[A Taste of Justice with Professor Kupenda – YouTube](https://www.youtube.com/channel/UCfYGyl1mcKUT1iWC4WabCKg)

<https://www.youtube.com/channel/UCfYGyl1mcKUT1iWC4WabCKg>

Started in August 2020, my YouTube series is designed for those who seek the promises of the Preamble of the Constitution to establish more Justice in our society. This series provides: (1) a taste of justice with learning about the Constitution for the broader community; (2) for law students enrolled in my current remote classes opportunities for supplemental engagement on the topics we are covering; (3) for those thinking about attending law school or who just want to learn more about the law during these times insights to better discuss (debate) and build with others. I seek to help my students take a soak in the law, and not just a quick shower in the law, and to bring all my viewers a Taste of Justice by sharing a little taste of Constitutional Law and a little taste from my other course Civil Rights Lawsuits (42 U.S.C. sec. 1983) (courses I am teaching fall 2020). I hope to eventually add other courses to stimulate informed engagement.

STUDENT PUBLICATIONS, PRESENTATIONS, and WRITING COMPETITION HONORS

NOTE: It can be very unusual in legal education for law students to co-author with a professor, make academic presentations, publish their own papers, and win student writing competitions. This also rarely happens when the students are not white, or are not in the top 10% of the class or on law review.

Fortunately, my experiences with my students have been different. I have had many of the students I mentor and advise to publish, present and win competitions. Some of these students are in the top 10% of the class or are on law review; however, many are not. They are diverse racially and in many other ways, too. Many are first generation lawyers to be. And, some are first generation college graduates. All are exceptionally committed lawyers and lawyers-to-be and energetic scholars.

Listed below are:

- Student Writing Competition Wins, papers originated in seminars I taught or work I advised
- Student Publications of work that originated in seminars I taught, or papers I advised
- Co-Presentations with and Presentations of students and former students that I advised
