

Impact on P-12 Student Learning and Development – 2020-Current

The following data provides information concerning learning outcomes of students in Mississippi Public Schools who were taught by recent teacher education graduates of Mississippi Christian University (MC) during three academic school years; 2020-2021, 2021-2022, 2022-2023. The data from teacher education graduates from MC are compared with data from all Mississippi public school students, and Mississippi public school students taught by graduates from other Educator Preparation Programs (EPP) throughout the state during the same years.

These tables are taken from the 2025 Annual Impact Report Cards for Teacher Education and Leadership Programs. This data are compiled and analyzed through a partnership between MC, the Mississippi Department of Education, and The National Strategic Planning & Analysis Research Center (NSPARC) at Mississippi State University. Due to a two-year delay in reporting, the most recent data available is from 2023-2024.

The scores highlighted in gold represent traditional and alternate route graduates whose students scored above the average proficiency scores of all teachers statewide and other EPPs within the state. The scores highlighted in blue represent traditional and alternate route graduates whose students scored above the average proficiency of other EPPs within the state. The scores highlighted in gray represent traditional and alternate route graduates whose students scored above the average proficiency of all teachers statewide. The data indicate that MC graduates are performing very well when compared to other teachers within our state.

*If * appears in the institution EPP Total section, no program completer taught in this grade level or subject area.

*The Statewide All Teachers section includes traditional and alternate route teachers.

Gold highlight indicates the MC Teacher Education & Leadership traditional program graduates have an average proficiency score above both the average proficiency score of all teachers statewide and other Educator Preparation Programs (EPP).

Blue highlight indicates the MC Teacher Education & Leadership traditional program graduates have an average proficiency score above the average proficiency score of other Educator Preparation Program (EPP) completers.

Gray highlight indicates the MC Teacher Education & Leadership traditional program graduates have an average proficiency score above the average proficiency score of all teachers statewide.
