences perceptions and actions. This course will help teachers use this knowledge to make instruction of students from diverse cultural backgrounds less problematic and more effective.

MLG 451 - Second Language Acquisition
Credits, 3 sem. hrs. A course designed to examine empirical and theoretical studies of second language acquisition and processing in order to look into why people learn second languages, what effects this process has on the first language, and what motivates people to learn another language.

MLG 452 - Applied Linguistics
Credits, 3 sem. hrs. A course designed to provide the practical aspects and applications of the concepts learned in MLG 450 - The Multicultural Classroom and MLG 451 - Second Language Acquisition. Provides the student with the opportunity to examine the various areas of linguistics as it is applied to ESL.

MLG 453 - Methods and Field Studies
Credits, 3 sem. hrs. This course addresses the questions an ESL professional needs to ask when determining how to match student needs with an appropriate method of learning. This course will equip the teacher to evaluate, adapt, and use various teaching methods that are suited to particular ESL environments and goals.

MLG 470 - Senior Seminar
Credits, 1 sem. hr. Prerequisite(s): Senior Standing, Majoring in FLIT, International Studies, French, Spanish, or Modern Languages. This course is required of all seniors in these programs to meet graduation requirements. This course will serve as the exiting capstone course for all seniors majoring in the Department of Modern Languages. Data from this course will be used in the annual assessment report for students in the department. A comprehensive portfolio and oral presentation are required. This course is offered fall and spring semesters only.

NUR 436 - Community and Population Health
Credits, 5 sem. hrs. Community Health Nursing focuses in the synthesis of concepts, processes and skills necessary to promote health and prevent illness in population groups. Emphasis will be placed on managing care for the community as a client/patient rather than on individual health care. The three levels of prevention used in strategic planning for community health will be emphasized. (3 hours theory, 2 hours clinical)

NUR 437 - Leadership/Management in Nursing
Credits, 2 sem. hrs. Prerequisite(s): All previous semesters work in nursing.
Corequisite(s): NUR 433, NUR 436, NUR 439, NUR 498
This course focuses on the introduction of management functions, roles and responsibilities in the practice of quality nursing care and organizational effectiveness. Emphasis is placed on developing leadership and incorporating management principles in the professional nurse.

NUR 439 - Preparation for Professional Examinations
Credits, 2 sem. hrs. Prerequisite(s): Successful completion of all required coursework leading to graduation.
Corequisite(s): Final semester nursing classes only remaining (no outstanding pre-requisites or core classes).
The course employs a series of problem-based learning workshops designed to help students refine critical thinking skills in preparation for end of semester benchmark assessments and licensure examinations.
Content themes draw from nursing foundational courses and practicum work, and students are expected to have a thorough understanding of key content prior to engaging in these student-led assignments. Senior level students who have been identified as high risk or who are unsuccessful in the first senior year comprehensive exam (HESI) are strongly recommended to purchase an approved NCLEX review course. Prerequisites: Completion of level four courses.

**NUR 443 - Cross-Cultural Nursing**  
**Credits, 3 sem. hrs.** Prerequisite(s): Senior standing in the nursing major.  
Focuses on the knowledge of social and cultural factors that influence health care delivery. The course investigates health care delivery in the selected culture, either within or other than the student's own country.

**NUR 444 - Christian Perspective on Ethics-RN**  
**Credits, 3 sem. hrs.** Prerequisite(s): Completion of NUR 313, NUR 324, NUR 451.  
Provides an opportunity to explore ethical issues and current trends in health care from a Christian perspective.

**NUR 448 - Clinical Reasoning 4**  
**Credits, 1 sem. hr.** Prerequisite(s): NUR 428  
This is a fourth semester upper division clinical skills practicum to address the acquisition of skills proficiencies required for NUR 433, NUR 436 and NUR 437 clinical course work. This concurrent workshop will afford students an opportunity to consolidate and develop clinical skills competencies in the safe environment of the clinical skills laboratory and simulated learning setting.

**NUR 450 - The Professional Nursing Role as it Relates to Theories of Nursing**  
**Credits, 3 sem. hrs.** Prerequisite(s): Senior standing in the nursing major.  
Focuses on the place of concepts and theories within nursing. Emphasis is placed on a particular nursing theorist of the student's choice, and that theorist's concepts are studied in depth.

**NUR 451 - Special Studies in Nursing**  
**Credits, 1 sem. hr., respectively.** Prerequisite(s): Senior standing in the nursing major.  
Provides an opportunity for additional formal study of a selected concept relative to nursing or some aspect of health care. This elective does not necessarily contain a clinical practice component. May be repeated up to six hours.

**NUR 452 - Special Studies in Nursing**  
**Credits, 2 sem. hrs., respectively.** Prerequisite(s): Senior standing in the nursing major.  
Provides an opportunity for additional formal study of a selected concept relative to nursing or some aspect of health care. This elective does not necessarily contain a clinical practice component. May be repeated up to six hours.

**NUR 453 - Special Studies in Nursing**  
**Credits, 3 sem. hrs., respectively.** Prerequisite(s): Senior standing in the nursing major.  
Provides an opportunity for additional formal study of a selected concept relative to nursing or some aspect of health care. This elective does not necessarily contain a clinical practice component. May be repeated up to six hours.

**NUR 455 - The Professional Nursing Role and Legislation**
Credits, 3 sem. hrs. Prerequisite(s): Senior standing in the nursing major.
Focuses on the professional nursing role as it relates to the legislative process. Participation in legislative activities are utilized as available.

PHI 314 - History of Philosophy II
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
A study of the continued development of philosophical thought from the Renaissance into the twentieth century.

PHI 315 - Philosophy of the Christian Religion
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
An interpretation of knowledge, life, and values from the standpoint of a Christian.

PHI 416 - Contemporary Philosophy
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
A study of current philosophical literature in an effort to understand our present intellectual situation, using material selected from writers who have had great influences upon the modern world.

PHI 419 - World Religions
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
A study of the major religions of the world, designed to enable the student to understand them in comparison with Christianity.

PHI 421 - Biomedical Ethics
Credits, 3 sem. hrs. Biomedical Ethics is an introductory course in the field of biomedical ethics which aims to enable students to engage in careful reflection about problems arising in the cluster of theoretical, conceptual, political, and practical concerns associated with biomedical ethics.

PHI 490 - Special Topics in Philosophy
Credits, 3 sem. hrs. Designed to respond to identified interests and needs.

Physical Activity PED Courses (non-academic)
A student is allowed two absences for activity classes. Should a student obtain the third absence, they will not receive credit for the courses. Limited make-ups will be allowed for emergency absences. It will be necessary for the student to obtain permission from the instructor to make up periods missed.
Students may repeat activity courses, not to exceed 10 semester hours of non-academic courses which can be applied toward graduation.
Students who enroll in Roller Skating or Scuba Diving will be assessed an additional fee for equipment rental.
AOS and MSL Leadership Lab 1-hour credit courses may be used to meet the physical activity requirement.
Students will be allowed to repeat varsity courses as often as they qualify in the particular sport up to four semester hours of credit.
Students who play varsity sports and wish to obtain non-academic credit must register for the course the semester they play the sport. Credit cannot be given later.

PED 101 - Beginning Running
Credits, 1 sem. hr.

PED 102 - Advanced Walking
PED 104 - Beginning Tennis  
Credits, 1 sem. hr.

PED 105 - Water Aerobics  
Credits, 1 sem. hr.

PED 106 - Deep Water Running  
Credits, 1 sem. hr.

PED 107 - Swimming  
Credits, 1 sem. hr.

PED 108 - Fitness Walking  
Credits, 1 sem. hr.

PED 109 - Roller Skating  
Credits, 1 sem. hr. Students who enroll in this course will be assessed an additional fee for equipment rental.

PED 110 - Aqua Power Step  
Credits, 1 sem. hr.

PED 111 - Karate Level I  
Credits, 1 sem. hr.

PED 112 - Fitness Cycling  
Credits, 1 sem. hr.

PED 113 - Water Walking  
Credits, 1 sem. hr.

PED 114 - Water Volleyball  
Credits, 1 sem. hr.

PED 115 - Advanced Tennis  
Credits, 1 sem. hr.

PED 116 - Resistance Training  
Credits, 1 sem. hr.

PED 117 - Karate Level II  
Credits, 1 sem. hr.

PED 118 - Advanced Swimming  
Credits, 1 sem. hr.

PED 119 - Water Safety Instructor Certification
Credits, 1 sem. hr.

PED 120 - Low Impact Aerobics
Credits, 1 sem. hr.

PED 121 - Advanced Fitness
Credits, 1 sem. hr.

PED 122 - Weight Training
Credits, 1 sem. hr.

PED 125 - Team Sports
Credits, 1 sem. hr.

PED 126 - Tai Chi
Credits, 1 sem. hr.

PED 128 - Scuba Diving
Credits, 1 sem. hr. Students who enroll in this course will be assessed an additional fee for equipment rental.

PED 147 - Beginning Horsemanship
Credits, 1 sem. hr.

PED 148 - Advanced Horsemanship
Credits, 1 sem. hr. Prerequisite(s): PED 147 or instructor approval.
This course is designed to accommodate riders who have completed Basic Horsemanship and who would like to continue to grow in their riding, but are not interested in joining the equestrian team. Students will further their horsemanship and riding skills to include more advanced skills such as jumping. Course fee.

PED 183 - Table Tennis
Credits, 1 sem. hr. This course teaches the basic rules and techniques of table tennis.

PED 184 - Shooting
Credits, 1 sem. hr. This course teaches the basic rules and techniques of shooting.

PED 185 - Archery
Credits, 1 sem. hr. This course teaches the basic rules and techniques of archery.

PED 186 - Martial Arts
Credits, 1 sem. hr. This course teaches the basic rules and techniques of Martial Arts.

Physics

PHY 104 - Physics for Today
Credits, 3 sem. hrs. This is a survey course designed for non-science majors. The math required for this course is minimal and does not go beyond high school algebra.
PHY 151 - General Physics I  
Credits, 4 sem. hrs. Prerequisite(s): MAT 102 or MAT 121 or MAT 206.

Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Mechanics, thermodynamics, waves, and sound.

PHY 152 - General Physics II  
Credits, 4 sem. hrs. Prerequisite(s): PHY 151.

Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Light, electricity, magnetism, and modern physics.

PHY 216 - Astronomy  
Credits, 3 sem. hrs. History, methods, solar system, stars, and cosmology; presented at an introductory level.

PHY 250 - Selected Topics in Physics Laboratory  
Credits, 1 sem. hr. Prerequisite(s): Instructor's Consent.

Laboratory investigations of selected topics in physics. May be taken more than once with different topics.

PHY 251 - Fundamentals of Physics I  
Credits, 4 sem. hrs. Prerequisite(s):

Corequisite(s):

Corequisite/Prerequisite Prerequisite or Corequisite: MAT 122.

Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Mechanics, thermodynamics, waves, and sound presented with the aid of calculus.

PHY 252 - Fundamentals of Physics II  
Credits, 4 sem. hrs. Prerequisite(s): PHY 251.

Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Light, electricity, and magnetism presented with the aid of calculus.

PHY 301 - Modern Physics  
Credits, 3 sem. hrs. Prerequisite(s): PHY 152 or PHY 252 and MAT 122.

Introduction to the subjects of special relativity, quantum theory, atomic, nuclear and particle physics. An oral presentation on a relevant topic, selected in consultation with the instructor, will be made by each student.

PHY 308 - Classical Mechanics  
Credits, 3 sem. hrs. Prerequisite(s): PHY 151 or PHY 251 and MAT 122 or instructor's consent.

Two and three dimensional kinematics and dynamics, curvilinear coordinates, vector analysis, projectile motion, conservative and non-conservative forces, potential theory, rigid bodies.

PHY 313 - Optics
Credits, 4 sem. hrs. Prerequisite(s): PHY 152 or PHY 252 and MAT 122.
Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Fundamental concepts of simple optical systems, including lenses and mirrors. Physical optics including interference, diffraction, polarization, optical spectra, and lasers.

**PHY 401 - Quantum Mechanics**

Credits, 3 sem. hrs. Prerequisite(s): PHY 301 or instructor’s consent.

Schroedinger wave mechanics including application to atomic structure. An oral presentation on a relevant topic, selected in consultation with the instructor, will be made by each student.

**PHY 402 - Special Projects**

Credits, 3 sem. hrs. Prerequisite(s): Instructor’s consent.

After consulting with the instructor in charge the student may be assigned to special study in theoretical physics or may be assigned a research problem.

**PHY 406 - Electricity and Magnetism I**

Credits, 3 sem. hrs. Prerequisite(s): PHY 152 or PHY 252 and MAT 222 or instructor’s consent.

The fundamental principles of electrostatic fields, electric potential, electrostatic boundary conditions, work and energy in electrostatics, conductors and insulators, and special techniques in solving electrostatics problems.

**PHY 407 - Electricity and Magnetism II**

Credits, 3 sem. hrs. Prerequisite(s): PHY 406.

The fundamental principles of magnetostatic fields, electromagnetic induction, magnetic fields in matter, Maxwell’s equations, electromagnetic waves and radiation.

**PHY 413 - Nuclear Physics**

Credits, 4 sem. hrs. Prerequisite(s): PHY 301 or instructor’s consent.

Lecture/Lab/Field/Meeting: Lecture three hours a week. Laboratory three hours a week.

Isotopes and nuclear structure, natural radioactivity, induced nuclear transformations, nuclear energy sources, high energy processes and cosmic rays.

**PHY 417 - Selected Topics in Physics**

Credits, 3 sem. hrs. A course offering formal study of selected topics in physics or applications of physics. May be taken more than once with different specific topics.

**PHY 433 - Physics Capstone**

Credits, 1 sem. hr. Prerequisite(s): Senior standing in Physics or Engineering Physics.

A synthesis of physics subject matter culminating in a senior physics examination.

**Political Science**

**PLS 101 - Introduction to Political Science**
Credits, 3 sem. hrs. This course will provide a survey of the academic discipline of Political Science, introducing the subfields and the primary tools used in the study of politics. Students will be exposed to methodological issues, learn about the variety of available resources and work on research and writing skills.

PLS 201 - American National Government
Credits, 3 sem. hrs. This course deals with the government of the United States as it originated and developed under the Constitution, stressing the position and powers of the President, Congress, and Supreme Court.

PLS 202 - State and Local Government
Credits, 3 sem. hrs. A study of the origin, development, and continuing problems of government in community and state, and their changing relationships to the federal government.

PLS 303 - Mississippi Government and Politics
Credits, 3 sem. hrs. Prerequisite(s): PLS 201 or PLS 202.
The student is introduced to the basic institutions of state and local government in Mississippi. Some attention will be devoted to the one-party system of politics emerging from the end of Reconstruction and its demise. Economic and social changes and the policies designed to cope with change will be covered.

PLS 320 - Comparative Governments
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
A rapid survey of the governmental organization of the major nations of the world, especially of England, France and Russia. The totalitarian and democratic forms are compared.

PLS 324 - American Political Parties and Elections
Credits, 3 sem. hrs. Prerequisite(s): PLS 201 or PLS 202.
May be counted toward a major or minor in History. This course presents the history of the political parties of the United States and a study of practical politics.

PLS 360 - American Political Thought
Credits, 3 sem. hrs. This course is designed to provide an in-depth analysis of American Political thinking from the pre-Revolutionary era through the present. Particular attention is paid to the theoretical conception of liberty, equality, and representation.

PLS 387 - Internship
Credits, 1 sem. hr. These courses involve students in city, county, state, or national governmental agencies for supervised practical activities. Credit awarded on CR/NC basis (See Internship section of Undergraduate Catalog for further information.).

PLS 388 - Internship
Credits, 2 sem. hrs. These courses involve students in city, county, state, or national governmental agencies for supervised practical activities. Credit awarded on CR/NC basis (See Internship section of Undergraduate Catalog for further information.).

PLS 389 - Internship
Credits, 3 sem. hrs. These courses involve students in city, county, state, or national governmental agencies for supervised practical activities. Credit awarded on CR/NC basis (See Internship section of Undergraduate Catalog for further information.).
PLS 390 - Independent Reading and Research
Credits, 3 sem. hrs. Prerequisite(s): Consent of instructor and department chair.
Designed for outstanding students to broaden their historical knowledge beyond regular course offerings. May be repeated once.

[Crosslisted as: HIS 390.]

PLS 401 - Selected Topics
Credits, 1 sem. hr. These courses are offered in response to identified interests and needs. Topics of a contemporary nature and other topics of current interest will be chosen for in-depth study.

PLS 402 - Selected Topics
Credits, 2 sem. hrs. These courses are offered in response to identified interests and needs. Topics of a contemporary nature and other topics of current interest will be chosen for in-depth study.

PLS 403 - Selected Topics
Credits, 3 sem. hrs. These courses are offered in response to identified interests and needs. Topics of a contemporary nature and other topics of current interest will be chosen for in-depth study.

PLS 407 - American Constitutional Development I
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing. May be counted toward a major or minor in Political Science. A study of the origin and development of the American constitutional system from its English and European background to 1877. The influence of social, economic, and other cultural factors on the developing legal-political structure is stressed. Research, writing, critical thinking, and oral communication skills are emphasized and evaluated.

[Crosslisted as: HIS 407.]

PLS 408 - American Constitutional Development II
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing. May be counted toward a major or minor in Political Science. A study of the development of the American constitutional system from 1877 to the present. Post-Civil War developments, including substantive due process and increasing concern with individual rights, are examined within the context of developing urban-industrial society and American involvement in international politics. Research, writing, critical thinking, and oral communication skills are emphasized and evaluated.

[Crosslisted as: HIS 408.]

PLS 410 - Southern Politics
Credits, 3 sem. hrs. Prerequisite(s): PLS 201 or PLS 202. The party systems of the Southern states are examined in terms of their origin, development and impact on national politics.

PLS 411 - Terrorism and 21st Century America
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing. An exploration of the roots, motivations, and tactics of attacks against the United States. The main focus will be on the causes and consequences of the September 11 attacks, drawing on the approaches of scholars in
several fields to investigate the causes of the event and to consider the implications of future policies.

[Crosslisted as: HIS 411 and AJU 411.]

PLS 419 - International Relations
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing.
May be counted toward a major or minor in Political Science. A survey of the principal economic and territorial problems among nations.

[Crosslisted as: HIS 419.]

PLS 422 - Politics of Developing Nations
Credits, 3 sem. hrs. Prerequisite(s): PLS 101, PLS 320 or instructor's consent.
An examination of the political processes and governmental distributions in the under-developed and developing nations of the world.

PLS 437 - The American Presidency
Credits, 3 sem. hrs. Prerequisite(s): HIS 211- HIS 212 or instructor's consent.
A study of the evolving powers and responsibilities of the presidency, an appraisal of the individuals who have served, and an assessment of the current condition of and prospects for the office.

[Crosslisted as: HIS 437.]

PLS 441 - Contemporary Political Ideologies
Credits, 3 sem. hrs. Prerequisite(s): PLS 101 or PLS 201 or instructor's consent.
A study of the major political ideologies of the past century. Topics include: nationalism, conservatism, liberalism, Marxism, democracy and other contemporary political ideologies.

PLS 442 - Twentieth Century U.S. Diplomatic History
Credits, 3 sem. hrs. Prerequisite(s): HIS 212 or instructor's consent.
May be counted toward a major or minor in Political Science. A study of United States’ foreign policy in fact and theory, indicating America’s constant involvement in world affairs since before the Revolution. (This course will satisfy the Political Science requirement for a standard educator license.).

[Crosslisted as: HIS 442.]

PLS 447 - U.S. Military Intervention
Credits, 3 sem. hrs. Prerequisite(s): PLS 101 or PLS 201 or instructor's consent.
A study of the military intervention since the end of World War II. Topics will cover an overview of military intervention since 1775 and consideration of the different types of interventions utilized since 1945, including: covert intervention, the utilization of paramilitary forces, the Reagan Doctrine, and instances of direct military intervention by U.S. armed forces.

[Crosslisted as: HIS 456.]

PLS 499 - Capstone in Political Science
Credits, 3 sem. hrs. Prerequisite(s): Senior Standing.
This course will serve as a summation of the undergraduate study of Political Science, emphasizing research and writing skills. Limited to Seniors, the course will conclude the program of study, recapping the material introduced in PLS 101 and tying together the various substantive courses in terms of how they fit within the study of Political Science. The course will include taking the national field test; however, the primary assignment will be a Capstone research paper, allowing students to demonstrate their research and writing skills.

Psychology

PSY 201 - Introduction to Psychology (General Psychology)
Credits, 3 sem. hrs. This course is approved for the core curriculum. A survey of the fundamental processes and concepts of human behavior. Topics include research methods, physiological bases of behavior, sensation, perception, learning, motivation, personality, abnormal behavior and social psychology.

PSY 301 - Psychological Statistics
Credits, 3 sem. hrs. Prerequisite(s): Sophomore standing; PSY 201 or comparable course.
This is an introductory level course which focuses on central tendency and variability; the normal curve and transformations; probability theory; hypothesis testing to include one-way analysis of variance and factorial designs. Computer-assisted approaches to data processing and analysis are emphasized.

PSY 302 - Adolescent Psychology
Credits, 3 sem. hrs. Prerequisite(s): PSY 201 or EDU 300, and sophomore standing.
Emphasis is placed on adolescent development, emotional growth, mental development, interests, attitudes and social behavior, moral and religious development, and problems common to the age.

PSY 304 - Educational Psychology
Credits, 3 sem. hrs. Prerequisite(s): PSY 201 or EDU 300.
Emphasis is placed upon psychological principles underlying the process of learning.

[Crosslisted as: EDU 304.]

PSY 305 - Child Psychology
Credits, 3 sem. hrs. Prerequisite(s): PSY 201 or EDU 300 and sophomore standing.
A study of human development from conception to adolescence.

PSY 314 - Developmental Psychology
Credits, 3 sem. hrs. Prerequisite(s): PSY 201
An introduction to the theories and research methods of Developmental Psychology. Life is viewed as a process of continuing development from conception to death. Attention is focused not only on the critical elements involved in each of life’s major stages, but also on the difficulties encountered in each of the transitions from one stage to another.

PSY 331 - Student Research
Credits, 1 sem. hr. Prerequisite(s): PSY 201 and instructor’s consent, and GPA of 3.0 in Psychology and overall.
Open to students who are interested in participating in library research in psychology. Students will gain experience in conducting literature reviews for experimental research papers.

PSY 336 - Experimental Psychology
Credits, 2 sem. hrs. Prerequisite(s): Successful completion of PSY 201, PSY 301, PSY 331, and completion or concurrent enrollment in PSY 337.
The primary goal for this course is to increase each student’s knowledge and understanding of conducting a literature review, determining a research design, and utilizing the Publication Manual of the American Psychological Association.

PSY 337 - Experimental Psychology Laboratory
Credits, 2 sem. hrs. Prerequisite(s): Successful completion of PSY 201, PSY 301, PSY 331, and completion or concurrent enrollment in PSY 336.
The primary goal for this course is to offer each student an opportunity to engage in an experiential learning exercise with regard to research, research methodology, data collection, and writing in APA style.

PSY 340 - Career Paths in Psychology
Credits, 3 sem. hrs. Prerequisite(s): PSY 201, sophomore standing.
This course is designed for all psychology majors. Both traditional and nontraditional careers in psychology are addressed. In addition to other topics, strategies for gaining entry to graduate programs, preparing for tests such as the GRE, establishing professional relationships, identifying job opportunities, and participating in research and field work are discussed.

**Electrical Engineering**
ECE 101 - Introduction to Electrical Engineering
Credits, 2 sem. hrs. Prerequisite(s): Only electrical engineering majors are allowed to register for this course.
An introduction to the field of electrical engineering. Typical questions that students have about the field and program are addressed through the course content. Topics include an overview of the program, differences between EE sub-fields, career opportunities and development, keys to student success, ethics, and computational tools common to courses in the curriculum.

ECE 201 - Logic Design
Credits, 3 sem. hrs. Corequisite(s): ECE 202.
Corequisite/Prerequisite PHY 252 and ECE 101.
Analysis and design of combinational and sequential logic circuits. Topics include number systems and conversions, Boolean algebra, basic logic gates, minterm and maxterm expansions, Karnaugh maps, multi-level gate circuits, multiplexers, decoders, PLDs, flip-flops, registers, counters, and state tables.

ECE 202 - Logic Design Laboratory
Credits, 1 sem. hr. Corequisite(s): ECE 201.
Laboratory investigations and applications of topics introduced in ECE 201.

ECE 301 - Electric Circuit Theory
Credits, 4 sem. hrs. Prerequisite(s): PHY 252 and ECE 101.
Corequisite(s): ECE 302.
Principles of DC and AC circuits. Topics include basic laws, analysis techniques, circuit theorems, energy storage elements, first and second order circuits, operational amplifiers, phasors, AC power and transformers.

ECE 302 - Electric Circuit Theory Laboratory
Credits, 1 sem. hr. Corequisite(s): ECE 301.
Laboratory investigations and applications of topics introduced in ECE 301.

ECE 305 - Electronics I
Credits, 3 sem. hrs. Prerequisite(s): ECE 301.
Corequisite(s): ECE 306.
First part of a course on electronic circuit analysis and design. Topics include semiconductors, diodes, rectifiers, clippers and clampers, bipolar junction transistors, BJT amplifiers, field effect transistors, and FET amplifiers.

ECE 306 - Electronics I Laboratory
Credits, 1 sem. hr. Corequisite(s): ECE 305.
Laboratory investigations and applications of topics introduced in ECE 305.

ECE 315 - Electronics II
Credits, 3 sem. hrs. Prerequisite(s): ECE 305.
Corequisite(s): ECE 316.
Second part of a course on electronic circuit analysis and design. Topics include frequency response, power amplifiers, output stages, differential and multistage amplifiers, feedback and stability, active filters, oscillators, MOSFET and Bipolar digital circuits.

ECE 316 - Electronics II Laboratory
Credits, 1 sem. hr. Corequisite(s): ECE 315. Laboratory investigations and applications of topics introduced in ECE 315.

ECE 320 - Microprocessors and Microcontrollers
Credits, 3 sem. hrs. Prerequisite(s): ECE 201 and CSC 105. Corequisite(s): ECE 321.
A study of microprocessor and microcontroller architecture, programming, and interfacing.

ECE 321 - Microprocessors and Microcontrollers Laboratory
Credits, 1 sem. hr. Corequisite(s): ECE 320.
Laboratory investigations and applications of topics introduced in ECE 320.

ECE 325 - Electromagnetic Theory I
Credits, 3 sem. hrs. Prerequisite(s): ECE 301. Corequisite/Prerequisite MAT 352.
Fundamental principles of static electric and magnetic fields. Topics include discrete and continuous charge distributions, Coulomb's law, Gauss's law, electric potential, electrostatic energy, conductors and insulators, boundary conditions, boundary value problems, steady currents, the Biot-Savart law, Ampere's law, and magnetization.

ECE 326 - Electromagnetic Theory II
Credits, 3 sem. hrs. Prerequisite(s): ECE 325.
Fundamental principles of electrodynamics. Topics include Faraday's law, Maxwell's Equations, plane electromagnetic waves, transmission lines, waveguides, and antennas.

ECE 330 - Signals and Systems
Credits, 3 sem. hrs. Prerequisite(s): ECE 301 and MAT 352.
A study of continuous and discrete-time signals and systems. Topics include system analysis in the time-domain, Fourier series, Fourier transforms and applications, Laplace transforms and applications, state-variables, and z-transforms.

ECE 401 - Electric Machines
Credits, 3 sem. hrs. Prerequisite(s): ECE 326.
Electric devices used for energy conversions. Topics include magnetic circuits, three-phase circuits, transformers, synchronous machines, induction machines, and DC machines.

ECE 405 - Feedback Control Systems
Credits, 3 sem. hrs. Prerequisite(s): ECE 330.
Classical analysis and design of feedback control systems. Topics include time and frequency response of feedback systems, transfer functions, block diagrams and signal-flow graphs, stability testing, root-locus, Bode plots, and compensation.

ECE 423 - Electrical Properties of Materials
Credits, 3 sem. hrs. Prerequisite(s): ECE 305 and ECE 326.
Introduction to quantum mechanics, the free electron theory of metals, band theory, semiconductors, dielectrics, and magnetic materials.
ECE 425 - Digital Signal Processing  
Credits, 3 sem. hrs. Prerequisite(s): ECE 330.  
Sampling, quantization, D/A and A/D converters, discrete-time systems, convolution, z-transforms, transfer functions, digital filter realizations and design, DFT and FFT algorithms.

ECE 447 - Selected Topics in Electrical Engineering  
Credits, 3 sem. hrs. Prerequisite(s): Instructor's consent.  
A course offering formal study of selected topics in electrical engineering.

ECE 451 - Senior Design I  
Credits, 2 sem. hrs. Prerequisite(s): ECE 315, ECE 320, ECE 326 and senior standing.  
First part of a capstone course in electrical engineering design. Lectures on the design process, application of design tools, professional skills, and ethics. Students work in groups to define a design project and its requirements, develop a design plan, and present the plan to the faculty at the end of the semester.

ECE 452 - Senior Design II  
Credits, 2 sem. hrs. Prerequisite(s): ECE 451.  
Second part of a capstone course in electrical engineering design. Lectures on the design process, application of design tools, professional skills, and ethics. Design plans formulated in ECE 451 are implemented and a formal report is prepared, presented, and evaluated.

History and Purpose
Mississippi College was authorized to offer work leading to a graduate degree in 1950, and courses were offered on a systematized basis for the first time in the summer of 1950. Enrollment growth in this area, as well as increased enrollments in the undergraduate areas, led to a reorganization of the academic structure, in which departments were assigned to divisions with a chair for each division. At that time (1961) the Division of Graduate Studies came into being.

In 1975, the Division was elevated to the Graduate School. The School is administered by the Dean of Graduate Studies who serves as chairman of the Graduate Council, the decision-making body concerning programs, courses, faculty, and matters related to graduate work. The Council consists of the deans and select chairs of the departments and schools which offer undergraduate as well as graduate courses.

Mission Statement
The mission of the Graduate School is to promote and support quality graduate education within academic departments. The Graduate School in cooperation with the Graduate Council establishes policies and procedures which support quality research, scholarly activities, and advanced learning techniques among departments which offer graduate degrees. The Graduate School shares mutual responsibilities with departments to prepare students to conduct research, to produce creative work, to develop analytical skills and to perform successfully in their chosen professions.

Accreditation
Accreditation is an important assurance to the university student. Mississippi College is accredited by The Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, education specialists degrees, the education doctorate and the first professional degree in law. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Mississippi College. Accreditation by The American Chemical Society, The American Council on Teacher Education, The Association of Collegiate Business Schools and Programs, The National Association of Schools of Music, The National Council for Accreditation of Teacher Education, and The National League for Nursing testifies not only to the quality, but also to the variety of the University's instructional program. The Mississippi College School of Law is accredited by the American Bar Association and the Association of American Law Schools.
The Graduate Faculty

Meeting Needs of Students

Members of the Mississippi College faculty hold graduate degrees from more than thirty different doctorate-granting institutions. Many have had practical experience in their areas of expertise and offer to classroom students both education and experience that provide maximum benefit to each enrollee.

Flexibility and accommodation represent hallmarks of the current graduate programs at Mississippi College. Our night classes enable a student to earn an entire degree by taking only night or summer courses. Our summer sessions are constantly adjusted to meet the needs of our student clients. Abbreviated courses of one to two weeks are offered in the summer, and several workshops are scheduled each summer session. We currently offer off-campus courses for students where student demand justifies such offerings. Curriculum review is constantly underway in order to meet the changing interests and requirements of our graduate students. A key commitment to the graduate school at Mississippi College is to make education "within your reach" from the standpoint of both price and course offerings.

The School of Law

Mississippi College School of Law began as a dream of the late Dr. D. M. Nelson who served as president of the university from the depression years until 1957. During his tenure, Mississippi College moved from a struggling all-male, liberal arts institution to a strong, co-educational university that would serve as the foundation for a university system. By the early 1950s, Dr. Nelson was already predicting that the university would one day boast of a law school located near the state capitol.

It was not until 1969, however, that Dr. Nelson's prophecy moved closer to reality when Mississippi College and others independent of the university undertook a study as to the feasibility of establishing a quality law school in the central part of the state. Those studies led to the conclusion that an accredited law school was needed in the state capital of Mississippi, and Mississippi College was the logical institution to undertake the task of establishing one.

In the fall of 1975, the law school officially opened its doors, with the convening of its first classes on the main campus in Clinton. A number of outstanding practitioners and leaders of the state bar were recruited to serve as faculty, and the school immediately began the task of obtaining ABA approval. Within five years, the goal of obtaining accreditation had been reached and the school moved into its permanent facility located in the center of downtown Jackson.

The development of the law school since 1980 has been remarkable. Achievement of accreditation and membership in the Association of American Law Schools made possible the expansion of both faculty and student recruitment to a national scale, thus moving the school toward its goal of building a strong, regional law school. As a result, the school now has a well-recognized faculty that reflects a rich diversity in both professional and educational backgrounds, many of whom have national reputations in their specialties. The student body is equally diverse and is drawn primarily from the southeastern United States.

The law school's success has been reflected in state and regional recognition it has received through its law review, outstanding performances by its appellate and trial teams, student participation in inter-law school organizations, graduate placement in prestigious positions, and selections of its graduates for judicial and political positions.

Admission to the School of Law

The faculty of the law school annually sets the admissions standards for the Doctor of Jurisprudence program. These standards are based primarily on the undergraduate grade point average, the LSAT score, and personal or academic achievements and honors. As a general rule, the bachelor's degree from a regionally accredited four-year college or university is a prerequisite for admission. However, a limited number of Mississippi College students who have demonstrated exceptional academic ability, may combine undergraduate work with law school work to receive in six years a bachelor's degree and the Doctor of Jurisprudence degree. These students are permitted to spend the senior undergraduate year as full-time law students accumulating credit toward the undergraduate and law degrees simultaneously. At the end of the first
year of successful law study, the undergraduate degree may be awarded. A student desiring such an arrangement should consult with the Vice President for Academic Affairs. A law student may also participate in Mississippi College's JD/MBA program and earn both degrees.

In order for an applicant's candidacy to be considered by the Admissions Committee, the individual's admissions file must be complete. A completed file consists of the following:

A completed application form normally completed online through the Law School Admission Service (LSAC).

An LSAT/LSDAS report-every applicant must take the Law School Admission Test (LSAT) and register with Law School Data Assembly Service (LSDAS) prior to being considered for admission.

An LSAT score obtained more than three years before application is made to law school will not be considered.

LSDAS is a transcript evaluation service. For information applicants should write to:

LSAC/LSAS
Educational Testing Service
P. O. Box 400
Newtown, PA 18940-0998
LSAC.org

Letters of recommendation are optional but are encouraged. It is preferred that letters of recommendation be submitted by individuals who are familiar with a candidate's academic ability, and they be mailed directly to the law school's Admissions Office or received through LSDAS Letter of Recommendation Service. If you choose to use the Letter of Recommendation Service included in your LSDAS Registration, follow the directions for submitting letters outlined in the LSAT/LSDAS Registration and Information Book.

Requirements are subject to change without notice.

Applications are received from September 1 of the year preceding entry until July 1 prior to fall registration or until the class closes. Candidates are encouraged to submit their applications and complete their files as early as possible. When an applicant is accepted, a $250 deposit must be received by April 1 or within two weeks of receipt of notification of acceptance, whichever is later. However, in order to assure a place in the entering class, the applicant may send the deposit any time after acceptance. A second deposit of $350 must be received by June 1. Upon enrollment, both nonrefundable deposits are credited to the applicant's tuition. For additional information see the Law School website at www.law.mc.edu.

Several schools at Mississippi College have a 3/3 arrangement with the law school that will allow students to be admitted to the law school early and have their first year of law school count for their senior undergraduate year. Check with your department to determine if you are eligible to participate.

History of Mississippi College

Chronicling our Distinguished Past

Mississippi College traces its roots back to 1826 when the institution was chartered by the state Legislature as Hampstead Academy. The same year, America celebrated its 50th birthday and John Quincy Adams served as president of a growing nation with a little more than 9.6 million people. Mississippi College remains the oldest institution of higher learning in the Magnolia State.

Situated on five acres near Mount Salus in Central Mississippi, the new school was renamed Mississippi Academy and began offering classes for boys and girls in January 1827. Back when tracts of land sold for $1.25 per acre, the academy was located on a tiny piece of the 6 million acres of property in Central Mississippi transferred from the Choctaw Indian nation to the American government. That treaty was signed in 1820. Three years earlier, in 1817, the state of Mississippi joined the United States.

Rhetoric was among the subjects taught to the first group of students at Mississippi Academy when the school house opened. The initial campus building in a small town that later became Clinton was large enough to accommodate 150 to 200 students. Known as the "academic edifice" for decades, the school's first building contained four "handsome" rooms, each with two fireplaces. To the west of it stood a second building with a beautiful chapel added just to the east of it in 1860.

The academy was renamed Mississippi College in 1830 and was authorized "to confer...such degrees in the arts, sciences and languages as are usually conferred in the most respectable colleges in the United States..."

A private institution, Mississippi College was coeducational and in December 1831 made history as the first college in the nation to grant a degree to a woman. Gold medallions were presented to the first group of female graduates.

There were other historic firsts for the college in the years to come. In 1842, the college was given to the Presbyterian Church, which later encountered financial straits and to its original owners in 1850. That same year, the Mississippi Baptist Convention obtained the college that today remains the second oldest Baptist institution in America.

Among other noteworthy dates in Mississippi College history: the school's Female Department was discontinued in 1850, but in 1853 a Central Female Institute, later renamed Hillman College, was launched for women in Clinton.

Soon, cannons were fired in places like Vicksburg, Mississippi and Gettysburg, Pennsylvania with the Civil War shattering the fabric of American life. As North battled South in bloody skirmishes, the war nearly decimated schools like Mississippi College.

The tumultuous times brought by the Civil War represented defining and often tragic moments in the history of Mississippi College. A large group of MC students, three faculty members, a trustee, and townspeople in Clinton organized the Mississippi College Rifles. The company boarded a train for Corinth and a lengthy series of Civil War battles, primarily in northern Virginia, but few returned home alive. The college kept its doors open during the war years with an average enrollment of about 30 students.

Amid the deadly Civil War struggles, portions of the Mississippi College campus served other purposes. Soon after it opened in 1860, Provine Chapel was utilized as a hospital by Northern U.S. General Ulysses S. Grant and his wounded Civil War troops. Others believe the ground floor of the two-story building was also used as a stable for his horses. A cherished campus landmark today, Provine Chapel remains the oldest building on...
the Clinton campus. It is the setting for Christmas concerts by the Mississippi College Singers, the headquarters of classrooms and offices for the Department of Christian Studies & Philosophy and a wonderful venue for Southern family weddings year-round.

Despite its endowment being wiped out, many of its students leaving to fight in the Civil War, and its physical plant badly deteriorating, MC experienced a post-war resurgence. Leaders like President Walter Hillman helped save Mississippi College and did so with a modest salary of $1,000 per-year.

Administrations of Mississippi College Presidents like Drs. Warren Webb, W.T. Lowery and J.W. Provine energized a fruitful period with new buildings, the redevelopment of the school endowment, and enrollment growth.

Enrollment climbed to 400 students during the Provine presidency and the endowment grew to more than $500,000. Mississippi College landmarks like Jennings Hall opened in 1907, and it was considered among the most elegant residence halls in the South. It was heated with steam, and students bragged about having an electric light in every room! The dormitory provided meals in a well-furnished dining hall. Today, Jennings remains a splendid headquarters for faculty offices, classrooms and houses delightful fountains in its renovated courtyard.

After the Roaring 20s, there were enormous financial challenges facing Mississippi College, all of American higher education and the business world. Shaking America's foundations, and creating widespread poverty for millions of people in big cities and small towns, Mississippi College survived the ravages of the Great Depression that began in 1929 and lingered for well over a decade. Mississippi College students at times made tuition payments with a wagonload of potatoes. Gifts of land, houses, and other resources were welcomed, along with cash at the Baptist school. It was the same way during the difficult years of Reconstruction. Despite adversity Hillman College prospered in the late 1920s, with two brick cottages built for a dozen female students and a faculty member on the Clinton campus. The good times didn't last with Hillman consolidating with Mississippi College in 1942.

Combined with the influx of women was a post-World War II enrollment boom with many G.I. vets returning from overseas battles to receive a college education in Clinton, Mississippi.

While the Hillman campus no longer exists today other than a marker at a Clinton park, many notable MC buildings are alive and well in the early 21st Century. Constructed in 1925, multi-purpose facilities like Alumni Hall are still going strong in 2013. Alumni Hall includes an indoor water fitness pool, student gathering spots with large flat-screen TVs, a basketball court, coffee shop, conference rooms for the Board of Trustees and a student counseling center. Longtime college dormitories like Chrestman Hall and Ratliff Hall continue to receive extensive use. The Leland Speed Library, Self Hall, home of the School of Business, and Aven Hall, home of musical and theater productions, have undergone extensive renovations.

Mississippi College's administrative home and auditorium that was built in 1948, Nelson Hall continues to be a cornerstone of the Christian university. Buildings in downtown Jackson that serve as the home of the university's School of Law (purchased in 1975) also take a prominent place in Mississippi College history books. The construction of Cockroft Hall, home of the School of Nursing, the A.E. Wood Coliseum, the university's basketball arena, and setting for today's graduation ceremonies, and the list goes on.

From new buildings to new academic programs, from successful fund drives to the hiring of award-winning faculty and the latest computer technology purchases, Mississippi College has experienced tremendous advances under its presidents in the modern era. Presidents D.M. Nelson, R.A. McLemore, Lewis Nobles, Howell Todd and now Lee Royce can all point to accomplishments.
Under the guidance of its leaders at Nelson Hall, a caring faculty and staff, and enriched by God's many blessings, Mississippi College has emerged from humble beginnings to become as one of the South's premier Christian universities, with a bright future still to come.

Dr. Todd's administration was committed to preparing Mississippi College for the 21st century. As part of that mission, Dr. Todd targeted a number of physical improvements to maintain and replicate the architectural character of the Mississippi College campus. Renovations and remodeling of Latimer-Webb, Mary Nelson, and Whittington residence halls were completed. Nelson Hall and Alumni Hall were renovated. Self, Farr, and Aven halls also received renovations. In addition to renovations, the Foreign Language Learning Center, a multimedia language lab, was added to Jennings Hall, and state-of-the-art soundproof music practice rooms were installed in Aven Hall. New construction included men's and women's residence halls, a 106,000 square foot health facility, and a math, computer science and chemistry complex. A campus-wide computer network, MCNET, was installed to offer access to the Internet and act as a communication link for all administration, faculty, staff and students. In 2002, MC successfully completed a $100 million capital campaign entitled "New Dawn" launched in 1996, the largest campaign in the school's history. Through these physical, financial and technological advances, Mississippi College can continue its legacy of academic excellence and Christian witness while offering the best of the total university experience.

In June 2001, Dr. Howell Todd retired as president of the university after serving seven years. The Board of Trustees named Dr. Lloyd Roberts, vice president for business affairs and professor of management, to serve as Interim President from July 2001 until June 30, 2002. Dr. Lee G. Royce became the 19th president of Mississippi College on July 1, 2002.

Mississippi College has seen steady enrollment growth, revitalized its facilities, and welcomed extraordinary levels of gift giving under President Royce. Enrollment has climbed to nearly 5,300 students, while the main campus in Clinton, and School of Law in downtown Jackson have been undergoing a building boom under Dr. Royce's leadership the past ten years. A successful "Growing the vision" campaign to boost student scholarships, the university's endowment, enhance facilities and strengthen academic programs raised $87.4 million when it concluded in Fall 2011. It began as a $65 million drive in 2006, but school trustees raised the goal to $80 million, despite a weak USA economy.

Mississippi College's rapid growth accelerated upon Dr. Royce's arrival in July 2002 after serving as president of Anderson University in South Carolina. MC's enrollment has climbed steadily from the 3,227 students enrolled when he took office as the Christian university's leader. International student enrollment has boomed to nearly 300 students from 30 nations, up from the nine students when Royce began his administration. A new Flowood Center catering to working adults in metro Jackson opened its doors in August 2010, and has been a convenient way for them to work on degrees during evening hours in Rankin County near the Dogwood Festival Mall.

MC's academic growth has also seen the arrival of stellar new programs. The Physician Assistant program is the only one of its type in the Magnolia State. The two and one-half year master's program will train professionals to work under the supervision of physicians. The program is based at newly renovated facilities in the Baptist Healthplex and works closely with the University of Mississippi Medical Center, federal clinics and hospitals in the region. The P.A. program will produce professionals who will play critical roles in easing the state's medical shortages in underserved areas of the state and nation. New doctoral programs in educational leadership and counseling are also adding new students. Mississippi College made history by awarding its first educational leadership doctorate in August 2011 to a Jackson elementary school principal.

Mississippi College's extensive list of building projects includes a new front entrance to Robinson-Hale Stadium, a new soccer complex, and baseball facility. New athletic facilities will help as MC transitions to NCAA Division II athletics and returned to the Birmingham-based Gulf South Conference in Fall 2014.
Adding to the building renaissance: a three-story parking garage, a prayer garden outside Alumni Hall, and a bookstore next-door to Pimento's café in Olde Town Clinton. Overlooking MC's hometown on a hilltop, sits the Phillips House, a new residence for the MC president. A generous lead gift from MC Foundation Board President and university trustee Dr. Don Phillips and his wife, Sue, made construction possible. The four-bedroom residence will be extensively used to entertain Mississippi College faculty, staff, students, alumni and other guests. The new medical sciences building opened in January 2013 and includes classrooms, a cadaver lab and the latest research facilities. Other major improvements include the addition of the East Campus, formerly the old Clinton Junior High property, and a makeover for Self Hall, home of the MC School of Business. New residence halls with apartment-style units with 188 beds will attract students, who will move in on the East Campus by August 2015.

The Mississippi College community has enjoyed welcoming an all-star lineup of prominent national speakers for its spring scholarship dinners. Speakers have included award-winning physician and author Dr. Benjamin Carson in 2014, former Florida Gov. Jeb Bush in 2013 and former U.S. Secretary of State Condoleezza Rice in April 2012. MC's signature event has raised more than $2 million for student scholarships since 2008. National recognition has come to the Baptist-affiliated university in other ways. "U.S. News & World Report" ranked MC 4th among the South's regional universities in the "Great Schools, Great Prices" category in September 2014. MC ranked 8th in a survey of America's 50 most affordable Christian colleges by Christian Universities Online.

In his 13th year as Mississippi College president, Dr. Royce continues to make progress on goals outlined in the institution's vision statement "To be recognized as a university known for academic excellence and commitment to the cause of Christ."
