

Impact on P 12 Student Learning and Development

Academic Reporting Period: 2020–2021 through 2022–2023 (AY 2023–2024 Data)

Executive Summary & Methodology: The following data provides information concerning learning outcomes of students in Mississippi Public Schools who were taught by recent teacher education graduates of Mississippi Christian University (MC) during three academic school years: 2020–2021, 2021–2022, and 2022–2023. Data from MC teacher education graduates are compared with data from all Mississippi public school students, as well as students taught by graduates from other Educator Preparation Programs (EPP) statewide.

These tables are sourced from the *2025 Annual Impact Report Cards for Teacher Education and Leadership Programs*, compiled through a partnership between MC, the Mississippi Department of Education, and The National Strategic Planning & Analysis Research Center (NSPARC) at Mississippi State University. Due to a standard two-year reporting delay, the most recent available outcome data reflects AY 2023–2024.

Report Findings & Summary:

The data indicates that Mississippi Christian University (MC) teacher education and leadership program graduates consistently perform exceptionally well across the state. Across multiple grade levels and critical subject areas—including elementary mathematics, secondary algebra, and science—MC graduates routinely exceed both statewide averages and overall EPP completer benchmark scores.

PERFORMANCE BENCHMARK KEY (ADA COMPLIANT INDICATORS) **Exceeds Both:** Above Statewide All & EPP **Exceeds EPP:** Above Statewide EPP Avg **Exceeds State:** Above MS State Avg**1. Traditional Route — 1st Year Teachers**
